Part#: 530FE-US

Pliers - Cut & Bend -- Carbon Steel - Bender

Designed to cut at a predetermined uniform lead length and bend the lead

The 530FE-US 5" shear cutter/bender is designed to cut at a predetermined uniform lead length and bend the lead at the same time. This enables components to stay in position on the PC board while soldering. It is for use on .025" or smaller lead wires. It features an ergonomically molded antimicrobial Anti-Static grip (10¹⁰ ohms/sq surface resistivity) with dual leaf springs.
