Green Premium™

More than 75% of our product sales offer superior transparency on the material content, regulatory information and environmental impact of our products:

- RoHS compliance
- REACh substance information
- Industry leading # of PEP's*
- Circularity instructions

*PEP: Product Environmental Profile (i.e. Environmental Product Declaration)

Discover what we mean by green!
Check your products!

Scan or click

The Green Premium program stands for our commitment to deliver customer-valued sustainable performance. It has been upgraded with recognized environmental claims and extended to cover all offers including products, services and solutions.

CO₂ and P&L impact through... resource performance

Green Premium brings improved resource efficiency throughout an asset's lifecycle. This includes efficient use of energy and natural resources, along with the minimization of CO₂ emissions.

Cost of ownership optimization through... circular performance

We're helping our customers optimize the total cost of ownership of their assets. To do this, we provide IoT-enabled solutions, as well as upgrade, repair, retrofit, and remanufacture services.

Peace of mind through... health performance

Green Premium products are RoHS and REACh compliant. We're going beyond regulatory compliance with step-by-step substitution of certain materials and substances from our products.

Improved sales through... differentiation

Green Premium delivers strong value propositions through third-party labels and services. By collaborating with third-party organizations we can support our customers in meeting their sustainability goals such as green-building certifications.

How to define an enclosure solution?

Invariables

Switchgear and Controlgear are the cornerstone of any electrical system - in industry, infrastructure, building, energy, transport or any other segment. The correct enclosure and thermal management selection is crucial to guarantee the targeted performance. Safeguards of equipment installed inside ensure service continuity.

Correct selection of enclosure and thermal solution

Many influences must be considered when defining an enclosure system.

Three groups may be distinguished:

- Protection (equipment and people)
- Thermal management
- Solution profitability

Ambient conditions and enclosure

The table below is only indicative and not binding. It shows, in a general concept, the optimized performance of the ranges of Universal Enclosures according to the ambient conditions, taking into account technical and commercial criteria:

- Highly recommended
- Recommended
- Not suitable

Ambient condition	Enclosure material						
	Steel	Steel Heavy-Duty	Stainless-steel 304L	Stainless-steel 316L	Stainless-steel 316L Paint	Polyester	Polyester Heavy-Duty
Indoor clean environment ⁽¹⁾	■■■	■	■	■	■	■	■

⁽¹⁾ Not considering F&B process

⁽²⁾ e.g. F&B process

⁽³⁾ Always using ClimaSys solutions

⁽⁴⁾ Marine solar plants

Thermal management

The thermal management system must ensure the temperature and humidity controlled inside the enclosure.

The correct solution must be based on a robust process starting with the diagnosis of the ambient conditions, going to the parameters calculations and defining the best architecture (enclosures + equipment installed + thermal solution).

ClimaSys is the definitive solution based on ClimaSys DT/EffiClima/ProClima.

Universal Enclosures

Our ranges, solutions for each application

Spacial

Metal enclosures and boxes

From our small boxes to large suitable floor-standing enclosures, the range of Spacial products offers the perfect fit for your applications. Our extensive range of easy-to-use accessories helps you save time during your projects. Select between steel or stainless-steel to better suit the installation environment. Our stainless-steel products represent the optimal solution where cleanliness is required, or for highly corrosive environments.

Thalassa

Insulated enclosures

Operating the equipment under adverse ambient conditions may expose your installation to chemical or aggressive substances. Our Thalassa range, from boxes to floor-standing enclosures, has been developed to efficiently protect your equipment. The products are made of fiberglass-reinforced polyester to resist harsh conditions and outdoor use. The Thalassa industrial boxes in ABS or polycarbonate are strong, easy to install and designed to be used in highly demanding environments.

ClimaSys

Thermal management

Maintaining the right temperature inside your enclosure is vital for maximising the lifetime of your installed devices. Our ClimaSys range offers you the right solution: airing, cooling or heating, including control units for temperature, humidity and many other parameters.

Industry and Infrastructure Offer

A material for every environment

Steel

Indoor non-clean industrial environment

The industrial environment in mechanical plants is especially demanding as regards the protection of electric and electronic components against dust, splashing with oil and impacts. Such ambient conditions require a range that is suited to the application and easy to implement.

- Standard range for industrial applications.
- E.M.C. just available for WM (S3HF)
- Range of ATEX enclosures, for potentially explosive atmospheres.

Solution:

The Spacial range in steel
(wall-mounted, monobloc and suitable floor-standing enclosures).

304L - 316L stainless-steel

Demanding industrial environment

Food and beverage, pharmaceutical, petrochemical and infrastructure industries are particularly demanding in terms of hygiene and resistance to corrosion. Our products are available with two grades of stainless-steel:

- 304L stainless-steel:
Corrosion resistance and cleanability
(often used in food production).
- 316L stainless-steel: Also known as "marine stainless-steel".
Very high resistance to corrosion (saline or chlorinated environment).

Solution:

The Spacial range in stainless-steel
(wall-mounted, monobloc and suitable floor-standing enclosures).

Insulated polyester and plastic materials (ABS, polycarbonate)

Infrastructures and industrial environments

Outdoor infrastructures and electrical installations are exposed to direct sunlight, rain, saline mist, extreme temperatures, oil splashes, chemical and corrosive agents.

- Standard range for industry and infrastructures.

Solution:

The Thalassa range
(boxes, wall-mounted and floor-standing enclosures).

Heavy-Duty materials

Severe outdoor environments, generally requested by OEMs, the telecommunication, water treatment and transportation industry

Heavy-Duty polyester units are suitable for outdoor public areas thanks to its multiple benefits:

- Resistant against pressure and shock (IEC 61439-5: 2010),
 - Door with ribbed surface against posting,
 - Insulated (prepared for Class II according to IEC 61439-1: 2011).
- Heavy-Duty steel enclosures are designed for outdoor private areas:
- Resistant against aggressive environments (anti-corrosion certification class C4H, ISO 12944:2018).

Solution:

The Thalassa PHD and Spacial S3HD and SFHD ranges
(wall-mounted and floor-standing).

Selection Tools

www.se.com

Our web site allows you to access all Schneider Electric products with just two clicks with direct links to:

- A complete library of technical documents, catalogues, FAQs brochures, etc.
- Certificates.
- 2D and 3D drawings.
- Selection Guides from the e-catalogue.
- Product discovery sites.

You may also find illustrated overviews, news to which you can subscribe, a list of contacts in your country and other useful information.

Digital Offer

ProClima

Find the best thermal solution for your enclosure

Select and calculate your thermal management requirements according to the environment and the electrical/electronic devices installed in the enclosure.

Digital Rules

Find the accessories that suit your enclosure

The digital rules allow you to select the best components from the current product range. There will be no risk of mistake since product and accessory selection take place automatically, saving you time and money.

⁽⁵⁾ Flange openings of type E require two NSYTSACRNC.

⁽⁶⁾ Ref. NSYEMR mandatory.

⁽⁷⁾ Order NSYAMCSF, NSYMDVR12 in steel.

Not compatible with double mounting plate.

Metal junction boxes	36
----------------------	----

Spacial SBM

Introduction	38
Characteristics	39
Spacial SBM overview	40
Fixing accessories	42

Dimensions

Dimensions	45
------------	----

Metal junction boxes

- PVC sealing gasket for sizes up to 20/15 and a rubber gasket for sizes > 25/20.
- Back ready for threaded drill holes for fixing equipment. From size 15/10 and up, there are four M4 threaded holes fitted with removable plugs for direct fixing of the mounting plate.
- With low cover.
- The SDB series consists of 2 basic models:
- Without knock-outs: **NSYDB●●●●**
- With knock-outs: **NSYDB●●●●M**
- Material: Sheet steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529
- Mechanical protection rating: IK07 according to IEC 62262
- Installation: Indoor installation: Direct wall-mounted by means of drill holes fitted with plastic plugs to ensure sealing compliant with IEC 62208 regarding type tests specified in §9.12 (resistance to ultra-violet (UV) radiation) and §9.13 (resistance to corrosion).

Simplicity, ergonomics and versatility, it's all in the box.

Modularity

- 28 sizes available.

Easy installation

- Direct mounting through the rear.
- Mounting with versatile external lugs.

Added value to your work

- Quality and aesthetics.

Sturdy and good ingress protection

- Mechanical protection rating up to IK10.
- Ingress protection rating up to IP66.

Ergonomics

- Cover opening and accessory mounting with just a screwdriver.

Characteristics	Spacial SBM - Flat box with plain cover
Box body	Single-piece body (cross-shaped structure). Front design incorporating folded gutters. Flat rear. 2 (or 3 profiles for width 800 (31.50) mm (in.)) drilled profiles for installing mounting plates and DIN rails, with mounting centers of 125 (4.92) mm (in.).
Box cover	Equipped with 4 or 6 half-turn thread screws, according to the version (6 screws for width greater than 400 (15.75) mm (in.)) to ensure maximum watertightness. Polyurethane sealing gasket.
Protection of personnel	Ground connection mandatory for all boxes: Spacial SBM steel boxes are equipped with a M6 x 16 ground stud welded in the cover, to be linked with the body for equipotential connection. Grounding strap to be ordered separately (Ø 6,4 (0.25) mm (in.) terminal).
Material	Sheet steel
Finish	Structured finish, epoxy polyester powder
Color	RAL 7035 grey
Ingress protection rating	<ul style="list-style-type: none"> • IP66 according to IEC 60529 • Type 4, 4X according to UL 50, 50E
Mechanical protection rating	IK10 according to IEC 62262
Standard	Compliance with enclosure standard IEC 62208 and the RoHS directive
Certifications (see page 506)	<ul style="list-style-type: none"> • UL, BV, LR, DNV-GL • Fire class: M0 (EN 13501-1)
Indoor installation	Direct wall-mounted (4 x Ø 10 (0.39) mm (in.) holes) or with mounting lugs installed from the outside (to be ordered separately, see specific accessory pages).
Maximum load	Loading capacity on the body: 50 (110.23) kg (lbs.)/m ²
Vibration constraints	Specific construction of the Spacial SBM - Single-piece body (rectangular structure). The rear is flat without added parts - this ensures compliance with certain vibration constraints.
Seismic behaviour	The seismic behavior of the the industrial boxes Spacial SBM have been qualified according to MRI spectra "big material" specified in the standard IEC 60068-2-6 and IEC 60068-2-57 (see page 340 for more details). Tested enclosure configuration: <ul style="list-style-type: none"> • Plain door, • Plain mounting plate with a load of 200 (440.92) kg (lbs.)/m² uniformly distributed on the mounting plate, • Fixing to the wall with M8 screws (tightening torque: 12 Nm ± 1 Nm). Level of the seismic behavior obtained: <ul style="list-style-type: none"> • 1G for boxes with the following dimensions: <ul style="list-style-type: none"> - height = 400 (15.75) mm (in.) and width ≥ 500 (19.68) mm (in.) - height = 300 (11.81) mm (in.) and width ≥ 600 (23.62) mm (in.) - height = 200 (7.87) mm (in.) and width = 800 (31.50) mm (in.) • 3G for other dimension

Mounting plate

- Material: Galvanized steel
- Installation: Mounting by means of 2* or 4 x Ø 5 (0.20) mm (in.) self-tapping screws, Pozidriv head, ref. **NSYAMFSB**. Attachment points compatible with many other brands of accessories

Supply:

1 unit, supplied without screws

Post mounting

- Material: Zinc-plated steel
- Rail mounted externally to the rear of the box with 8 (0.32) mm (in.) screws for installation on posts with diameters between 150 (5.91) and 215 (8.46) mm (in.).
- For steel boxes with widths of 150 (5.91), 200 (7.87), 300 (11.81), 400 (15.75), 500 (19.68), 600 (23.62) and 800 (31.50) mm (in.).
- Maximum load: 100 (220.46) kg (lbs.)

Supply:

1 unit

Mounting lugs

- Wall-mounted lugs to be mounted directly on the rear of the box, either in horizontal or vertical position. Their versatile design complies with the mounting dimensions of many other enclosures.
- Ingress protection rating: IP66 according to IEC 60529
- Installation: Horizontal or vertical position, distance between wall and enclosure: 12 (0.47) mm (in.), only requires a screw driver
- Maximum load: 70 (154.32) kg (lbs.)

Supply:

4 wall-mounted lugs, screws and pre-mounted sealing gaskets

NSYAEFPFSB

Characteristics	References
Wall-mounted lugs	NSYAEFPFSB

Self-tapping screws

- Same reference for all enclosure dimensions
- Self-tapping, Pozidriv head, screws, for Ø 5 (0.20) mm (in.) holes.

Supply:

100 units

NSYAMFSB

Characteristics	References
Self-tapping screws	NSYAMFSB

Hinges

- The hinges allow the cover to be opened by more than 180°.
 - They can be installed on all covers of the range.
 - Ingress protection rating: IP66 according to IEC 60529
- Installation:**
- The box must be drilled before installing the 2 or 3 hinges on the body.
 - 3 hinges are required for boxes of width more than 500 (19.68) mm (in.)
 - A specific mark on the body helps to locate where the hole should be drilled
 - Maximum load: 30 (66.14) kg (lbs.)/m² on the hinged cover
 - Same reference for all enclosure dimensions

Supply:

Set of 6 hinges delivers with fixing hardware

NSYAEHHSB

Characteristics	References
Hinges SBM	NSYAEHHSB

Head screws

- The standard Pozidriv head screws can be replaced with the Double-bar or triangular shaped head screws, to discourage unauthorised opening of the cover with normal screwdrivers.
- Ingress protection rating: IP66 according to IEC 60529
- Installation: Simply replace the standard screw on the box
- Same reference for all enclosure dimensions

Supply:

1 unit

NSYAEBSBS

NSYAE DSTS

Characteristics	References
Double-bar shaped head 3 (0.12) mm (in.) screw	NSYAEBSBS
Triangular shaped head 6,5 (0.26) mm (in.) screw	NSYAE DSTS

Sealing kit

- The sealing kit helps to set up a lead-sealed cable of cover opening.
- Color: Green
- Ingress protection rating: IP66 according to IEC 60529
- Installation: Replaces the standard sealing washer on the box
- Same reference for all enclosure dimensions

Supply:

1 unit

NSYPPSB

Characteristics	References
Sealing kit SBM	NSYPPSB

Spacial® S3DC, CRN and CRNG

Steel enclosures

> Mounting & cabling systems

for setting up devices
and managing cabling

> Thermal management

for controlling the internal
temperature & humidity of
the enclosure

3 Material Solutions

Steel

Stainless-steel

Polyester

Time-saving & easy to equip

...with direct installation of the mounting plate.

Spacial S3DC, CRN and CRNG are designed to protect your equipment in most indoor installations with **harsh & dirty environments**, such as:

- Machines
- Manufacturing plants
- Logistics centers, etc

Whatever the installation environment, you can select the material according to your needs: steel, stainless-steel or polyester. Our enclosures share the same sizes and most of the mounting, cabling and installation accessories, to make selection and mounting simpler!

Machines

Industry

Spacial S3X

Stainless-steel enclosures

Durable & hygienic

...using highly corrosion-resistant material with a detailed finish, to reduce the risk of contamination.

Spacial S3X is commonly used in:

- **Food & beverage** and **pharmaceutical industries**, where the ability to clean hard water is required to help prevent the growth of bacteria.
- The **oil & gas** industries, for its chemical resistance.

Food & Beverage

Oil & Gas

Thalassa™ PLM

Polyester enclosures

Safety & low maintenance

...thanks to its long-lasting and insulated material construction (Class II protection level from hazard).

Thalassa PLM offers excellent performance in:

- **Outdoor applications**, such as road & train infrastructures, airports and harbors, including saline environments.
- A good choice for harsh environments where non-corrosive materials are required.

Desalinization

Airport

Spacial S3DC: The multipurpose enclosure

Automation

Network and Electronics

S3HF

You need an efficient sealed enclosure for an industrial facility with EMC constraints. Our solution: the offer for EMC environments. Enclosures suited to different EMC environments.

- IP55 water and dust tightness
- See [page 380](#).

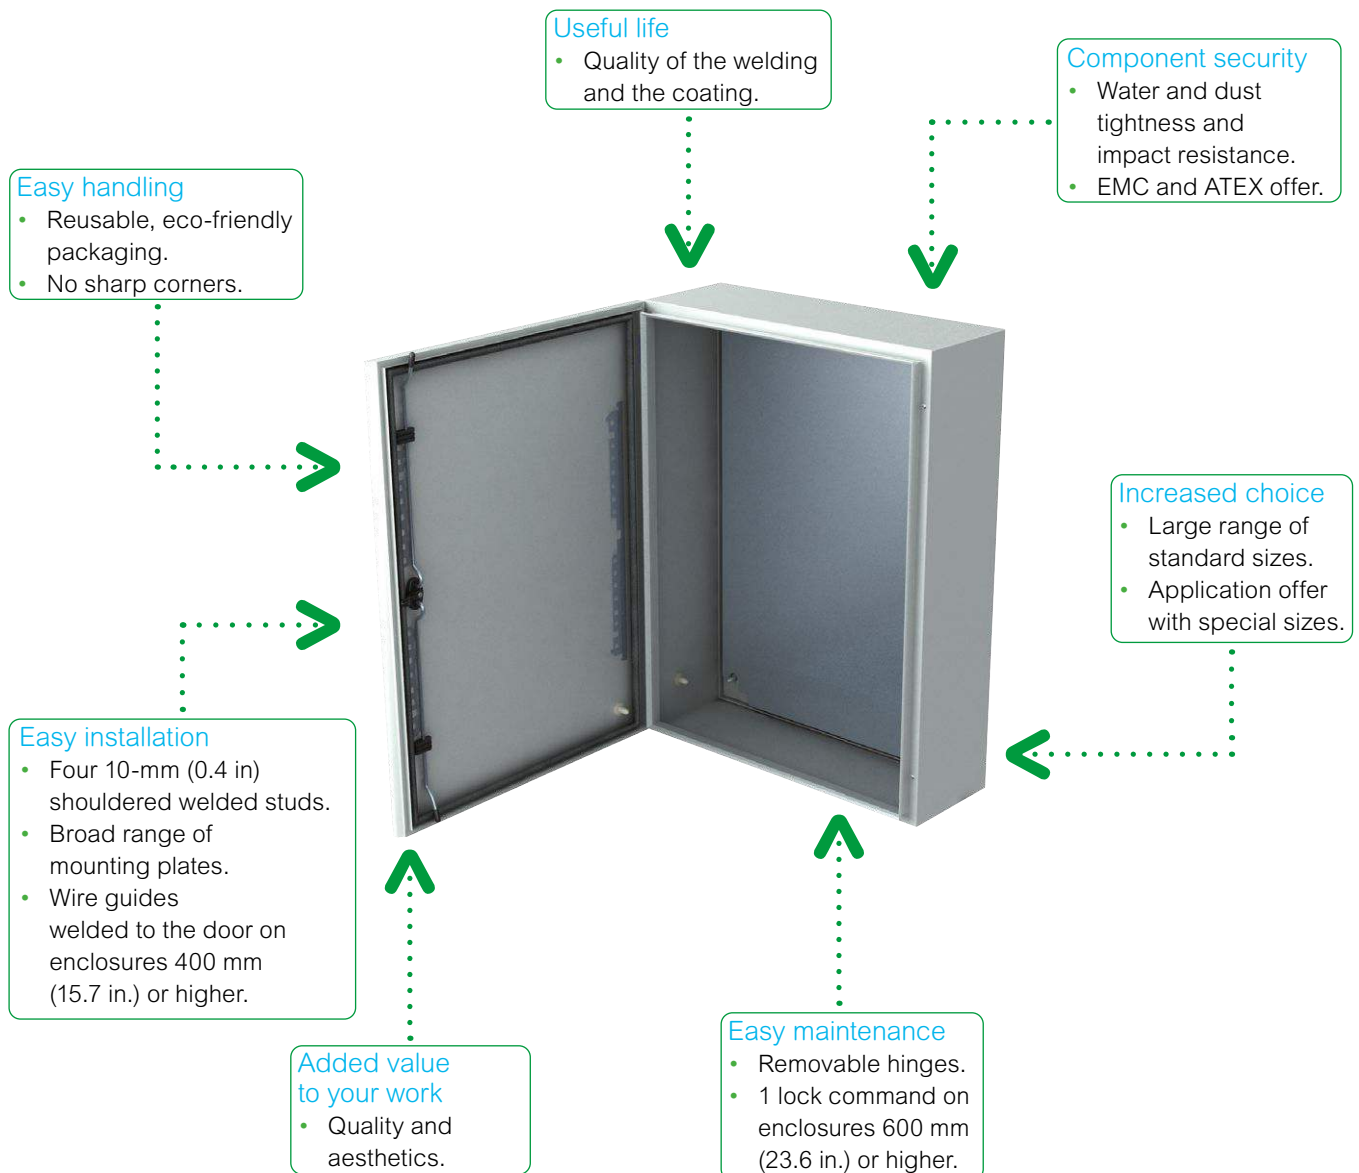

S3DC

You need an efficient, sealed multipurpose and aesthetic enclosure for an indoor industrial facility. Our solution: the Spacial S3DC universal offer.

A universal enclosure with 3-point locks and a broad range of accessories to conform to all your applications.

- NEMA 4, 4X, IP66 water and dust tightness.
- A complete offer of 30 dimensions from 300 x 200 x 150 mm (11.8 x 7.9 x 5.9 in.) to 1200 x 1000 x 300 mm (47.2 x 39.4 x 11.8 in.):
 - With plain door, without cable-gland plate
 - Resistance to mechanical impacts:
 - IK10 plain door
 - Compliance with enclosure standard EN 62208 and IEC 62208
 - A broad range of accessories to conform to all your applications
 - See the Selection Guide on [page 58](#).

⑥ Cable entries

③ Roof

⑦ Cable management

④ Viewing and grounding

⑧ Thermal management

The Spacial S3DC steel enclosure universal offer

- Enclosure with plain door.
- Structured finish, epoxy-polyester powder, RAL 7035 gray color.
See the Selection Guide on [page 58](#).

Technical characteristics

Enclosure body

- Single-piece body (cross-shaped structure).
Gutter-shaped front profile with double fold. Flat rear.
- 4 (or 6**) M8 x 25 shouldered backstuds for installing mounting plates and step slides, leaving a space of 10 mm (0.4 in.) behind them.
- M6 x 16 grounding studs for equipotential connection between the door and the body of the enclosure.
- Four direct wall-mounted drill holes [Ø 10 mm (0.4 in.)] are sealed with plugs to maintain the degree of protection. Or mount with lugs installed from the outside (lugs ordered separately, see [page 64](#)).

Enclosure door

- Wall-mounted enclosure supplied with screwdriver insert lock as standard.
- Polyurethane door gasket.
- M6 x 16 grounding studs for equipotential connection between the door and the body of the enclosure.
- Easily removable and reversible, with 20-mm (0.8 in.) return with double thickness for excellent rigidity, opening to 120°, equipped with 2 or 3 invisible hinges*.
- For heights from 600 mm (23.6 in.), three locking points with linkage, with a single control point. Simple reversal of linkage. Maximum load: 50 (110.23) kg (lbs.) /m².
- Perforated rails on the door, with pre-drilled holes with a diameter of 4.2 mm (0.2 in.) in steps of 25 mm (1.0 in.):
– 2 vertical rails from the height of 400 mm (15.7 in.),
– 2 vertical rails and 2 horizontal rails from the width of 800 mm (31.5 in.).

* From the height of 800 mm (31.5 in.).

** Widths of 1000 and 1200 mm (39.4 and 47.2 in.).

Standards

Compliance with enclosure standards IEC 62208, UL 508A.

Environmental testing to UL 50E.

The Spacial S3DC wall-mounted enclosures are compliant with the RoHS directive.

Certifications

For certification table, see [page 506](#).

3-point lock enclosure.

One action point enclosure.

Welded studs for the ground connection.

Screwdriver lock
(coin protected).

Delivered in a reusable cardboard box with assembly instructions enclosed and wall-mounting template on the cardboard.

Note:

Our certificates can be downloaded from our website.

Our empty enclosures are marked CE according to the Low-Voltage Directive (LVD). It is the responsibility of the final equipment manufacturer to respect the regulations in force.

Technical characteristics

Protection degree

- IP66 for the single-door enclosures and IP55 for the double-door enclosures, according to IEC 60529.
- UL/NEMA rated 4, 4X for the single-door enclosures and 12, 12K, 13 for the double-door enclosures according to UL 50E and NEMA 250.

Resistance to external mechanical impacts

- IK10 for the plain-door enclosures, according to IEC 62262.
- IK08 for the glazed-door enclosures.

Mechanical characteristics

Attachment of mounting hardware

- 4 (or 6**) M8 3 25 shouldered backstuds for installing mounting plates and step slides, leaving a space of 10 mm (0.4 in.) behind them.

** 6 studs for widths 1000 and 1200 mm (39.4 and 47.2 in.).

Personnel protection

Ground connection: Spacial S3DC steel enclosures are equipped with M6 x 16 grounding studs welded in the body and the door for equipotential connection. Grounding braid ordered separately (see [page 303](#)).

Closing the enclosure: enclosures of 600 mm (23.6 in.) and higher are equipped with three linked locking points, with a single control point, preventing the enclosures from being left ajar. For locks and inserts see [page 67](#).

Coating properties

Color: RAL 7035 gray; finish: structured.

Coating thickness: 60 µm.

Fire class: M0.

Resistance to corrosion: compliance with standard IEC 62208 for outdoor installation: 288 h of humid heat and 336 h of salt mist.

Note: the Spacial S3DC is specially designed for indoor installations. For outdoor installations, it is advisable to install a canopy or contact us.

Protection from nuclear contamination (NFT 30901): RAL 7035 and AFNOR A550 tests available on request.

Note:

For further information see the technical annexes on [page 506](#).

EMC protection

Standard Spacial S3DC enclosures are tested against electromagnetic interference. Since the enclosure is tested empty, it is advisable to rerun the tests with the enclosure equipped in its final configuration.

Grounding braids ordered separately, see [page 303](#).

For another EMC solution and additional information on electromagnetic compatibility, see the Spacial S3HF enclosure, [page 382](#).

Attenuation curve of the Spacial S3DC compared with the Spacial S3HF

Frequency: 3 - 13.2 Hz
 Amplitude: 1 (0.04) mm (in.)/sec below 22 Hz
 Frequency: 3 - 100 Hz
 Acceleration: 0.7 g above 30 Hz

Vibration constraints

The Spacial S3DC enclosure is constructed as a single-piece body with a crossshaped structure. The rear is flat without added parts, allowing it to comply with specific vibration constraints. The tests were conducted according to the "rules for ships" by "Det Norske Veritas." Enclosures labelled "DNV" have undergone these tests and obtained classification "A." Since the enclosure is tested empty, it is advisable to rerun the tests with the enclosure equipped in its final configuration.

ATEX compliance

The Spacial S3DC enclosure (with adaptation) is ATEX-certified by the LCIE.

Environmental properties

Compliance with RoHS standard.

Coupling Spacial steel enclosures

- Available in 2 versions:
Coupling version without cable entry.
Version with coupling frame allowing the entry of cables.
- Separation of 17 mm (0.7 in.) between 2 coupled enclosures, allowing full opening of the doors.

Coupling frame

- Allows lateral coupling of 2 enclosures.
- The frame is made of polyester charged with self-extinguishing fiberglass.
- A built-in sealing gasket helps ensure the IP66 degree of protection.
- Mounting by screws, included.
- Dimensions: 435 x 185 mm (17.1 x 7.3 in.) and 635 x 185 mm (25.0 x 7.3 in.).
- These frames allow the door to open to 120°.

Supply:
The kit consists of 4 spacers and hardware.

Installation of Telequick mounting plates

Spacers for raising the mounting plate in the enclosures equipped with 6 studs (enclosure widths ≥ 1000 mm [39.4 in]).

Reference NSYEMR

Advantages of Telequick mounting solution

- No more drawing on the mounting plate.
- No more machining of the mounting plate.

Direct mounting of equipment on nuts.

Accessories designed for cable management.

Mount your cable duct easily.

Allows accessories to be clipped on.

Wall-mounted lugs

- Set of 4 wall-mounted lugs
- Mounted directly on the rear of the enclosure, either in horizontal or vertical position.
- Available in two materials, steel and 304L stainless-steel. Can be mounted in two positions, vertical or horizontal, for a wall enclosure separation of 10 mm (0.4 in.).
- Acceptable load:
 - Horizontal lug: 180 kg (396.8 lbs).
 - Vertical lug: 350 kg (771.6 lbs).

S3DC Wall-fixing lugs for Spacial CRNG enclosures

- Material: steel

Characteristics	References

S3DC Wall-fixing lugs for Spacial CRNG enclosures

- Material: Stainless-steel

Characteristics	References
Set of 4 stainless-steel mounting lugs	NSYAEFFPFX3C

Supply:
Supplied with mounting screws and pre-mounted sealing gaskets.

S3DC Kit for heavy loads

- Kit made up of 2 steel reinforcement pieces.
- Maximum load: 400 kg (881.8 lbs).
- To be mounted before installing the mounting plate in top position with the standard lugs (ordered separately).

Characteristics	References
Kit for heavy load	NSYAEFAHLB3C

Supply:
Kit composed with 2 brackets

Full-width mounting lugs

- Kit consists of 2 parts (top and bottom).
- Made from passivated zinc-coated steel.
- Mounted with screws from the inside.
- Permissible load: 350 kg (771.6 lbs).

Post-mounting device for Spacial steel enclosure

Supply:
2 pieces

- For indoor installations on posts with a maximum circumference of 675 mm (26.6 in.) [min. diameter 150 mm (5.9 in.) and max. diameter 215 mm (8.5 in.).
For indoor installations on posts with a maximum circumference of 675 mm (26.6 in.) [min. diameter 150 mm (5.9 in.) and max. diameter 215 mm (8.5 in.).]
- Material: galvanized steel.
- Rail fixed to the inserts in the rear of the enclosure with 8-mm (0.3 in.) screws.
- Maximum load: 100 kg (220.5 lbs).
- They allow the mounting of protection canopies.
- For steel enclosures with widths of 300, 400, 500, 600 and 800 mm (11.8, 15.7, 19.7, 23.6 and 31.5 in.).

Floor stand kit for wall-mounted enclosure

- Set of 2 legs, for elevation of wall-mounted enclosures.
- Mounting holes that match the holes of the existing structure.
- Made of galvanized steel: thickness 2.5 mm (0.09 in.) for sides and 3 mm (0.11 in.) for the base.
- Coating: RAL 7035 gray polyester powder finish.
- Maximum load: 1300 kg (2866.0 lbs).

Supply:
2 platform legs (right and left)
and mounting hardware.

Eyebolts

NSYAELYTCRG8

- Set of two M8 eyebolts.
- Material: zinc-coated molded steel.
- The eyebolts are mounted directly to the body of the enclosure.
- Maximum load: 210 kg (463.0 lbs) per enclosure with the sling at 60°.
- Cannot be installed with the canopy in place.

Supply:
The reinforcing brackets are attached to the rings.
The reinforcing brackets also act as a drilling template.

Characteristics	References
Set of 2 M8 eyebolts	NSYAELYTCRG8

Protection canopy

NSYTJ2015

- Direct mounting to the body of the enclosure by 4 M6 screws.
- Material: painted galvanized steel, structured finish, epoxy-polyester powder, RAL 7035 gray color.

Supply:
Delivered with installation hardware.
To be used for all outdoor installations.

Standard locks

NSYAEDLS6S3D

- Spacial S3DC wall-mounted enclosures are supplied with a screwdriver insert (coin protected) lock as standard.
- Large range of standardized inserts covering the most common needs.
- Installation and removal with a single screw.

Supply:
Delivered with 1 plastic key

Characteristics	References
6-mm (0.2 in.) square	NSYAEDLS6S3D
7-mm (0.3 in.) square	NSYAEDLS7S3D
8-mm (0.3 in.) square	NSYAEDLS8S3D

8-mm (0.3 in.) triangular	NSYAEDLT8S3D

Standard handles with keys

NSYAEDL1242S3D

- Attractive and ergonomic bi-material handle.
- Large range of barrels covering the most common needs.
- Standard cam (see diagram above).
- The installation of the standard handle does not require the escutcheon to be removed.

Supply:
Delivered with 1 plastic key

Lock with screwdriver insert and metal latch

NSYAEDLSDS3D

- Material: Zamak
- Ingress protection rating: IP55 (IEC 60529)

Supply:
Delivered with housing, insert, fixing nut and metal cam 3 points

Characteristics	References
Lock with screwdriver insert and metal latch	NSYAEDLSDS3D

Double lock

NSYAEDLPADS3D

- Easy mounting in place of the standard lock.
- Material: zamack.

Supply:
Delivered with 3-mm (0.1 in.) double-bar metal key.

Characteristics	References
DIN half-cylinder, delivered without barrel. Please contact us.	NSYAEDLDINS3D
Padlockable 405, diameter 8 mm (0.3 in.).	NSYAEDLPADS3D

Locks with keys

NSYAEDLEDF13S3D

- Material: Zamak
- Ingress protection rating: IP66 (IEC 60529)

Supply:
Easy mounting in place of the standard lock.
Metal cam supplied.

Characteristics	References
EDF 900	NSYAEDLEDF9S3D
EDF 1300	NSYAEDLEDF13S3D

Door hinges

NSYAEDH180S3D NSYAEDH120S3D

- Two models:
- For opening the door to an angle of 180°.
- Spare standard hinges (120°).
- Captive pin, indexed by a spring.
- Material: zamack body for catalog number **NSYAEDH180S3D**, treated sheet-steel body for catalog number **NSYAEDH120S3D**, aluminum pin.
- For the 180° hinge, the maximum allowable load on the door is 20 (44.09) kg (lbs.) / m².
- For the 120° hinge, the maximum allowable load on the door is 50 (110.23) kg (lbs.) / m².

Supply:
Set of 1 hinge, delivered with hardware.

Characteristics	References
180° hinge for S3DC enclosure	NSYAEDH180S3D
Standard 120° hinge for S3DC	NSYAEDH120S3D

Inner door

- Sheet-steel door, RAL 7035 gray color.
- Locking with 3-mm (0.1 in.) double-bar lock.
- Maximum load, 30 (66.14) kg (lbs.) /m².
- The inner door can be installed directly on the front face of the enclosure or on the step slides (not supplied as standard).
- It is possible to mount an internal door and a mounting plate together on the step slides with the standard supply.
- Incompatible with the installation of the door stop and door switch. For further details, please contact us.
- All doors with a height > 700 mm (27.6 in.) are equipped with welded vertical profiles in order to facilitate cable management. Those profiles allows the mounting of our standard door cross-rail.

- 1 Installation on the front of the enclosure or
- 2 installation on step slides
- 3 Dimension resulting from installation on step slides:
B-83 mm (B-3.3 in.).
Dimension resulting from direct installation (without step slides): B-91 mm (B-3.6 in.).

Steel door retainer

- For blocking the door at the end of its travel.
- It is installed on enclosures with heights from 400 mm (15.7 in.) and widths from 300 mm (11.8 in.).
 - Connection for grounding the enclosure on the reinforcement rail.
 - Grounding accessories supplied with the enclosure (ground-connection cable to be ordered separately), see [Page 303](#).

Please note:
cannot be installed on 19" mounting plates or on enclosures equipped with an internal door.

NSYAEDRSCST

Characteristics	References
Steel door retainer for Spacial wall-mounted steel enclosure	NSYAEDRSCST

Door-holding system

- To hold the door open while working on the enclosure.
- It is installed on the perforated rails of the enclosure doors at the required height.
 - Material: polyamide 6 (PA6).

Comment:
It can be mounted on enclosures with a height > 400 mm (15.7 in.) [no door cross-rail on heights < 400 mm (15.7 in.)]. It cannot be installed in the Spacial CRN enclosures.

NSYAEDRS3DPA6

Characteristics	References

Standard cable-gland plate

Made from self-extinguishing ABS with 30% fiberglass material. Color RAL 7035.

- Pre-marked holes with diameter Pg for coupling cable glands, membrane glands, tubes, etc.
- With a polyurethane sealing gasket.
- Excellent thermal resistance.
- Pre-marked holes for cable glands.

* The doors of enclosures smaller than 800 x 600 mm (31.5 X 23.6 in.) do not have horizontal cable guides.

Note:

Areas without cut-outs, see Page 63.

- 1 Perforations in steps of 25 mm (1.0 in.).
- 2 1 M6 x 17.5 mm (0.7 in.) grounding stud.

You need an enclosure for indoor non-clean industrial environment.

