

JE FOAM CORE FIBERGLASS POLES

PREFERRED FOR AERIAL CONSTRUCTION AND LINE CLEARANCE

Jameson JE Series Fiberglass Base Poles have a solid foam core and are 2-1/2 times stronger than wood. The foam core prevents the buildup of debris and moisture inside of the pole which compromises the electrical protection of the pole.

- Polymer protective surface veil prevents fiber blooming at surface due to abrasion or ultra-violet light
- JE Series consist of a limb & wire raiser, 4, 6, 8, 10, or 12 ft extension pole, and a 1 and 6 ft base pole
- Extension poles are equipped with a male ferrule on one end and a female ferrule on the opposite end
- High visibility safety yellow color
- .110" Wall Thickness, 1.25" Pole Diameter, 2.6 lbs. (Based on 6' extension pole)

Individually tested to 100KV per foot for five minutes.

Not A "Hot Stick" - Not For Use On Energized Lines

Pole Length	1'	4'	6'	8'	10'	12'
Base	JE-1F	JE-4F	JE-6F	JE-8F	JE-10F	JE-12F
Extension	N/A	JE-4	JE-6	JE-8	JE-10	JE-12
Saw Head	N/A	JE-4SFP	JE-6SFP	JE-8SFP	JE-10SFP	JE-12SFP
Pole Kit	N/A	JE-6/3	One 3' Extension Pole & Three 6' Extension Poles			
Pole Kit	N/A	JE-6/4	Four 6' Extension Poles			

For highest performance and safety, Jameson recommends using a Base Pole when using one pole or starting with a Base Pole when working with multiple poles.