CRN

CRNG

Time Lasting

- Industrial welding process.
 - Epoxy-polyester painting.
 - Foamed-in polyurethane gasket.
- All of the above guarantees quality, water and dust tightness for years. Front folded gutter prevents the entry of water, oil or liquids, ensuring IP66 protection

Sealed

- Glazed tempered glass door and fully water and dust tight, maintaining IP66 and IK08 protection

Safety

- For people:**
- Two welded M6 x 15 earth studs welded to the back and one M6 x 15 stud on the door
- For your installation:**
- Water and dust tightness IP66
 - Ruggedness IK10 to protect your component from external impact
 - Hidden hinges to prevent the removal of the door

Practical

- 4 welded M8 x 15 back studs shouldered 10 (0.39) mm (in.) for direct installation of mounting plate

Smart

- Welded door reinforcement profile allowing the fixing of equipment in models from 500 (19.68) mm (in.) high

Convenient

- Large embedded cable-entry plate with a neoprene seal, flush with the back of the enclosure
- Direct fixing or using the brackets fixed from outside

Characteristics	Spacial CRN	Spacial CRNG
	39 dimensions for this metal monobloc. Back piece joined to the sides using a special profile forming a protected sealed area.	<ul style="list-style-type: none"> • 17 dimensions with three-point locking system for this metal construction suite of enclosures • All Spacial CRNG models include a three-point locking system
Material	Steel	
Finish	Both externally and internally painted with texturised epoxy-polyester resin	
Color	RAL 7035 grey	
Ingress protection rating	<ul style="list-style-type: none"> • IP66 for one-door enclosures • IP55 for two-door enclosures according to IEC 60529 	
Mechanical protection rating	IK10 for plain door and IK08 for glazed door according to IEC 62262	
Standards	IEC 62208	
Certifications	<ul style="list-style-type: none"> • UL, CUL • NEMA 4 for single-door enclosure according to NEMA 250 • NEMA 12, 12K and 13 for double-door enclosure according to NEMA 250 • RoHS compliance 	
Installation	<ul style="list-style-type: none"> • Given their strength, metal enclosures are particularly well suited to indoor areas where they may experience impacts • Outdoor installation: compliant with IEC 62208 regarding type tests specified in §9.12 (resistance to ultra-violet (UV) radiation) and §9.13 (resistance to corrosion). It is always advisable to install a canopy to avoid water stagnation on the upper part of the enclosure 	
Supply	<p>Body</p> <ul style="list-style-type: none"> • 4 holes for direct mounting • Wall-mounted drill holes sealed with plastic plugs to ensure the degree of protection (supplied as standard) • Wall-mounted bracket fixed from outside (brackets to be ordered separately) • Direct cable entry • Built-in cable-entry plate, flush with the back of the enclosure (without foamed-in gasket to facilitate machining) • Insulated cable entries with knock-outs, available as an accessory • Easy to equip with 4 welded back studs shouldered 10 (0.39) mm (in.) <p>Door</p> <ul style="list-style-type: none"> • 3 (0.12) mm (in.) standard double-bar lock as standard. (Wide choice of inserts as accessories) • Foamed-in polyurethane gasket on the doors to guarantee water and dust tightness • Easily reversible door, fixed with two or three invisible hinges allowing the door to open to 120° • Reinforcement on plain doors with welded perforated door profiles for equipment mounting from models NSYCRN54150 • Metal hinges - Easily reversible door • Welded earth studs on door and body • Delivered with a reusable packaging and technical instructions 	<p>Body</p> <ul style="list-style-type: none"> • 4 holes for direct mounting • Wall-mounted drill holes sealed with plastic plugs to ensure water and dust tightness (supplied as standard) • Wall-mounted bracket fixed from outside, specific for large dimensions (to be ordered separately). • Built-in cable-entry plate, flush with the back of the enclosure (without foamed-in gasket to facilitate machining) • Easy to equip with 4 welded back studs shouldered 10 (0.39) mm (in.) (6 for widths of 1000 (39.37) and 1200 (47.24) mm (in.)) • Welded earth studs on door and body <p>Door</p> <ul style="list-style-type: none"> • Three-point locking system for one and two doors. Standard 5 (0.20) mm (in.) double-bar lock • Metal hinges - Easily reversible door • Door-centering piece on two-door enclosures to ensure proper door alignment • Foamed-in polyurethane gasket on the doors to guarantee water and dust tightness for many years • Reinforcement on plain doors with welded perforated door profiles for equipment mounting • Delivered with a reusable packaging and technical instructions

⁽⁶⁾ For flange openings type E, two NSYTSACRNC are required.

⁽⁶⁾ Ref. NSYEMR mandatory.

⁽⁷⁾ Order NSYAMCSF, NSYMDVR12 in steel.

Not compatible with double mounting plate.

• For other dimensions see our application offer.

* Order the NSYAEFPFSC wall-mounted brackets separately.
 ** To install the plinth to a wall-mounted enclosure, order ref. NSYAPFWM.
 *** Available in version 1800 (70.87) mm (in.); ref. NSYCOCNS1800.

Wall-mounted kit for Spacial CRN enclosures

- Set of 4 wall fixing lugs
- They are fixed from the outside and can be positioned vertically or horizontally indistinctly.
- Maximum load: 150 (330.69) kg (lbs.)
- Not included in the standard supply
- For weights of the Spacial CRN - CRNG enclosures without mounting plate refer to the selection guide

CRN Wall-fixing lugs for Spacial CRN enclosures

NSYPFCR

- Material: Passivated zinc-coated steel

Characteristics

Set of 4 wall fixing lugs for Spacial CRN enclosure

References

NSYPFCR

Supply:

Supplied with fixing screws and pre-mounted sealing gaskets

CRN Wall-fixing lugs for Spacial CRN enclosures

NSYPFC2X

- Material: Stainless-steel AISI 316L

Characteristics

Set of 4 wall fixing brackets in stainless-steel AISI 316L

References

NSYPFC2X

Supply:

Supplied with fixing screws and pre-mounted sealing gaskets

Wall-fixing lugs for Spacial CRN and CRNG enclosures

- Set of 4 wall-fixing lugs.
- Mounted directly on the rear of the enclosure, either in horizontal or vertical position.
- Wall-to-enclosure spacing 10 (0.39) mm (in.).
- Maximum load: 150 (330.69) kg (lbs.)
- Not suitable for dynamic loads.
- For weights of the Spacial CRN - CRNG enclosures without mounting plate refer to the selection guide

CRNG Wall-fixing lugs for Spacial CRNG enclosures

NSYAEFFPFC

- Material: Passivated zinc-coated steel

Characteristics

Set of 4 wall fixing lugs, made of steel

References

NSYAEFFPFC

Supply:

Supplied with fixing screws and pre-mounted sealing gaskets

CRNG Wall-fixing lugs for Spacial CRNG enclosures

NSYAEFFFXSC

- Material: Stainless-steel AISI 304L

Characteristics

Set of 4 wall fixing lugs, made of stainless-steel AISI 304L

References

NSYAEFFFXSC

Supply:

Supplied with fixing screws and pre-mounted sealing gaskets

CRNG Kit for heavy loads

NSYAEFAH RSC

- Kit made up of 2 reinforcement pieces.
- To be mounted before installing the mounting plate in top position with the standard lugs (to be ordered separately).
- Material: Passivated zinc-coated steel
- Maximum load: 400 (881.85) kg (lbs.)

Characteristics

Kit for heavy load

References

NSYAEFAHLBSC

Supply:

Kit composed with 2 brackets

Post-mounting device for Spacial steel enclosure

- For indoor installations on posts with a maximum circumference of 675 (26.58) mm (in.) (minimum diameter 150 (5.91) mm (in.) and maximum diameter 215 (8.46) mm (in.)).
- Rail fixed to the inserts in the rear of the enclosure with 8 (0.32) mm (in.) screws.
- They allow the mounting of protection canopies.
- Material: Galvanized steel
- Maximum load: 100 (220.46) kg (lbs.)

Support pillar

- The support pillar is fixed directly to the bottom face of the Spacial steel enclosure by means of an adapter plate. The latter, to be ordered in addition to the pillar, replaces the cable gland plate.
- Overall height of the support foot: 800 (31.50) mm (in.).
- Mounting possible on all enclosures with dimensions up to 600 (23.62) mm (in.) (except 200 (7.87) x 200 (7.87) x 150 (5.91) mm (in.) and 250 (9.84) x 200 (7.87) x 150 (5.91) mm (in.) enclosures).
- Material: Extruded aluminum
- Finish: Polyester powder
- Color: RAL 7035 grey

Support pillar adaptation plate

- Description: Plate for mounting the support pillar on the enclosure.
- This plate replaces the cable gland plate delivered with the enclosure.
- Material: Steel
- Finish: Polyester powder
- Color: RAL 7035 grey

For more details see [Page 91](#)

Support bracket for enclosure with anti-tilt kit and reinforcement

- The support bracket is used when the enclosure cannot be mounted to a wall or post.
- Maximum enclosure dimensions: 1000 (39.37) x 800 (31.50) x 300 (11.81) mm (in.).
- Floor attachment by standard M12 fastenings.
- Material: Steel
- Finish: Epoxy polyester paint
- Color: RAL 7035 grey
- Maximum load: 120 (264.55) kg (lbs.)

Floor Stand Kit for wall-mounted enclosure

- Set of 2 feet, elevating wall-mounted enclosures.
- Cut-outs needed on enclosure – drilling template provided with the kit.
- Material: Steel
- Finish: Polyester powder
- Color: RAL 7035 grey
- Thickness: Sides: 2.5 (0.10) mm (in.), Base: 3 (0.12) mm (in.)
- Maximum load: 250 (551.16) kg (lbs.)
- Compatible with Spacial S3D, S3DC and CRNG enclosures.
- Enclosure depth 300 (11.81) mm (in.) : When enclosures are equipped with a cable gland plate, it only fits with enclosures of width 800 (31.50), 1000 (39.37) and 1200 (47.24) mm (in.), except model H 600 (23.62) x W 800 (31.50) x D 300 (11.81) mm (in.).
- Enclosure depth 400 (15.75) mm (in.): When enclosures are equipped with a cable gland plate, it does not fit with enclosures of width 600 (23.62) mm (in.).

Supply:
2 platform feet
(right and left) and fixing elements

Front and rear plinths

- The front and rear of the plinth consists of 4 corners with 2 or 4 panels.
- Material: Folded sheet steel, corner with a thickness of 2.5 (0.10) mm (in.)
- Finish: Painted with epoxy-polyester resin
- Color: RAL 7022 grey
- Ingress protection rating: IP30
- Mechanical protection rating: IK10

Installation:

It is necessary to order separately the plinth fixing kit (ref. **NSYAPFWM**) composed by fixing hardware and drilling jig

Supply:

Height 100 (3.94) mm (in.): 4 corners, 2 panels (front and rear), 4 corner covers and mounting elements.
Height 200 (7.87) mm (in.): 4 corners, 4 panels (2 front and 2 rear), 4 corner covers and mounting elements

Coupling of Spacial steel enclosures

- Available in 2 versions:
- Coupling version without cable entry.
- Version with coupling frame allowing the entry of cables.
- Spacing of 17 (0.67) mm (in.) between 2 coupled enclosures, allowing full opening of the doors.
- Allows lateral coupling of 2 enclosures.
- These frames allow the door to open to 120°.
- Material: Fiberglass-reinforced polyester, self-extinguishing
- Ingress protection rating: IP66

Supply:
Kit made up of 4 spacers and their mountings. Mounting by screws, included

Eyebolts

NSYAELYTCRG8

- Set of two M8 eyebolts. They are fixed directly to the body of the floor-standing enclosure. Cannot be installed with the canopy in place.
- Options: Have your cut-outs made by our configured service.
Paint touch-up pen
- Material: Zinc-coated molded steel
- Maximum load: 200 (440.92) kg (lbs.) per enclosure when slinging at 60°

Supply:
Reinforcing brackets attached to the rings (these brackets also act as a drilling template)

Characteristics	References
Set of 2 M8 eyebolts	NSYAELYTCRG8

Protection canopy

NSYTJ2015

- Direct mounting to the body of the enclosure by 4 M6 screws.
- Material: Sheet steel
- Finish: Painted galvanized steel, structured finish
- Color: RAL 7035 grey

Supply:
Delivered with the mountings required for installation

Metal key for 8 (0.32) mm (in.) square insert	NSYLC8
Metal key for 8 (0.32) mm (in.) triangular insert	NSYLT8

Padlocking accessories

- Padlocking system, positioned around the long rectangular escutcheon of the enclosures, to block access to the lock, for a Ø 9 (0.35) mm (in.) padlock.

NSYBCPL

Characteristics	References
Padlock device for large rectangular escutcheon of PLM 108 and PL	NSYBCPL

- Padlocking system, to block access to the retractable handle, for a Ø 9 (0.35) mm (in.) padlock.

Spacial SFX - SMX enclosures - padlocking device for retractable handle	NSYBCME

Standard cable gland plates

- The cable gland plate for Spacial CRN guarantees water and dust tightness.
- Material: Steel
- Color: RAL 7035 grey
- Installation: Fixing with screws, it is flattened with the body
- Type E: Enclosure with 2 entries

Supply:
Included as a standard with the Spacial CRN enclosure. It is delivered with a separate seal: It allows easy cut-outs with no risk of damaging the seal and can be easily repainted.

NSYTLCRNO

Insulated cable gland plates

- With a polyurethane sealing gasket.
- Excellent thermal resistance.
- Pre-marked holes for cable entry plates.
- Material: Self-extinguishing ABS with 30% fiberglass
- Color: RAL 7035 grey
- Installation: Pre-marked holes with diameter Pg for coupling of cable glands, membrane glands, tubes, etc
- For type E cable entry, use two **NSYTSACRNC**.

Cable gland plates for membrane glands

- Cable entries
- FL21 cut-outs
- Material: Steel painted with textured epoxy-polyester resin
- Color: RAL 7035 grey
- Ingress protection rating: The membranes are built to accommodate water and dust tight cable entries in insulated material (flame classification V0), guaranteeing IP65 (to be ordered separately)
- Installation: Mounting with screws

Characteristics	Width mm (in.)	Depth mm (in.)	To be coupled with entry	Dimensions A x B mm (in.)	References

Internal door

- Locking with 3 (0.12) mm (in.) double-bar lock.
- The internal door can be installed directly on the front face of the enclosure or on the step slides (not supplied as standard).
- To mount an inner door and a mounting plate at the same time on the step slides is possible as standard.
- Material: Sheet-steel
- Color: RAL 7035 grey
- Maximum load: 30 (66.14) kg (lbs.)/m²

Note:
Not compatible with mounting with door stop and door contact. Consult us.
⁽¹⁾ Equipped with welded vertical profiles in order to facilitate cable management.

Compact enclosures Spacial SM

Suitable enclosures Spacial SF - Assembled supply

Spacial SM-SF	
Introduction	96
Characteristics	98
Selection guide	100
Accessories	106
Dimensions	132

Multi-purpose IP55 compact steel enclosure for fast and simple solutions.

3

SM

Robust

- Body made as a single piece with welded rear panel.
- Front part forming a rigid frame with welded corners.

Protection

- IP guaranteed by the rigidity of the enclosure, the expanded-polyurethane sealing gasket of the enclosure and the subsequent welding.
- Double-door enclosures with inner lock on the left door.

Practical

- Height-adjustable door rails suitable for cable fixing.
- Can be installed adaptation profile in the front and rear of the enclosure and the universal 40 (15.75 mm (in.) cross-rail (1 row) in the rear provide the same fixing points as the modular enclosure.

Comfort

- Handle with sturdy design for easily activating the locking system, allowing the installation of any shape insert and any cylindrical combination key.
- Easily interchangeable insert with one click.

For details consult our web site
www.se.com

Adapts to all your needs. Delivered assembled for a ready-to-use solution.

SF

• 15 (0.59)/10° mm (in.)

Adapts to customer needs. Delivered as kit, with up to 600 possible configurations.

SF kit

Robust

- Structure formed from a single 15 (0.59)/10° mm (in.) galvanized steel section with high rigidity.
- Vertical uprights screwed together with connections of full steel. Placement and screwing of the 4 vertical uprights at the corners of the top and bottom frames. Fixing by 8 screws, one at each corner of the enclosure.
- Capable of withstanding 1000 (2204.62) kg (lbs.) distributed in its volume.

Fast

- The double system of cut-outs on the structure allows most accessories to be installed using self-tapping TORX T30 M6 screws or nuts.
- Clip-on quick-fixing cross-rails, fixed with self-tapping screws.
- Door is installed by inserting the captive pins of the hinge into their housing in the door.

Reliable

- The design of the profile creates a double protective barrier against the entry of water and dust when coupling two enclosures.
- The first barrier is the metal connection of the sections, and the second barrier is the EPDM gasket that helps guarantee the sealing.

Practical

- Suspension of the rear panel using a self-centering piece to facilitate screwing.

Aesthetics

- The built-in panels and handle with new design give the enclosure a new appearance.

Simple

The new design allows enclosures to be coupled in any direction, adapting to all installation surfaces.

Comfort

- Handle with robust design for easily activating the locking system, allowing the installation of inserts of any shape and any cylindrical combination key.
- Panels with captive screws for easier assembly and dismantling.

Accessible

The symmetric design of the profile allows doors to be installed on any side of the enclosure, opening right or left, providing full accessibility to the enclosure.

Side door

3

Supply:
One side door, four hinges,
four catches and handle lock

- Door for the side of the enclosure, replaces the side panel.
- Installation directly on the structure of the enclosure, opening 120°.
- Lock with handle and 5 (0.20) mm (in.) double-bar insert. 4 locking points.
- Reinforcement frame, cut-out with a pitch of 25 (0.98) mm (in.).
- Opening to right or left.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529

External fixing

- Set of 2 side panels fixed from the outside of the enclosure.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529

Supply:
2 side panels, with sealing gasket and bag of accessories

Internal fixing

- Set of 2 side panels fixed from the enclosure, helping prevent access by unauthorized persons.
- Very useful in public spaces.
- Material: Steel
- Finish: Painted with epoxy polyester resin
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529

Supply:
2 side panels, with sealing gasket and bag of accessories

50 units

Characteristics	References
Trim cap for external fixing panels	NSYCSP

NSYCSP

Plinth as a kit

The complete plinth consists of two elements, one is the front and rear kit, determined by the length of the enclosure, and the other consists of the side panels which determine the depth of the enclosure. The number of side panels required depends on the plinth combination.

3

- + Robust design.
- + The modular plinth system makes it possible to reduce the number of references in stock.

Characteristics	Front and rear kit	Side panels	Complete plinth
Plinth height 100 (3.94) mm (in.)			
Plinth height 200 (7.87) mm (in.)			

Floor

Examples of solutions

Plinth cross-rail fixed in position B, requires 2 cross-rails fixed in position A.

- They are fixed to the plinth cross-rails, both the universal and the quick-fixing types.
- Their depth is adjustable in increments of 25 (0.98) mm (in.).

Comment: Universal and quick-fixing cross-rail references, [page 254](#)

Possibility of joining plinths

The surfaces between corners are always in contact.

They are joined by a M8 screw and nut, not included in the standard supply.

- + Longitudinally free space for passing cables
- + Greater rigidity of the resulting assembly unit

Side panels

are secured by M6 screws and caged nuts, not included in the standard supply, reference **NSYSMP6** and reference **NSYCN9M625**, which can be mounted above and/or below.

- + Improves rigidity in the depthwise direction during transport

Vertical plinth assembly

are secured by means of M12 screws and nuts, not included in the standard supply.

- + The two heights of corners can be combined

Possibility of fixing the enclosure to the plinth

Fixing from the inside of the enclosure

by means of an M12 screw, screwing directly into the corner of the plinth.

- + Fixing convenience and speed

Fixing from the outside of the enclosure

with a M12 screw, screwing directly onto the vertical upright.

- + Maximum rigidity of the enclosure-plinth assembly

Possibility of fixing the plinth to the floor

Fixing from the inside of the enclosure.

The machining angle varies according to the plinth model:

- Plinth height 100 (3.94) mm (in.) $\varphi = 18^\circ$.
- Plinth height 200 (7.87) mm (in.) $\varphi = 9^\circ$.

Fixing from the outside of the enclosure, optimal point for the rigidity of the assembly.

The machining angle varies according to the plinth model:

- Plinth height 100 (3.94) mm (in.) $\varphi = 22^\circ$.
- Plinth height 200 (7.87) mm (in.) $\varphi = 11^\circ$.

Floor-fixing supports can be used as well.

- Reference **NSYSGF**, to fix the corner or the panel and the corner to the floor.

The corners can be rotated if the side panels of the plinth need to be removed and/or to obtain access to the external fixing when the set is set up against the wall.

Fixing the enclosure to the floor

Fixing from the outside of the enclosure

Optimal point for the rigidity of the assembly.

The machining angle varies according to the plinth model:

- Plinth height 100 (3.94) mm (in.) $\varphi = 22^\circ$.
- Plinth height 200 (7.87) mm (in.) $\varphi = 11^\circ$.

Fixing the enclosure to the floor

Enclosure against a wall

Thanks to the design of the corners, when the enclosure is installed against the wall, the following is possible:

- To remove the side panels (turning back corners),
 - To access the external fixing to the floor.
- It is also possible to use floor-fixing supports, reference **NSYSGF**, to fix the corner or the panel and the corner to the floor.

Fixing the enclosure to the plinth

Fixing from the inside of the enclosure

by means of a M12 screw, screwing directly into the corner of the plinth

- + Fixing convenience and speed.

Assembly of the plinth panels

The panels are fixed with an M6 screw to the corner

included in the standard supply of the side panels.

- The front and rear panels are delivered with the corners mounted

Front and rear plinths

- The front and rear of the plinth consists of 4 corners with 2 or 4 panels.
- Material: Folded sheet steel, corner with a thickness of 25 (0.98) mm (in.)
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7022 grey
- Ingress protection rating: IP30 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262

Supply:

Height 100 (3.94) mm (in.): 4 corners, 2 panels (front and rear), 4 corner covers and fixing elements
 Height 200 (7.87) mm (in.): 4 corners, 4 panels (2 front and 2 rear), 4 corner covers and fixing elements

Stainless-steel plinths (standard plinths [page 162](#), ventilated plinths [page 331](#)) are compatible with steel floor-standing enclosure SM and SF using an earthing cable reference **NSYEL226D13** (description [page 303](#)) to be ordered separately.

Fixing to the floor

3

NSYSGF

- Part for fixing the plinth to the floor if the drillholes made in the plinth cannot be used.
- Material: Steel
- Finish: Zinc-coated

Characteristics

Spacial SF-Fixing to the floor

References

NSYSGF

Supply:

4 pieces, fixing element not supplied

Fixing to the floor by fixing points of previous version (OLN/CMO or Spacial 6000 and 18500)

NSYOL6GF

- Parts that reproduce the floor-fixing points of the previous plinth.
- Material: Steel
- Finish: Zinc-coated

Characteristics

Fixing to the floor by fixing points of previous version

References

NSYOL6GF

Supply:

4 pieces, fixing elements not supplied

Plinth cross-rail support

NSYSPCR

- Support for fixing a cross-rail inside the plinth.
- Material: Steel
- Finish: Zinc-coated

Characteristics

Spacial SF-Plinth cross-rail support, 100 (3.94) mm (in.)

References

NSYSPCR

Comment:

Reference by unit Order by multiples of 12 (12, 24, 36...)

Supply:

12 pieces and fixing elements

Plinth cross-rails

- They are fixed across the width and/or depth between the corners of the plinth.
- The plinth cross-rail supports are required for its assembly.
- Material: Steel
- Finish: Zinc-coated

Supply:
2 cross-rails and fixing elements

NSYEC351

Plate with 2 entries

- Cable entry for very deep enclosures (600 (23.62) mm (in.) and 800 (31.50) mm (in.)).
- Two longitudinal openings allowing a large number of cables through.
- Material: Galvanized steel
- Thicknesses: 15 (0.59) mm (in.)

Supply:
1 plate with 2 entries; Polyurethane adhesive gasket with cross-section of 15 (0.59) x 25 (9.84) mm (in.) (helps guarantee good sealing) and fixing elements

Characteristics	(B) Width mm (in.)	(C) Depth mm (in.)	References

NSYEC662

SF Cable gland plate for connectors

- Adapter plate to install cable entry plates for connectors, see [page 285](#).
- To be used together with cable gland plates, 1 or 2 entries, adding or replacing one of the parts.
- Material: Galvanized steel
- Thicknesses: 15 (0.59) mm (in.)

Supply:
Plate and fixing elements

Characteristics	No. of cuts	Width mm (in.)	References
Spacial SF Cable gland plate for connectors	2	600 (23.62)	NSYDCE6

Spacial SM-Brush-type cable entry gasket	1600 (62.99)	2x NSYSMBCE8

SF Foam cable entry gasket

- Spare gasket, made from self-extinguishing expanded polyurethane with a cross-section of 15 x 25 (0.98) mm (in.), for fixing on cable gland plates.

Characteristics	References
Spacial SF Foam cable entry gasket	NSYCEJ

SF Sealing gasket

- Sealing gasket, made from ethylene-propylene with a cross-section of 3 x 10 (0.39) mm (in.), for mounting on the perimeter of the cable gland plates. Adhesive to help guarantee good sealing.

Characteristics	References
Spacial SF Sealing gasket	NSYCEK

Lifting systems

SF Eyebolts

3

- Set of M12 lifting eyebolts, which screw directly into the structure of the enclosure, in the axis of the uprights.
- Material: Galvanized cast steel
- Maximum load: 340 (749.57) kg (lbs.)
- Maximum amount of assembled enclosures to be lifted: 1

Supply:
4 eyebolts

Characteristics	Enclosures to be lifted	Max. load kg (lbs.)	References
Spacial SF Eyebolts	1	340 (749.57)	NSYSFEB

SM Eyebolts

- Set of M12 lifting eyebolts, fixed to the enclosure by fixing nuts.
- Material: Galvanized cast steel
- Maximum load: 340 (749.57) kg (lbs.)
- Maximum amount of assembled enclosures to be lifted: 1

Supply:
4 eyebolts and
4 fixing nuts

Characteristics	Enclosures to be lifted	Max. load kg (lbs.)	References
Spacial SM Eyebolts	1	340 (749.57)	NSYSMEB

SF Lifting brackets

- Set of lifting and transport brackets, fixed to the structure between two coupled enclosures, in the axis of the uprights.
- Material: Zinc-coated steel
- Maximum load: 500 (1102.31) kg (lbs.)
- Maximum amount of assembled enclosures to be lifted: 2

Supply:
4 brackets and fixing
elements (M12 screws)

Characteristics	Enclosures to be lifted	Max. load kg (lbs.)	References
Spacial SF Lifting brackets	2	500 (1102.31)	NSYSFELB

SF Lifting bar

- Set of bars for lifting and transporting enclosures suites.
- They are fixed to the structure of the enclosure, in the axis of the uprights.
- Material: Steel

Supply:
2 lifting bars and fixing
elements (M12 screws)

Characteristics	Length mm (in.)	Enclosures to be lifted	Max. load kg (lbs.)	References
Spacial SF Lifting bar	1600 (62.99)	2	2000 (4409.24)	NSYSFTB16

Spacial SF Lifting bar	3200 (125.98)	5	4000 (8818.48)	NSYSFTB32

Roof Canopy

- Provides excellent protection against splashes from rainwater.
- Canopy cannot be used together with lifting fixtures.
- Spacial SF: It is possible to use a single canopy with combinations of modular enclosures (example of a 1600 (62.99) mm (in.) canopy with two coupled 800 (31.50) mm (in.) enclosures).
- Material: Galvanized steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Fixing:
 Spacial SF: Fixing by drill holes to be made in the roof of the enclosure
 Spacial SM: Fixing by drill holes already made in the roof

Supply:
 One canopy, drilling template and fixing elements

Ventilated roof

3

- Roof providing natural airing for the enclosure, with IP30 protection.
- Height: An extra 63 (2.48) mm (in.) in relation to the structure.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Fixing: They are screwed onto the structure at the roof fixing point

Supply:
One ventilated roof and four elevators

NSYSVR606

Characteristics	(B) Width mm (in.)	(C) Depth mm (in.)	References
Spacial SF Ventilated roof	600 (23.62)	600 (23.62)	NSYSVR606

Airing elevators for roof

- Allows the roof to be raised, providing natural airing.
- They are screwed onto the structure at the roof fixing point.
- Material: Zinc-coated steel

NSYRE26

Supply:
4 elevators

Characteristics	(H) Height mm (in.)	IP	References
Spacial SF Airing elevators for roof	23 (0.91)	10	NSYRE26
Spacial SF Airing elevators for roof	60 (2.36)	00	NSYRE60

FL21 cable entry membranes

- Membrane plate for watertight cable entries made from insulated material (fireresistance level UL 94 V-0).
- Direct installation in the FL21 cable entry plate adapter.
- 4 models: Plain plate and membrane plates from 7 to 37 cable entries.
- Material: Grey plastic
- Ingress protection rating: IP66 according to IEC 60529

Comment:
For more information see [page 285](#)

Supply:
Membrane plate and fixing elements.

Wall fixing

SF Wall fixing support

3

NSYSFWFIX

- Supports for fixing the enclosure on the wall and helping prevent it from turning over.
- They cannot be used for hanging the enclosure.
- They are installed using the roof mounting screws.
- Material: Zinc-coated steel sheet

Supply:
2 supports

Characteristics

Spacial SF Wall fixing support

References

NSYSFWFIX

SM Wall fixing support

NSYSMWFIX

- Supports for fixing the enclosure on the wall and helping prevent it from turning over.
- They are installed using the drill holes in the back of the enclosure.
- Enclosure fixed from the outside.
- Material: Zinc-coated steel sheet

Supply:
2 supports

Characteristics

Spacial SM Wall fixing support

References

NSYSMWFIX

Doors **SF** **SM**

Inner door

NSYID166

- Door for additional protection. Helps prevent the switchgear from being manipulated by unauthorised personnel.
- Allows the installation of switchgear mounted directly on the door.
- Mounting on the top and bottom frame of the enclosure.
- Depth adjustable with a pitch of 25 (0.98) mm (in.), from the first fixing point.
- Opening to right or left, with two locks, 3 (0.12) mm (in.) double-bar, with central handle.
- Reinforcement frames on the rear, cut-outs with a 25 (0.98) mm (in.) pitch, for equipping the door.
- Maximum acceptable load: 15 (33.07) kg (lbs.).
- Inner doors can be mounted in our stainless steel floor-standing enclosures (SFX and SMX).
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Comment:
For dimensions see [page 132](#)

Supply:
One inner door and fixing elements

SF Side Door

NSYSFD126

- Door for all sides of the enclosure, replaces the side panel.
- Installation directly on the structure of the enclosure, opening 120°.
- Lock with handle and 5 (0.20) mm (in.) double-bar insert.
- 4 locking points.
- Reinforcement frame, cut-out with a pitch of 25 (0.98) mm (in.)
- Opening to right or left.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Comment:

Partial doors

Front fix panel for modularity

- Top and bottom fix panel to obtain modularity required to install partial doors.
- It is needed to purchase **NSYMIC6** and **NSYMIC8**.
- Height 100 (3.94) mm (in.) fixed panels are delivered as standard for the compartmentalized enclosure, Spacial SFM.
- Possibility to order it separately for Spacial SF framework in kit supply.
- Available in 2 heights.
- Ingress protection rating: IP54 according to IEC 60529

Characteristics	Height mm (in.)	Width mm (in.)	References
Spacial SFM - Front Fix panel for modularity	100 (3.94)	600 (23.62)	NSYMF2M6

Frontal partial doors

- Plain partial door with lock 5 (0.20) mm (in.) double-bar insert.
- They are fixed to the uprights of the framework by means of hinges.
- Drilling template for uprights ref. **NSYMDT** (only one drilling template required per order).
- Opening to right or left.
- 1, 2 or 4 locking points depending on height
- Possibility to replace locking insert.
- Available in following heights.
- Ingress protection rating: IP54 according to IEC 60529

Intermediate crossbar

- Mounted between partial doors or between doors and control desk, guaranteeing IP54 according to IEC 60529.
- Crossbar with direct fixing to the structure.
- Available in 2 widths.

Supply:
2 crossbars with fixing elements.

Characteristics	Width mm (in.)	References
Spacial SF-Intermediate Crossbar	600 (23.62)	NSYMIC6
Spacial SF-Intermediate Crossbar	800 (31.50)	NSYMIC8

Folding panel

- Height 300 (118.11) mm (in.) horizontal panel, hinged at the top.
- Helps guarantee protection of the sets of bars.
- Opening angle: 110°.
- It is installed together with partial doors to create the modularity of the enclosure.
- 2 locking points, 5 (0.20) mm (in.) double-bar insert.
- Available in 2 widths.

Characteristics	Width mm (in.)	References
Spacial SF Folding panel	600 (23.62)	NSYCDP36
Spacial SF Folding panel	800 (31.50)	NSYCDP38

Control desk

- Support for human-machine interface.
- Height 400 (157.48) mm (in.) Control desk is installed together with partial doors to create the modularity of the enclosure.
- 2 locking points, 5 (1.97) mm (in.) double-bar insert.
- Available in 2 widths.

Characteristics	Width mm (in.)	References
Spacial SF Control desk	600 (23.62)	NSYCOD264

Metal document pocket

- Direct mounting on the reinforcement frame of the door.
- Adjustable depth with a pitch of 25 (0.98) mm (in.)
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Supply:
1 metal document pocket and fixing elements

Characteristics	(D) Width mm (in.)	References
Spacial SF/SM Metal document pocket	600 (23.62)	NSYSDP6M
Spacial SF/SM Metal document pocket	800 (31.50)	NSYSDP8M

Plastic document pocket

- Attachment by adhesive tape.
- Material: Polystyrene (PS)
- Color: RAL 7035 grey (**NSYDPA4**: RAL 9001)

Comment:
NSYDPA44 not compatible with 19" chassis or modular distribution.

Supply:
1 plastic document pocket

Folding support tray

NSYSDT5

- Adjustable horizontal support for laptop computers, documents or any other element.
- Installation on the reinforcement frame of the door.
- Can also be installed on the door cross-rails, see [page 299](#).
- 4 positions: 45°, 60°, 75° and 90°.
- Maximum load: 30 (1.18) mm
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Supply:
1 folding support tray and fixing elements

Characteristics	Width of enclosure mm (in.)	Width of tray mm (in.)	References

NSYSDT8

180° hinge

- Hinge with opening of 180°.
- Intended to replace the 120° hinges installed as standard.
- They are compatible with the transparent door and can be installed even with enclosure suites.
- Maximum load: 60 (132.28) kg (lbs.) on the door
- Material: Aluminum and zamak
- Finish: Painted RAL 9005 black
- NEMA Types:
 - SF: NEMA Type 1, 3R and 12
 - SM single-door: NEMA Type 1, 2, 3, 3R, 5, 12 and 13

Supply:
4 hinges

Characteristics	References
Spacial SF/SM 180° hinge	NSYSH180NC

NSYSH180NC

Door-centering caster

NSYSDRC

- Allows the door to be raised when closing.
- Direct mounting on the reinforcement frame.
- Maximum load: 90 (198.42) kg (lbs.)

Supply:
One centering roller and fixing elements

Characteristics	References
Spacial SF/SM Door-centering caster	NSYSDRC

Door switch

NSYDCM20

- The switch is fixed to the structure of the enclosure.
- Drilled M20 cable entry for cable gland.
- NC + NO contact, 240 V AC / 3 A (IEC 60947-5-1)
250 V DC / 0,1 A (IEC 60947-5-1)

Supply:
1 door switch and fixing elements

Characteristics	References
Spacial SF/SFX Door switch	NSYDCM20
Spacial SM Door switch	NSYMDCM20

Locking system Padlock locking

NSYBLKH123

- Padlock locking system, for installation in all the handles of the Spacial SF and Spacial SM enclosures.
- Screw with 7,5 (0.30) mm (in.) drill hole.

Supply:
One cut-out handle, screw for padlock and screw fixing screw

Characteristics	References
Spacial SF/SM Padlock locking	NSYBLKH123

CNOMO kit

NSYCNOH123

- Locking system to be installed on the central locking bar of the door.
- It works as a locking bar immobiliser, helping prevent the handle from closing while the door is still open.
- It is compatible with all handle lock versions, except the flat lock and the small flat lock.

Supply:
One mechanism and fixing elements

Characteristics	References
Spacial SF/SM CNOMO kit	NSYCNOH123

Push-button handle with 3524E key

NSYSFHPB

- Push-button handle with 3524E key for Spacial SF and Spacial SM enclosures.
- Locking and unlocking by key and opening by pushing the insert.
- Handle material: Polyamide 6 with 30% fiberglass
- Color: RAL 9005
- Fire resistant: 650°C (1202°F)

Supply:
Push-button handle, two 3524E keys and fixing elements (insert included)

Characteristics	References
Spacial SF/SM Push-button handle with 3524E key	NSYSFHPB

Handle for shaped inserts and cylindrical barrels

NSYSFHS1

- Easy to change the opening direction of the door, right/left.
- Space reserved for enclosure identification, 21 (0.83) x 27 (1.06) mm (in.), protected by a label frame.
- Handle material: Polyamide 6 with 30% fiberglass
- Color: RAL 9005
- Mechanical protection rating: IK10 according to IEC 62262
- Fire resistant: 650°C (1202°F)

Supply:
Standard handle and fixing elements (insert not included)

Characteristics	References
Spacial SF/SM Handle for shape inserts and cylindrical barrels	NSYSFHS1

Handles for insert types DIN, KABA, ASSA, Insert handle

NSYSFHD2

- The inserts are easily and quickly mounted without any screws and allow the installation of profiled DIN, KABA and ASSA locks.
- To install shape inserts or cylindrical barrels, it is necessary to add adapter ref. **NSYLADP**.
- Easy to change the opening direction of the door, right/left.
- Space reserved for enclosure identification, 21 (0.83) x 27 (1.06) mm (in.), protected by a label frame.
- Handle material: Polyamide 6 with 30% fiberglass
- Color: RAL 9005
- Mechanical protection rating: IK10 according to IEC 62262
- Fire resistant: 650°C (1202°F)

Supply:
One handle for DIN, KABA and ASSA inserts and fixing elements (insert not included)

Characteristics	References
Spacial SF/SM Insert handle	NSYSFHD2

Handles for insert types DIN, KABA, ASSA, double-insert handle

NSYSFHD3

- The double-insert handle can perform the "AND" and "OR" functions (are supplied with the handle).
- "AND" function: One insert blocks the activation of the other insert.
- "OR" function: Either insert can release the handle.
- Easy to change the opening direction of the door, right/left.
- Space reserved for enclosure identification, 21 (0.83) x 27 (1.06) mm (in.), protected by a label frame.
- To install shape inserts or cylindrical barrels, it is necessary to add adapter ref. **NSYLADP**.
- Handle material: Polyamide 6 with 30% fiberglass
- Color: RAL 9005
- Mechanical protection rating: IK10 according to IEC 62262
- Fire resistant: 650°C (1202°F)

Supply:
One handle for DIN, KABA and ASSA inserts and fixing elements (insert not included)

Characteristics	References

Stainless-Steel Industrial Boxes

Spacial SBX

4

Spacial SBX

Introduction	136
Characteristics	139
Accessories	140
Dimensions	144

What is stainless-steel?

How is the grade of stainless-steel determined?

These enclosures have been specially designed for the chemical, oil and food and beverage industries, among others, which are particularly demanding in terms of hygiene and resistance to corrosion.

Elaborate material composition

The following table shows the percentages of the main alloy elements that make up stainless-steels. The resistance of the material to aggressive agents in the environment depends mainly on these alloys.

4

Choosing a grade

Stainless-steel type		Chemical composition (%)			
AISI grade	N. Europe	Carbon	Chromium	Nickel	Molybdenum
304L	1.4307	< 0.03	17 - 19	8 - 10	0
316L	1.4404	< 0.03	17 - 19	10 - 13	2 - 2.25

AISI 304L stainless-steel

The most commonly used type in the food and beverage industry because of its resistance to corrosion and ease of cleaning.

- Prevention against corrosion, especially in the presence of organic acids.
- Resistance to the effects of nitrous gas in the presence of condensed water and in most aggressive environments.

AISI 316L stainless-steel

Recommended in salty or chlorinated environments because of its very high resistance to corrosion created by molybdenum.

- Improved resistance to corrosion.
- Particularly well adapted to environments with acidity, bromine and saline halides or very corrosive additives and solvents.

The finish

The finish: Three solutions for protection against aggressive substances

Surface condition plays an important role in the fight against bacteria. The lower the roughness, the fewer bacteria become incrustated. Reduced roughness means fewer bacteria, less adhesion, and a finish that's impeccable. The choice of finish determines the appearance of the enclosures that matches the environment of other machines and equipment.

Solution 1: Scotch-Brite® brushing

The method uses brushing as defined by the ASTM (American Society for Testing and Material).

- Finish very commonly used for the chemical and food and beverage industries.
- Surface roughness is improved thanks to an additional polishing process which offers more efficient characteristics against polluting elements.
- Surface roughness: $Ra \leq 0.8 \mu m$.

Solution 2: Micro-beading (on request)

Exclusiveness, an impeccable finish with silky-smooth appearance.

The method:

- Bombardment with miniscule ceramic balls of the entire surface to be treated at very high speed.
- Closes micro-cracks caused during lamination by flattening the surface.

The result:

- Increased hardness.
- Reduced surface roughness: $Ra \approx 0.8 \mu m$.
- A perfectly even surface, with a silky appearance (no scratches and no burrs).
- Reduces the adhesion of materials.
- Allows disinfection.
- Typical application: Pharmaceutical and food and beverage industries.

Solution 3: Protective coating (on request)

The highest protection against aggressive substances, external pollution and projections of metal particles.

- Provides ultimate protection against corrosion.
- Typical applications: Marine, seaside, off-shore.

Simplicity, ergonomics and quality.

4

Selection

- 6 sizes
- 80 (31.50) mm (in.) and 120 (47.24) mm (in.) in depth.

Sturdy with high ingress protection

- Thickness of 1.2 (0.47) mm (in.)
- Mechanical protection rating up to IK10.
- Ingress protection rating up to IP66.

Added-value for your work to your Work

- Quality and esthetics.
- Same dimensions as steel boxes (SBM range).
- Mounting with versatile external brackets.
- Certification (on request): UL, Veritas and BVM.

Ergonomics

- Cover opening and accessory mounting with just a screwdriver.

For details consult our web site
www.se.com

Characteristics	Spacial SBX Flat box
	<p>Box with plain faces Single-piece body (rectangular structure). Front design incorporating folded gutters. Flat rear. 2 drilled profiles for installing mounting plates and DIN rails, with mounting centers of 12.5 (4.92) mm (in.). Equipped with 4 half-turn thread screws to help ensure maximum watertightness. Polyurethane sealing gasket.</p> <p>Protection of personnel Earthing connection mandatory for all boxes: Spacial SBX Stainless-Steel boxes are equipped with an M6 x 10 (0.39) mm (in.) earthing stud welded on the cover, to be linked with the body for equipotential connection. Earthing braid to be ordered separately (Ø 6,4 (0.25) mm (in.) terminal).</p>
Material	AISI 304L stainless-steel, thickness of 1,2 (0.05) mm (in.)
Finish	Scotch-Brite® brushed.
Ingress protection rating	IP66
Mechanical protection rating	IK10
Compliance with standards	IEC 62208 and the RoHS directive.
Certifications	<ul style="list-style-type: none"> • UL, BV, BVM • NEMA Type 4, 4X, 13 according to UL 508A standard • Fire class: M0
Installation	<p>Indoor installation Direct wall-mounted (4 x Ø 10 (0.39) mm (in.) holes with sealing plugs to maintain the IP rating) or with the help of fixing lugs installed from the outside (to be ordered separately, see the specific accessory pages). Distance between mounting holes enables the installation of the box in the same locations as many existing enclosures.</p> <p>Outdoor installation Compliant with IEC 62208 regarding type tests specified in §9.12 resistance to ultra-violet (UV) radiation and §9.13 resistance to corrosion. It is always advisable to place the box under shelter to avoid water stagnation on the upper part of the enclosure.</p>
Maximum load capacity	On the body: 50 (110.23) kg (lbs.)/m²
Other characteristics	<p>Vibration constraints Specific construction of the Spacial SBX - single-piece body (rectangular structure). The rear is flat without added parts - this helps ensure compliance with certain vibration constraints. The tests were conducted according to the marine application by Bureau Veritas Marine.</p>

Self-tapping screws

NSYAMFSB

- Same reference for all dimensions
- Self-tapping, Pozidriv head, screws, for Ø 5 (1.97) mm (in.) holes.

Supply:
100 units

Characteristics	References
Self-tapping screws	NSYAMFSB

Sealing kit

NSYPPSB

- The sealing kit helps to set up a lead-sealed cable of cover opening.
- Color: Green
- Ingress protection rating: IP66 according to IEC 60529
- Installation: Replaces the standard sealing washer on the box
- Same reference for all dimensions

Supply:
1 unit

Characteristics	References
Sealing kit SBM	NSYPPSB

Mounting lugs

NSYAEFFSBX

- Wall-mounted lugs to be mounted directly on the rear of the box, either in horizontal or vertical position. Their versatile design complies with the mounting dimensions of many other enclosures.
- Installation: Horizontal or vertical position, distance between wall and enclosure: 12 (0.47) mm (in.)
- Maximum load: 70 (154.32) kg (lbs.)

Supply:
4 wall-mounted lugs, screws and pre-mounted sealing gaskets

Characteristics	References
Wall-mounted lugs	NSYAEFFSBX

Synthetic snap-in cable gland

- Without thread.
- Easy assembly and disassembly.
- Suitable for walls from 0,5 (0.02) to 4 (0.16) mm (in.) thick.
- Material: PA6 Polyamide, neoprene gasket
- Color: RAL 7035 grey, RAL 7001, RAL 9005.
Other colors on demand
- Cable entry material: Non armoured
- Installation options:
On cable gland plate or directly on enclosure
- Flexibility of the installation: Low
- Reversibility: Medium
- Ingress protection rating: IP66
- Cable retention: High
- Cable diameter mm (in.): From 16 (0.63) to 40 (1.58)
- Cable Installation time: Slow
- Quantity of cables to be fitted for a given surface: +
- Cable entries for cables with connectors: No
- Thread type: Metric EN 60423
Other types are available on demand
- Cut-out dimensions mm (in.):
Various circular hole diameters according to cable diameter
- External dimensions mm (in.): From Ø 22 (0.87) to 46 (1.81)
- Certificates: UL 94 V-2 (except for the size M40)
- Standard: DIN EN 62444, UL 514B, UL 514B§8.26.7
- Temperature range: -20°C (-4°F) to + 100°C (212°F)

Supply:

The cable glands are supplied with nuts
Pack of 20 (M16 and M20), of 10 (M25 and M32), of 5 (M40)

Stainless-steel cable gland with lamellar insert

- Lamellar technology provides excellent resistance to traction as well as excellent torsional protection. For aggressive environments.
- Material: Stainless-steel AISI 304L or AISI 316L, neoprene gasket
- Cable entry material: Non armoured
- Installation options:
 - On cable gland plate or directly on enclosure
- Flexibility of the installation: Low
- Reversibility: Medium
- Ingress protection rating: IP68
- Cable retention: High
- Cable diameter mm (in.): From 12 (0.47) to 40 (1.58)
- Cable Installation time: Slow
- Quantity of cables to be fitted for a given surface: +
- Cable entries for cables with connectors: No
- Thread type: Metric EN 60423

- Cut-out dimensions mm (in.): Various circular hole diameters according to cable diameter
- External dimensions mm (in.): From Ø 14 (0.55) to 43 (1.69)
- Certificates: UL 94 V-2
- Standard: DIN EN 62444, UL 514
- Temperature range: -20°C (-4°F) to + 100°C (212°F)

Supply:
The cable glands are supplied with nuts
Pack of 5 (M12 and M16), of 4 (M20 and M25), of 2 (M32 and M40)

Earth braids

- They help guarantee the earth connection for high frequencies, avoiding the disturbing electric currents that are produced.
- Material: Tinned copper.

Supply:
10 earth braids
(nuts and washers not included)
Reference by unit. Order by multiples of 10 (10, 20, 30...)

NSYEB156D6

Stainless-Steel Wall-Mounted Enclosures

Stainless-steel wall-mounted enclosures

5

Spacial S3X, Stainless-steel wall-mounted enclosures

Introduction	148
Characteristics	150
Selection guide	152
Accessories	153
Dimensions	157

What is stainless-steel?

How is the grade of stainless-steel determined?

These enclosures have been specially designed for the chemical, oil and food and beverage industries, among others, which are particularly demanding in terms of hygiene and resistance to corrosion.

Elaborate material composition

The following table shows the percentages of the main alloy elements that make up stainless-steels. The resistance of the material to aggressive agents in the environment depends mainly on these alloys.

5

Choosing a grade

Stainless-steel type		Chemical composition (%)			
AISI grade	N. Europe	Carbon	Chromium	Nickel	Molybdenum
304L	1.4307	< 0.03	17 - 19	8 - 10	0
316L	1.4404	< 0.03	17 - 19	10 - 13	2 - 2.25

AISI 304L stainless-steel

The most commonly used type in the food and beverage industry because of its resistance to corrosion and ease of cleaning.

- Prevention against corrosion, especially in the presence of organic acids.
- Resistance to the effects of nitrous gas in the presence of condensed water and in most aggressive environments.

AISI 316L stainless-steel

Recommended in salty or chlorinated environments because of its very high resistance to corrosion created by molybdenum.

- Improved resistance to corrosion.
- Particularly well adapted to environments with acidity, bromine and saline halides or very corrosive additives and solvents.

The finish

The finish: Three solutions for protection against aggressive substances

Surface condition plays an important role in the fight against bacteria. The lower the roughness, the fewer bacteria become incrustated. Reduced roughness means fewer bacteria, less adhesion, and a finish that's impeccable. The choice of finish determines the appearance of the enclosures that matches the environment of other machines and equipment.

Solution 1: Scotch-Brite® brushing

The method uses brushing as defined by the ASTM (American Society for Testing and Material).

- Finish very commonly used for the chemical and food and beverage industries.
- Surface roughness is improved thanks to an additional polishing process which offers more efficient characteristics against polluting elements.
- Surface roughness: $Ra \leq 0.8 \mu m$.

Solution 2: Micro-beading (on request)

Exclusiveness, an impeccable finish with silky-smooth appearance.

The method:

- Bombardment with miniscule ceramic balls of the entire surface to be treated at very high speed.
- Closes micro-cracks caused during lamination by flattening the surface.

The result:

- Increased hardness.
- Reduced surface roughness: $Ra \approx 0.8 \mu m$.
- A perfectly even surface, with a silky appearance (no scratches and no burrs).
- Reduces the adhesion of materials.
- Allows disinfection.
- Typical application: Pharmaceutical and food and beverage industries.

Solution 3: Protective coating (on request)

The highest protection against aggressive substances, external pollution and projections of metal particles.

- Provides ultimate protection against corrosion.
- Typical applications: Marine, seaside, off-shore.

These enclosures have been specially designed for the chemical, oil and food and beverage industries, among others, which are particularly demanding in terms of hygiene and resistance to corrosion.

5

Finishes

- Two types of steel offered as standard: 304L and 316L, with Scotch-Brite® brushed finish.
- Painted or micro-beaded finish (on request).

Robustness and durability

Resistance to external mechanical impacts:

- IK10: Plain door, IK08: Glazed door.
- Door reinforcement frame or profile.
- Stainless-steel hinges.

Large range of accessories

- Stainless-steel accessories: canopy, wall fixing lugs.
- Standard accessories: mounting plate, inner door, modular chassis and step slides.
- Large selection of locks made of 100% stainless-steel.

Time savings and convenience

- 304L or 316L stainless-steel wall fixing lugs.
- Vertical reinforcement perforated profiles, which make it easier to equip the door.
- Reversible door opening to 120°.
- Easy installation directly on the machine thanks to the 4 rear drilled holes.

Sealing

- Protection rating of IP66 (1 door) or IP55 (2 doors) according to IEC 60529: Complete protection against dust and water sprays.
- Polyurethane gasket.
- Gutter-shaped front profile.
- Three locking points for the double-door.

For details consult our web site

Plinth

- Material: Stainless-steel, AISI 304L or AISI 316L
- Finish: Scotch-Brite® brushing, to help guarantee the durability in applications where contact to the floor increases the risk of corrosion
- Installation: Plinth fixing kit must be ordered separately (ref. **NSYAPFXWM**) composed by fixing elements and drilling jig

5

Wall fixing lugs

- A: Enclosure height
- B: Enclosure width

Installation:

Mounting of the wall fixing lugs in horizontal or vertical position. Fixing from the outside.

- Wall-enclosure separation of 12 (0.47) mm (in.)
- Maximum load: 250 (551.16) kg (lbs.)

Supply:
Set of four wall fixing lugs

Characteristics	References
Wall fixing-lug, 304L stainless-steel	NSYPFCX
Wall fixing-lug, 316L stainless-steel	NSYPFC2X

Support bracket for enclosure with anti-tilt kit and reinforcement

- The support bracket is used when the enclosure cannot be hung from a wall or a post.
- Maximum enclosure dimensions: 1000 (39.37) x 800 (31.50) x 300 (11.81) mm (in.).
- Floor attachment by standard M12 fastenings.
- Material: Steel
- Finish: Epoxy polyester paint
- Color: RAL 7035 grey
- Maximum load: 120 (264.55) kg (lbs.)

Characteristics	Height mm (in.)	References

Wall-mounted door retainer, steel

To block the door in the open position.

- It is installed on enclosures with heights from 400 (15.75) mm (in.) and widths from 300 (11.81) mm (in.).
- Door opening angle: 120°.
- Earthing connection of the enclosure by means of the reinforcement rail.
- Earthing accessories supplied with the enclosure (earth-connection cable to be ordered separately), see [page 303](#).
- Material: Steel

Comment:
It is not compatible with installing the 19" swing rack and the internal door.

Characteristics	References
Wall-mounted door retainer, steel	NSYAEDRSCST

Eyebolts, Consult us for availability

- Material: Stainless-steel 304L
- Maximum load: 210 (462.97) kg (lbs.) per enclosure when slinging at 60°
- Supply reinforcing brackets attached to therings (these brackets also act as a drilling template)

NSYAELYTCRXG8

Characteristics	References
Set of 2 M8 eyebolts	NSYAELYTCRXG8

Inner door

- 3 (0.12) mm (in.) double-bar lock.
- Not compatible with door retainer and door switch. Consult us.
- Maximum load: 30 (66.14) kg (lbs.)/m²

Installation: As standard it can be mounted an inner door and a mounting plate, on the step slides, at the same time

- Can be mounted either on the front side of the enclosure or on step slides (not supplied with standard)

Supply:
1 inner door

Stainless-Steel Floor-Standing Enclosures

Spacial SMX

Spacial SFX

6

Spacial SMX SFX

Introduction	160
Characteristics	161
Accessories	162
Dimensions	166

These enclosures have been specially designed for the chemical, oil and food and beverage industries, among others, which are particularly demanding in terms of hygiene and resistance to corrosion.

6

Material and finishes

- AISI 304L as standard in Spacial SMX and SFX.
- AISI 316L as standard in Spacial SMX and on request in Spacial SFX.
- Finishes:
 - Scotch-Brite® brushed (standard).
 - Micro-beaded (on request).
 - Painted (on request).

Time savings and convenience

- Complete range of accessories for installation, cable management, etc.
- 316L stainless-steel plinth: easy cable entry.
- 304L or 316L stainless-steel plinth: easy cable entry (Spacial SFX and SMX).
- Reversible door opening to 120°.
- Padlock lock with key or form insert.
- Adjustment rails perforated with a pitch of 25 (0.98) mm (in.)
- Perforated reinforcement frame allowing accessories to be mounted on the door.

Sealing

- Protection rating against dust and water IP66 or IP55 depending on model according to IEC 60529.
- 3-point locking systems.
- Canopy (optional):
 - Protects the door sealing,
 - Helps guarantee correct water drainage,
 - No stagnation on the top.
- Single-piece cable gland plate with polyurethane gasket.

Compatible with the other ranges

- The mounting plates and other accessories of the Spacial SM and SF can be combined with metal products.

Hygiene

- The high quality of the standard finish enables very easy maintenance while avoiding contamination.
- The hygienic feet made from 316L stainless-steel, adjustable between 140 (5.51) mm (in.) and 200 (7.87) mm (in.) in height, make it easier to clean under the enclosures.

Robustness and durability

- Resistance to external mechanical impacts: IK10 according to IEC 62262.
- 3 hinges made entirely from stainless-steel.
- Door reinforcement frame.

Resistance to corrosion

- High resistance to corrosion. 304L and 316L stainless-steels provide the best solutions for applications in extremely demanding environments.

For details consult our web site www.se.com

Comment:

Ventilated plinths made of stainless-steel for heavy-duty outdoor enclosures (page 331) are compatible to Spacial SMX stainless-steel compact enclosures.

SMX Canopy

NSYSCTX10030

- Helps guarantee very high protection of the enclosure when used outdoors.
- Material: 304L stainless-steel sheet
Other types of stainless-steel, contact us
- Finish: Scotch-Brite® brushed
- Other finishes, contact us
- Thickness 15 (0.59)/10* mm (in.)
- Installation: It is fixed in the same holes as the eyebolt.

Supply:

Delivered with fixings. Other dimensions and canopy for sets, contact us

Eyebolts

- Material: Stainless-steel 304L
- Installation: By the fixing nuts supplied
- Maximum load: 340 (749.57) kg (lbs.) for 1 eyebolt in vertical direction

Supply:
Set of four M12 eyebolts

Characteristics	References
Eyebolt	NSYSMXEB

SFX Lifting bracket

- Material: Treated steel
- Installation: They are fixed instead of the eyebolts on two suitable enclosures side-by-side, helping guarantee the rigidity of the enclosure when lifted
- Maximum load: 1300 (2866.01) kg (lbs.) when slinging at 60°

Supply:
Set of four lifting brackets

Characteristics	References
Lifting bracket for SFX	NSYPUNX

SMX Wall fixing lugs

- Material: Stainless-steel 304L
- Installation: Mounting of the wall fixing lugs in horizontal or vertical position; Fixing from the outside

Supply:
Set of four wall fixing lugs

Characteristics	References
Wall fixing lugs for SMX	NSYFCMX

Hygienic feet

- Recommended for applications that require special hygiene conditions.
- Material: 316L stainless-steel
- Installation: Adjustable between 140 (5.51) mm (in.) and 200 (7.87) mm (in.) in height
- Maximum load: 200 (440.93) kg (lbs.) per foot.

Supply:
Set of 4 adjustable feet

Characteristics	References
Hygienic feet	NSYPHX200

SFX Coupling kit

- Used for joining enclosures side by side.
- Material: Flat connectors and brackets: Zinc-coated steel (**NSYSFBK19**); Sealing gasket: EPDM (**NSYSFXJG**)
- Ingress protection rating: IP55
- Installation: Fixing from the inside of the enclosures

Characteristics	References
Coupling kit for SFX	NSYSFBK19
Coupling kit for SFX	NSYSFXJG

Characteristics	183
Selection guide	184
Accessories	186

Technical Guide

Insulated industrial boxes Dimensions	190
--	------------

Insulated industrial boxes:

- ABS for conventional applications (IK07) in regular operating conditions
- Polycarbonate for enhanced impact resistance (IK08) and for outdoor applications or applications directly exposed to UV,
- polycarbonate with certified UL (cULus) rating according to UL50E: type 4 4X, IP66 rating for all ranges, protection against electrical impacts of Class II.

7

Easy to install

- 3 methods of fixing the box to its support

Smart

- Fixing studs on the cover.

Easy to use

- Only one tool is required:
A flat-bladed screwdriver.

For details consult our web site
www.se.com

Class II

Characteristics	Universal boxes rated IP66	ABS boxes with push-buttons rated IP54	ABS boxes prepared for push-buttons
	Boxes can be coupled (exactly the same dimensions) with kit ref. 13934 . Locks from box size of 116 (4.57) x 116 (4.57) x 62 (2.44) mm (in.): <ul style="list-style-type: none"> • Cover locking by 4 plastic captive screws with coarse thread outside the sealed area, • Plumbable lock. Locks from box size of 138 (5.43) x 93 (3.66) x 72 (2.84) mm (in.): <ul style="list-style-type: none"> • The standard screws (flat-bladed screwdriver) can be replaced with other standardised screws. The 4 reinforced edges of the cover help ensure its robustness and perfect support during customisation operations. Adaptable hinges on all the 20 (0.79) and 40 (1.58) mm (in.) covers.		
Material	ABS boxes: <ul style="list-style-type: none"> • Transparent cover made of polycarbonate • Glow wire resistance: 650°C (1202°F) according to IEC 60695-2-11 • Operating temperature: -25°C (-13°F) ... 60°C (140°F) • Installation temperature: -15°C (5°F) 0°C (32°F) ... 40°C (104°F) Polycarbonate boxes: <ul style="list-style-type: none"> • Glow wire resistance: 960°C (1760°F) • Usage temperature: -25°C (-13°F) ... 80°C (176°F) • Installation temperature: -15°C (5°F) ... 60°C (140°F) 	ABS boxes: <ul style="list-style-type: none"> • Glow wire resistance: 650°C (1202°F) according to IEC 60695-2-11 • Usage temperature: -25°C (-13°F) ... 60°C (140°F) • Installation temperature: -15°C (5°F) 0°C (32°F) ... 40°C (104°F) 	
Color	<ul style="list-style-type: none"> • Body: RAL 7035 grey • Cover: RAL 7035 grey or transparent 		
Ingress protection rating	IP66 according to IEC 60529	IP54 according to IEC 60529	—
Mechanical protection rating	ABS: IK07 according to IEC 62262 Polycarbonate: IK08 according to IEC 62262	ABS: IK07 according to IEC 62262	
Standards	IEC 62208		
Certifications	<ul style="list-style-type: none"> • IEC 62208 certified by TÜV • UL 508A: Polycarbonate range • Product Environmental Profile • Class II according to IEC 61140 Polycarbonate range: <ul style="list-style-type: none"> • NEMA 4.4X according to NEMA 250 • Self-extinguishing: UL 94 V-0 	<ul style="list-style-type: none"> • IEC 62208 certified by TÜV • Product Environmental Profile • Class II according to IEC 61140 	
Installation	Fixing the box: <ul style="list-style-type: none"> • Outside the sealed sensitive volume by the 4 chimneys in the corners from box size of 138 (5.43) x 93 (3.66) x 72 (2.84) mm (in.) • Through the rear of the box by 2 or 4 elongated holes to be perforated • With fixing lugs from box size of 116 (4.57) x 116 (4.57) x 62 (2.44) mm (in.) (ref. NSYAEFTB) Outdoor installation, only for polycarbonate range: Compliant with IEC 62208 regarding type tests specified in §9.12 (resistance UV radiation) and §9.13 (resistance to corrosion). Equipment installation: <ul style="list-style-type: none"> • Studs for fixing the equipment in the body and the cover of the box by means of a Ø 4 (0.16) mm (in.) self-tapping screw (ref. NSYAMFSTB, screw Ø 4 x 10 (0.39) mm (in.) with Pozidriv and slotted head) • Option of installing rails, plates or other types of supports (card, etc.) • Spacers and stand-offs to be installed on the studs for adjusting the height of the equipment 		

Comment:

For outdoor use and based on the configuration of the installation, a canopy must be installed on the top of the boxes or the boxes should be installed under a shelter to protect them against the different weather conditions and to avoid water stagnation between body and lid. Anti-condensation valves must be installed to prevent condensation and deformations of the boxes.

Mounting plates

Material:
Galvanized steel

Thickness: 15 (0.59)/10⁶ mm (in.)

Material:
Insulated polyester plate reinforced with fiberglass, halogen-free: Glow wire resistance 750°C (1382°F) according to IEC 60695-2-11.

Thickness: 25 (0.98)/10⁶ mm (in.)

Button description

- Emergency-off function with a red, Ø 40 (1.58) mm (in.), turn-to-unlock palm button.
 - Start/stop function with 2 push-buttons.
 - Up/down/stop function with 3 push buttons.
- Ref. **XALEK1702** houses an emergency switching off palm button with mechanical locking according to standards IEC 60364-5-53 and 60947-5-5.

Technical features of the switches:

- NC switch with positive opening manoeuvre according to IEC 60947-5-1 appendix K,
- Mechanical durability of the emergency switch: 0.1 million cycles,
- Mechanical durability of the NC and NO switches: 5 million cycles,
- Protection against short circuits: 10 A.

Coupling kit

13934

- The coupling kit allows you to join several boxes with dimensions from 138 (5.43) x 93 (3.66) mm (in.).
- Material: Polystyrene, glow wire resistance: 650°C (1202°F) according to IEC 60695-2-11
 - Ingress protection rating: IP66 according to IEC 60529
 - Installation: The kit is installed by drilling a hole with Ø 32 (1.26) mm (in.) in the boxes to be coupled

Supply:
The kit consists of 2 linking parts, nuts and seals

Characteristics	Drilling Ø mm (in.)	Minor pack.	Reference
Coupling kit	32 (1.26)	1	13934

Sealed anti-condensation valve

NSYCAG12LPH1

- Controls the pressure to avoid condensation and/or deformations of the boxes due to internal temperature changes. Protection of equipment for luminaires, industrial control, transportation, pumps, etc.
- Material: PA6-V-2, acrylic co-polymer membrane, water and oil repellent
 - Ingress protection rating: IP68
 - Installation: The valve is installed by drilling a hole with Ø 12 (0.47) mm (in.) in the box
 - Usage temperature: -40°C (-40°F) ... 105°C (221°F)
 - Permeability: Air flow under ΔP = 0.7 bar
 - Pressure difference: Condition for IP68

Supply:
10 valves, nuts and seals

Characteristics	Permeability	Pressure difference	Drilling Ø mm (in.)	Minor pack.	Reference
Sealed anti-condensation valve IP68	16 litres/h	ΔP < 1 bar	12 (0.47)	1	NSYCAG12LPH1
Sealed anti-condensation valve IP68	120 litres/h	ΔP < 0.1 bar	12 (0.47)	1	NSYCAG12LPH2

Cover accessories Set

NSYAEDST820TB

NSYAEDSB520TB

NSYAEDS20TB

- The Thalassa boxes are delivered as standard with slotted-head screws for flat-bladed screwdrivers from 4 (0.16) to 5.5 (0.22) mm (in.).
- With box sizes from 138 (5.43) x 93 (3.66) x 72 (2.84) mm (in.), these screws can be replaced for screws with different standardised heads to comply with most cases.
- After removing the standard screw, simply position the new screw by pressing on it.
- The adapter clips (intermediate parts for tightening the cover on the body of the box) are the same as those for the standard screws. They are not delivered with the shaped screws.
- A single key for opening the boxes as well as the other enclosures of your installation.

Supply:
Set of 4 shape screws

Characteristics	Minor pack.	Reference
Triangular screw Ø 8 (0.32) mm (in.), for Thalassa boxes, Height of the lid 20 (0.79) mm (in.)	1	NSYAEDST820TB
Double-bar screw Ø 5 (0.20) mm (in.), for Thalassa boxes, Height of the lid 20 (0.79) mm (in.)	1	NSYAEDSB520TB
Spare standard plastic screw for Thalassa boxes, Height of the lid 20 (0.79) mm (in.)	1	NSYAEDS20TB
Spare standard plastic screw for Thalassa boxes, Height of the lid 40 (1.58) mm (in.)	1	NSYAEDS40TB
Spare standard plastic screw for Thalassa boxes, Height of the lid 60 (2.36) mm (in.)	1	NSYAEDS60TB

Cover accessories Pack

NSYAEDKTB

- The handle (or thumbwheel) allows the screws to be handled without any tools. It is ideally combined with a box equipped with hinges.
- It snaps onto the head of the standard plastic screw.

Supply:
Pack of 4 handles

Characteristics	Minor pack.	Reference
Handles	1	NSYAEDKTB

Hinges, set of 2 hinges

NSYAEDH20TB

- The hinges can be adapted to all covers with a height of 20 (0.79) and 40 (1.58) mm (in.) with dimensions from 138 (5.43) x 93 (3.66) mm (in.).
- The hinge allows the lid to open fully to 200°.
- Ingress protection rating: IP66 according to IEC 60529
- Installation: The hinge does not require any machining and is installed easily even with the box already equipped
- Maximum load: Hinged cover: 10 (22.05) kg (lbs.)/m²

Supply:
The hinges (2 per set) are delivered with the fixings, minor pack 1

Characteristics	Height of the lid mm (in.)	References
Set of 2 hinges	20	NSYAEDH20TB
Set of 2 hinges	40	NSYAEDH40TB

Hinges, Set of 4 fixing lugs

NSYAEFTB

- Plastic fixing lugs for installation on boxes with dimensions from 116 (4.57) x 116 (4.57) mm (in.).
- Option of vertical or horizontal installation.
- Installation: Installation by a single screw at the last moment, with the box closed and equipped
- Maximum load: Body: 30 (66.14) kg (lbs.)/m², Cover: 10 (22.05) kg (lbs.)/m²

Supply:
4 lugs + screws, minor pack 1

Characteristics	Reference
Set of 4 fixing lugs	NSYAEFTB

Mounting plates

NSYAMP1916TB

- Mounting plates made to adapt to all usage scenarios.
- Material: Galvanized steel
- Thickness: 15 (0.59)/10^e mm (in.)
- Installation: Fixing by means of Ø 4 (0.16) mm (in.) self-tapping screws, Pozidrive and slotted head, ref. **NSYAMFSTB**

- Mixed membrane entries for enclosure thickness 20 (0.79)/10^e - 32 (1.26)/10^e mm (in.)
- Material: SBS
- Color: RAL 7035 grey or RAL 9010 white
- Cable entry material: Soft membrane
- Cable glands to be fitted: Not applicable
- Installation options: On cable gland plate or directly on enclosure
- Flexibility of the installation: Low
- Reversibility: Medium
- Ingress protection rating: IP55 according to IEC 60529

- Cable retention: Low
- Cable diameter mm (in.): From 20 (0.79) to 40 (1.58)
- Cable Installation time: Fast
- Quantity of cables to be fitted for a given surface: +
- Cable entries for cables with connectors: No
- Cut-out dimensions mm (in.): Various circular hole diameters according to cable diameter
- External dimensions mm (in.): From Ø 23 (0.91) to 44 (1.73)
- Flame resistance: 750°C (1382°F)

Supply:
Minor packaging of 10 pieces

PLS boxes: Polyester rear and PC transparent cover with wing screws for manual opening

7

Protection

IP66.
Gasket between body and cover.
IK09.
Insulation Class II.

Modular

The dimensions of the sides, multiples of 9 cm, allow the creation of assemblies.

Easy

Bosses with inserts, at the rear of the body, for fixing plates or various supports.

For details consult our web site
www.se.com

Prolonged exposure to UV radiation, wind and rain can cause aesthetics changes in the external surface of the enclosure. Without affecting the technical properties according to IEC 62208. For long exposure applications, it is recommended to use painted enclosures available through the P&S offer.

Class II

Complete box

Characteristics	NSYPLS5454AG	NSYPLS1827G	NSYPLSC5472AG	NSYPLSC1827G	NSYPLSP1827G
-----------------	--------------	-------------	---------------	--------------	--------------

- Insulated boxes that can be coupled by all their side surfaces, allowing the creation of the greatest variety of modular assemblies.
- The product references show the two lateral dimensions in cm.
- 14 sizes of insulated boxes; The sides are multiples of 90 (3.54) mm (in.).
- Body made from polyester reinforced with fiberglass, molded by hot compression, 9 sizes.
- 3 types of cover available according to the sizes:
 - Standard cover, made from transparent polycarbonate with neoprene gasket, 45 (1.77) mm (in.) high, or 95 (3.74) mm (in.) high (final index A) according to the sizes,
 - Opaque polycarbonate cover (index C), with neoprene gasket, 45 (1.77) mm (in.) high, or 95 (3.74) mm (in.) high (final index A) according to the sizes,
 - Polyester reinforced with fiberglass cover (index P) with PUR gasket, 45 (1.77) mm (in.) high.
- Complete box includes body, cover, locking screws and sealing device.
- The bodies (prefix F) and the covers (prefix T) are supplied separately as standard references. The separate covers are supplied without locking screws or sealing accessories.
- The PLS enclosures with transparent cover are also offered in sets; The reference refers to the complete set.
- Excellent resistance to corrosion; withstands most chemical substances.
- Full insulation to create Class II assemblies.
- Standard lock with slot screws outside the volume of the boxes. Delivered with sealing system.
- External wall-mounted by 4 lugs, to be ordered separately.
- Service temperature: -40°C (-40°F) to 80°C (176°F)
- Bosses with M6 inserts for fixing the mounting plate.
- Halogen-free and compliant with the RoHS directive.

Color	RAL 7035 grey (opaque bodies and cover)
Ingress protection rating	IP66
Mechanical protection rating	IK09
Certifications	<ul style="list-style-type: none"> • Certification according to standard IEC 62208 to ensure compliance with IP, IK, resistance to heat and fire (self-extinguishing), insulation to 5000 V, and load of the mounting plate, 100 (220.46) kg (lbs.)/m² • UL508A* CAN/CSA-C22.2 - Types 1, 2, 3, 3R, 3S, 4, 4X, 12 and 13
Installation	Outdoor installation: Compliant with IEC 62208 regarding type tests specified in §9.12 (resistance to UV radiation) and §9.13 (resistance to corrosion). It is always advisable to install a canopy to avoid water stagnation on the top of the enclosure and to protect against UV radiation.

Examples of assembly

All the boxes can be joined by their lateral surfaces using the coupling frames **NSYUM●●●** or **NSYUCC●●●**, and the joining and fixing pieces **NSYPS2C27** and **NSYPS4C27**.

Insulated Wall-Mounted Enclosures

Polyester wall-mounted enclosures

Thalassa PLM

Introduction	198
Characteristics	199
Selection guide	200
Specific accessories	201
Dimensions	210

Monobloc wall-mounted enclosure, made of polyester reinforced with fiberglass, molded by hot compression. Degree of protection IP66, impact resistance IK10 for plain doors and surfaces, and IK08 for glazed doors of polyester versions, UL certification (cULus), rating according to UL50E 4x and 13 for polyester wall-mounted enclosures. Full insulation to produce Class II-units compliant with RoHS and REACH directives

8

Easy installation

- Door easily reversible by turning it over.
- Opening to 120° or 180°.
- Easy machining with no corrosion.
- Lightness.
- Polyamide hinge pin, easily removable and captive.

Service life

- High resistance to corrosion in harsh environments, maintaining mechanical properties and insulation.

Smart interior

- Notches for easy fixing of DIN rails.
- Grid pattern on the rear of the door for marking the machining operations.

Landscape enclosures

- Horizontal enclosures for photovoltaic and multiple applications
- Easily and quickly removable door system (without removing hinges and pins)
- For more details see [page 338](#)

For details consult our web site www.se.com

 Prolonged exposure to UV radiation, wind and rain can cause aesthetics changes in the external surface of the enclosure. Without affecting the technical properties according to IEC 62208. For long exposure applications, it is recommended to use painted enclosures available through the P&S offer.

Class II

Characteristics	ABS/PC wall-mounted enclosures	Polyester wall-mounted enclosures	
	<ul style="list-style-type: none"> • Monobloc wall-mounted enclosure. • Version with transparent polycarbonate door. • Door opening: 180°. • Supplied with a lock with double-bar insert as standard 	<ul style="list-style-type: none"> • Monobloc wall-mounted enclosure. • Version with transparent tempered-glass door. • Door opening angle: 120°. • Grid pattern with a pitch of 50 (1.97) mm (in.) on the back of the door. • Supplied with one lock with a double-bar insert as standard. 	<ul style="list-style-type: none"> • Monobloc wall-mounted enclosure. • Version with transparent tempered-glass door. • Locking device outside the sealed area to ensure long-term tightness according to IP66. • Locking system: enclosure height ≤ 847 (33.35) mm (in.): 2 locks with double-bar insert ref. Characteristics	ZM plinth for PLM enclosure <ul style="list-style-type: none"> Designed to support and raise enclosures NSYPLM75G, NSYPLM86G and NSYPLM108G. Plinth height of 200 (7.87) mm (in.); stackable to obtain a 400 (15.75) mm (in.) plinth. Four floor attachment points; The symmetry of the parts prevents incorrect assembly. <p>The front parts of the plinth (front and rear) have two stainless-steel screws protected by a plastic cap; these screws make it possible (using an Allen key) to open and remove the front parts for easier cable installation. In stacked position, the bottom plinth can be partially buried. It is provided with one transverse reinforcement rail, adjustable to adapt to the position of the cables. The reference of the plinth contains all the accessories required for attaching the enclosure to the plinth and for stacking two plinths.</p>
Material	Polyester reinforced with fiberglass, molded by hot compression
Ingress protection rating	IP44
Mechanical protection rating	IK10
Standards	Helps guarantee full insulation according to IEC 61439-1

Wall fixing lugs	NSYFPXPLM

Post fixing device

NSYSFP300

- For outdoor installations on a post with a maximum circumference of 675 (26.58) mm (in.), Ø 215 (8.46) mm (in.).
- Material: Galvanized steel
- Maximum load: 100 (220.46) kg (lbs.)

Supply:
Supply of 2 rails, the strips and the fixings

Characteristics	For wall-mounted enclosure	Reference
Post fixing device	NSYPLM43G	NSYSFP300
Post fixing device	NSYPLM54G and NSYPLM64G	NSYSFP400
Post fixing device	NSYPLM75G	NSYSFP500
Post fixing device	NSYPLM86G	NSYSFP600

Blanking plates

Aesthetic Accessory. They are positioned on the rear surface of the enclosures to block the openings in the corners in order to improve their appearance or prevent the entry of unwanted elements in the airing shaft. Supplied as standard for enclosure, ref. **NSYPLM108G**.

- Material: Thermoplastic
- Color: RAL 7035 grey
- Ingress protection rating: IP40

Accessory is mounted outside the IP66-protected area.

NSYCEPLMAG

Characteristics	For wall-mounted enclosure	Reference
Blanking plates	NSYPLM32G	NSYCEPLMAG
Blanking plates	NSYPLM43G and NSYPLM54G	NSYCEPLMBG
Blanking plates	NSYPLM64G, 75G and 86G	NSYCEPLMCG

Support bracket for enclosure with anti-tilt kit and reinforcement

NSYCOCONS1400

- The support bracket is used when the enclosure cannot be hung from a wall or a post.
- Maximum enclosure dimensions: 1000 (39.37) x 800 (31.50) x 300 (11.81) mm (in.).
- Floor attachment by standard M12 fasteners.
- Material: Steel
- Finish: Epoxy polyester paint
- Color: RAL 7035 grey
- Maximum load: 120 (264.55) kg (lbs.)

Characteristics	Height mm (in.)	References
Support bracket for enclosure with anti-tilt kit and reinforcement	1400 (55.12)	NSYCOCONS1400
Support bracket for enclosure with anti-tilt kit and reinforcement	1800 (70.87)	NSYCOCONS1800

Internal door

- Reversible door.
- Grid pattern with a pitch of 25 (0.98) mm (in.) for easier marking before drilling.
- Closes with 2 double-bar locks.
- Door handle.
- Steel internal door, without grid pattern and locking by a screw, for enclosures ref. **NSYPLM3025G**.
- Incompatible with the modular distribution chassis.
- Material: Polyester reinforced with fiberglass, self-extinguishing
- Color: RAL 7035 grey

Supply:
Delivered with fixings and brass inserts

Polyester Floor-Standing Enclosures Thalassa PLA, PLAT, PLAZ, PLAZT, Introduction

The **floor-standing enclosures** are made of **polyester reinforced with fiberglass**, molded by hot compression. High resistance to corrosion in harsh environments, it maintains its mechanical and insulation properties.

New Bigger dimensions

Enclosures with a height of 2000 (78.74) mm (in.) and a depth of 620 (24.41) mm (in.) have been included to suit the demands of industry and infrastructure for the integration of motor controllers, power distribution, electronic or telecommunication devices

PLAT version

Airing

- Open top with canopy allows passive airing.

Easy mounting

- Various bosses for M8 inserts.

PLAZ version

Open bottom

- Big open bottom to be mounted directly on the floor or on a plinth.

Smart interior

- Plain mounted plate installed on step slides and compulsory adapter plates in all the enclosures with open bottom part.

PLAZT version

Easy installation

- Door opening to 180°.

Resistant

- Anti lever security system..

For details consult our web site www.se.com

Prolonged exposure to UV radiation, wind and rain can cause aesthetics changes in the external surface of the enclosure. Without affecting the technical properties according to IEC 62208. For long exposure applications, it is recommended to use painted enclosures available through the P&S offer.

Class II

Horizontal coupling kits, 15 (0.59) mm (in.), joining two enclosures mounted on ZA plinths

- For coupling two enclosures side by side.
- Coupling frame kit: Made up of a coupling kit and the fixings required for installation.
- Trim kit: Made up of two frames for aesthetic fitting of the two coupled enclosures
- Coupling kit widths: 15 (0.59) mm (in.), joining two enclosures mounted on ZA plinths
- Ingress protection rating: IP55 at the coupling point

Note:
Not valid for coupling two enclosures using ZZ or ZH type plinth.

Vertical coupling kit

- For coupling two enclosures on top of one another.
- Kit made up of 3.5 (137.80) mm (in.) of adhesive seal and the fixings required for mounting.
- Ingress protection rating: IP55 at the coupling point

Characteristics	References
Vertical coupling kit	NSYUVPPLA

Canopy

- Can be installed in all enclosure models.
- High resistance to impacts, temperature and bad weather.
- Increases the height (A) of the enclosure by 38 (1.50) mm (in.) without modifying its width or depth.
- Material: Polyester reinforced with fiberglass
- Color: RAL 7035 grey
- Installation: Essential for outdoor use

Supply:
Delivered with the fixings required for installation

Floor-fixing studs

NSYFSP LAZ

- Description: Set of four threaded parts and fixings for fixing the enclosures on concrete plinths.

Characteristics	References
Floor-fixing studs	NSYFSP LAZ

Internal door

- Designed for direct installation in enclosures with sealed bottom part. In the enclosures with the bottom part open, installation can be
- Performed by ordering the necessary adapter plates, ref. **NSYPTZ●●●●**.
- Two depthwise mounting positions (two positions for depthwise installation) according to the chosen M8 impressions, on the top and bottom parts of the enclosure, for fixing.
- Lock with 5 (0.20) mm (in.) double-bar inserts.
- Not compatible with: Modular distribution chassis, 19" chassis, cable entry plate and door retainer, ref. **NSYRETPLAU**.
- Material: Aluminum
- Color: RAL 7035 grey

Supply:
Delivered with M8 brass inserts and fixings

19" fixed chassis

Installation: For heights from 750 (29.53) to 1500 (59.06) mm (in.), the installation requires ordering one set of two matching uprights. If a chassis is installed in an enclosure with a greater height, it is necessary to use the suitable uprights for the size of the enclosure

- Very sturdy 19" metal chassis, designed for installation in enclosures with a width of 750 (29.53) and 1250 (49.21) mm (in.). In the 1250 (49.21) mm (in.) enclosures width, the chassis is installed in the 750 (29.53) mm (in.) part with an intermediate support, ref. **NSYSBPLA**.
- These chassis can be used as partial mounted plates in enclosures with a height greater than the nominal height.
- Incompatible with the internal doors and the step slides.
- Fixed chassis made up of two uprights with fixings
- Material: Galvanized steel
- Finish: Epoxy polyester paint
- Color: RAL 7035 grey
- Maximum load: 3 (6.61) kg (lbs.) per unit

Note:
For dimensions see [page 237](#)

Support plate

NSYSPLA75

Installation:

It is installed directly on the bottom part of the enclosure.

For the installation of one or several support plates, use two sets of two uprights suitable for the height (to be ordered separately). These uprights offer the option of adjusting the height with a step of 50 (1.97) mm (in.)

- Designed to support assorted equipment or simply to install a separation.
- In the two door enclosures, the installation of the plate or the uprights requires the prior installation of an intermediate support, ref. **NSYSBPLA**, presented beside.
- Material: Galvanized steel

Supply:

Delivered with the fixings required for installation

Mounting Plates for Wall-Mounted Enclosures

Accessories - Mounting

- S3D
- S3X
- PLM

Characteristics	Mounting plates, plain	Mounting plates, silkscreened	Mounting plates, microperforated**	Telequick Mounting plate**
	-	Silkscreened for easier distribution of the products to be installed. Centimetric grid pattern.	They considerably reduce products installation time thanks to the holes prepared to receive the self-tapping screws. Holes with Ø 3.6 (0.14) in steps of 12.5 (0.49) mm (in.).	They allow cable guides and ducting and other installation accessories to be clipped on, making it easier to install switchgear. 11 (0.43) mm (in.) x 26 (1.02) mm (in.) slots. Switchgear fixing by clip-on nuts.
Material	Galvanized steel	Galvanized steel	Galvanized steel	Zinc-coated steel

* Plate with reversible dimensions; It can be installed in enclosures with inverted dimensions. Example: Plate ref. **NSYMM64** can be used for the following enclosures: H 600 (23.62) x W 400 (15.75) mm (in.) or H 400 (15.75) x W 600 (23.62) mm (in.). For plain and silkscreened mounting plates: In wall-mounted enclosures with widths of 1000 (39.37) and 1200 (47.24) mm (in.), it is possible to install two mounting plates at different depths using an additional central step slide **NSYSDRSDCR...** (more information on [page 243](#)).

** To install two mounting plates in a single enclosure, also order reference **NSYCRNGSDR**. See details on [page 243](#).
To install the plate in an enclosure with six studs, also order reference **NSYEMR**.

* Plate with reversible dimensions; It can be installed in enclosures with inverted dimensions. Example: Plate ref. **NSYMM64** can be used for the following enclosures: H 600 (23.62) x W 400 (15.75) mm (in.) or H 400 (15.75) x W 600 (23.62) mm (in.). For plain and silkscreened mounting plates: In wall-mounted enclosures with widths of 1000 (39.37) and 1200 (47.24) mm (in.), it is possible to install two mounting plates at different depths using an additional central step slide **NSYSDRSDCR...** (more information on [page 243](#)).

** To install two mounting plates in a single enclosure, also order reference **NSYCRNGSDR**. See details on [page 243](#).
To install the plate in an enclosure with six studs, also order reference **NSYEMR**.

S3D S3X PLM Elevator for microperforated mounting plate

AZ1CA04

- Mounting plate elevator to mount the microperforated mounting plate on the same level as the other Telequick system components.

Supply:
Four units

Characteristics	Reference
Elevator for microperforated mounting plate	AZ1CA04

Clip-on nuts for Telequick mounting plate

AF1EA3

- Used to easily fix devices on the Telequick mounting plate with the option of changing the layout as much as needed.

Supply:
100 units. Reference by unit. Order by multiples of 100 (100, 200, 300...)

Characteristics	Reference
Clip-on nuts for Telequick mounting plate, Model M3	AF1EA3
Clip-on nuts for Telequick mounting plate, Model M4	AF1EA4
Clip-on nuts for Telequick mounting plate, Model M5	AF1EA5
Clip-on nuts for Telequick mounting plate, Model M6	AF1EA6

S3D S3X Step slides for mounting plate

NSYSDCR200

- Set of four supports intended for installation in enclosures with depths of 200 (7.87), 250 (9.84), 300 (11.81) and 400 (15.75) mm (in.).
- The rail allows the depth of the plate and other accessories to be adjusted in steps of 12.5 (0.49) mm (in.).

Supply:
Four step slides

Characteristics	Enclosure depth mm (in.)	Reference
Step slides for mounting plate	200 (7.87)	NSYSDCR200
Step slides for mounting plate	250 (9.84)	NSYSDCR250

S3D S3X Slide bracket for two mounting plates at different depths

NSYCRNGSDR

- Additional slide bracket to be installed on the central step slides in order to mount two mounting plates, side by side, in different depths.

Supply:
Two slide brackets

Characteristics	Reference
Slide bracket for two mounting plates at different depths	NSYCRNGSDR

S3D S3X PLM PLA Aluminum vertical rails

- Fixing in the enclosure with M8 nuts, ref. **NSYAMCSF** (set of 4 adapters to be ordered separately).

NSYMDVR3

Characteristics	Height mm (in.)	Supply (units)	References
Aluminum vertical rail, aluminum	300 (11.81)	10	NSYMDVR3

Sliding Nuts

NSYNM5

- Sliding nuts to be used on aluminum vertical rails.

Supply:
100 Sliding nuts

Characteristics	Type	References
Sliding Nut	M4	NSYNM4
Sliding Nut	M5	NSYNM5
Sliding Nut	M6	NSYNM6

Brass nuts to fix the upright to the enclosures

NSYAMCSF

Supply:
Four Brass nuts

Characteristics	References
Brass nuts for screws M8 to fix the upright to the enclosures	NSYAMCSF

Slides and brackets

NSYSB90

NSYFB

- They allow the depth of the plates and rails to be adjusted.

Supply:
10 units. References per unit. To be ordered in multiples of 10 (10, 20, 30, etc.).

Characteristics	Width mm (in.)	Enclosure depth mm (in.)	References
Slide with bracket	90 (3.54)	150 (5.91) and 200 (7.87)	NSYSB90
Slide with bracket	130 (5.12)	250 (9.84) and 300 (11.81)	NSYSB130
Bracket for slides (customized mounting plate)			NSYFB

Notched clamp nuts

DZ5MF6

- Specially designed for pre-drilled uprights.

Supply:
100 units. References per unit. To be ordered in multiples of 100 (100, 200, 300, etc.).

Characteristics	Type	Weight (g)	References
Notched clamp nuts	M6	7.0	DZ5MF6
Notched clamp nuts	M8	8.0	DZ5MF8

SM SMX SF SFX Plain mounting plate

- Depth adjustable with a pitch of 25 (0.98) mm (in.), provided with plastic shoe for easier sliding.
- Once the plate is fixed, in advanced position, the sliding shoe can be easily removed to increase the available plate surface.
- In sets made up of two or more enclosures with mounting plates, it is possible to obtain a continuous plate surface using intermediate mounting plates (see [page 247](#)).
- Load: 300 (661.39) kg (lbs./m²)
- Maximum load: 600 (1322.77) kg (lbs.) in the back of the enclosure and 500 (1102.31) kg (lbs.) in the intermediate position
- Material: Galvanized steel

Fixing options:

- At the sides of the enclosure with the orthogonal brackets (see [page 247](#))
- Back-to-back, with the brackets for fixing the mounting plates in back-to-back position (see [page 247](#))
- For 400 (15.75) mm (in.) wide plates: with sliding rails and brackets, orthogonal brackets when mounted at back position, or with standard fixing brackets when mounted at middle position.

Supply:

One mounting plate and sliding shoes

SM SMX SF SFX SD SDX Perforated mounting plate Telequick

- Allows the installation of switchgear without drilling or screwing.
- Plate designed for quick-fixing of switchgear by means of clip-on nuts ref. **AF1EA3** to **AF1EA6**.
- Vertical continuity is reinforced by the vertical installation of plates.
- The top plate must be fixed in the third hole, 80 (3.15) mm (in.) from the top frame.
- Load: 150 (330.69) kg (lbs.)/m²
- Material: Zinc-coated steel

Fixing options:

- Directly to the vertical uprights of the structure, by means of self-tapping screws (only Spacial SF)
- To the technical vertical uprights, by means of sliding nuts, see [page 251](#);
- To standard uprights by means of flat nuts, see [page 251](#) or self-tapping screws, and to cross-rails

Comment:

Examples of combination see [page 306](#)

Supply:

One perforated mounting plate and fixing elements for technical uprights and screws for fixing to the structure or cross-rails

SM SF SFX Partial mounting plate

- Partial mounting plate, provided with reinforcement flange on its four sides.
- Load: 250 (551.16) kg (lbs.)/m²
- Material: Galvanized steel

Fixing options:

Spacial SF, SFX:

- Fixing to the vertical uprights of the structure
- Fixing to the technical or standard vertical uprights, see [page 251](#)
- For installations in advanced position, fixing to cross-rails, see [page 254](#)

Spacial SM:

- Fixing by means of adaptation profiles and 40 (1.58) mm (in.) universal cross-rails (one row) in vertical position, or also on horizontal universal cross-rails
- It can be mounted horizontally, as a tray, by means of depthwise cross-rails, see [page 254](#)

Supply:

Partial mounting plate and fixing elements

SF SFX Intermediate mounting plate

- Obtains a continuous surface of the mounting plate at enclosure suites.
- Adjustable depth with a pitch of 25 (0.98) mm (in.). When the mounting plates are located in the back of the enclosure, the vertical profiles of the structure are flush with the plates, acting as an intermediate mounting plate. In this case the intermediate plate cannot be installed.
- Material: Galvanized steel

Supply:
One intermediate plate and fixing elements

Characteristics	Height mm (in.)	References
Intermediate mounting plate	1200 (47.24)	NSYSIMP12
Intermediate mounting plate	1400 (55.12)	NSYSIMP14
Intermediate mounting plate	1600 (62.99)	NSYSIMP16

Intermediate mounting plate	2000 (78.74)	NSYSIMP20
Intermediate mounting plate	2200 (86.61)	NSYSIMP22

SF SFX Intermediate fixing of the mounting plate, located in the back of the enclosure

- Support for additional fixing of the mounting plate, at any height of the plate when the plate is mounted in the back of the enclosure.
- The supports minimize the vibration of the plate during the transport and operation of the panel.
- Material: Zinc-coated steel
- **Fixing:** The supports are fixed to the structure when the plate is already located in the back of the enclosure
Spacial SM: Fixing to 40 (1.58) mm (in.) universal cross-rails (one row), installed vertically in the back of the enclosure, see [page 254](#)

Supply:
Ten units and fixing elements.
Reference by unit. Order by multiples of 10 (10, 20, 30...)

Characteristics	References
Intermediate fixing of the mounting plate, located in the back of the enclosure	NSYSMPFB

SF SFX Intermediate fixing of the mounting plate, in advanced position

- Support for additional fixing of the mounting plate, at any height of the plate when the plate is mounted in advanced position.
- The supports minimize the vibration of the plate during the transport and operation of the panel.
- Material: Zinc-coated steel
- **Fixing:** The supports are mounted on light cross-rails or on 40 (1.58) mm (in.) (one row) universal or quick-fixing cross-rails (not supplied), see [page 254](#)

Supply:
Ten units and fixing elements.
Reference by unit. Order by multiples of 10 (10, 20, 30...)

Characteristics	References
Intermediate fixing of the mounting plate, in advanced position	NSYSMPFA

SF SFX Reinforcement for mounting plate

- Reinforcement kit for transversal mounting plate.
- Provides extra rigidity to the mounting plates and absorbs vibrations.
- Can be used as a support for fixing very heavy elements.
- Material: Zinc-coated steel
- Thickness: 15 (0.59)/10° mm (in.)

Supply:
Two profiles, four supports for fixing to the mounting plate and fixing elements

Characteristics	Width mm (in.)	References
Reinforcement for mounting plate	800 (31.50)	NSYMPRK8
Reinforcement for mounting plate	1000 (39.37)	NSYMPRK10
Reinforcement for mounting plate	1200 (47.24)	NSYMPRK12
Reinforcement for mounting plate	1600 (62.99)	NSYMPRK16

Mounting plate accessories

Self-tapping screw

- Hexagonal head, 4.8 (0.19) x 16 (0.63) mm (in.) thread.
- Drilling capacity: Thicknesses between 17 (0.67).5/10° (in.) and 40 (1.58)/10° mm (in.).

Supply:
100 units. To be ordered in multiples of 100 (100, 200, 300, etc.).

Characteristics	References
Self-tapping screw	NSYS16M5HS

Mounting Plate Brackets for Floor-Standing Enclosures

SM SMX SF SFX Mounting plate fixing brackets

NSYSFPB

- For direct mounting on the structure of the enclosure.
- Adjustable depth with a pitch of 25 (0.98) mm (in.).
- Material: Zinc-coated steel
- Maximum load: Four brackets: 600 (1322.77) kg (lbs.)

Supply:
Four brackets and fixing elements

Characteristics	References
Spacial SF Mounting plate fixing brackets	NSYSFPB
Spacial SM/SMX/SFX Mounting plate fixing brackets	NSYSMPB

SF SFX Orthogonal brackets

NSYSMPB

- Designed for the installation of mounting plates on the sides of the enclosure.
- When installing one plate in the back of the enclosure and one plate at the side, they must both be installed using orthogonal brackets.
- Spacial SFX: Mounting the lateral mounting plate requires the removal of the one on the back and its fixing brackets. Material: Zinc-coated steel
- Maximum load: Four brackets: 600 (1322.77) kg (lbs.)

Supply:
Four brackets and fixing elements

Characteristics	References
Spacial SF/SFX Orthogonal brackets	NSYSMPB

SF Mounting plate sliding rails

NSYSMPS4

- Rail in which the mounting plate slides along when inserted in the enclosure.
- Once the mounting plate is installed and fixed to the brackets, the sliding rails can be removed to maximize the cable passage surface, and can be installed depthwise in other positions.
- Material: Zinc-coated steel

Supply:
Four brackets and fixing elements

Characteristics	Depth mm (in.)	References
Spacial SF Mounting plate sliding rails	400 (15.75)	NSYSMPS4
Spacial SF Mounting plate sliding rails	500 (19.68)	NSYSMPS5

SF **SFX** Side entry rails for the mounting plate

- Side entry device for the mounting plates when coupling Spacial SF enclosures or Spacial SFX.
- The mounting plates can be coupled with one another, and are fixed to the side entry guide by pressure.
- Material: Zinc-coated steel

Supply:
Two rails (top and bottom)
and fixing elements

Characteristics	Width mm (in.)	References
Spacial SF/SFX Side entry rails for the mounting plate	600 (23.62)	NSYSMPSE6

SM Top/bottom adjustment rails

Comment:
Examples of combination see [page 307](#)

Supply:
Two rails, top and bottom

- Allows the installation of two mounting plates or vertical uprights in enclosures with a width of 1200 (47.24) mm (in.) and 1600 (62.99) mm (in.), as if in two independent enclosures.
- A set of mounting plate fixing brackets ref. **NSYSMPB** is required.
- Optional installation of an intermediate mounting plate.
- Material: Galvanized steel

SF Kit for adapting two-door enclosures

Comment:
Examples of combination see [page 307](#)

- Allows the installation of two mounting plates as if in two independent enclosures.
- A set of brackets for fixing mounting plates ref. **NSYSMPB** is required.
- Option of installing an intermediate mounting plate.
- Valid for enclosures with widths of 1200 (47.24) and 1600 (62.99) mm (in.).
- If installing a cable gland plate for a width of 1200 (47.24) mm (in.), it is necessary to install two with a width of 600 (23.62) mm (in.), and for widths of 1600 (62.99) mm (in.), two with a width of 800 (31.50) mm (in.).

SM SMX SF SFX Technical uprights
SD SDX PLA PHD

- Vertical uprights for fixing plates and rails.
- They can be fixed to the fixing brackets of the mounting plate or to the uprightfixing bracket (ref. **NSYMF8**).
- Adjustable height in steps of 2.5 (0.10) mm (in.) (with quarter-turn nuts, ref. **NSYSNM6** or **NSYSNM8**) or 25 (0.98) mm (in.) (with cage nuts, ref. **NSYCNM6** or **NSYCNM8**).
- Material: Galvanized steel
- Thickness: 20 (0.79)/10^e mm (in.)

Comment:
NSYTVR20 is not compatible with PLA or PHD 2000 mm high enclosures. Use 2 x **NSYTVR10**.

Supply:

M8 x 20 (0.79) mm (in.) screw	100	AF1VC820

Bracket for fixing uprights

- Brackets for fixing the uprights, standard or technical, at the same level as the structure, obtaining a greater working surface inside the enclosure.
- They allow two pairs of uprights to be fixed back to back, doubling the working surface.
- The brackets are fixed to the structure by means of M6 self-tapping screws.
- Adjustable depth with a pitch of 25 (0.98) mm (in.).
- Material: Zinc-coated steel.

Supply:
Four brackets for fixing uprights and fixing elements.

Characteristics	References
Bracket for fixing uprights	NSYMF8

SM SMX SF SFX SD SDX

Rail support bracket

NSYFB45

- Bracket for fixing rails at an angle of 45°.
- Material: Zinc-coated steel
- Installation: Spacial SF: Mounted on the structure and/or mounting plates
Spacial SM: Mounted on the bottom mounting rail and/or mounting plates

Supply:
Ten units and fixing elements.
Reference by unit. Order by multiples of 10 (10, 20, 30...)

Characteristics	References
Rail support bracket	NSYFB45

Combined support bracket

NSYETF

- Allows the installation of a DIN rail and an earthing strip on different planes to minimize the cable radiuses.
- Material: Zinc-coated steel
- Installation: Spacial SF: Directly on the structure and/or using mounting plates
Spacial SM: On the bottom adjustment rails and/or on mounting plates

Supply:
Ten combined support brackets and fixing elements.
Reference by unit. Order by multiples of 10 (10, 20, 30...)

Characteristics	References
Combined support bracket	NSYETF

Terminal-block support bracket

NSYEDCO

- Allows the mounting of a DIN rail.
- Tilted to 45°.
- Material: Treated steel

Supply:
Two lugs and fixings

Characteristics	References
Terminal-block support bracket	NSYEDCO

Combined fixing lugs for the earthing strip

NSYEDCOC

- Allow the mounting of an earth collector rail and a DIN rail.
- Tilted to 30°.
- Earthing strip, ref. **NSYECB1M153**. See [page 303](#).

Supply:
Two fixing lugs and fixing elements

Characteristics	References
Combined fixing lugs for the earthing strip	NSYEDCOC

Combined support bracket (vertical)

DZ5MS10

- Allows the installation of a DIN rail and an earthing strip on different planes, to minimize the cable radiuses.
- Material: Zinc-coated steel
- Installation: Spacial SF/SM: Directly on the vertical structure and/or using mounting plates

Supply:
10 brackets

Characteristics	References
Combined support bracket (vertical)	DZ5MS10

10

Clicked support plate

AX2DL01

- For screw mounted equipment.
- For mounting on 35 (1.38) mm (in.) symmetric and double profile DIN rails or Telequick mounting plate.
- Material: Zinc-plate coated

Supply:
Ten units and fixing elements.
Reference by unit. Order by multiples of 10 (10, 20, 30...)

Characteristics	References
Clicked support plate, 44 (1.73) x 65 (2.56) mm (in.) - 9 screws	AX2DL01
Clicked support plate, 49 (1.93) x 65 (2.56) mm (in.) - 4 screws	AX2DL02

Bracket for fixing control units (Ø 22)

DX1AP52

- To mount any 22 (0.87) mm (in.) diameter device directly on mounting plates.

Supply:
Ten units and fixing elements.
Reference by unit. Order by multiples of 10 (10, 20, 30...)

Characteristics	References
Bracket for fixing control units (Ø 22 (0.87) mm (in.))	DX1AP52

Cross-Rails and Profiles for Floorstanding Enclosures

- SM
- SMX
- SF
- SFX
- SD
- SDX

In the Spacial SF, SM, SFX and SMX enclosures, it is possible to create a fixing at any point of the inner volume, providing mounting planes with different widths, heights and depths. In the case of the Spacial SM, it may be necessary to install vertical/horizontal adaptation profiles and 40 (1.58) mm (in.) universal cross-rails (one row).

- Four types of cross-rails are available to create fixing points:**
- Universal cross-rails (see [page 254](#))
 - Quick-fixing cross-rails (see [page 255](#))
 - Integrated cross-rails (see [page 256](#))
 - Light cross-rails (see [page 256](#))

- Universal, quick-fixing and integrated cross-rails are available in 3 sizes:**
- 40 (1.58) mm (in.) (1 row)
 - 65 (2.56) mm (in.) (2 rows)
 - 90 (3.54) mm (in.) (3 rows)

- Cross-rails for specific applications are also available:**
- Cross-rails for heavy loads (see [page 257](#)) to be fixed on the bottom part of the enclosure or to be combined with a "heavy load kit" (see [page 260](#)) to be used at any height in the enclosure
 - Cross-rails for Lütze chassis (see [page 257](#))

Combination examples

Spacial SF and SFX:
The cross-rails can be fixed to the structure and among each other, offering multiple options.

The quick-fixing cross-rails can be fixed directly to the structure, quickly and easily. Spacial SF and SFX*:

- They clip onto the structure and are fixed by M6 self-tapping screws, or optionally with M6 caged nuts.

Spacial SM:

- Possibility of clipping onto the adaptation profile or another cross-rail.
- Fixing by means of M6 self-tapping screws.
- Fixing by means of M6 caged nuts.

* In Spacial SFX enclosures, it cannot be mounted depthwise.

Universal cross-rails and integrated cross-rails can be simultaneously mounted at the same height, on all the sides of the enclosure. To perform this type of installation in a Spacial SM enclosure, the vertical adaptation profile and the vertical 40 (1.58) mm (in.) universal cross-rail (one row) are required, mounted in the back of the enclosure.

Quick-fixing cross-rails can be used to support equipments at the back of the enclosure or be fixed every 25 (0.98) mm (in.) on two cross-rails (universal or integrated) in vertical position.

40 (1.58) mm (in.) wide universal and integrated cross-rails can be used as uprights, adjustable every 25 (0.98) mm (in.) in depth. They enable the fixing of diverse equipment supports and are adjustable every 25 (0.98) mm (in.) in height.

Spacial SF:
Universal cross-rails and integrated cross-rails can be mounted in vertical position.

The main fixing point to the quick-fixing cross-rails is the 5.2 (0.20) mm (in.) drill hole for M6 self-tapping screw, although they can also receive M6 and M8 caged nuts.

SM SMX SF SFX Universal cross-rails
SD SDX

- Used for the creation of structures inside the enclosure.
- Cross-rails available in three sizes:
40 (1.58) mm (in.) (one row), 65 (2.56) mm (in.) (two rows) and 90 (3.54) mm (in.) (three rows).
- Each row is perforated every 25 (0.98) mm (in.) with a 5.2 (0.20) mm (in.) diameter hole and a 11 (0.43) x 13 (0.51) mm (in.) cutout which enables fixing by means of M6 self-tapping screws, ref **NSYST30M6S**.
- Equipment is fixed by means of caged nuts or self-tapping screws.
- Material: Zinc-coated steel
- Thickness: 15 (0.59)/10^a mm (in.)

Fixing to the structure:

Fixing accordingly to uprights axis.
Possibility to mount cross-rails simultaneously on all sides,
at the same height of the enclosure.

Comment:

- (1) For vertical assembly only.
- (2) Cross-rails only for fixing cables.
- (3) These cross-rails have not been sized to be used in the width, depth or height of the enclosure, but to be mounted in other positions or in between cross-rails.

For dimensions see [page 308](#)

Supply:

SF Cross-rail for Lütze chassis

NSYLCR40

- Cross-rail for fixing and adjusting the depth of the Lütze chassis.
- Thickness: 25 (0.98)/10^ø mm (in.)
- Material: Galvanized steel

Supply:
Six cross-rails for Lütze chassis and fixing elements

Characteristics	Depth mm (in.)	References
Cross-rail for Lütze chassis	400 (15.75)	NSYLCR40
Cross-rail for Lütze chassis	500 (19.68)	NSYLCR50
Cross-rail for Lütze chassis	600 (23.62)	NSYLCR60

Support for Lütze chassis

NSYLSUP

- Support for installing Lütze chassis in the back of the enclosure.
- Thickness: 25 (0.98)/10^ø mm (in.)
- Material: Galvanized steel

Comment:
For dimensions see [page 308](#)

Supply:
Six supports and fixing elements

Characteristics	References
Spacial SF Support for Lütze chassis	NSYLSUP

SM Vertical adaptation profiles

NSYSMVR12

- The vertical adaptation profiles provide fixing points at the entrance to the enclosure.
- Fixing on the screws of the hinge and catches of the lock.
- Allows the depthwise fixing of cross-rails, etc.
- Thickness: 15 (0.59)/10^a mm (in.)
- Material: Zinc-coated steel

Comment:
For dimensions see [page 309](#)

Supply:
2 vertical adaptation profiles and fixing screws

Characteristics	Height mm (in.)	References
Vertical adaptation profiles	1200 (47.24)	NSYSMVR12
Vertical adaptation profiles	1400 (55.12)	NSYSMVR14
Vertical adaptation profiles	1600 (62.99)	NSYSMVR16
Vertical adaptation profiles	1800 (70.87)	NSYSMVR18
Vertical adaptation profiles	2000 (78.74)	NSYSMVR20

SM Horizontal adaptation profiles

NSYSMHR6

- The horizontal adaptation profiles provide fixing points at the entrance to the enclosure.
- Thickness: 15 (0.59)/10^a mm (in.)
- Material: Zinc-coated steel

Comment:
For dimensions see [page 309](#)

Supply:
2 horizontal adaptation profiles and fixing screws

Characteristics	Width mm (in.)	References
Horizontal adaptation profiles	600 (23.62)	NSYSMHR6
Horizontal adaptation profiles	800 (31.50)	NSYSMHR8
Horizontal adaptation profiles	1000 (39.37)	NSYSMHR10
Horizontal adaptation profiles	1200 (47.24)	NSYSMHR12
Horizontal adaptation profiles	1600 (62.99)	NSYSMHR16

SM SF Fixed tray

- Provided with cut-outs for improving air circulation inside.
- Material: Steel
- Finish: Painted with epoxy polyester resin
- Color: RAL 7035 grey
- Maximum load: 150 (330.69) kg (lbs.) direct fixed to the structure, 40 (88.18) kg (lbs.) when universal cross-rails are used

Options for fixing the tray to the enclosure:

If the tray has the same dimensions as the enclosure:

- Spacial SF: Direct fixing to the structure.
- Spacial SFX: Installation possible only with universal cross-rails, see [page 254](#).
- Spacial SM: Fixing by means of adaptation profiles and 40 (1.58) mm (in.) universal cross-rails (1 row) in vertical position.

If the tray is smaller than the dimensions of the enclosure:

- Fixing on depth cross-rails.
- Depth-adjustable tray with a pitch of 25 (0.98) mm (in.).

Supply:

1 fixed tray and fixing elements

Characteristics	Depth mm (in.)	Width mm (in.)	References
Fixed tray	400 (15.75)	600 (23.62)	NSYFXT6040
Fixed tray	400 (15.75)	800 (31.50)	NSYFXT8040
Fixed tray	500 (19.68)	600 (23.62)	NSYFXT6050
Fixed tray	500 (19.68)	800 (31.50)	NSYFXT8050
Fixed tray	600 (23.62)	600 (23.62)	NSYFXT6060
Fixed tray	600 (23.62)	800 (31.50)	NSYFXT8060
Fixed tray	800 (31.50)	800 (31.50)	NSYFXT8080

SM SF Telescopic rails

- End-of-travel stop of the rails in open and closed position.
- Material: Zinc-coated steel
- Finish: Painted with epoxy polyester resin
- Maximum load: 25 (55.12) kg (lbs.) evenly distributed

Options for fixing the tray to the enclosure:

- Spacial SF: Installation directly on the structure of the enclosure or on universal cross-rails.
- Spacial SFX: Installation possible only with universal cross-rails, see [page 254](#).
- Spacial SM: Installation by means of adaptation profiles and 40 (1.58) mm (in.) universal cross-rails (1 row) in vertical position, or on horizontal universal cross-rails.

The installation of a telescopic tray consists of the following:

- 1 fixed tray.
- 2 telescopic rails.

Supply:

2 telescopic rails and fixing elements

Characteristics	Depth mm (in.)	Width mm (in.)	References
Telescopic rails	400 (15.75)	600 (23.62) / 800 (31.50)	NSYTTG40
Telescopic rails	500 (19.68)	600 (23.62) / 800 (31.50)	NSYTTG50
Telescopic rails	600 (23.62) / 800 (31.50)	600 (23.62) / 800 (31.50)	NSYTTG60

Handle for telescopic trays

- Designed for easy extraction of the sliding trays.
- Material: Polyamide 6 (black).

Supply:

2 units and fixing elements

Characteristics	References
Handle for telescopic trays	NSY1TH

SM SMX SF SFX Tray cross-rails

- Allow the installation of fixed trays and telescopic rails. Quick and universal cross-rails, see [page 254 - 255](#)

Characteristics	Depth mm (in.)	References
Tray cross-rails, Universal cross-rail, 40 (1.58) mm (in.) (1 row)	400 (15.75)	NSYSUCR4040
Tray cross-rails, Universal cross-rail, 40 (1.58) mm (in.) (1 row)	500 (19.68)	NSYSUCR4050
Tray cross-rails, Universal cross-rail, 40 (1.58) mm (in.) (1 row)	600 (23.62)	NSYSUCR4060
Tray cross-rails, Universal cross-rail, 40 (1.58) mm (in.) (1 row)	800 (31.50)	NSYSUCR4080

Tray cross-rails, Quick-fixing cross-rail, 40 (1.58) mm (in.) (1 row)	500 (19.68)	NSYSQCR4050
Tray cross-rails, Quick-fixing cross-rail, 40 (1.58) mm (in.) (1 row)	600 (23.62)	NSYSQCR4060
Tray cross-rails, Quick-fixing cross-rail, 40 (1.58) mm (in.) (1 row)	800 (31.50)	NSYSQCR4080

SF Heavy load kit

- 4 parts designed to strengthen installation supports (shelves or cross-rails) in case of heavy loads.
- Several kits can be set up in the same enclosure as long as the maximum load of 1000 (2204.62) kg (lbs.) is not exceeded.
- Strengthen the stiffness of the enclosure.
- Supports set up in the depth direction embed cut outs to help secure equipment fixing.
- Material: Steel
- Color: RAL 7035 grey
- Maximum load: Up to 350 (771.62) kg (lbs.)

The kit can be used with following rails:

- Standard crossrails delivered with Spacial SF,
- Quick-fixing cross-rails **NSYSQCR●●●●●**,
- DIN rails **NSYSDR●●** and **NSYDPR●●**,
- **NSYCN●●** rails,
- Heavy load cross-rails **NSYHLCR●●**.

Comment:

Combination examples see [page 309](#)

Supply:

2 cross-rails (front/rear)
+ 2 supports to be mounted according to depth direction

Characteristics	Depth mm (in.)	Width mm (in.)	References
Heavy load kit	400 (15.75)	600 (23.62)	NSYSHLT6040
Heavy load kit	400 (15.75)	800 (31.50)	NSYSHLT8040
Heavy load kit	600 (23.62)	600 (23.62)	NSYSHLT6060
Heavy load kit	600 (23.62)	800 (31.50)	NSYSHLT8060

Heavy load kit	800 (31.50)	800 (31.50)	NSYSHLT8080

SF Ventilated shelf

- Airing is ensured by two cut-out sizes: 11 (0.43) x 13 (0.51) mm (in.) rectangles for fixation on both sides with self-tapping screws, 40 (1.58) x 8.5 (0.34) mm (in.) rectangles.
- The ventilated shelf must be fixed in the enclosure with a heavy load kit.
- Material: Steel
- Color: RAL 7035 grey
- Maximum load: 350 (771.62) kg (lbs.)

Supply:

1 tray and fixing elements

Characteristics	Tray dimensions W x D x H mm (in.)	Depth mm (in.)	Width mm (in.)	References
Ventilated shelf	700 (27.56) x 559 (22.01) x 50 (1.97)	600 (23.62)	800 (31.50)	NSYDHLT6060
Ventilated shelf	700 (27.56) x 759 (29.88) x 50 (1.97)	800 (31.50)	800 (31.50)	NSYDHLT8080

SF Plain shelf for battery

- Painted shelf with rims to avoid potential liquid leakage.
- Electrical continuity is ensured by specific staples.
- Access and replacement (thus maintenance) are eased by mounting brackets.
- The plain shelf must be fixed in the enclosure with a heavy load kit.
- Material: Steel
- Color: RAL 7035 grey
- Maximum load: 350 (771.62) kg (lbs.)

Supply:
1 tray and fixing elements

Characteristics	Tray dimensions W x D x H mm (in.)	Depth mm (in.)	Width mm (in.)	References
Plain shelf for battery	500 (19.68) x 300 (11.81) x 16 (0.63)	400 (15.75)	600 (23.62)	NSYPHLT6040
Plain shelf for battery	700 (27.56) x 300 (11.81) x 16 (0.63)	400 (15.75)	800 (31.50)	NSYPHLT8040

SF Heavy load cross-rails

- Can be fixed anywhere in the enclosure with a heavy load kit.
- Free space useful for thermal management.
- Nominal width of cross-rails must be 100 (3.94) mm (in.) shorter than the associated heavy load kit width.
- Material: Steel

Supply:
2 cross-rails and fixing elements

Characteristics	Associated heavy load kit references	Maximum load kg (lbs.)	Nominal width mm (in.)	References
Heavy load cross-rails	Not usable with heavy load kit	575 (22.64)	400 (15.75)	NSYHLCR40
Heavy load cross-rails	NSYSHLT6040 NSYSHLT6060 NSYSHLT6080	525 (20.67)	500 (19.68)	NSYHLCR50

Heavy load supports

Combination examples

• Heavy load kit + Ventilated shelf

• Heavy load kit + Partially ventilated shelf

• Heavy load kit + Plain shelf for battery

• Heavy load kit + Heavy load cross-rails

S3D S3X PLM Symmetric mounting rail for the wall-mounted enclosures

- 2 types: Type A: 35 (1.38) x 15 (0.59) mm (in.), Type B: 35 (1.38) x 7.5 (0.30) mm (in.)
- Material: Zinc-coated steel
- Standards: IEC 715
- Thickness: Type A: 15 (0.59)/10^e mm (in.), Type B: 10 (0.39)/10^e mm (in.)
- Fixing: Fixed to mounting plates or another fixing elements, uprights not included in the supply

Supply:

10 rails and fixings for direct assembling to the structure. References by unit. Order by multiples of 10 units(10, 20, etc.)

NSYSDR30B

Characteristics	Type	Enclosure width mm (in.)	Rail length mm (in.)	References
Symmetric mounting rail for the wall-mounted enclosures	B	300 (11.81)	250 (9.84)	NSYSDR30B

SM SMX SF SFX Symmetric DIN rails for the floor-standing enclosures

SD SDX

- Help ensure horizontal continuity in case of enclosure assembly.
- Rail type: Type A: 35 (1.38) x 15 (0.59) mm (in.).
- Material: Zinc-coated steel
- Standards: IEC 715
- Thickness: 15 (0.59)/10^e mm (in.)
- Fixing: Fixed to the standard or technical uprights (see [page 251](#)) or directly to the structure

Supply:

10 rails and fixings for direct assembling to the structure. References by unit. Order by multiples of 10 units(10, 20, etc.)

NSYSDR60

Characteristics	Enclosure width mm (in.)	Rail length mm (in.)	References
Symmetric DIN rail for the floor-standing enclosures	600 (23.62)	588 (23.15)	NSYSDR60

Symmetric DIN rail for the floor-standing enclosures	1200 (47.24)	1188 (46.77)	NSYSDR120

Double-profile DIN rails

- They combine the advantages of symmetric and asymmetric rails.
- Quick installation of terminals according to standard DIN 46277/1.
- Material: Zinc-coated steel
- Thickness: 15 (0.59)/10^e mm (in.)
- Fixing: Fixed to the standard or technical upights (see [page 310](#)) or directly to the structure

Supply:
10 rails and fixings for direct assembling to the structure. References by unit. Order by multiples of 10 units(10, 20, etc.)

Serrated C-shaped rail for heavy loads

- Marked in steps of 25 (0.98) mm (in.) to facilitate switchgear positioning.
- Material: Zinc-coated steel
- Thickness: 20 (0.79)/10^e mm (in.)

Supply:
2 rails with a length of 2 m

AM1EC200

Characteristics	Rail length mm (in.)	References
Serrated C-shaped rail for heavy loads	2000 (78.74)	AM1EC200

Symmetric C-shaped rails

- Rails for supporting and fixing switchgear on panels and enclosures, formation of chassis, racks and panel reinforcements.
- Material: Galvanized steel
- Fixing: They are fixed to the structure and to one another by means of fixing elements

Comment:
For dimensions see [page 310](#)

Supply:
References by unit. Order by multiples of 10 units(10, 20, etc.)

NSYCN20

Supply:
10 nuts

NSYSNSM6

Connectors for Symmetric C-Shaped Rails

- The connectors enable the formation of chassis or frames and structures for fixing switchgear, in any position inside the enclosures, allowing the fixing of DIN rails or other elements.
- See symmetric C-shaped rails.

EMA connectors

NSYEMA20

- To join two symmetric C-shaped rails, C20 and C40 types, at right angles; They can also be used to obtain a T-shaped assembly.
- Material: Zinc-coated steel
- Thickness: 20 (0.79)/10^ø mm (in.)

Comment:
Dimensions
see [page 311](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
EMA connectors		NSYEMA20
EMA connectors		NSYEMA40

EVA connectors

NSYEVA20

- To join two symmetric C-shaped rails, C20 and C40 types, forming an overlapping assembly with plane change, or also at right angles for the formation of spacers or supports at a different level.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 311](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
EVA connectors		NSYEVA20
EVA connectors		NSYEVA40

UCA connectors

NSYUCA22

- To join symmetric C-shaped rails, types C20 and C40, forming a cross-shaped assembly of three rails located on the same plane, for example inside a frame.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 312](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
UCA connectors		NSYUCA22
UCA connectors		NSYUCA44

UTA connectors

NSYUTA22

- To create a T-shaped assembly between two symmetric C-shaped rails, C20 and C40 types, especially recommended for forming crossbars on chassis and frames.
- The **UTA42** connectors type allows C20 rails to be joined with C40 rails.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 312](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
UTA connectors		NSYUTA22
UTA connectors		NSYUTA42
UTA connectors		NSYUTA44

Connectors for Symmetric C-Shaped Rails

ECA connectors

NSYECA22

- To form a cross-shaped assembly with two symmetric C-shaped rails, C20 and C40 types, located perpendicularly on different planes.
- The **ECA42** connector type makes it possible to join C20 rails with C40 rails.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 312](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
ECA connectors		NSYECA22
ECA connectors		NSYECA42
ECA connectors		NSYECA44

UR connectors

NSYUR20

- For rectilinear joining of symmetric C-shaped rails.
- Recommended when the standard length is not sufficient or for maximising fractions.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 312](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
UR connectors		NSYUR20
UR connectors		NSYUR40
UR connectors		NSYUR60

UT connectors

NSYUT20

- To form T-shaped assemblies between symmetric C-shaped rails.
- They are used to form crossbars on frames and structures.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 312](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
UT connectors		NSYUT20
UT connectors		NSYUT40
UT connectors		NSYUT60

EN connectors

NSYEN20

- To create L-shaped assemblies with plane change in the symmetric C-shaped rails, between them or with any other section.
- Material: Zinc-coated steel

Comment:
Dimensions
see [page 312](#)

Supply:
20 units. References by unit. Order by multiples of 20 units (20, 40, 60, etc.)

Characteristics		References
EN connectors		NSYEN20
EN connectors		NSYEN40
EN connectors		NSYEN60

Hexagonal spacers

- Hexagonal spacers for raising switchgear, mounting plates, etc. They can be linked to achieve variable heights with gradual elevation.
- Their assembly requires M6 or M8 caged nuts.
- Material: Zinc-coated steel
- Installation: If used to raise a mounting plate, the maximum load of the mounting plate is decreased

Supply:
100 hexagonal connectors.
References by unit.
Order by multiples of 100 units
(100, 200, 300, etc.)

S3D S3X 19" fixed chassis for wall-mounted enclosure

- 19" fixed chassis comprising 2 19" uprights with fixing.
- Adjustable in depth by fixing on the step slides available as accessory.
- Material: Galvanized steel
- Thickness: 20 (0.79)/10^o mm (in.)
- Maximum load: 3 (6.61) kg (lbs.) per unit

Characteristics	Enclosure dimensions mm (in.)		Unit number	References

Key features when selecting a cable entry (1/4)

1

Multiple

Single

Multiple cable entries or single cable entries?

- This choice depends on the number of cables going through the cable entry: Generally, for 3 or more cables, choose a multiple cable entry. This will make your installation faster and more economical.
- In other words, your final costs will not necessarily be lower if you use single cable entry!
- Flexibility of installation: For high flexibility, multiple cable entry is the right choice.

2

Cable entry material

- **Soft membranes** allow cables to be easily pushed through, but still offer a good IP rating and protection from moisture and physical intrusion. Cable retention force, however, is lower than with other alternatives.

Push the membrane into a standard hole.

Make a small hole in the membrane.

Push the cable or tube through the guide hole.

Pull the cable or tube back some 20 (0.79) mm (in.) to lock it.

- **Hard-plastic cable entry plates** require tools to create the opening (drill or knife) but, thanks to the cable gland, they offer a very high retention force. Another use of this solution is for public places, since the hard surface prevents objects being pushed in.

- **Combined:** The material of the cable entry plate is hard plastic, but the cable is pushed through a soft membrane. In this case you have the advantages of both soft membranes (easy and fast installation, flexibility) and hard-plastic membranes (high retention force when using specific cable clamps).

10

3

Cable glands to be fitted

- Some multiple cable entries require a cable gland to be able to retain the cables and ensure the degree of protection

Key features when selecting a cable entry (2/4)

4

Installation options

There are 4 ways to install your cable entries on the enclosure:

- **Using a cable entry:**

The standard cable gland plate of your S3D wall-mounted enclosure is unscrewed and replaced by the cable entry. A gasket between enclosure and cable entry will help ensure good water and dust tightness.

- **Modifying the standard cable gland plate:**

The standard cable gland plate is unscrewed and machined. A cut-out is made.

- **On cable gland plate adapter:**

This plate, which has the outer dimensions of a standard cable gland plate, has one or more pre-cut cut-outs of standard dimensions (FL13 and FL21).

On steel wall-mounted enclosures, the plate can replace the standard cable gland plate once the cable entry is fitted into it. On polyester enclosures, a cut-out must be created. Schneider Electric provides this service: a precise laser cut-out can be made at the factory upon request.

On steel floor-standing enclosures, you may either use the specific cable gland roof or create a cut-out (see expert's tip 1 - page 279).

Cable gland plate adapters				
Enclosure range	1 membrane	2 membranes	3 membranes	4 membranes
Spacial S3D	 NSYTL●FL	 NSYTL●2FL	-	 NSYTLG4FL

- **Drilling directly the enclosure:** A cut-out is created on the enclosure's side according to the cable entry's dimensions (see expert's tip 1 - page 279).

Spotlight On...

FL13 and FL21 are standard cut-out dimensions frequently used in northern European countries and also used by our enclosures for several years now.

Key features when selecting a cable entry (3/4)

Full flexibility

5 Flexibility of the installation

- **Full flexibility:** This means that cables can be added/removed easily, changing:
 - quantity
 - diameter
 - position
 (see expert's tip 2, page 279)
- **Medium flexibility:**
 - The amount, diameter or position of cables can be changed to a limited extent.
- **Low flexibility:**
 - It is not possible to change the above parameters.

Medium flexibility

6 Reversibility

- **Full reversibility:** This means that cables can be added/ removed easily without losing their initial characteristics, such as water tightness.
- **Medium reversibility:** For soft membranes, once the cable has been removed, there may be a loss of IP degree depending on the size of the cable and the cut. For hard-plastic entries or combined material entries, initial characteristics are regained by adding plugs.
- **Low reversibility:** The cable entry must be completely replaced in order to regain the initial characteristics.

7 Degree of protection (IP)

- If an enclosure is to be used in a clean, dry and well insulated environment, lower levels of IP may be acceptable (IP54 or IP55).
- In a dusty environment, a higher IP level such as IP65 or IP68 may be required (see expert's tip 4, page 279).

8 Cable retention

- Choose the right level of cable retention according to your needs. For locations accessible to the public, preferably choose a high level of cable retention.

9 Cable diameter

- Choose the cable entry seal according to the cable diameter. Take into account cable diameter tolerances.

10 Cable installation time

- Each cable entry has different installation characteristics. Some can be installed easily and quickly thanks to the soft membrane. Take this into account depending on labour costs in your region.

Key features when selecting a cable entry (4/4)

11 Number of cables for a given surface

- For some installations, a large quantity of cables must go through the cable entry. Some cable entries can handle a high density of cables, which can result in a more economical installation (fewer cable entries to be purchased). For small enclosures, it may simply be impossible to install too many cable entries due to the available space on the enclosure's wall (see expert's tip 3, page 279).

12 Cable entries for cables with connectors

- Some cables have large connectors which cannot be pushed through tight cable clamps or cable seals. These cable entries have the unique advantage of not requiring the cable to be cut, thanks to the snap-fitting system.

A high cable retention force is provided thanks to the integrated cable fastener

Expert's tip

Specific

Configured

- Some cable entries require cut-outs to be machined on the enclosure or cable gland plate.

- Installing a cable entry with full flexibility is the solution when a large number of enclosures is being prepared for different types of installations. By using one combination of enclosure cable entries, you can cover a large variety of installations!

- When the cable entry has been defined, the next step is cable management inside the enclosure. For correct thermal management, all cables must be fitted and attached so as not to create an obstacle for correct air flow. Consult our Universal Enclosures catalog for cable management accessories (such as cable ducts) and consumables (such as cable ties).

- If your environment requires a high IP level for your installation, make sure you have an appropriate thermal management system to avoid condensation or overheating problems. Consult our Thermal Management offer in our Universal Enclosures catalog and our Control Panel Technical Guide related to this issue.

Cable clamp for improved cable retention for Multi-A

- Installation on FL 21 membrane type "A" for cable entrance to block cables when installed. It can be easily removed.
- Material: PA6
- Temperature range: -40°C (-40°F) to +85°C (+185°F)

Installation:

1. Push the cable through the membrane entrance to the desired position
2. Put the cable clamp around the cable and slide it into the cable entry
3. Push the cable clamp fully into the membrane entrance and the cable will be fixed

Note:

Secure your installation with an easy solution for cable anchorage.

Stainless-steel cable gland with lamellar insert

- Lamellar technology provides excellent resistance to traction as well as excellent torsional protection. For aggressive environments.
- Material: Stainless-steel AISI 304L or AISI 316L, neoprene gasket
- Cable entry material: Non armoured
- Installation options:
 - On cable gland plate or directly on enclosure
- Flexibility of the installation: Low
- Reversibility: Medium
- Ingress protection rating: IP68
- Cable retention: High
- Cable diameter mm (in.): From 12 (0.47) to 40 (1.58)
- Cable Installation time: Slow
- Quantity of cables to be fitted for a given surface: +
- Cable entries for cables with connectors: No
- Thread type: Metric EN 60423
- Cut-out dimensions mm (in.):
 - Various circular hole diameters according to cable diameter
- External dimensions mm (in.): From Ø 14 (0.55) to 43 (1.69)
- Certificates: UL 94 V-2
- Standard: DIN EN 62444, UL 514
- Temperature range: -20°C (-4°F) to + 100°C (212°F)

Supply:
The cable glands are supplied with nuts. Pack of 5 (M12 and M16), of 4 (M20 and M25), of 2 (M32 and M40)

SM SMX SF SFX Lower cable-guide cross-rail

- It allows the quick-fixing of cables entering and exiting the enclosure.
- Depth adjustable every 25 (0.98) mm (in.).
- Material: Galvanized steel

Fixing:

- Spacial SF: for suitable enclosures with widths of 1200 (47.24) and 1600 (62.99) mm (in.), use the adaptation kit for double-door suitable enclosures, see [page 250](#)
- Spacial SM: for floor-standing enclosures with a width of 1200 (47.24) mm (in.), a top/bottom mounting rail installed in central position is required
- Spacial SFX: no adaptation piece is required for the 1200 (47.24) mm (in.) suitable enclosures
- Spacial SMX: no adaptation piece is required for the 1600 (62.99) mm (in.) floor-standing enclosures

SM SMX SF SFX Cable-guide cross-rails for framework

Support types:

- Angle support at 90°: For vertical cable fixing.
- Angle support at 120°: For fixing cables near the cable entry.
- Material: Zinc-coated steel

Fixing:

- Spacial SF/SFX: support for direct mounting on the framework, cross-rails or rails
- Spacial SM: fixing on the bottom mounting rail, or on the floor-standing enclosure by means of adaptation rails and 40 (1.58) mm (in.) universal cross-rails (1 row) in vertical position
- Spacial SMX: fixing on the bottom mounting rail and 40 (1.58) mm (in.) universal cross-rails (1 row) in vertical position

SM SMX SF SFX L-rail for fixing cables

- Rail for fixing cables entering from the bottom.
- Adjustable depth with a pitch of 25 (0.98) mm (in.).
- It is not possible to mount it on a plinth cross-rail.
- Material: Zinc-coated steel

Fixing:

- Spacial SF/SFX: fixing to the bottom frame, above the cable entry, or else to the plinth, using the plinth cross-rails, see [page 110](#)
- Spacial SM/SMX: fixing to the bottom adjustment rails, above the cable entry, or else to the plinth, using the plinth cross-rails, see [page 110](#)
- The cables are fixed to the rail by means of metal clamps

NSYFCG60

Thorsman cable ties

Description

- Cable ties are used for a wide range of applications including bundle up and fix cables, conduits and tubing
- Material: PA6.6
- Available in black and clear color
- Max operating temperature -40°C (-40°F) to +85°C (185°F)
- Minimum installation temperature -20°C (-4°F)

Application

- There are two types of Thorsman cable ties available: made of clear polyamide, for indoor use
- made of UV-stabilized black polyamide for both indoor and outdoor use

Benefits

- The cable ties are self-locking. They cannot be opened and re-used.
- The cable ties have smooth rounded edges for easier handling and safer installation.
- The rounded tip allows easier insertion through the head of the cable tie.
- User-friendly re-sealable packaging and documented quality.
- Manufactured and tested to EN62275, RoHS compliant.

Fixing support for corrugated tube

- Mounting options: Directly on the enclosure, on a 19" swing rack and/or on cross-rails, by means of a fixing point.
- The supports can be assembled with one another to form sets of tubes that allow a better arrangement of the cables.
- It allows the rotation of the tube once it is fixed on the support and prevents the corrugated tube from coming loose if subject to pulling movements.
- Material: Polyamide (PA), black.

Supply:
10 units and fixing elements.
The support is supplied with its cover.

S3D SM SF S3X **Ø 22 (0.87) mm (in.) cable-duct support**

SFX SDX PLA

- Installed on the door of the wall-mounted or floor-standing enclosure combined with Ø 22 (0.87) mm (in.) elements.
- Material: Treated steel

Characteristics
Ø 22 (0.87) mm (in.) cable-duct support

Supply:
10 units. Reference by unit.
Order by multiples of 10 (10, 20, 30...)

References
NSYSPCP

SM SF SD SMX **Cable-duct support on technical upright**

SFX SDX PLA

- Allows cable ducts to be installed on technical uprights, while increasing the usable surface of the equipment (up to 20% according to the width of the cable duct).
- Material: Galvanized steel

Characteristics
Cable-duct support on technical upright

Supply:
10 units. Reference by unit.
Order by multiples of 10 (10, 20, 30...)

References
NSYCDL

Plastic cable-duct support

- Clips onto the Telequick mounting plate or the 35 (1.38) mm (in.) DIN rail.
- Includes a screw for fixing the cable ducts through the 6.5 (0.26) x 14 (0.55) mm (in.) drill holes made in the back.
- The 2 functions, clipping and bolting, provide considerable time savings.
- Respects electrical insulation.
- Material: Black polyamide. Behaviour in fire: V0 according to UL 94

Characteristics
Plastic cable-duct support

Supply:
20 units. Reference by unit.
Order by multiples of 20 (20, 40, 60...)

References
NSYSPC

Label frame

- In transparent plastic, clips onto the slats of the cable ducts.
- Material: Polycarbonate

Characteristics
Label frame

Supply:
50 units. Reference by unit.
Order by multiples of 50 (50, 100, 150...)
Paper labels supplied

References
NSYCDL

Insulated-head screw

- M5 x 10 (0.39) mm (in.) slotted hexagonal head.
- Provides electrical insulation.

Characteristics
Insulated-head screw

Supply:
100 units. Reference by unit.
Order by multiples of 100 (100, 200, 300...)

References
NSYSM10M5HP

Cable-duct support with quick-fixing system

- Fixing mode: By screws - upright location
- Material: Galvanized steel

Characteristics
Cable-duct support with quick-fixing system

Supply:
Set of 3

Cost-effective LED lamps

- This LED lamp is designed to optimize costs and can be used in almost all enclosures respecting the dimensions. It can be interconnected using a single power source:
 - 5 W lamps: Max. 10 lamps interconnected,
 - 10 W lamps: Max. 5 lamps interconnected.
- Built-in switch
- Light temperature: 4000 K*
- LED service life: 25000 h*
- Casing:
 - Plastic for transparent cover and connectors
 - Aluminum for body
- Degree of insulation: Class I
- Compliant with RoHS and Reach
- Ambient temperature:
 - Operating: -10°C to +60°C (14°F to +140°F)
 - Storage: -16°C to +65°C (-3°F to +149°F)
- Color: Aluminum
- Ingress protection rating: IP20 according to IEC60529
- Standards: IEC 60598

Supply:
 1 lamp and fixing elements
 3 (118.11) m (in.) connection cable with quick connector
 1 (39.37) m (in.) interconnection cable with quick connectors

* Approximate values.

Portable LED lamp

- This LED portable lamp is designed to be installed as
 - Enclosure lamp or maintenance lamp providing mobility,
 - Resistance, versatility and durability.
- Double function:
 - internal enclosure lamp,
 - maintenance lamp.
- E27 LED lamp
- Built-in recessed switch
- Light temperature: 4000 K*
- LED service life: 25000 h*
- Power cable 3 m long with male plug (European standard type)
- Casing: Plastic, UL94 V-0
- Degree of insulation: Class II
- Compliant with RoHS and Reach
- Ambient temperature:
 - Operating: -16°C to +65°C (-3°F to +149°F)

SM Door retainer for floor-standing enclosure

NSYSMDR

- Door retainer locking the door in open position.
- It is fixed directly to the front frame of them enclosure and to the reinforcement frame of the door.
- It can be installed on doors that open both to the right and to the left.

Supply:
Door stop and fixing elements

Characteristics	Limit	References
Door retainer locking the door in open position	90°	NSYSMDR
Door retainer locking the door in open position, compatible with SFX	90° and 120°	NSYSMNR

SF Door retainer for floor-standing enclosure

NSYSFMDR

- Door retainer locking the door in open position.
- It is fixed directly to the front frame of them enclosure and to the reinforcement frame of the door.
- It can be installed on doors that open both to the right and to the left.

Supply:
Door stop and fixing elements

Characteristics	Limit	References
Floor-standing door retainer	90° and 120°	NSYSFMDR
Floor-standing door retainer	120°	NSYSFNDR

CRN S3D S3X Door retainer for wall-mounted steel enclosure

Door retainer locking the door in open position

- It is installed on enclosures with heights from 400 (15.75) mm (in.) and widths from 300 (11.81) mm (in.).
- Door opening angle: 120°.
- Earthing connection of the enclosure by means of the reinforcement rail.
- Earthing accessories supplied with the enclosure (earth-connection cable to be ordered separately), see [page 303](#).
- Material: Steel

NSYAEDRSCST

Note:
Cannot be installed on 19" mounting plates or on enclosures equipped with internal door.

Characteristics	References
Door retainer for wall-mounted steel enclosure	NSYAEDRSCST

S3D Door retainer for wall-mounted polyamide enclosure

Door retainer locking the door in open position

- It is installed on the perforated rails of the enclosure doors at the required height.
- Material: Polyamide 6 (PA6)

NSYAEDRS3DPA6

Note:
It is only installed on enclosures with a height of less than 400 (15.75) mm (in.) (no perforated rails).

Characteristics	References
Door retainer for wall-mounted polyamide enclosure	NSYAEDRS3DPA6

Window for modular equipment

Supply:
1 window

Plastic window

- Plastic window with hinged cover for installation in front panel.
- External dimensions: 213 x 133 mm.
- Internal dimensions of the window: 180 x 78 mm.
- Material:
 - Cover: Polycarbonate
 - Body: PVC

Supply:
1 plastic window delivered with a drilling template

NSYMW10M

Characteristics	References
Plastic window	NSYMW10M

Plastic window for modular equipment

- Frame with transparent hinged cover for mounting modular switchgear on the front panel.
- Opening: 46 x 180 mm (10 modules).
- Material:
 - Cover: Polycarbonate
 - Body: PVC

Supply:
1 modular front panel

NSYMW10MK

Characteristics	References
Plastic window for modular equipment	NSYMW10MK

Kit for fixing the switchgear

- The unit is delivered assembled.

Supply:
1 DIN rail and two supports.

NSYMW10MR

Characteristics	References
Kit for fixing the switchgear	NSYMW10MR

Mounting example

NSYMW10MK + NSYMW10MR.

Technical changes reserved. Information provided without guarantee. Images are for illustrative purposes only.

Control window

- To prevent accidental operation of the control units by any unauthorised person.
- Allows the displayed information to be read without opening the door.
- Equipped with hinges for opening (180°).
- Locked by a n° 2233X lock.
- Indoor installation.
- Material: Aluminum frame and 3 (0.12) mm (in.) acrylic window

Supply:
1 window, fixings
and instruction sheet

Earthing strip

- Perforated brass bar, 15 (0.59) x 3 (0.12) mm (in.).
- 1 (39.37) m (in.) long.
- 87 connection points, M5 drill holes

NSYECB1M153

Characteristics
Earthing strip

Supply:
1 earthing strip
and fixing elements

References

NSYECB1M153

S3D S3X Fixing lugs for the earthing strip

NSYEDCOS

- They allow the mounting of an earthcollector rail or a DIN rail at the top and bottom of an enclosure.
- Mounting incompatible with certain accessories. Please consult us.
- Fixing: On holes made in the gutter of the enclosure.

Characteristics

Fixing lugs for the earthing strip

Supply:
2 lugs and fixings.

References

NSYEDCOS

SM SF SD Central earthing point

SMX SFX SDX

NSYCEP

- Connects earthing braids and cables to the structure of the enclosure.
- The earth connection is made by means of the M8 x 18 (0.71) mm (in.) screw.
- Fixing: Fixing to the structure by means of self-tapping screws

Characteristics

Central earthing point

Supply:
1 central earthing point, elements
for fixing to the structure,
and fixings for fixing to the screw

Outdoor Heavy-Duty enclosures	324
Thalassa PLM Landscape	338
Seismic and nuclear enclosures	340
Electronic applications	358
Steel enclosures with protection against electromagnetic interference (EMC)	378
Enclosures for explosive atmospheres (ATEX)	386
Human-Machine Interface Control enclosure, PC racks and control desks	394
Variable-speed drive flush-mounting kits	432
Automotive applications	436

Thalassa PHD is suitable for outdoor public areas thanks to its multiple virtues:

- pressure and shock resistant (IEC 61439-5: 2010),
- anti-posting thanks to its special ribbed-surface door,
- insulated (ready to be Class II according to IEC 61439-1: 2011).

Tough

- PHD: Heavy-Duty polyester reinforced with a double layer of fiberglass. Ultra-resistant, anti-vandalism.

Upper airing module

- The newly engineered roof airing accessory
- Helps to prevent creation of condensation (one of the causes of corrosion).

Heavy-Duty accessories

- Dedicated accessories to resist harsh outdoor environments.

Anti-vandalism

- PHD and SFHD: The handle with keylock and additional padlock hole (padlock not included)
- Protects the equipment inside.
- It is standard equipment.

Simplicity

- Installation simplified: Easy lifting even when loaded with up to 1000 (2204.62) kg (lbs.) of equipment. HD lifting accessories also available.

Fully equipped

- Standard, pre-installed equipment includes:
- A curved canopy to avoid water stagnation
 - A door retainer to keep the door open even with strong wind or when a vehicle passes by
 - An aluminum cable gland plate to easily drill holes and avoid corrosion
 - A document pocket to hold your documents in a practical place.

Thermal management solutions

- 3 airing architectures help protecting the equipment installed inside from overheating and humidity.

For details consult our web site www.se.com

Prolonged exposure to UV radiation, wind and rain can cause aesthetics changes in the external surface of the enclosure. Without affecting the technical properties according to IEC 62208. For long exposure applications, it is recommended to use painted enclosures available through the P&S offer.

Polyester outdoor Heavy-Duty enclosures

- Outdoor Heavy-Duty (HD) enclosures made of polyester insulated material. Suitable to be installed in public areas thanks to its features: pressure and shock-resistant, posting-deterrent, insulated.
 - Material: HD Polyester reinforced with fiberglass to meet standard EN 439-5
 - Color: RAL 7035 grey
 - Conditions of use: Outdoor and/or harsh environments
 - Temperature range: -40°C (-40°F)...80°C (176°F)
 - Mechanical protection rating: IK10 according to IEC 62262
 - Standards: IEC 61439-5: 2010, IEC 62208: 2011, IEC 61439-1: 2011, IEC 61969-3: 2011, IEC 60297-3-100: 2009
- Certifications: See table [page 336](#)
- Maximum load according to IEC 62208: 500 (1102.31) kg (lbs.)
 - Other characteristics: Fire resistant (EN 1794-2:2011), Lifting possible from top with eyebolt accessory, new dedicated airing solutions to be integrated in roof, lateral or plinth.
3 airing architectures proposed (see [page 334](#) and [335](#))
 - Options: Plain door or ribbed door

Wall-mounted enclosure

NSYPHDT553

- Ingress protection rating: IP65 according to IEC 60529
- Fixing: On wall by means of optional wall fixing accessory

Supply:

- Curved canopy
- Handle with keylock (1242E type) and padlock
- Door retainer
- Plastic document pocket (A4 size)

Characteristics	Door type	No. of doors	Dimensions (H x W x D) mm (in.)	References

Eyebolts

NSYPLHD

- Top lifting accessory for polyester outdoor Heavy-Duty enclosure.
- Maximum load per enclosure: 500 (1102.31) kg (lbs.)
- Material: Galvanized cast steel

Supply:
4

Characteristics	References
Eyebolts	NSYPLHD

Wall fixing accessory

NSYFMPHD

- Wall fixing support for polyester outdoor Heavy-Duty enclosure.
- No change in ingress protection rate.
- Maximum load per enclosure: 180 (396.83) kg (lbs.)
- Material: Zinc-coated steel
- Finish: Zinc coating

Supply:
6

Characteristics	References
Wall fixing accessory	NSYFMPHD

Floor fixing kit

NSYMF2PLAZ4

- To fix the enclosure on the floor without a plinth.
- Material: Steel
- Finish: Insulated coating
- Installation: On dry concrete

Supply:
1

Characteristics	Depth mm (in.)	References
Floor fixing kit	420 (16.54)	NSYMF2PLAZ4
Floor fixing kit	620 (24.41)	NSYMF2PLAZ6

Ventilated ZZ plinth 200 (7.87) mm (in.)

NSYZZ254VHD

- Height: 200 (7.87) mm (in.)
- The front part can be removed with a 1242 key.
- Includes a polyester anti-insect filter.
- Material: Glass-reinforced polyester
- Color: RAL 7035 grey

Note:

The coupling kit **NSYMUPLA●●●** is not applicable for enclosures using ZZ or ZH type plinths.

Supply:
1

Characteristics	Dimensions (W x D) mm (in.)	References

Steel outdoor HD enclosures

- Outdoor Heavy-Duty (HD) enclosures made of coated steel.
- Suitable to be installed in private areas with harsh environments thanks to its capacity to resist: corrosion (up to C4H level according to ISO 12944:2018), UV
- Material: HD steel with anti-corrosive coating
- Finish: Structured finish, 100% polyester powder
- Color: RAL 7035 grey
- Conditions of use: Outdoor and/or harsh environments
- Temperature range: -40°C (-40°F) ... 80°C (176°F)
- Mechanical protection rating: IK10 according to IEC 62262
- Standards: IEC 61439-5: 2010, IEC 62208: 2011, IEC 61969-3: 2011, IEC 60297-3-100: 2009, ISO 12.944: 2018 (C4H)
- Certifications: See table [page 336](#)
- Other characteristics: New dedicated airing solutions to be integrated in roof, side or plinth

Supply:
 Curved canopy
 Plastic document pocket (A4 size)
 Door retainer
 Aluminum cable gland plate

Wall-mounted enclosure

- Ingress protection rating: IP66 according to IEC 60529
- Fixing: On wall by means of optional stainless-steel wall fixing lugs, on post by means of optional HD post fixing device
- Maximum load according to IEC 62208: 200 (440.92) kg (lbs.)
- cUL according to 508A CSA C.22.2 N° 14 .
- Environmental rating according to UL50E 4, 4x and 13

Supply:
 3 (0.12) mm (in.) double-bar lock

Stainless-steel wall fixing lugs

- Set of 4 wall fixing lugs.
- Mounted directly on the rear of the enclosure, either in horizontal or vertical position.
- Wall-enclosure separation of 12 (0.47) mm (in.)
- Do not use for dynamic loads.
- Maximum load: 250 (551.16) kg (lbs.)

NSYAEFFFXSC

Supply:
Supplied with fixing screws and pre-mounted sealing gaskets

Characteristics	References
Wall fixing lugs, 304L stainless-steel	NSYAEFFFXSC

Heavy-Duty padlockable double lock, for wall-mounted enclosures

- Easy mounting instead of the standard lock.
- Material: Zamak
- Finish: Anti-corrosive coating

Supply:
Delivered with 3 (0.12) mm (in.) double-bar metal key

NSYAEPLPADS3DHD

Characteristics	References
Heavy-Duty padlockable double lock	NSYAEPLPADS3DHD

Stainless-steel plinths 200 (7.87) mm (in.)

- Material: Stainless-steel AISI 304L
- Finish: Scotch-Brite® brushing

Installation: For wall-mounted enclosure: It is necessary to order separately the plinth fixing kit (ref. **NSYAPFXWM**) composed by fixing hardware and drilling template, for floor-standing enclosure: Mounting in the holes for fixing the enclosures to the floor

Ventilated plinths, front and rear kit

NSYSFVX6200

- The front and rear of the plinth consists of 4 corners with 2 panels.

Supply:
1 kit

Characteristics	Width mm (in.)	References
Ventilated plinths, front and rear kit	600 (23.62)	NSYSFVX6200
Ventilated plinths, front and rear kit	800 (31.50)	NSYSFVX8200
Ventilated plinths, front and rear kit	1200 (47.24)	NSYSFVX12200

Ventilated plinths, lateral kit

NSYSPLVX4200SF

- They are fixed to the corner of the plinth by fixing screws.

Supply:
1 kit

Characteristics	Depth mm (in.)	References
Ventilated plinths, for wall-mounted enclosure	330 (12.99)	NSYSPLVX3200
Ventilated plinths, for wall-mounted enclosure	430 (16.93)	NSYSPLVX4200
Ventilated plinths, for floor-standing enclosure	430 (16.93)	NSYSPLVX4200SF
Ventilated plinths, for floor-standing enclosure	630 (24.80)	NSYSPLVX6200SF

Standard plinths, front and rear kit

NSYSFVX6200

- The front and rear of the plinth consists of 4 corners with 2 panels.

Supply:
1 kit

Characteristics	Width mm (in.)	References
Plinth height 200 (7.87) mm (in.), Kit (4 corners + front and back), AISI 304L	600 (23.62)	NSYSFVX6200

Airing system Heavy-Duty

Fanbox

NSYCVF550M24FB

- Free flow rate: 550 m³/h (323.72 ft³/min) (50/60 Hz).
- Minimal depth inside the enclosure (90 (3.54) mm (in.)).
- Allows multiple cooling architectures (see page 334 and 335).
- Material: Plastic
- Color: RAL 7016 dark grey

Supply:
1 (grille not included)

Characteristics	Voltage	References
Fanbox	24 V DC	NSYCVF550M24FB
Fanbox	115 V AC	NSYCVF550M115FB
Fanbox	230 V AC	NSYCVF550M230FB

Filter

NSYCAF223T

- Replacement G3 M1 type synthetic filter for HD metal grille.
- Dimensions: 215 (8.46) x 215 (8.46) mm (in.).
- Material: 100% polyester fibers
- Color: White

Supply:
5

Characteristics	Height mm (in.)	Width mm (in.)	Depth mm (in.)	Cut-out mm (in.)	References
G3 M1 synthetic fine filters	268 (10.55)	248 (9.76)	18 (0.71)	223 (8.78) x 223 (8.78)	NSYCAF223T

Roof filter for fanbox

NSYCAF190

- Roof G2 round synthetic filter designed to cover the fanbox. Covers completely the fanbox and helps to protect it from dust and humidity. Mandatory for fanbox installation in the roof airing module for IP55 configurations.
- Material: 100% polyester fibers
- Color: White

Supply:
1

Characteristics	References
Roof filter for fanbox	NSYCAF190

IP55 HD Metal Grille

NSYCAAG223LFHD

- Slim grille (35 (1.38) mm (in.) external depth).
- Includes a G3 M1
- Material: Steel with anti-corrosive coating + plastic PA6 / GF25 for fixing frame
- Finish: Structured finish, 100% polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262

Supply:
1 grille delivered with G3 M1 type synthetic filter (215 (8.46) x 215 (8.46) mm (in.)) and fixings

Characteristics	References
IP55 HD Metal Grille	NSYCAAG223LFHD

Anti-vandalism kit for HD metal grille

NSYCAAPVHD

- Fixings that help to prevent to open the grille from the outside with standard tools (EN 1627-1630:2011 Class 2).
- Quick installation without tools.
- Material: Steel with anticorrosive coating + plastic for fixing screws

Note:
not compatible with NSYSPLA150

Supply:
4 grip knob
4 clip nuts

Characteristics	References
Anti-vandalism kit for HD metal grille	NSYCAAPVHD

Horizontal wall-mounted enclosures designed for photovoltaic and multiple outdoor applications installed in harsh environments

New

- Wall-mounted enclosures made of **fiberglass reinforced polyester** molded by hot compression.
- Monobloc body with polyurethane gasket.
- **Wider sizes with more space available in the bottom of the enclosure** to install additional cable entries.
- **Impact resistance IK10**, IEC 62262.
- **Protection degree IP 66**, IEC 60529.
- Class II insulation.
- Certifications: **IEC 62208 & UL 508A - NEMA type: 1, 2, 3, 3R, 3S, 4, 4X, 5, 12 and 13.**
- Reach & RoHs compliance.
- Color: **RAL 7035.**

Removable door system

- Removable door system that allows:
 - Total access without limitations to the internal part of the enclosure.
 - Easy and quick assembly/disassembly of the door. (without dismantling the hinges and removing the pin)

Self-adhesive and fixable canopy

- Self-adhesive and fixable canopy made of PVC available as an accessory - black RAL 9005 Color. Die-cut to be easily fixed by two screws. IP degree is maintained.
- For outdoor use, the canopy must be installed to protect the door gasket against water stagnation.

Wall fixing lugs

- Set of 4 wall fixing lugs (plastic or stainless-steel) available as an accessory.
- Quick and easy assembly through the inserts, without drilling the enclosure. IP guaranteed.

The seismic risk

No point of the globe is immune to an earthquake. However, the probability of being subjected to an earthquake of a given intensity varies from one location to another. The map below, taken from IEC 60721-2-6, shows the distribution of the seismic risk on the 5 continents.

Spacial enclosures and the seismic constraint

Spacial standard range solutions

The Spacial standard offers have been qualified for use in areas subject to medium intensity earthquakes (ground acceleration $\leq 3 \text{ m/s}^2$).

For details of the seismic resistance of the standard offers, refer to the individual chapters of the following offers:

- S3D, CRN, CRNG et 19" wall-mounted enclosures,
- SBM industrial boxes,
- SF enclosures (automation and monitoring/control),
- PrismaSeT HD enclosures (functional system for low-voltage electricity distribution),
- 19" SF enclosures (pivoting rack).

Enclosures for strong earthquakes

In order to meet the requirements of high-seismic zones (ground acceleration $\geq 4 \text{ m/s}^2$), Schneider Electric has developed 2 offers:

- Floor-standing enclosures SF 6G and PrismaSeT HD 5G,
- Wall-mounted enclosure S3D 6G,

Certifications

All tests have been performed according to the following technical regulations:

- IEC 60068-3-3 (first edition): International standard. Environmental testing – Part 3 : Guidance – Seismic test methods for equipment
- CRT 91-C-112-00: Seismic resistance of equipment Generic provisions for bi-axial testing using accelerograms

Technical information

Seismic standards

There is no single international standard. The standards depend on each country/zone and are linked to civil engineering standards.

The main ones are:

- International Building Code (I.B.C. Ex UBC)
- IEC 60068-3-3,
- EDF specification CRT 91C11200 (ex-HN-20-E-53)

The Spacial enclosures have been tested according to standards IEC 60068-3-3 and CRT 91-C-112-00. CRT 91-C-112-00 is one of the most restrictive specifications, and for which it is therefore more difficult to obtain certification.

Geology
Equivalence between scales characterizing the earthquake

MSK	Richter	IEC 60068-3-3 (ground acc.)
<VIII	< 5.5	2 m/s ²
VIII to IX	≥ 5.5 and ≤ 7	3 m/s ²
>IX	> 7	5 m/s ²

To define the seismic resistance of equipment, it is necessary to take into account the geological characteristics of the earthquake and the behavior of the building, and compare these with the equipment's seismic performance.

Civil engineering
Example acceleration levels on the floor of a building (RRS)

All types of building (IEC 60068-3-3)

6 m/s ²
9 m/s ²
15 m/s ²

Definitions

Ground acceleration: Ground acceleration resulting from an earthquake.
Note: In practice, ground acceleration can be broken down into horizontal and vertical components.

Floor acceleration: Ground acceleration measured on a particular floor in a building (at the location of an equipment item).

Note: In practice, floor acceleration can be broken down into horizontal and vertical components.

Required response spectrum (RRS): Representation of the amplification of the ground acceleration caused by the structure or equipment according to the wave frequency. Used for determining equipment dimensions and qualifying the equipment.

Test response spectrum (TRS): Representation of the amplification of tested products during tests on vibrating table.

Equipment performance tested according to CRT 91 C 112 00

Two parts are defined in the response spectra:

- **Floor part:** On the product zone in contact with the vibrating table there is no amplification of the acceleration. The acceleration value recorded for the spectrum is that measured on the ground.
- **Strong part:** The acceleration value recorded for the spectrum is the maximum amplified acceleration expected at the center of gravity of the equipment. This is not a measurable quantity but a mathematical representation.

Products	Floor part acc	Strong part acc
PrismaSeT HD 5G	20 m/s ²	50 m/s ²
SF 6G*	30 m/s ²	50 m/s ²
S3D 6G*	30 m/s ²	55 m/s ²

Conclusion: The TRS values must be compared to the RRS values. If they are greater, the equipment will resist the effects of the earthquake.

Products	Floor part acc	Strong part acc
PrismaSeT HD 5G	20 m/s ²	40 m/s ²
SF 6G*	30 m/s ²	60 m/s ²
S3D 6G*	30 m/s ²	80 m/s ²

The **Spacial SF 6G** enclosures have been designed to withstand earthquakes corresponding to UBC Zone 4.

Spacial SF 6G for seismic risks

Panel mounting

- 12 fastening points by M6 screws per panel..

Plinths

- Enhanced mechanical strength (monobloc structure).
- Assembled on the enclosure.
- Floor fixing: 10 fastening points by M12 screws.

Security locking system

- Seismic locking system.
- Special connecting rods and handle to prevent any accidental door opening under severe vibration conditions.

Multi-purpose corners

- To strengthen the enclosure and respond to seismic risks.
- To strengthen fastening of the side panels and rear panel.
- To fasten the door connecting rods.

Spacial SF 6G for seismic risks

NSYSF6G20680

- Enclosures designed to be installed in UBC Zone 4.
- They have been tested with a plain mounting plate and 19" rack.
- Integrated plinth.
- Material: Steel
- Ingress protection rating: IP55 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262
- Maximum load: 80 (176.37) kg (lbs.)/m² on plain mounting plate,
- Standards: IEC 62208 (enclosure) - IEC 60068-3-3 (seismic methods to apply for materials)
- Certifications: 6G certification as per CRT 91-C-112-00 (EDF) - UL 508 types 1, 3R, 12

Characteristics	Height mm (in.)	Width mm (in.)	Depth mm (in.)	References
Spacial SF 6G	2000 (78.74)	600 (23.62)	800 (31.50)	NSYSF6G20680
Spacial SF 6G	2000 (78.74)	800 (31.50)	600 (23.62)	NSYSF6G20860
Spacial SF 6G	2000 (78.74)	800 (31.50)	800 (31.50)	NSYSF6G20880

Supply:

Framework

- 1 upper frame with roof
- 1 lower frame
- 1 rear panel
- 4 uprights
- 8 multi-purpose reinforcement corners
- 8 cross-rails fastened to the framework contributing to the seismic resistance (3 left, 3 right, 2 rear)

Plinth

- Monobloc base 4 (0.16) mm (in.) thick, 100 (3.94) mm (in.) high

Door

- Plain door with EDF 1600 captive key lock
- 3 fastening points with connecting rods
- Door hinges on right (opposite direction available on request)

Coupling

- Possibility to couple SF 6G enclosures with the coupling kits ref. **NSYSFBK19** + **NSYSFBKR**
- Possibility to couple plinth with the ref. **NSYPLK6G**

Side panels

NSY6G2SP206

- Enclosures designed to be installed in UBC Zone 4.
- They have been tested with a plain mounting plate and 19" rack.
- Integrated plinth.
- Material: Steel
- Installation: 12 fastening points

Supply:

2 side panels and fasteners

Characteristics	Height mm (in.)	Depth mm (in.)	References
Side panel	2000 (78.74)	600 (23.62)	NSY6G2SP206
Side panel	2000 (78.74)	800 (31.50)	NSY6G2SP208

Mounting plate

NSYMP206

- Material: Galvanized steel
- Installation: Mounting plate to be installed with **NSYSFPB6G** fastening kit + **NSYHLCR●●** cross-rails

Supply:

1 mounting plate and sliding shoes

Characteristics	Height mm (in.)	Depth mm (in.)	References
Mounting plate	2000 (78.74)	600 (23.62)	NSYMP206
Mounting plate	2000 (78.74)	800 (31.50)	NSYMP208

Rails for heavy load

NSYHLCR40

- Material: Zinc-coated steel

Characteristics	Depth mm (in.)	References
Rails for heavy load	400 (15.75)	NSYHLCR40
Rails for heavy load	600 (23.62)	NSYHLCR60
Rails for heavy load	800 (31.50)	NSYHLCR80

Supply:
2 cross-rails and fixing elements

Reinforced fixing kit for mounting plate

NSYSFPB6G

- Material: Steel

Characteristics	References
Reinforced fixing kit for mounting plate	NSYSFPB6G

Supply:
6 anti-vibration supports
4 mounting brackets
4 supports
2 connectors and fixing elements

Trim cap for SF 6G panels

NSYCSP6G

- Material: Plastic

Characteristics	References
Trim cap for SF 6G panels	NSYCSP6G

Supply:
50 units

19" fixed uprights

NSYRCK42

- Uprights designed to be assembled on enclosures 800 (31.50) mm (in.) wide and 800 (31.50) mm (in.) deep.
- Material: Zinc-coated steel
- Fixing: To fasten the 19" uprights, it is necessary to use the fixing kit **NSYRCK19KIT6G**

Characteristics	References
19" fixed uprights	NSYRCK42

Note:
For a 19" seismic configuration, 4 uprights must be used

Supply:
2 uprights and fasteners,

19" fixed uprights

NSYRCK19KIT6G

- Material: Steel

Characteristics	References
19" fixed uprights	NSYRCK19KIT6G

Supply:
4 cross-rails
8 fastening brackets
4 reinforcements
Fixing elements

Optional locks for enclosure

NSYAEDLEDF9K33

- With captive key.
- Material: Polyamide handle, metal connecting rods and cam

Characteristics	References
Optional lock for enclosure, EDF 900	NSYAEDLEDF9K33

Spacial SF 6G for seismic risks

Cut-outs

Note:
Customization areas guaranteeing 6G resistance

Spacial S3D 6G enclosures are designed to withstand earthquakes up to UBC zone 4.

Strength

Panel thickness:

- Casing + door: 20 (0.79)/10 mm (in.);
- Entry flange: 15 (0.59)/10 mm (in.).

Reinforced mounting plate

- Mounting plate reinforcement.
- Increased number of attachment points.

Security locking system

- EDF 1600 security locking system with captive key.

Wall-mounted

- Reinforced bracket for wall-mounted.

Spacial S3D 6G solutions for seismic risks

- Seismic applications up to UBC zone 4.
- Material: Steel
- Ingress protection rating: IP65 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262
- Maximum load: 80 (176.37) kg (lbs.)/m² on plain mounting plate, 250 (551.16) kg (lbs.) on 19" fixed uprights
- Standards: IEC 62208 (enclosure) - IEC 60068-3-3 (seismic methods to apply for materials)
- Certifications: 6G certification as per CRT 91-C-112-00 (EDF)

Supply:

Body

- Monobloc casing (cross structure). Gutter-shaped front profile. Flat back
- M6 x 16 (0.63) mm (in.) earthing screws and earth strap for equipotential connection between the enclosure door and casing
- Entry flange
- Maximum load: 10 (22.05) kg (lbs.)

Door

- Plain door with EDF 1600 captive key lock
 - H < 600: 1 fastening point
 - H ≥ 600: 3 fastening points
- Non-reversible door (for reversibility, please contact us)
- M6 x 16 earthing screws and earth strap for equipotential connection between the enclosure door and casing
- 120° door opening
- Maximum load: 10 (22.05) kg (lbs.)

Mounting plate

- Mounting plate galvanized before mounting
- Maximum load: 80 (176.37) kg (lbs.)/m²
- Two wall-mounted brackets

Table of Compatibility of accessories in 6G seismic S3D enclosures

Accessories		Compatibility	Comments	Trade references impacted
	19" rack	Limited	Conditions: Drilling by customization department to be provided for	NSYVDM●●●●
	Door switch	Limited	Conditions: Drilling by customization department to be provided for	NSYINLCRN
	Diagram holder	Yes	-	NSYDPA●●
	Lifting rings	Limited	Conditions: Drilling by customization department to be provided for	NSYAELYTCRG8

Comment: None of the accessories is certified 6G.

The **Spacial S3D 6G K3** enclosure meets K3 requirements in accordance with RCCE 2012.

Strength

Panel thickness:

- Casing + door: 20 (0.79) / 10 (0.39) mm (in.);
- Entry flange: 15 (0.59) / 10 (0.39) mm (in.).

Reinforced mounting plate

- Mounting plate reinforcement.
- Increased number of attachment points.

Decontaminable smooth paint, PID 100 series

- In compliance with CCTR 91.C.031.06
Two coats of paint
(minimum thickness: 60 μ).
- Epoxy polyester powder, PID 100 series.
- PIA-PIC 100 on request.

Earth continuity

- Earth continuity between the interior and exterior of the enclosure is provided by 2 opposite welded studs (external earth screw principle).

Security locking system

- EDF 1600 security locking system with captive key.

Wall-mounted

- Reinforced bracket for wall-mounted.

Spacial S3D 6G K3 solutions for nuclear applications

Seismic application for nuclear power station.

- Material: Steel
- Ingress protection rating: IP65 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262
- Standards: IEC 62208 - IEC 60068-3-3 (seismic methods to apply for materials)
- Certifications: 6G certification as per CRT 91-C-112-00 (EDF)
- Meets K3 requirements in accordance with RCCE 2012
- EDF reference documents:
 - CCTR paint and FNP file;
 - RCC-E: Electrical equipment construction code;
 - Packaging technical specification;
 - "PMUC" (products and materials used in nuclear generating stations)

We can produce a special corrosion protection packaging (Gardac type).

S3D

Our range of Spacial 3D nuclear enclosures meets the K3 requirements of RCCE 2012. The Schneider Electric enclosure production plant has established processes to ensure K3 certification.

Establishment of a line architecture adapted to the requirements mentioned in RCCE 2012, implying:

- Hold points;
- Check points;
- Control of "AIP" activities that are important for protection

Manufacturing completion report with:

- Declaration of conformity.
- Monitoring document.
- Report and test report.

Establishment of a Particular Quality Assurance Plan (PQAP)

Reference documents for the nuclear industry:

- RCC-E, CCTR, FNP, packaging technical specification, "PMUC" (products and materials used in nuclear generating stations), SGAQ-2013-03, Arrêté INB 2012

S3D

Nuclear safety has 3 objectives

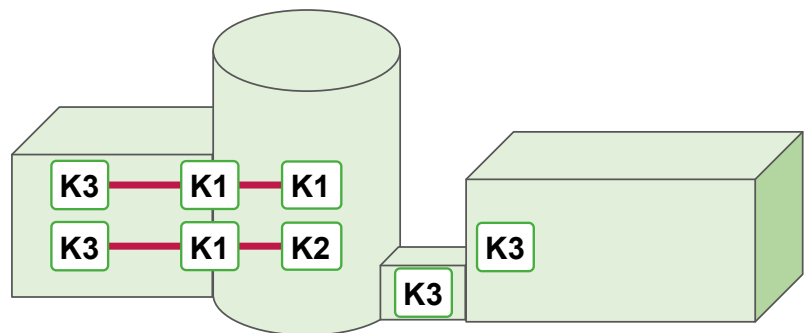

Technical choices and safety rules

The technical choices and safety rules are stipulated by the operator with full responsibility relative to the French nuclear safety authority (ASN) (representing the state) depending on the location in the installation and whether or not they form part of the safety circuits. The products undergo tests to ensure their operation in accidental conditions.

Nuclear island

Conventional island

A safety circuit consists of several equipment items. Their certification depends on their location. Equipment interfacing between the core and the other buildings is always K1 (risk of radioactive leakage).

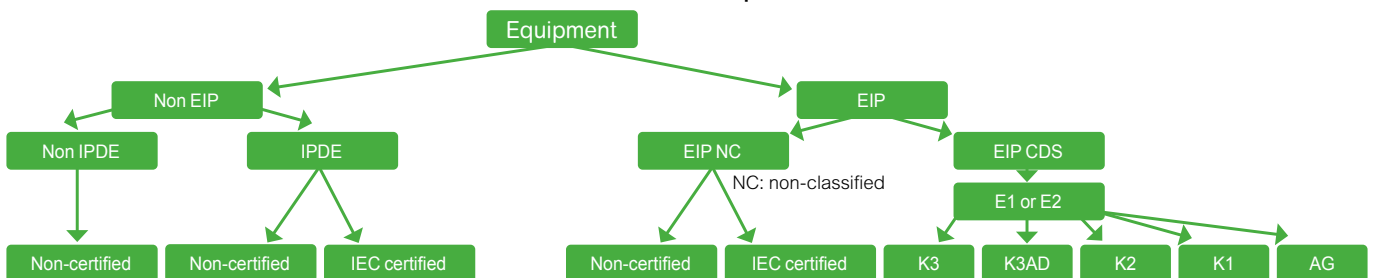

Certifications necessary to work in the nuclear industry

2 certifications are necessary to work in the nuclear industry

- 1• Product and equipment certifications imply demanding performances validated by technical documents and by tests. In the event of a change in the product, it must be explained and justified that the initial certification is maintained.
- 2• Certifications of industrial organizations and services related to products and equipment.

The products equipping French nuclear facilities in this catalog comply with the RCC-E 2012 standard.

Terminology of equipment classifications used in nuclear power stations

EIP: Equipment Important for Protection.
 IPDE: Important for operating availability.
 CDS: Safety-classified.
 Schneider is concerned only by E1 (elec. classification).

Tests corresponding to specific classifications for EIP equipment

- K3 > ref. tests + functional operating limits + ageing + earthquake
- K3AD > K3 + environmental resistance (irradiation, heat, spraying)
- K2 > K3 + resistance to ageing irradiation (250 Kgy)
- K1 > K2 + resistance to accidental irradiation (600 Kgy) + ADR
- AG > K1 reinforced only for EPR power stations

Spacial VDM

Spacial SF

Spacial S3D

Practical

- Cable gland plates at top and bottom:
- On the rear part (2-body enclosure),
- On the body (1-body enclosure).

Simplified installation

- Pre-installed fixed or swing rack; Earth connection placed between the door and the body; The enclosure is ready to use; The cardboard packaging can be reused after cabling.

Suitable metal enclosure

- Enclosure prepared for the installation of standard 19" racks in professional telecommunication, voice, data and electronic facilities, by means of 19" fixed and swing racks, see [page 368](#).

For details consult our web site
www.se.com

Spacial VDM 19"

- Single-piece body, folded and welded.
Front rail with double sheet thickness, gutter-shaped.
- Perforated rails on the door, with drill holes of Ø 4.2 (0.16) mm (in.) in steps of 25 (0.98) mm (in.).
- Transparent door, Securit® glass, easily removable and reversible, with 20 (0.79) mm (in.) return with double thickness granting excellent rigidity, opening to 120°, equipped with 2 or 3 invisible hinges.
- Three locking system points for heights of more than 600 (23.62) mm (in.).
- Polyurethane gasket.
- 6 mm² earth connection between door and body of the enclosure.
- Material: Steel
- Finish: Structured finish, epoxi-polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP66 according to IEC 60529
- Mechanical protection rating: IK08 according to IEC 62262

Supply:

Wall-mounted enclosure supplied with 3 (0.12) mm (in.) double-bar lock as standard

Fixed rack

NSYVDM5U4F

- Maximum load: 3 (6.61) kg (lbs.) per unit

Characteristics	Number of U	Height mm (in.)	Width mm (in.)	Depth mm (in.)	References

Fixed rack, 2-bodies	17	800 (31.50)	600 (23.62)	480 (18.90)	NSYVD2M17U5

Other characteristics:

Rear

- Depth: 150 (5.91) mm (in.)
- Internal attachment point for fixing various supports
- Hinges and locking system
- Cable gland plate at the top and bottom on the rear part

Body

- Usable depth of 183 (7.20) or 283 (11.14) mm (in.)
- Two 19" uprights made from steel, installed 65 (2.56) mm (in.) back from the front panel
- Intermediate body installed on the rear with 120° hinge

Spacial S3D empty enclosure

- Single-piece body (cross-shaped structure). Gutter-shaped front profile with double fold. Flat rear.
- Cable gland plate with marking for easy drilling and to guarantee the maximum access surface; Delivered with the enclosure. This plate is flush with the body of the enclosure.
- Glazed door, 4 (0.16) mm (in.) -thick Securit® glass, easily removable and reversible, with 20 (0.79) mm (in.) return with double thickness granting excellent rigidity, opening to 120°, equipped with 2 or 3 invisible hinges (From the height of 800 (31.50) mm (in.).)
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Ingress protection rating according to IEC 60529: IP66 for the single-door enclosures, IP55 for the double-door enclosures
- Mechanical protection rating according to IEC 62262: IK10 for the plain-door enclosures, IK08 for the glazed-door enclosures
- Maximum load: 50 (110.23) kg (lbs.)/m²
- Fixing: Direct wall-mounted (4 Ø 10 (0.39) mm (in.) holes for the sealing plugs guaranteeing the IP) or with the help of fixing lugs installed from the outside (to be ordered separately, see [page 79](#))
- Other characteristics: For heights from 600 (23.62) mm (in.), three locking points with linkage, with a single control point. Simple reversal of linkage

Delivery includes a handle with two functions:

- Operating key
- Tool for loosening the stud protection caps.

This handle can be solidly attached to the locking system by means of a captive element.

Perforated rails on the door, with drill holes with a diameter of 4.2 (0.16) mm (in.) in steps of 25 (0.98) mm (in.):

- 2 vertical rails from the height of 400 (15.75) mm (in.)
- 2 vertical rails and 2 horizontal rails from the width of 800 (31.50) mm (in.)

Note:

Door opening to 180° with optional hinges ([page 68](#))

Supply:

Wall-mounted enclosure supplied with 3 (0.12) mm (in.) double-bar lock as standard

Glazed door

Spacial S3D Fixed rack (Racks to be ordered separately)

- 19" fixed chassis composed by 2 19" uprights with fixing hardware.
- Thickness: 20 (0.79)/10^e mm (in.).
- Material: Galvanized steel
- Maximum load: 3 (6.61) kg (lbs.) per unit

Note:
Adjustable in depth by fixing on the step slides in accessories (see [page 77](#)).

Spacial SF 19" electronic enclosure

- Structure: Top and bottom frame and vertical uprights.
- Transparent front door with Securit® glass.
- Plain rear door.
- Standard locking system with handle and 5 (0.20) mm (in.) double-bar insert.
- Removable roof.
- External fixing of double-folded side panels to increase rigidity, captive fixing screws that reduce installation time.
- In enclosures with widths of 600 (23.62) and 800 (31.50) mm (in.), it is possible to install fixed or swing racks, to be ordered separately.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Certifications: UL 508A Types 1, 12 and CUL

Front and rear plinths

- The front and rear of the plinth consists of 4 corners with 2 or 4 panels.
- Material: Folded sheet steel, corner with a thickness of 25 (0.98)/10^e mm (in.)
- Finish: Epoxy polyester paint
- Color: RAL 7022 grey
- Ingress protection rating: IP30 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262

Note:

For more information see [page 110](#)

Supply:

Height 100 (3.94) mm (in.): 4 corners, 2 panels (front and rear), 4 corner covers and fixing elements.
 Height 200 (7.87) mm (in.): 4 corners, 4 panels (2 front and 2 rear), 4 corner covers and fixing elements

Spacial SF Plate with 2 entries	800 (31.50)	1000 (39.37)	NSYEC8102

Actassi plain plate for roof

- Removable plate made from folded sheet steel, to be installed on roof ref. **NSYSRSYS8•**.
- Option of installing roof elevators for aeration, ref. **NSYEX206**, and cable glands.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Supply:
1 plain plate and fixing elements

Characteristics

Actassi plain plate for roof

Actassi plate with brush gasket for roof

- Removable folded sheet steel plate, equipped with a gasket with cable gland brush, to be installed on roof ref. **NSYSRSYS8•**.
- Optional installation of roof elevators for aeration, ref. **NSYEX206**, and cable gland plates.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

Supply:
1 plate with brush gasket and fixing elements

Actassi cable gland plate with brush

- Material: Galvanized steel
- Fixing: Fixing on the outside of the roof and bottom support plate
Can be combined with other types of cable gland plates

Supply:
1 cable gland plate with brush and fixing elements

NSYEC440

Characteristics	References
Actassi cable gland plate with brush	NSYEC440

Actassi self-ventilated cable gland plate

- Material: Galvanized steel
- Fixing: Fixing on the outside of the roof and bottom support plate
Can be combined with other types of cable gland plates

Supply:
1 self-ventilated cable gland plate and fixing elements

NSYEC440

Characteristics	References
Actassi self-ventilated cable gland plate	NSYEC440

Actassi airing plate with or without fans, symbol diameter before 120 (4.72) mm (in.)

- Fixing: Fixing on the outside of the roof and bottom support plate
Can be combined with other types of cable gland plates
- Other characteristics: Sound level: 34 dB (A)

Supply:
1 cable gland plate with or without fans, 2 (78.74) m (in.) power cord (version with fans) and fixing elements
Versions with 2 or 3 fans: Each of them has an output capacity of 170 m³/h (100.06 ft³/min), 220 V-50/60 Hz, installed and wired to a terminal strip. A 2-m power cord is supplied connected

Ventilated roof

- Roof for providing natural airing for the enclosure, with IP30 protection.
- Height: An extra 63 (2.48) mm (in.) in relation to the structure.
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey

For more details see [page 376](#)

Supply:
1 ventilated roof and fixing elements

Partial 19" fixed rack

- Rack designed for coupling in enclosures with a width of 600 (23.62) mm (in.).
- Adjustable depth with a pitch of 25 (0.98) mm (in.).
- Material: Zinc-coated steel
- Maximum load: 2 (4.41) kg (lbs.)/U

Installation:

Spacial SF:

- Installation at the top front of the enclosure, no cross-rails needed ⁽¹⁾
- Depth adjustment of the partial rack:
two cross-rails need to be installed, see [page 255](#)
- For installation at any other height, four cross-rails are required ⁽²⁾

Spacial SM:

- At the front of the enclosure ⁽¹⁾: Install two front vertical adaptation profiles, see [page 258](#)
- For depth adjustment ⁽²⁾: Install two front vertical adaptation profiles, see [page 258](#) and two rear vertical 40 (1.58) mm (in.) (1 row) cross-rails and four cross-rails, see [page 255](#)

NSYRCKP4

19" fixed rack

- Rack designed for installation in enclosures with a width of 600 (23.62) mm (in.).
- Adjustable depth with a pitch of 25 (0.98) mm (in.).
- Material: Zinc-coated steel
- Maximum load: 400 (881,85) kg (lbs.) for 4 uprights
- Maximum load: 200 (440,93) kg (lbs.) for 2 uprights

Installation:

Spacial SF:

- Direct fixing on the structure of the enclosures:
- For installation on enclosures with a width of 800 (31.50) mm (in.), use the 19" fixed-rack support brackets,
- To reinforce the rigidity of the uprights in enclosures with a width of 800 (31.50) mm (in.), it is advisable to use the central fixing kit, for enclosure heights above 1800 (70.87) mm (in.), ref. **NSYRCK19KIT**.

Spacial SM:

- Fixing on the top/bottom adjustment rails.

Supply:
2 uprights and fixing elements

Characteristics	No. of units	Height mm (in.)	References

NSYRCK24

Support brackets for 19" fixed rack with a width of 800 (31.50) mm (in.)

- Support brackets for coupling the fixed rack to enclosures with a width of more than 600 (23.62) mm (in.).
- They allow the depth of the fixed rack to be adjusted with a pitch of 25 (0.98) mm (in.).
- The fixed sizes are delivered in pairs.
- Material: Zinc-coated steel
- Maximum load: 400 (881.85) kg (lbs.)

Supply:
4 support brackets and fixing elements

NSYRCKS6

Central fixing kit

- To reinforce the rigidity of the 19" fixed racks in enclosures with a width of 800 (31.50) mm (in.).
- Fixing to the enclosure by cross-rails or light cross-rails installed depthwise. See [page 256](#).
- Material: Zinc-coated steel

Supply:
2 supports and fixing elements

NSYRCK19KIT

Characteristics	References
Central fixing kit	NSYRCK19KIT

Partial 19" swing rack for 600 (23.62) and 800 (31.50) mm (in.) enclosures

- Rack for coupling to enclosures with widths of 600 (23.62) and 800 (31.50) mm (in.).
- In enclosures with a width of 800 (31.50) mm (in.), the rack can be installed centered or off-center.
- Maximum opening: 120°.
- Reversible opening direction: Left/right.
- Locking system, top and bottom, with 5 (0.20) mm (in.) double-bar key.
- The 6 and 9 units racks only with bottom lock.
- Maximum equipment installation depth: 180 (7.09) mm (in.), in enclosures with a width of 600 (23.62) mm (in.).
- Material: Zinc-coated steel

Installation:

Spacial SF:

- To install at the front at any height of the enclosure: directly to the framework by rack fixing elements
- For depth adjustment: Install two (for top height) or four (for any height) 65 (2.56) mm (in.) (2 rows) cross-rails, see [page 255](#)

Spacial SM:

- To install at the front at any height of the enclosure: install two front vertical adaptation profiles, see [page 258](#)
- For depth adjustment: Install two front vertical adaptation profiles, see [page 258](#) and two rear vertical 40 (1.58) mm (in.) cross-rails and four 65 (2.56) mm (in.) (2 rows) cross-rails, see [page 255](#)
- Maximum load: 2 (4.41) kg (lbs.)/U

For more details see [page 376](#)

⁽¹⁾ Optional installation in enclosures with height of 1200 (47.24) mm (in.).

Supply:

1 partial 19" swing rack

Partial 19" swing rack support for 600 (23.62) and 800 (31.50) mm (in.) enclosures

- Supports for coupling the partial swing rack to enclosures with widths of 600 (23.62) and 800 (31.50) mm (in.).
- Height or depth adjustment, with a pitch of 25 (0.98) mm (in.), by two 65 (2.56) mm (in.) (2 rows) universal cross-rails and a 19" multiple bracket, ref. **NSYMBR19**.
- Spacial SF: Direct fixing to the structure.
- Spacial SM: Fixing to the enclosure by means of the vertical adaptation profile, see [page 258](#).
- Material: Zinc-coated steel

Installation:

- Installation of the rack in centered or off-center position, for enclosures with a width of 800 (31.50) mm (in.)

Supply:

2 supports and fixing elements

NSYRSWSP6

Characteristics	Width mm (in.)	References

Partial 19" swing rack support	800 (31.50)	NSYRSWSP8

19" multiple bracket

- Bracket for fixing 65 (2.56) mm (in.) universal cross-rails (2 rows), depthwise, to position the partial 19" swing rack in any direction, up and down and/or depthwise.
- Material: Zinc-coated steel.

Supply:

4 brackets and fixing elements

NSYMBR19

Characteristics	Width mm (in.)	References
19" multiple bracket	600 (23.62)	NSYMBR19

19" swing rack for 600 (23.62) mm (in.) enclosures

NSYRSW627

- To be coupled to enclosures with widths of 600 (23.62) mm (in.).
- Can be moved depthwise with a pitch of 25 (0.98) mm (in.).
- Reversible opening direction: Left/right.
- Locking system, top and bottom, with 5 (0.20) mm (in.) double-bar key.
- Maximum opening: 130°.
- Maximum equipment installation depth: 180 (7.09) mm (in.).
- Not compatible with 120° mechanical retainer **NSYRCDR12**

Fixing to the enclosure structure:

Spacial SF:

- Fixing to the enclosure structure.

Spacial SM:

- Fixing to the enclosure on top/bottom adjustment rails.

Components:

- Zinc-coated steel central structure.
- Mounting cross-rail on structure made from steel painted with epoxy polyester resin, textured RAL 7035 grey. Fixed to the central structure by screws.

For more details see [page 376](#)

Supply:

1 19" swing rack with no panels

Characteristics	No. of units (H)	Height mm (in.)	References
19" swing rack	27	1400 (55.12)	NSYRSW627

19" swing rack for 800 (31.50) mm (in.) enclosures, off-center

NSYRSW27

- To be coupled to enclosures with widths of 800 (31.50) mm (in.).
- Can be moved depthwise with a pitch of 25 (0.98) mm (in.).
- Reversible opening direction: Left/right.
- Locking system, top and bottom, with 5 (0.20) mm (in.) double-bar key.
- Maximum opening: 130° (option of opening to 180° using 180° hinges).
- Material: Zinc-coated steel and steel painted
- Maximum load: 3.75 (8.27) kg (lbs./unit with a max of 150 (330.69) kg (lbs.)

Installation:

- Spacial SF - SM
- Other mounting options: Consult us

Maximum equipment installation depth:

- Off-center 19" swing rack: 470 (18.50) mm (in.)
- Centered 19" swing rack: 390 (15.35) mm (in.)

Fixing to the enclosure structure:

- Spacial SF: Fixing to the entire height of the enclosure structure.
- Spacial SM: Fixing to the enclosure on top/bottom adjustment rails.

Components:

- Zinc-coated steel central structure.
- Mounting cross-rail on structure made from steel painted with epoxy polyester resin, textured RAL 7035 grey.
- Fixed to the central structure by screws.
- Side plate made from steel painted with epoxy polyester resin, textured RAL 7035 grey. Fixed to the central structure by screws.

For more details see [page 376](#)

Supply:

Centered and off-center 19" swing rack: hinged rack, 800 (31.50) mm (in.) swing rack supports, side plates with locking system double-bar and fixing elements

Characteristics	No. of units (H)	Height mm (in.)	References

180° hinge

- Hinge for installation on centered and off-center 19" swing racks.
- Allows the swing rack to be opened to 180°.
- Fixing by M8 screws directly to the swing rack.
- Material: Zamak 5

Maximum equipment installation depth:

- Off-center 19" swing rack: 425 (16.73) mm (in.),
- Centered 19" swing rack: 345 (13.58) mm (in.).

NSYRSWH180

Supply:

2 hinges and fixing elements

Characteristics	References
180° hinge	NSYRSWH180

1 U / 3 U support

NSYRC1U

- Support prepared for installing equipment 1 U or 3 U high.
- Designed with quick-locking for easy installation.
- **Spacial SF:** Direct fixing to the structure.
- **Spacial SM:** Fixing to the enclosure by means of the vertical adapter section, see [page 258](#).
- Material Zinc-coated steel

Characteristics	References
1 U / 3 U support	NSYRC1U

For more details see [page 376](#)

Supply:
4 1 U/3 U supports (2 units right and 2 units left) and fixing elements

19" partial single slides

NSYGB140

- Rails for installation on fixed or swing racks.
- Direct fixing on the structure of the enclosure, by quick-locking.
- Material: Zinc-coated steel
- Thickness: 12 (0.47)/10^a mm (in.)
- Maximum load: 15 (33.07) kg (lbs.)

Characteristics	References
19" partial single slides	NSYGB140

Supply:
2 rails and fixing elements

Fixing of cable ducts on 19" racks

NSYRCDFIX

- Allows vertical fixing of cable ducts for cable guide.
- Service depth: 150 (5.91) mm (in.).
- Fixed by quick-locking to the 19" rack profile.
- Material: Zinc-coated steel

Characteristics	References
Fixing of cable ducts on 19" racks	NSYRCDFIX

Supply:
3 units and fixing elements

Rear cable-guide support

NSYRCSUP15

- Supports used for installation on the rear of the swing racks.
- Suitable for fixing cable-guide accessories.
- Allow vertical fixing of cable ducts: Adjustable depth with a pitch of 44.45 (1.75) mm (in.).
- Material: Z \neq steel

Characteristics	Service depth mm (in.)	References
Rear cable-guide support	150 (5.91)	NSYRCSUP15
Rear cable-guide support	250 (9.84)	NSYRCSUP25

Supply:
2 cable-guide supports, crossbar and fixing elements

120° mechanical retainer

- Retainer for installation on the swing racks.
- Maximum opening: 120°.
- Not compatible with the 19" swing racks for 600 (23.62) mm (in.) enclosures (NSYRSW6*)

Fixing:

Direct fixing to the rack support and the 19" rack

Supply:

1 mechanical door stop and fixing elements

NSYRCDR12

Characteristics	References
120° mechanical retainer	NSYRCDR12

180° pneumatic retainer

- Retainer for installation on the swing racks installed with 180° hinges, in enclosures with a depth of 600 (23.62), 800 (31.50) or 1000 (39.37) mm (in.).
- Maximum opening: 180°.

Fixing:

Spacial SF:

Fixing to the base of the structure and to the rack.

Spacial SM:

Direct fixing to the rack support and to the 19" rack.

Supply:

1 pneumatic door stop and fixing elements

NSYRCDR18

Characteristics	References
180° pneumatic retainer	NSYRCDR18

Switch for swing 19" rack

- Switch for direct fixing on the bottom or top support of the swing rack.
- M20 connection.
- NO + NC contact, 10 A/500 V.

Supply:

1 19" rack switch and fixing elements

NSYRCINT

Characteristics	References
Switch for swing 19" rack	NSYRCINT

Fixings for 19" rack

- They allow 19" accessories to be mounted.
- Caged nut compatible with 8.5 (0.34) x 8.5 (0.34) mm (in.) and 9.5 (0.37) x 9.5 (0.37) mm (in.) holes.

EcoStruxure™ Micro Data Center for Rugged Environments

Spacial SF 19" electronic enclosure

Solution at a Glance

IOT and Industry 4.0 transformations mean that critical IT and OT equipment is moving closer to where it's used. That's why Schneider Electric™ has expanded its EcoStruxure™ Micro Data Center R-series to include all new NEMA and IP ratings for harsh environments. It's everything you already love about EcoStruxure Micro Data Center – a complete, simple-to-deploy, simple-to-manage solution – fine-tuned for industrial use.

Up and running in weeks, not months.

Costs 42-48% less than typical data center build!

Securely manage from anywhere.

Secure physically to ensure cybersecurity

- NEMA and IP rating for harsh environments
- Essential access control
- Environmental monitoring and alerts
- Remote video surveillance

Enclosure description

- Structure: Top and bottom frame and vertical uprights.
- Plain front door
- Plain rear door.
- Locking system with handle and insert key **NSYIN405E1**
- Removable roof assembled
- External fixing of double-folded side panels to increase rigidity, captive fixing screws that reduce installation time.
- Side panels mounted
- Plinth H=100mm mounted
- Gland plate mounted
- 4 crossrails mounted (2 on each side) for 1200 (47.24) heights
- 6 crossrails mounted (3 on each side) for 2000 (78.74) heights
- 4 x 19" upright mounted
- Enclosure width 800 with support bracket **NSYCRKS...** and **NSYRCK19KIT** in order to mount 19" upright
- 5 earthcable **NSYEL2225D8** mounted
- Material: Steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- UL, CUL according to UL 508A and CSA C22.2 NO.14
- Nema 1 and 12 according to NEMA 250
- RoHS and REACH directive compliance.

Electromagnetic interference

Introduction

LV networks are highly polluted and subject to a large number of aggressions. Electrotechnical equipment and in particular electronic devices, which are increasingly numerous and process ever lower signals, must withstand a harsh electromagnetic environment. At the same time availability requirements, whether for production, management or commerce, are steadily increasing.

Definition

Electromagnetic interference is defined as any electromagnetic phenomenon capable of impairing the performance of a device, equipment or system, etc. An electromagnetic disturbance can be electromagnetic noise, an unwanted signal or a change in the propagation medium itself.

An electromagnetic disturbance, as its name suggests, consists of an electric field \vec{E} generated by a potential difference and a magnetic field \vec{H} difference caused by the flow of a current I along a conductor.

Unwanted electromagnetic interference is simply an unwanted electrical signal that is added to the useful signal.

This unwanted signal is propagated via conductors and by radiation.

Examples of sources of electromagnetic interference

EMC standards

The standards define electromagnetic compatibility (EMC) as "the ability of a device, equipment or a system to function satisfactorily in its electromagnetic environment without introducing intolerable disturbances to that environment or to other equipment".

Classification

In an electrical switchboard, the signals coming from these sources of disturbance will coexist with more sensitive devices. These signals may be classified as follows (sources: standards IEC 61000-5-2 and IEC 60364-4-44):

Class	Examples
1 Sensitive	<ul style="list-style-type: none"> Low-power devices with analog output, transducers etc. Instrument circuits (probe, sensors...)
2 Not very sensitive	<ul style="list-style-type: none"> Control/command circuits with resistive load Digitalized low-level circuits (Bus...) Low-level circuits with on-off output unit (sensors...) Low-level direct power supply
3 Not very disturber	<ul style="list-style-type: none"> Control/command circuits with inductive load (relay, contactors, coils, inverters...) with adapted protection Alternating power supply Main power supply connected to power devices
4 Disturber	<ul style="list-style-type: none"> Welding machines Power circuits Drives, switched-mode power supplies ...

How to obtain EMC

Rules to be followed: General description

Electromagnetic interference generated by devices is classified in 2 categories according to its frequency:

- Low frequency (up to 30 MHz): Interference conducted by sensor cables;
- High frequency (above 1 MHz): Interference radiated by a device.

The rules to be followed concern the selection and installation of the electrical installation's components. Overall, they break down as follows:

Conducted interferences

- Importance of the choice of architecture for the power supplies and associated protective devices.
- Use of filters.

Radiated interferences

- Specification of installation rules: grounding, length and cross section of cables, cabling rules, choice of cable tray, connections, choice and installation of the enclosure.
- Use of filters.

Shielding connection

Shielding connections eliminate interference by conducting them to earth. The decision to connect one or both ends to earth means priority is given to protection against low or high frequencies:

- If one end is earthed, 50-Hz stray current cannot flow, HF protection is moderate;
- if both ends are earthed, 50-Hz current may occur but the barrier against higher frequencies is enhanced.

Isolation transformers

Isolation transformers are used to guard against high-frequency disturbances generated by the network power supply (primary circuit). An electrostatic shield is connected to earth by a short link. This link must be free of paint and any other insulated material. Physical separation of the cables of the primary circuit (network power supply) and those of the secondary circuit (power distribution) is also essential.

Earth connection of metal raceways

Increasing shielding efficiency of highly disturbing cables

The radiation from a shielded variable speed drive/motor connecting cable will be further reduced if it runs in a closed metal raceway or, even better, in a metal conduit. The raceway and tube need to be connected to earth at either end.

Enclosures

The interfering and sensitive components, cables etc. should be installed in separate enclosures or located at some distance from each other.

Note:

For further information, consult your local sales office or our educational leaflet entitled "Electromagnetic compatibility" - ref. **UE17MK08FR**.

Connect the shielding

Example 1
Shielding connected to frame earth by a wire (pigtail) and no mechanical fastener.

Arrangement to be avoided.

Example 2
Shielding connected to frame earth over its entire circumference, but no mechanical fastener.

Acceptable arrangement.

Example 3
Shielding connected to frame earth over its entire circumference, and a mechanical fastener.

Recommended arrangement.

Isolation transformers

Earth connection of metal raceways

Enclosures

EMC offer of Schneider Electric

Spacial S3HF wall-mounted enclosure, IP55, IK10

From H 400 (15.75) x W 300 (11.81) x D 200 (7.87) to H 1200 (47.24) x W 800 (31.50) x D 300 (11.81) mm (in.)

- Metal monobloc enclosures constructed from special ALU-ZINC 150 sheet.
- Body constructed from single folded and welded sheet.
- The enclosure surface, comprising 55% aluminum, ensures good reflection of radiated electromagnetic interference.
- Ingress protection rating: IP55.
- Mechanical protection rating: IK10.
- Structured finish, exclusively epoxy polyester paint on the outside
- RAL 7035 grey.

Spacial SFHF suitable enclosure IP55 IK10

From H 1800 (70.87) x W 600 (23.62) x D 600 (23.62) to H 2200 (86.61) x W 800 (31.50) x D 800 (31.50) mm (in.)

- Metal, extendable enclosure constructed from a closed triangular profile, door and panel from special ALU-ZINC 150 sheet.
- The enclosure surface, comprising 55% aluminum, ensures good reflection of radiated electromagnetic interference.
- Ingress protection rating: IP55.
- Mechanical protection rating: IK10.
- Structured finish, exclusively epoxy polyester paint on the outside
- RAL 7035 grey.

Attenuation of electromagnetic interference

The next illustrations indicates the attenuation (dB) curves related to the frequency (MHz).

Attenuation of the Spacial S3HF enclosure

Attenuation of the Spacial SFHF suitable enclosure

Enclosure is tested with its sides panels and earth braids mounted on all claddings (test performed following IEC 61587-3).

Attenuation curves

— Horizontal attenuation — Vertical attenuation

Trend curves (polynomial of order 6)

— Horizontal attenuation — Vertical attenuation

Spacial S3HF

- Single-piece metal enclosures made from special sheets of ALUZINC 150.
- The presence of 55% aluminum on the surface of the sheet metal ensures good reflection of electromagnetic waves.

Body

- Single-piece body, folded and welded,
- Entirely sealed body with no cable entry and no opening,
- Equipped with four shouldered backstuds allowing direct fixing of the mounting plate,
- Low resistivity for good earth continuity
- Direct fixing or using wall fixing lugs, ref. **NSYPFCR** (to be ordered separately).

Door

- The special body-door gasket (IP + EMC) provides, in addition to water and dust tightness, electric continuity between the door and the body of the enclosure,
- The metal lock with earth continuity helps improve the general shielding,
- An earthing braid added to the enclosure between the body and the door guarantees a good earth connection and, consequently, good electromagnetic compatibility,
- 3 (0.12 mm (in.)) double-bar lock as standard delivery (if a 405 key is needed it is possible to mount ref. **NSYCLL405CRN**).
- Other sizes: Consult us.
- Finish: Structured finish, epoxy polyester powder (inside not painted)
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262
- Certifications and declarations: UL, CE declaration
- Fixing: Fixing lugs, ref. **NSYPFCR** to be ordered separately (1 set of 4 lugs)

For more details see [page 385](#)

Supply:

Enclosure delivered with galvanized mounting plate.

Spacial SFHF

Structure

- Galvanized steel structure,
- Top and bottom frame, vertical upright.

Claddings

- Enclosure with screwed panels (on side and rear) and front plain door (with reinforcement frame) made from Aluzinc steel,
- Side panels to be ordered separately,
- Special gasket (IP + EMC) between body, door and panels.
- Finish: Epoxy polyester paint on the outside (inside not painted)
- Color: RAL 7035 grey
- Ingress protection rating: IP55
- Mechanical protection rating: IK10
- Certifications: RoHS compliant
- Dimensions manufacturing on demand

Note:

Only available on demand.
For more details see [page 385](#)

Supply:

- 1 single plain door with door-reinforcement frame (double-door on request, please consult us).
- Left or right opening to 120°.
- Delivered with standard locking system handle and 5 (0.20) mm (in.) double-bar insert.
- 1 rear panel screwed from the outside.
- 1 removable roof.
- 1 part cable gland plate with special gasket (IP + EMC).

EMC cable gland with contact spring

- Thread type: Metric EN 60423, other types are available upon request
- Material: Nickel-plated brass, neoprene gasket
- Ingress protection rating: IP66
- Flame resistance: UL94 V-2
- Temperature range: -20°C (-4°F) to + 100°C (212°F)
- Cable type: Unshielded

Supply:

The cable glands are supplied with nuts.
Pack of 10 (M12 and M16), of 5 (M20 and M25),
of 4 (M32 and M40)

Industrial environments, equipment rooms

Spacial S3DEX steel enclosure

The Spacial S3DEX steel enclosure is certified by the LCIE with no. LCIE 02ATEX0037U (component certification).

- Ten sizes: From 300 (11.81) x 200 (7.87) x 150 (5.91) mm (in.) to 1000 (39.37) x 800 (31.50) x 300 (11.81) mm (in.).
- Degree of protection: IP66 according to IEC 60529.
- Ambient temperature range: -20°C (-4°F) ≤ Ta ≤ +40°C (104°F)
- Resistance to external mechanical impacts: IK10.
- Structured finish, epoxy polyester powder paint, RAL 7035 grey color.

Safety

- Blind nut for external earth connection.

- The 4 fixing holes are blocked by 4 crimped blind nuts.

- Earthing studs welded to the door and inside the body.

Label

- Example of specific ATEX marking (description: [Page 517](#)).

Robust

- The chassis is mounted on four 10 (0.39) mm (in.) shouldered backstuds.

Easy handling

- Reusable, eco-friendly packaging.
- No sharp edges.

In accordance with the ATEX directive

- The enclosures bear the marking shown on [page 517](#).
- The enclosures offer a degree of protection of IP66 according to EN 60529, reaching the highest dust protection according to ATEX standards.
- The certification of our production sites and inspection procedures guarantees the observance and regularity of the quality level.

Protection of all applications in ATEX II2 or II3 areas

- Surface installations with occasional or accidental
- Thanks to ATEX-certified steel.

ATEX enclosures from Schneider Electric

Steel enclosures

- All the wall-mounted enclosures presented in this brochure comply with standards for protection against the potential risk of explosion in atmospheres containing gas (G) or dust (D).
- The Schneider Electric offer, designed to be used in group II, is classified as category 2.

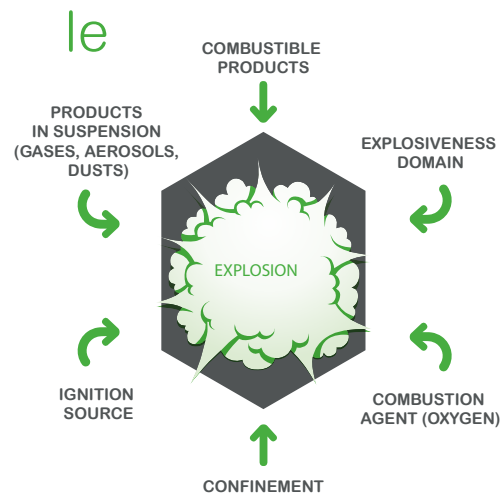

Protection of equipment against explosion			ATEX	
Group *	Category	Level	Probability	Zone
I	M1	Very high	Permanent	0 / 20
I	M2	High	Occasional	1 / 21
II	1	Very high	Permanent	0 / 20
II	2	High	Occasional	1 / 21
II	3	Normal	Accidental	2 / 22

* I = equipment designed to be used in the mining and quarrying industries
 II = equipment designed to be used in surface industries

 Zone of application of Schneider Electric ATEX wall-mounted enclosures.

- Products of category 2 can be used as category 3.
- Our products are certified:**
- For gas environments: Increased safety "e" (Ex e) but not flameproof safety "d" (Ex d);
 - For dust environments: Protection by enclosure "t" or "tb".
 - The wall-mounted enclosures offer a degree of protection of IP66 according to IEC 60529, exceeding the recommendations of the ATEX directive.
 - Certification of our production sites and inspection procedures guarantees observance and consistency of the quality level.

Potentially explosive atmospheres (ATEX)

Explosion hexagon

Process leading to an explosion in an explosive atmosphere

For an explosion to occur, six conditions must be met simultaneously (see explosion hexagon opposite). The process is as follows:

- Mixing combustible substances (gases, dusts) with air whose oxygen acts as combustion agent;
- Dosing of combustible products and combustion agents in precise proportions; thereby obtaining a potentially explosive atmosphere;
- Confining the explosive atmosphere thus obtained in a place conducive to explosion;
- Exposing it to an ignition source having sufficient energy to cause an explosion.

ATEX regulations

Two EU directives and an international standard regulate potentially explosive atmospheres:

- The objective of the two EU directives (the so-called ATEX directives) is to enhance protection from explosions by making various technical and organizational measures compulsory;
- The 2014/34/EU directive (a revision of the 94/9/EC directive) came into application on 20 April 2016. It describes the requirements that must be met by protection devices and systems, and the conformity assessment procedures;
- The 99/92/EC directive, a labour relations supplement to the preceding one, presents the minimum requirements to be met to improve the protection of workers liable to be exposed to ATEX-related risks.

Definition

Product directive 2014/34/UE: defines the manufacturers' obligations.

Personal protection directive 99/92/CE: defines the users' obligations.

Degree of protection:

In hazardous areas, equipment is required to offer a minimum degree of protection of IP54, but it can be tested or certified for a higher degree of protection.

- An IEC international standard harmonized with the European standard EN:
- IEC 60079: electrical equipment for potentially explosive gaseous atmospheres.

Classification

Locations liable to be in the presence of an explosive atmosphere have been classified according to 2 criteria:

- The probability assessed on a scale comprising 3 levels;
- The nature of the combustible product.

The following 6 ATEX zones are obtained:

Probability of an explosive atmosphere	Gas / vapor or mist	Dust
Place in which an explosive atmosphere is present constantly , or for long periods or frequently	Zone 0	Zone 20
Place in which an explosive atmosphere is likely to occur occasionally in normal operation	Zone 1	Zone 21
Place in which an explosive atmosphere is not likely to occur in normal operation or, if it does occur, will persist for a short period only	Zone 2	Zone 22

Equipment installed in an explosive-atmosphere zone must be protected against the risk of explosion. Three levels of protection have been defined, corresponding to the three probabilities of existence of an explosive atmosphere. They are broken down into 5 categories depending on the type of industry.

Protection of equipment against explosions			ATEX	
Group *	Category	Level	Probability	Zone
I	M1	Very high	Permanent	0 / 20
I	M2	High	Occasional	1 / 21
II	1	Very high	Permanent	0 / 20
II	2	High	Occasional	1 / 21
II	3	Normal	Accidental	2 / 22

* I = equipment designed to be used in the mining and quarrying industries
 II = equipment designed to be used in surface industries

Protection of electrical equipment

The standards define various methods of protection for electrical equipment according to the application in explosive atmospheres containing gas or dust.

Electrical equipment		ATEX	Methods of protection	
CENELEC	IEC		Symbol	Title
EN 50015	IEC 60079-6	G, D	o	Immersion in oil
EN 50016	IEC 60079-2	G, D	p	Enclosures with internal overpressure
EN 50017	IEC 60079-5	G, D	q	Filling with powder product
EN 60079-1	IEC 60079-1	G, D	d	Explosion-proof enclosures

G = gas / vapor or mist
D = dust

ATEX certification of electrical switchboards

- Since 1 July 2003, the European Union has made it compulsory to use certified equipment (electrical or non-electrical) when it is to be installed in areas where the atmosphere is potentially explosive.
- The certification must be established by an approved organization in accordance with the 2014/34/EU directive.
- The organization certifies that the product complies with the health and safety requirements defined in the European directive and the international standards.
- The certificate indicates, via the marking, the product's category and accordingly the zone and the atmosphere in which it may be used.
- Enclosures are certified as components. They will be assembled with other ATEX components (electrical, pneumatic, hydraulic, etc.), to form a final solution which must itself be ATEX-certified and covered by a declaration of conformity.

Spacial S3DEX

Protection for users

- Earthing: The Spacial S3DEX steel enclosures are provided with M6 x 16 earth studs welded to the casing and door for equipotential connection. Earth strap to be ordered separately.
- Closing: Enclosures higher than 600 (23.62) mm (in.) are provided with three locking points with connecting rods, with a single control point preventing the enclosures from being left half-open.

Casing

- Monobloc casing (cross-structure). Gutter-shaped front profile.
- 4 bottom shoulder studs M8 x 25 (0.98) mm (in.) for mounting the chassis and notched bars to provide a space of 10 (0.39) mm (in.) at the rear.

Door

- Standard fastening by 3 (0.12) mm (in.) double-bar lock
- Polyurethane door seal
- Double-thickness 20 (0.79) mm (in.) return conferring excellent rigidity;
- 2 concealed hinges (3 above H = 800 (31.50) mm (in.)) to facilitate dismantling and reversibility of the door. Opening angle: 120°
- Maximum load: 50 (110.23) kg (lbs.)/m².
- Perforated sections on the door, with holes of diameter 4.2 (0.16) mm (in.) every 25 (0.98) mm (in.) for mounting accessories:
- 2 vertical sections from H = 400 (15.75) mm (in.);
- 2 vertical sections and 2 horizontal sections from L = 800 (31.50) mm (in.).

Specific ATEX features

- 4 fastening holes closed by 4 crimped blind nuts.
- One crimped M8 blind nut for an external frame earth link (strap not provided)
- Ambient temperature: -20°C (-4°F) ≤ Ta ≤ +40°C (104°F)
- Marking: See [page 517](#).
- Material: Steel
- Finish: Structured finish, epoxi-polyester powder painting
- Color: RAL 7035 grey
- Ingress protection rating: IP66 (enclosures with single-door) according to IEC 60529
- Mechanical protection rating: IK10 (enclosures with plain door) according to IEC 62262
- Fixing: Wall fixing lugs:
 Passivated zinc-coated steel: Reference **NSYAEFPFSC**
 304L stainless-steel: Reference **NSYAEFPFXSC**

Spacial S3CM control enclosure with suspension system

The Spacial S3CM offer for human-machine interface combines robustness with aesthetics and ergonomics. Consist of:

- Control enclosure,
- A keyboard box,
- A suspension system of arms and joints, for a fixed or rotating solution and support accessories.

Spacial SD control desks

The range of Spacial SD control desks provides all functions required of a workstation intended for industrial and infrastructure applications. Spacial SD products offer two distinct solutions:

- The SD Compact control desk,
- The SD Control desk with console.

The range has protection ratings of IP55 and IK10 guaranteeing the safety and the protection of the installed devices.

Spacial SF suitable PC rack

The Spacial SF PC rack is designed to protect and control computer equipment in industrial environments. Access to various functions and working heights, guaranteeing optimal comfort. The roof and panels, fixed from the inside, prevent access by unauthorized personnel.

Spacial SDX Control desks

The Spacial SDX range of control desks offers all the functions required to set up a control station that meets the industrial or infrastructural needs of applications in harsh environments or in the food and beverage sector. These control panels are easy to implement, compatible with data communication components, and they ensure the safety and protection of control devices. They are available in many dimensions and meet the most stringent user requirements.

Spacial SMX monobloc PC rack

The stainless-steel monobloc PC racks have been especially designed to protect computer equipment installed in corrosive or specially environments that require washing or exposure to sprays of liquid. Access to the various functions and working heights ensure optimal comfort.

The Spacial S3CM offer for human-machine dialogue consists of: control enclosures, a box keyboard, a system of fixed or swiveling arms and joints, accessories. The global dialogue system combines robustness with aesthetics and ergonomics.

Human-Machine Interface Solutions

Robust

2 tube sizes in extruded steel, 50 (1.97) and 80 (3.15) mm (in.) square, thickness 40 (1.58)/10^e mm (in.). Top wall reinforced by a plate with a thickness of 30 (1.18)/10^e mm (in.).

Ease of use

Easy access to the equipment by a rear door, opening to 120°. Direct installation of accessories on the enclosure frame rail: - vertical document support, - keyboard support, - laptop computer support. A box keyboard is installed directly on the enclosure.

Aesthetics

Extruded aluminum rail frame. Frame: RAL 7040 Window grey Enclosure: RAL 7035 Light grey

Flexibility

Flexibility

Ergonomics

Frame designed to facilitate the handling and usage of the enclosure by the operator.

For details consult our web site www.se.com

Every model is suitable for tubes with a cross-section of:

- 50 (1.97) mm (in.) for medium loads,
- 80 (3.15) mm (in.) for heavy loads

(see selection table on [page 398](#)).

Steps to choose the suspension system (medium or heavy loads)

- 1 - Define the total load of the system*: a + b + enclosure + installed equipment (Y-axis).
- 2 - Define the length of arm L (X-axis).
- 3 - Define the configuration:

Suspension system without intermediate joint.

Suspension system with intermediate joint.

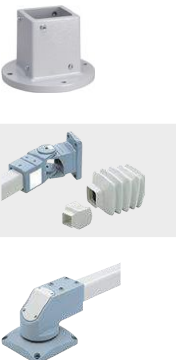

* The load (a + b + enclosure + installed equipment) must be less than the maximum load.

Spacial S3CM

The control enclosures consist of:

A steel body equipped with:

- Reinforcement plate: The top wall is reinforced by a plate (3 (0.12) mm (in.)) and pierced with a hole Ø 54 (2.13) or 87 (3.42) mm (in.) (according to the reference) to allow hanging installation of the enclosure,
- 4 welded studs on the 2 inner vertical walls, for fixing the rails,
- 2 rails (with drill holes) for installing equipment,
- A rear door, opening to 120° and closing with double-bar lock.

⁽¹⁾ Enclosure equipped with a cable gland plate

An aluminum front face (2.5 (0.10) mm (in.) thick):

- This surface is protected on both sides by a plastic film, allowing the installation of the dialogue elements,
- A trim frame made from 4 extruded-aluminum rails.
- Structured finish, epoxy polyester powder, RAL 7040 grey color (other colors on demand).
- The design of these rails takes into account the accessory mounting functions (lamp, document support, keyboard support, laptop support, etc.), the ergonomics for handling the enclosure and its overall aesthetics.
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP54 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262

Human-Machine Interface - specific accessories

Box keyboard for control enclosure

- The box is installed on the control enclosures with a width of 600 (23.62) mm (in.). It then has an angle of 120° with its front face. All the accessories required for installation are delivered with 2 brackets and 1 trim rail, 1 hose for cable entry.

The box consists of:

- A steel body, structured finish, epoxy polyester powder, RAL 7035 grey color, with a screwed cover, an aluminum front face (2.5 (0.10) mm (in.) thick) for installing a keyboard,

- A trim frame made from 2 extruded-aluminum rails guaranteeing ergonomic handling of the box and the aesthetics of the unit. The frame and the front face are delivered assembled. Structured finish, epoxy polyester powder painting, RAL 7040 grey color.
- Ingress protection rating: IP54
- Mechanical protection rating: IK10
- Weight: 8 (17.64) kg (lbs.)

For more details see [page 425](#)

Support for Keyboard	NSYCMBPT

Tube

The tubes are available in:

- 2 sizes: Square of 50 (1.97) and 80 (3.15) mm (in.),
- 4 lengths: 0.5 (19.68) m (in.), 1 (39.37) m (in.), 1.5 (59.06) m (in.) and 2 (78.74) m (in.)
- Material: Extruded steel
- Finish: structured finish, powder
- Color: RAL 7035 grey
- Thickness: 40 (1.58)/10° mm (in.)

Wall fixing with joint

NSYCMUMA50

- Device allowing rotation through 170° of a horizontal tube, with a square section of 50 (1.97) or 80 (3.15) mm (in.), and its fixing on a vertical surface.
- Protection by bellows, RAL 7035 grey color.
- Possibility of passing cables through the inside of the joint.
- Material: Molded steel
- Color: RAL 7040 grey

For more details see [page 426](#)

Rotating straight fitting

NSYCMUMC50

- Device allowing the fixing and rotation through 295° of tubes, with a square section of 50 (1.97) or 80 (3.15) mm (in.), in horizontal position.
- Without blocking the chosen position.
- Fixing by 4 screws, not included.
- Material: Molded steel
- Color: RAL 7040 grey

For more details see [page 426](#)

Characteristics	Square mm (in.)	Weight kg (lbs.)	References
Rotating straight fitting	50 (1.97)	5.4 (11.90)	NSYCMUMC50

Fixed bracket

NSYCMUTC50

- Our system of tubes and joints, fixed or rotating, enables all the solutions to respond to the installation needs of the control enclosures for human-machine dialogue.
- Device allowing the combination and fixing of a horizontal tube with a vertical tube.
- Material: Aluminum
- Color: RAL 7040 grey

For more details see [page 427](#)

Characteristics	Square mm (in.)	Weight kg (lbs.)	References
Fixed bracket	50 (1.97)	1.35 (2.98)	NSYCMUTC50

Tilting fixing on enclosure

NSYCMUCP50

- This fixing allows the enclosures to be tilted up to 30°.
- System for blocking in the chosen position.
- It is installed on enclosures with depths of 200 (7.87) and 250 (9.84) mm (in.).
- The installation on enclosures with a depth of 300 (11.81) mm (in.) requires an adapter plate.
- Material: Aluminum + PA
- Color: RAL 7040 grey + PA black

For more details see [page 427](#)

Adapter for signalling beacon

NSYCMACS50

- It is installed on fixed brackets ref. NSYCMUTC50 and NSYCMUTC80.
- Material: Aluminum.
- Finish: Structured finish, powder.
- Color: RAL 7040 grey

For more details see [page 427](#)

Characteristics	Square mm (in.)	Weight kg (lbs.)	References
Adapter for signalling beacon	50 (1.97)	0.025 (0.06)	NSYCMACS50
Adapter for signalling beacon	80 (3.15)	0.08 (0.18)	NSYCMACS80

The range of **Spacial SD** control desks provides all functions required of a workstation intended for industrial and infrastructure applications.

Steel control desks

Accessibility

There are two versions of the Compact control desk:

- Front accessibility: Designed for straight-forward solutions.
- Front and rear accessibility through a removable panel: Enables the installation of two adjoining plates and to work at the rear. The control desk with console offers full accessibility since it is fully accessible from the rear thanks to the 3-point locking door it includes. For Spacial SD, the accessibility which allows quick and easy work is one of its main priorities. For this reason, its design excludes the central upright.

Convenience

The possibility of connecting the modular control desk to the modular consoles affords multiple combinations. The opening direction of the door can be changed quickly thanks to the included hinges.

Ease of use

The console opens easily and safely thanks to the installed pneumatic opening lid stays. Cable entry is optimized because all the models of the range include a cable gland plate with two adjustable parts.

Compatibility

Furthermore, the Spacial SD control desk is compatible with most of the accessories of the Spacial SF and SM ranges.

For details consult our web site
www.se.com

The combination of a monobloc control desk with one or more consoles enables all combinations. Complete accessibility to the inside of the control desk thanks to its design without intermediate crossbars.

Examples of associations

Stainless-steel control desks

Hygiene

The high quality of the standard finish enables very easy maintenance while avoiding contamination. The hygienic feet made from 316L stainless-steel, adjustable between 140 (5.51) mm (in.) and 200 (7.87) mm (in.) height, make it easier to clean under the enclosures.

Compatibility with other ranges

Stainless-steel accessories:

- Plinths, locks.
- Accessories of the steel control desks offer:
 - Mounting plate, pneumatic opening stay, etc.

Resistance to corrosion

High resistance to corrosion. 304L and 316L stainless-steels provide the best solutions for applications in extremely demanding environments.

Convenience

The desk lid and the console are equipped with pneumatic opening stays (opening to 75°) allowing complete access to the inside and preventing sudden falls of the console or the hinged cover. Equipped with adjustment rails for adjusting the depth of the mounting plate. Removable rear panel.

For details consult our web site
www.se.com

Compact control desk

- This range is available in 4 widths with fixed rear panel.
- Full accessibility is provided from the front (no central upright).
- Easy removable and reversible door opening to 120°.
- Locking by 3 (0.12) mm (in.) doublebar lock (other inserts or cylinders also available, to be ordered separately, see [page 413](#)).
- Desk lid equipped with a pneumatic opening stay.
- Opens to 75°. Perforated reinforcement rails with a pitch of 25 (0.98) mm (in.).
- Control desk equipped with adjustment rails with a pitch of 25 (0.98) mm (in.) and brackets allowing adjustment of the mounting plate depth.
- Cable gland plate with 2 adjustable parts, with polyurethane gasket.
- M8 x 18 (0.71) mm (in.) earthing screw for equipotential connection between the door and the body.
- Material: Welded folded steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Thickness: 15 (0.59)/10° mm (in.)
- Ingress protection rating according to IEC 60529: IP55
- Mechanical protection rating according to IEC 62262: IK10

Options:
It can also be equipped with a mounting plate, see [page 415](#)

For more details see [page 428](#)

Characteristics	No. doors	Width mm (in.)	Height mm (in.)	Depth mm (in.)	References

Control desk with console

- Full accessibility is provided from the front and rear.
- Easy removable and reversible front door, opening to 120°.
- Locking by two-point locks with 3 (0.12) mm (in.) double-bar insert.
- Desk lid equipped with a pneumatic opening stay. Opens to 75°.
- Perforated reinforcement rails with a pitch of 25 (0.98) mm (in.) for quick installation of cables and cable ducts.
- Locking by two-point locks with 3 (0.12) mm (in.) double-bar insert.
- Hinged console cover equipped with a pneumatic opening stay.
- Opens to 75°.
- Locking by two-point locks with 3 (0.12) mm (in.) double-bar insert.
- Easy removable and reversible rear door, opening to 120°.
- Locking by three-point lock with flat escutcheon, 5 (0.20) mm (in.) double-bar insert.
- One entry cable gland plate, with polyurethane gasket.
- Control desk equipped with adjustment rails with a pitch of 25 (0.98) mm (in.) and brackets allowing adjustment of the mounting plate depth.
- M8 x 18 (0.71) mm (in.) earthing screw for equipotential connection between the door and the body.
- Material: Welded folded steel
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Thickness: 15 (0.59)/10° mm (in.)
- Ingress protection rating according to IEC 60529: IP55
- Mechanical protection rating according to IEC 62262: IK10

Options:
Plinth options see [page 411](#).
It can also be equipped with a mounting plate, see [page 415](#).
Locking system: Other inserts or cylinders also available, see [page 413](#).
The console can support the installation of a 14" display with an optional PC support plate, see [page 415](#).

SD Compact control desk with rear panel

- Removable rear panel. It enables the installation of two mounting plates back-to-back, allowing the installation of a large number of devices, while ensuring full accessibility from the front and the rear.
- At the top, these control desks are equipped with cable entry cut-outs, that allows the installation of one or more modular consoles.
- Easy removable and reversible door, opening to 120°.
- Locking by 3 (0.12) mm (in.) doublebar lock (other inserts or cylinders also available, to be ordered separately, see [page 413](#)).
- Desk lid equipped with a pneumatic opening stay.
- Opens to 75°. Perforated reinforcement rails with a pitch of 25 (0.98) mm (in.).
- Top cable entry cut-outs covered by a entire blanking cover.
- Control desk equipped with adjustment rails with a pitch of 25 (0.98) mm (in.) and brackets allowing adjustment of the mounting plate depth.
- Cable gland plate with 2 adjustable parts, with polyurethane gasket.
- M8 x 18 (0.71) mm (in.) earthing screw for equipotential connection between the door and the body.
- Material: Welded folded steel
- Finish: Structured finish, epoxy polyester powder paint
- Color: RAL 7035 grey
- Thickness: 15 (0.59)/10° mm (in.)
- Ingress protection rating according to IEC 60529: IP55
- Mechanical protection rating according to IEC 62262: IK10

NSYS06R

Options:

Modular consoles to be installed on top of compact control desk. See details and combinations [page 407](#). It can also be equipped with a mounting plate, see [page 415](#).

Escutcheon with key lock

- Insert breakage torque: 15 daN.
- Material: Polyamide PA 6 material charged with 30% fiberglass
- Color: RAL 7011 grey
- Mechanical protection rating according to IEC 62262: IK10
- Fire resistance: 650°C (1202°F)

NSYML405SD

Characteristics	References
405E key	NSYML405SD

Pivoting handle

- To be installed on the rear door of Control desk with console, replacing the flat escutcheon supplied as standard.
- Ergonomic locking system with pivoting handle (delivered without insert).
- Broad range of inserts for covering the greatest variety of needs (shape inserts, DIN cylinders, KABA, ASSA).
- Changing the opening direction to right / left thanks to the symmetric design of the lock unit (no linkages to be removed).
- Lock unit supported by 2 screws.
- Material: PA 6 charged with 30% fiberglass
- Color: RAL 7011 grey
- Mechanical protection rating according to IEC 62262: IK10
- Fire resistance: 650°C (1202°F)

The **Spacial SF** PC rack is designed to protect and control computer equipment in industrial environments.

Steel PC racks

Convenience

- Anti-glare glazed door designed for viewing displays up to 25.5"
- Cable entry made easier by a two-piece cable-land plate.

Simplicity

The Spacial SF design allows enclosures to be coupled in any direction, adapting to all installation surfaces.

Ergonomics

- Access to the various functions and working heights, guaranteeing optimal comfort.
- Partial doors delimit the access to each function with a 3 (0.12) mm (in.) double-bar lock.
- Built-in display and CPU support.
- Built-in keyboard and mouse support.

Detail of 5 (0.20) mm (in.) DB lock on rear door.

Locking system

- Locking system with flat escutcheon, made from polyamide 6 with 30% fiberglass, RAL 9005 black, with 5 (0.20) mm (in.) double-bar insert for the plain rear door, and small flat escutcheon with 3 (0.12) mm (in.) double-bar insert for the partial front doors.

Robust

- Spacial SF structure formed from a single 1.5 (0.06) mm (in.) galvanized steel section, with a high moment of inertia.
- Vertical uprights joined with top and bottom frames, screwed together with connections of sintered steel.
- Panels built into the structure.

For details consult our web site
www.se.com

Spacial SF PC rack

NSYSF16660PC

- Partial door for PC display, with Securit® anti-glare glass.
- Plain partial door for CPU (enclosures with height of 1800 (70.87) mm (in.)).
- Hinged plain door for keyboard.
- Plain partial door for optional installation of A4 printer support.
- Partial front doors opening to the right.
- Plain rear door, reversible opening direction (right or left).
- Roof and side panels fixed from the inside.
- Cable gland plate with 1 entry.
- Finish: Structured finish, epoxy polyester powder
- Color: RAL 7035 grey
- Ingress protection rating according to IEC 60529: IP40
- Mechanical protection rating according to IEC 62262: IK10
- Certifications: UL 508A Types 1, 12 and CUL

The stainless-steel monobloc PC racks have been especially designed to protect computer equipment installed in corrosive or specially environments that require washing or exposure to sprays of liquid.

Stainless-steel monobloc PC racks

Convenience

- Anti-glare glazed door designed for viewing 14" and 17" displays by removing part of the silkscreen printing.
- Cable entry made easier by a cable gland plate (at the rear) in 2 pieces.

Ergonomics

- Partial doors delimit the access to each function with a 3 (0.12) mm (in.) double-bar lock.
- Access to the various functions and working heights, guaranteeing optimal comfort.
- Built-in display and CPU support.
- Built-in mouse support.

Sealing

- IP55, even with the keyboard drawer open, thanks to the pivoting Plexiglas shutter.

Hygiene

- The high quality of the standard finish enables very easy maintenance while avoiding contamination.
- The hygienic feet made from 316L stainless-steel, adjustable between 140 (5.51) mm (in.) and 200 (7.87) mm (in.) height, make it easier to clean under the enclosures, ref. **NSYPHX200**. More information on [page 165](#).

Optional accessories

- Shelf mounted on telescopic rails.

Resistance to corrosion

- High resistance to corrosion. 304L and 316L stainless-steels provide the best solutions for applications in extremely demanding environments.

For details consult our web site www.se.com

304L stainless-steel PC racks

NSYSMX16660PC

Composition

- Top and bottom partial doors on the front side.
- Pivoting panel for the keyboard.
- Plain rear door.

Monitor-display compartment

- The anti-glare glazed door is designed for viewing displays:
- 14" as standard, 17" by removing a part of the silkscreen printing.
- The height of the monitor support can be adjusted.
- The monitor shelf can withstand a maximum weight of 50 (110.23) kg (lbs).

CPU / keyboard compartment

- The keyboard fixed to the inside becomes operational by tilting the central panel.
- The CPU is placed on a height-adjustable shelf, visible and accessible through a pivoting, transparent shutter.

Optional accessories

- Hygienic feet H 200 (7.87) mm (in.): **NSYPHX200**.
- Shelf installed on a sliding rail, with adjustable height.
- Telescopic tray: **NSYTTG60**.
- Material: Monobloc structure in 304L stainless-steel sheet, micro-beaded finish. Can be made in 316L stainless-steel on request
- Ingress protection rating according to IEC 60529: IP55, even with the keyboard drawer open
- Mechanical protection rating according to IEC 62262: IK10

A: 1600 / 1800

B: 690 / 890

① Screwed shelf, adjustable height.

② Sealed case for keyboard.

Plinth

- Material: Stainless-steel, AISI 304L
- Finish: Scotch-Brite® brushing to guarantee the durability in applications where contact with the floor increases the risk of corrosion
- Installation: It is necessary to order separately the plinth fixing kit (ref. **NSYAPFXWM**) composed by fixing elements and drilling jig

The variable-speed drives flush-mounting kits have been designed to isolate the power part, which is an important source of heat. They are mounted in the Spacial range of steel enclosures (floor-standing and wall-mounted enclosures) and have been approved for Altivar Process variable-speed drives of the ATV630 and ATV930 ranges (power range: 0.75 to 45 kW at 200/240 V, 0.75 to 90 kW at 380/480 V).

The kits are available in five sizes and offer two methods of mounting variable-speed drives:

- slide-rail mounting for sizes 1, 2 and 3
- bracket mounting for sizes 4 and 5.

The kits can be installed:

- at the back of the enclosure.
This installation provides full thermal insulation.
- inside the enclosure on a mounting plate.
This installation may require additional thermal control.

Tightness

- IP55 according to IEC 60529 with polyurethane seal provided.

Services

Possibility of cut-outs (enclosure and frame) by Schneider Electric: No risk of corrosion and cuts (cut-out made before painting).

Ease of installation

- Set of slide-rails allowing the variable-speed drive to be mounted quickly and efficiently.

Strength

- The rigidity of the kit allows it to be installed on Spacial S3D, SF and SM enclosures.

Earth continuity

- Earth continuity is ensured by tightening the M6 nuts combined with pin washers.

Maintenance of the variable-speed drive fan (kit sizes 4 and 5)

- Easy front panel maintenance for fan servicing.

Sizes 1, 2 and 3

Sizes 4 and 5

Technical changes reserved. Information provided without guarantee. Images are for illustrative purposes only.

The door of the "incoming" enclosure is interlocked by the control of the main switch or circuit breaker. A built-in interlocking system with runner rods prevents the opening of the "outgoing" enclosure doors. Access is only allowed when the main switch or circuit breaker is in "O" position and the main door is open. Manual activation of the rods unlocks the other doors and allows access.

Designed to be combined with specific circuit breakers or switches:

- Square D (9422 A1).
- Schneider Electric.

The system is limited for configurations up to 4 columns.

Safety

- The built-in safety interlocking system for the door (on demand) of the incoming/outgoing enclosures allows Spacial SF enclosures to be adapted to the requirements of the American automotive industry.

Interlocking system for main door

NSYSLCKP

System for unlocking the main door adapted to the switches:

- Allen Bradley (1494 VH11).
- Square D (9422 A1).
- Siemens (FH0H).
- Schneider Electric.

Unlocks the main door when the switch is in the open position "O".

The main door interlocking system requires ordering both references:

- 1 Activation system for secondary doors.
- 2 Interlocking system for secondary doors.

- Material: Steel
- Finish: Zinc-coated

Note:

The fixed panel in this example must be ordered through our customized service.

Supply:

2 brackets for fixing the configured panel, interlocking elements, switch and fixings. Configured panel and switch not included.

Characteristics	References
Interlocking system for main door	NSYSLCKP

Activation system for secondary doors

NSYSODS

- System installed in the main enclosure.
- Activated by manual operation, preventing the opening of the secondary enclosures connected to one another by runner rods.
- Safety function consisting of a part that forces the system into the position in which the secondary enclosures are locked in order to lock the main door.
- Material: Mechanism: Zinc-coated steel, Activation handle: Black plastic

Supply:

Elements for activating the main door and fixings.

For the complete function, both activation

- 1 and interlocking systems
- 2 need to be ordered.

Characteristics	References
Activation system for secondary doors	NSYSODS

Interlocking system for secondary doors

NSYSLCKS6

- System for interlocking the outgoing enclosures connected to one another by runner rods that lock their doors.
- Material: Steel
- Finish: Zinc-coated
- Fixing: Fixing to the structure of the enclosures by screws

Supply:

Elements for interlocking the secondary doors and fixings.

For the complete function, both activation

- 1 and interlocking systems
- 2 need to be ordered according to the enclosure Larg..

Thermal problems in enclosures

Evolution of the electrical switchboard

An electrical switchboard is an assembly formed of the following components:

- The enclosure;
- Switchgear and controlgear;
- Electrical conductors; and
- Miscellaneous functions (displays, controls, information processing).

It has evolved in three directions:

- Enclosures increasingly made of insulated materials;
- Switchgear and controlgear incorporating more and more electronics which concentrates a growing number of functions in an increasingly small volume;
- An increasingly high filling rate.

Industrial safety studies, a concept which covers:

- The safety of personnel and equipment;
- The availability of electric power;

These two aspects are the critical point of all industrial and service-sector activities.

Operation must therefore be perfectly under control; and this control must concern not only the operation of the components but also their operating conditions in a given environment.

Temperature and humidity in the enclosure

Analysis of the malfunctions and downtimes of an electrical installation shows that they are mostly of thermal origin: Temperature too high or too low inside the enclosure.

The rise of the average temperature above the limits tolerated by the equipment is often caused by changes to the electrical switchboard:

- Use of insulated materials for the enclosure impairing heat dissipation,
- An increasing number of electronic devices and a higher filling rate increase the temperature.

Such overheating may only occur at certain points of the installation called 'hot spots'.

Excessively low temperatures occur when the electrical switchboard is installed in a very cold environment. This can cause the formation of condensate which is harmful to the equipment.

Consequences

The presence of humidity or excessively high temperatures inside the enclosure can cause numerous malfunctions:

- Nuisance tripping of protective devices;
- Fire inside the enclosure;
- Burns for the users;
- Premature equipment ageing;

These malfunctions lead to an increase in the installation's operating costs:

- Maintenance costs,
- Costs entailed by installation downtimes.

Solution: Thermal management

Objective

The thermal management solution adopted shall:

- Maintain the temperature and humidity level inside the enclosure at values corresponding to normal operation of the equipment.
- Establish a uniform temperature to prevent hot spots.

Choice of solution

The products constituting the thermal management solution are selected to obtain a thermal balance of the installation. This comprises 2 parts:

- Thermal balance inside the enclosure;
- Evaluation of the climatic conditions (temperature, humidity level) or environmental conditions (pollution) of the location of the electrical switchboard.

The Schneider Electric solutions

With the ClimaSys range, Schneider Electric proposes a comprehensive offer meeting all needs:

- Airing
- Cooling
- Heating
- Regulating
- Homogenizing (air circulation)

Schneider Electric also proposes a thermal design software program, ProClima, which produces the thermal balance and proposes one or more thermal management solutions.

Characteristics	Climasys
Cooling	 <p>Forced airing systems Air-to-air exchangers Air-to-water exchangers Cooling units</p>
Heating	 <p>Resistance heaters</p>
Controlling	 <p>Thermal control accessories</p>
Thermal Data	 <p>ProClima software</p>

	Homogenize	Cooling	Cooling	Cooling
Solution	Air circulation	Natural airing	Forced airing	Air-to-air exchanger
Description	Circulation fan inside the enclosure	Air circulation achieved by installing grids (side or roof-mounted) with or without filter, or by elevating the roof.	A fan (with or without filter) feeds fresh external air into the enclosure. This creates a slight overpressure, forcing the warm air out of the enclosure through an outlet grid. The air flow balances the temperature, and the overpressure prevents dust ingress. Side or roof-mounted. Can be combined with a thermostat.	Cooling system comprising an aluminum heat exchanger and separate internal and external air circuits and two centrifugal fans circulating the air, and a thermostat for temperature control. Side or roof-mounted.
Use	To prevent hot spots	Low power to be dissipated. Dusty environment	High heat dissipation performance, suitable for dusty and non-hazardous environments. Prevents hot spots.	Medium heat dissipation performance, suitable for corrosive environments (food processing) and relatively cold environments (about 25°C (77°F)).
Temperature conditions Ta = ambient temperature (outside the enclosure) Td = desired temperature inside the enclosure	None	$T_d > T_a + 5^\circ\text{C} (41^\circ\text{F})$	$T_d > T_a + 5^\circ\text{C} (41^\circ\text{F})$ $3^\circ\text{C} (37^\circ\text{F}) < T_a \leq 35^\circ\text{C} (95^\circ\text{F})$	$T_d > T_a + 10^\circ\text{C} (50^\circ\text{F})$
Independent internal and external air circuits?	No	No	No	Yes
Advantages	<ul style="list-style-type: none"> Uniform temperature inside the enclosure 	<ul style="list-style-type: none"> Very economical solution No maintenance Easy, fast installation. 	<ul style="list-style-type: none"> Economical solution Easy maintenance Easy, fast installation Uniform temperature inside the enclosure Guaranteed level of protection: IP54 (IP55 with cover) 	<ul style="list-style-type: none"> Easy maintenance (no filter) Far lower maintenance frequency than for fans IP55 guaranteed between the enclosure and the air-to-air exchanger.
Disadvantages		<ul style="list-style-type: none"> Low power dissipated Reduction of IP rating Risk of ingress of particles and dust if no filter. 	<ul style="list-style-type: none"> Internal temperature always higher than external temperature Maintenance required: filter change 	<ul style="list-style-type: none"> Internal temperature always higher than external temperature.

		Outlet grids	Fans	Air-to-air exchangers

Cooling
Air-to-water exchanger

Cooling system using an exchanger coil supplied with cold water, separated from the internal air circuit, a centrifugal fan for air circulation, and a thermostat to regulate the temperature inside the enclosure. Side-mounted.

Dissipation of large quantities of heat. Suitable for difficult environments (cement plants, production lines, etc.) or humid environments (sewage plants, bottling lines, etc.). Calorific energy is not discharged to the environment.

$T_a > T_d$

Yes

- Internal temperature independent of external temperature
- Protection system against any leaks
- Calorific energy dissipated externally.
- Guaranteed level of protection: IP55.

- Cold-water circuit with stabilized temperature and flow rate required
- Installation of special piping.

Air-to-water exchangers

Cooling
Cooling unit

Operates like a heat pump: A condenser dissipates the calorific energy absorbed by an evaporator to the ambient air, thereby cooling and drying the air in the enclosure. Mounted on sides, floor, roof and floor-standing.

Highly polluted environment permitting the use of a filter for external protection of the cooling unit.

$T_a > T_d$ and $T_a \leq 55^\circ\text{C}$ (131°F)

Yes

- Internal temperature independent of external temperature
- Even temperature inside the enclosure.
- Guaranteed level of protection: IP54 for roof and big cooling models, IP55 for side-mounted models and the SLIM range
- Use of an ecological gas
- Drainage system for condensed water from evaporator

- Water condensation evaporation unit integrated in side-mounted models from 0.6 kW to 4 kW
- Maintenance required: filter change

Cooling units

Heating
Resistor heaters

The heating resistors help prevent the formation of condensation and help ensure an ideal temperature inside the enclosure.

To heat the inside of the enclosure and prevent condensation.

$T_a < T_d$

-

- Small size (1.6 (0.06) mm (in.) thick for the ultra-thin version)
- Low surface temperature (< 70°C (158°F) for insulated version, 75°C (167°F) for aluminum version)
- Even temperature inside the enclosure with the version equipped with a fan.

Heating resistors

Large range of fans: flow rate efficiency, high protection rating, quick installation and easier maintenance to secure all the applications.

Airing systems

Easy maintenance

Quick filter replacement

- Quick, easy and safe replacement of the filter installed in the fan, even during operation.

Certifications

- UL

Quality of components

Selection of motors

- Improved flow rate and longer service life.
- Large range of input voltages available on all motors delivered as standard, with 50/60-Hz alternating current or direct current

Optimized flow rate: average increase of 50%

- Maximum use of surface.
- Minimal loss of pressure.

Easy installation

Quick installation

- Safe, reliable fixing with the assisted fixing device and the system of multi-thickness fixing-clips.
- Easy to invert.
- To operate as extractors, all the motors can be inverted by simply removing four screws.

High protection rating: IP54 as standard

1 Fixing guide

- To center the body of the fan on the wall of enclosure.
- To correct machining faults.
- To facilitate the correct operation of the fixing "clips".

2 Multi-thickness fixing-clips

- To help guarantee easy and reliable fixing of the airing system.
- With a thickness of 0.8 (0.03) to 4.5 (0.18) mm (in.), with no fixings.

3 Inclined profile of the grille

- To protect the filter against vertical spraying: each slat is protected by the slat above it, with the external dimensions remaining small.

4 IP54 (IP55 with the cover)

- A patented system allows the evacuation of water absorbed by the filter,
- In particular during high-pressure spraying.

5 Hot-fitted sealing gasket

- The polyurethane gasket, hot cast, helps guarantee a long-lasting seal.

6 Effective filter-retaining system

- The system for holding the synthetic filter in the cavity of the filter holder ensures a protection rating of IP54, even under the most difficult conditions.

- Characteristics: The fans comprise an axial motor, a protective housing on the front and rear surfaces and a filter designed to retain dust particles. This filter can be replaced during operation without risk of contact with the rotating element.
- Material of external grids: Injected thermoplastic (ASA PC). self-extinguishing according to UL 94 V-0
- Color external grids: RAL 7035 grey as standard
- Conditions of use: The external temperature must not exceed 30°C (86°F) and must be more than 5°C (41°F) lower than the temperature wanted in the enclosure. The filters that equip the fans must be cleaned and replaced regularly. The ambient air must be relatively clean and overfrequent filter replacement should be avoided. Bear in mind the pressure losses caused by the outlet element (grille with filter, airing louver or simple opening) when determining the fan flow rate
- Storage Temperature: -40°C (-40°F)... 70°C (158°F)
- Ingress protection rating (according to IEC 60529): IP54
- If the enclosure contains electronics, material sensitive to dust deposits or if it is needed to use several fans and grills in the same enclosure, we highly recommend using PROCLIMA and a solution with better filtering using a G3 filter or a higher IP (cooling option as example). In any case, do not hesitate to contact our sales teams to collaborate on your project.
- Mechanical protection rating (according to IEC 62262): IK08
- Installation: The cut-out template supplied with the device avoids the need for marking and helps protect the surface of the enclosure during handling
- All fan references with free air flow rate above 38m³/h (NSYCVF85MxxxPF, NSYCVF165MxxxPF, NSYCVF300MxxxPF, NSYCVF560MxxxPF, NSYCVF850MxxxPF) are also delivered with one anti-insect filter
- Options: The device can be equipped with a filter that provides even more efficient protection for your sensitive facilities against dust particles

Supply:

- G2 M1 synthetic standard filters, Filters for greasy environments G2 M1, G3 M1 synthetic fine filters: 5 units
- Stainless-steel anti-insect filters: 1 unit

Anti-vandalism kit

NSYCAAPV

- Helps prevent the grid from being opened from the outside.
- The unlocking thumbwheel is accessed from the inside of the enclosure.
- Color: RAL 7011

Characteristics	References
Anti-vandalism kit	NSYCAAPV

Supply:

2 items per kit

Covers IP55

- This solution protects the fan or grille from any direct spray.
- The cover is the preferred solution to ensure the following:
 - an efficient air flow for cooling,
 - IP55 rating.
- Material: 2 materials available:
 - steel painted with epoxy polyester powder (RAL 7035 grey) for outdoor applications
 - stainless-steel 304L for food and beverage applications
- Ingress protection rating (according to IEC 60529): IP55
- Mechanical protection rating (according to IEC 62262): IK10
- Certifications: UL 508A
- Installation: Double insulation maintained if installed in an insulated enclosure. The cover is placed over the fan or the grille with a filter located at the bottom of the cover to prevent the entry of particles. Easy access to the filter: Only two screws needed. When mounting: Remove the external part of the fan or the grille as well as the filter.

⁽¹⁾ Values given for a fan powered at 230 V. For other voltages, the values are similar

Supply:
It is necessary to order 1 fan + 1 grille + 2 covers to have a complete system

Airing system, heavy-duty

Fanbox

NSYCVF550M24FB

- Free flow rate: 550 m³/h (50/60 Hz).
- Minimal depth inside the enclosure (90 (3.54) mm (in.)).
- Allows multiple cooling architectures (see page 452 and 453).
- Material: Plastic
- Color: RAL 7016 dark grey

Supply:
1 (grille not included)

Characteristics	Voltage	References
Fanbox	24 V DC	NSYCVF550M24FB
Fanbox	115 V AC	NSYCVF550M115FB
Fanbox	230 V AC	NSYCVF550M230FB

IP55 HD Metal Grille

NSYCAAG223LFHD

- Slim grille (35 (1.38) mm (in.) external depth).
- Includes a G3 M1
- Material: Steel with anti-corrosive painting + plastic PA6 / GF25 for fixing frame
- Finish: Structured finish, 100% polyester powder
- Color: RAL 7035 grey
- Ingress protection rating: IP55 according to IEC 60529
- Mechanical protection rating: IK10 according to IEC 62262

Supply:
1 grille delivered with G3 M1 type synthetic filter (215 (8.46) x 215 (8.46) mm (in.)) and fixings

Characteristics	References
IP55 HD Metal Grille	NSYCAAG223LFHD

Roof filter for fanbox (extraction mode)

NSYCAF190

- Roof G2 round synthetic filter designed to cover the fanbox. Covers completely the fanbox to protect it from dust and humidity. Mandatory for fanbox installation in the roof airing module for IP55 configurations.
- Material: 100% polyester fibers
- Color: White

Supply:
1

Characteristics	References
Roof filter for fanbox	NSYCAF190

Filter

NSYCAF223T

- Replacement G3 M1-type synthetic filter for HD metal grille.
- Dimensions: 215 (8.46) x 215 (8.46) mm (in.).
- Material: 100% polyester fibers
- Color: White

Supply:
5

Anti-vandalism kit for HD metal grille

NSYCAAPVHD

- Fixings that help to prevent to open the grille from the outside with standard tools (EN 1627-1630:2011 Class 2).
- Quick installation without tools.
- Material: Steel with anticorrosive painting + plastic for fixing screws

Comment:
Not compatible with NSYSPLA150

Supply:
4 grip knob
4 clip nuts

Characteristics	References
Anti-vandalism kit for HD metal grille	NSYCAAPVHD

This table helps to configure thermal architectures, but it is highly recommended to use the ProClima Software to ensure the right thermal solution according to the selected architecture.

I-Line

- Integrated architecture particularly suitable for public areas
- High thermal extraction capacity up to 1500 W
- Noise level with 1 fan: 55 dB when installed inside the upper airing module
- High flow rate and extraction performance
- Air flow in vertical axis

IP54 outlet grille (NSYCAG223LPF + G3 filter NSYCAF223T)	Ventilated plinths	Fanbox (1 filter NSYCAF190 for each Fanbox)	Roof airing module

EMC airing systems

EMC IP54 fan

- To effectively protect the equipment against electromagnetic interference, the EMC fan is equipped with:
 - a steel frame covering the plastic elements (self-extinguishing ABS according to standard UL94 V0),
 - a metal grille attached to the frame,
 - a beryllium gasket to ensure conductivity between the perimeter of the fan unit and the enclosure
- Ingress protection rating (according to IEC 60529): IP54

For more details see [page 458](#)

EMC IP55 cover

- This solution provides protection against electromagnetic interference and ensures IP55 ingress protection.
- The EMC cover is installed on the fans or standard IP54 outlet grilles.
- The cover is made of painted steel for outdoor use and completely covers the fan or outlet grille.
- Conductivity is obtained by means of:
 - a conductive painting (2 Ω),
 - a conductive copper braid.
- Color: RAL 7035 grey
- Ingress protection rating (according to IEC 60529): IP55
- Mechanical protection rating (according to IEC 62262): IK10
- Certifications: UL 508A Type 3R

Airing kit

- Ingress protection rating: IP33 according to IEC 60529.
- Mechanical protection rating: IK10 according to IEC 62262.
- Overall flow rate: 54 m³/h.

Supply:

- One 120 (4.72) x 120 (4.72) x 38 (1.50) mm (in.) fan, 230 V - 50/60 Hz, free flow rate 170 (100.06) m³/h (ft³/min),
- Two 120 (4.72) x 120 (4.72) mm (in.) metal grilles, RAL 7035 grey,
- Two 115 (4.53) x 98 (3.86) mm (in.) anti-insect filters, stainless-steel 304L cable Ø 0.32 (0.01) mm (in.) braided,
- 1.07 (0.04) mm (in.) meshes,
- 1 power cord,
- The fixings required for installation.

Roof elevators

Allow the roof to be raised, providing natural airing.

- Material: Zinc-coated steel
- They are screwed onto the structure of SF enclosures at the roof fixing points

Supply:
4 elevators

NSYRE26

Characteristics	Top elevation mm (in.)	References
Roof elevators	26 (1.02)	NSYRE26
Roof elevators	60 (2.36)	NSYRE60

Hood for natural airing

NSYCAC228RMF

Natural airing device for coupling to the top of metal floor-standing enclosures. Solution for combination with the airing slots.

- Material: Steel
- Finish: Structured finish, epoxy polyester painting, RAL 7035 grey
- Ingress protection rating (according to IEC 60529): IP54
- Installation: Fixing to the top by means of caged nuts and special screws

Supply:

One hood for natural airing and fixing elements

Characteristics	Weight	References
Hood for natural airing	4.6 (10.14) kg (lbs.)	NSYCAC228RMF
Spare filter	–	NSYCAF228R

Plastic airing louvres

Four models available according to IP rating, in vertical position.

Choose air-to-air exchangers to take advantage of cooler ambient temperatures, such as in food and beverage plants, to evacuate large amounts of heat while retaining the independence of the internal and external air circuits.

Air-to-air exchangers: A new range energy efficient

Higher efficiency through improved design

- With an updated external grill design, and by positioning cooling closer to critical equipment, such as speed drives, ClimaSys now provides better flow, better cooling, and higher energy efficiency.

Protection

- All side-mounted models are IP55 internally according to EN 60529.

Faster installation

- A number of design improvements reduce installation time. Mounting requires single cut-outs and a minimum of screws. Wiring is accomplished with smart interconnects.

New certifications and declarations

- CE
- EAC

Simplicity saves you time

- Our free ProClima thermal calculation software makes specification simple and fast. A new thermal solutions module integrates calculation for cooling and control devices, helping you maximize the energy efficiency of your systems.

Choose air-to-water exchangers for especially difficult environments where there is no external air circuit available but a stable cold-water circuit can be supplied.

Air-to-water exchangers: For highly polluted environments

Many mounting options give you the right fit

- Air-to-water exchangers offer roof and side-mounted options.

Certifications and declarations

- CE.
- EAC

Extended ratings to meet any challenge

- Provide options for up to 15 kW of cooling power, among the world's highest power ratings for air-to-water exchangers.

Protection

- All side-mounted models are IP55-protected internally and externally according EN 60529. Top-mounted models are IP54.

New material options adapt to any application

- Air-to-water exchangers can be provided in the same material as electrical enclosures (for example stainless-steel) for a homogeneous appearance and thermal performance.

Choose cooling units for harsh environments, where ambient temperatures can reach up to 55°C (131°F). The unit's integrated alarm system will signal you in the event of any operational anomaly.

Cooling units: For a high ambient temperature

Several mounting solutions

- Three models: Roof mode, floor model, side model. There is also a SLIM model which permits a space saving and perfect integration on the doors of control panels.

Large range of power levels

- Provide options for up to 15 kW of cooling power.

Precision of temperature control

- All ClimaSys cooling units are provided with a precise electronic control system by thermostat which gives them high cooling precision (+/- 15°C (59°F)).

Enhanced protection

- An internal grid of a new design helps protect the components and personnel during operation of the equipment while at the same time facilitating cleaning and maintenance.

Broad temperature range for outdoor enclosures

- The outdoor version can withstand extreme environments, with an operating temperature range of -20°C (-4°F) to +55°C (131°F).

Speed of access to information

- The new display offers fast access to the configuration parameters and information from the sensors located in the enclosure (does not apply to heavy-duty outdoor enclosures).

Certifications and declarations

- UL,
- CE,
- EAC

New materials

- Stainless-steel and painted galvanized steel for the outside dedicated to clean, hygienic environments such as food and beverage production plants.

Simplicity

- No tools needed to replace the filter. It just takes a few seconds.

Cooling units

Characteristics		Side-mounted models
		Alarm signal for door contact included in all models. Eyebolts included. The external filter, not included as standard, is strongly recommended for harsh environments.
Material		RAL 7035 grey painted zinc-coated steel or stainless-steel
Certifications and declarations		CE declaration UL (only references ending with UL) EAC
Installation		Indoor
Cooling characteristics		
Cooling power L35-L35 according to EN 14511		2000 W (6824 Btu/h)
Cooling power L35-L50 according to EN 14511		1510 W (5152 Btu/h)
Air flow of the internal circuit (enclosure)		860 (506.18) m ³ /h (ft ³ /min)
Air flow of the external circuit (ambient)		1050 (618.01) m ³ /h (ft ³ /min)
Thermostat type		Electronic
Temperature range internal circuit (enclosure)		+20°C (68°F) ... +46°C (115°F) (+45°C (113°F))*
Maximum outside temperature		+50°C (122°F) (+45°C (113°F))
Temperature range external circuit (ambient)		+5°C (41°F) ... +50°C (122°F) (+5°C (41°F) ... +45°C (113°F))*
Type of cooling gas		R134a
Cooling gas weight		0.59 (1.30) kg (lbs.)
Maximum pressure cooling circuit		25 bar (28 bar)*
External filter		Optional, see page 485
Electric characteristics		
Input voltage		3 x 400 V / 50-60 Hz 3 x 460 V / 60 Hz*
Starting / Rated Intensity		10 A / 2.5 A
Power consumption absorbed L35-L35 according to EN 14511		970 W
Power consumption absorbed L35-L50 according to EN 14511		1150 W
Energy efficiency ratio (EER) L35-L35		2.1
Thermal protection recommended (fuse)		T6 A
Physical characteristics		
External dimensions (H x W x D)		999 (39.33) x 405 (15.94) x 237 (9.33) mm (in.)
Protection degree IP internal /external according to IEC 60529		IP55 / IP34
Noise level		65 dB
Weight of unit		54 (119.05) kg (lbs.)

* 50°C (122°F) at 60 Hz.

** Certification UL only 60 Hz.

*** For cooling units greater than 65 (143.30) kg (lbs.) we recommend to place universal cross-rails **NSYSUCR4060** or **NSYSUCR4080**.

Device for dissipating condensation water (external installation)

- Device allowing the evacuation of condensation water from the internal battery (evaporator).
- Supplied with stainless-steel support.
- Power supply:

Ultra-thin resistance heaters have been designed to resolve condensation problems in the most complex installations.

Is your enclosure short of space?

Does your mounting plate make it impossible to install a conventional heater?

Do you not want to take out the equipment?

Discover the benefits of this new offer and its numerous mounting solutions.

Small size (thickness = 1.6 (0.06) mm (in.))

- The space saving available for the equipment compared with a conventional resistor can be up to 30%.

Numerous positions for installation

- These heaters are so slim and flexible they can be installed in a variety of positions:
- Vertically on side panels
- On the mounting plate.

Heat and safety

- The heat is distributed over the whole surface and does not exceed 70°C (158°F). This temperature allows devices next to the heater to be handled safely.

Energy efficiency

- Ultra-thin resistance heaters have a low starting current.

Multiple options for fixing

- Innovative quick-fixing system using Velcro pads (no need for a tool!) or with basic fixing accessories (screw + spacer). These systems make it easy to move the heater if necessary.

No electromagnetic emissions

- These resistors can be installed near electronic equipment to ensure an optimal temperature.

Other characteristics - Electrical circuit diagram

Resistance heaters prevent the formation of condensation and help guarantee the correct temperature for the correct operation of the electronic components in the enclosure.

Insulated PTC heaters

Large range of power levels

- 2 versions: By natural convection or by fan.
- AC or DC power supply.
- 7 power levels from 10 W to 550 W.

Easy installation and connection

- Reduced dimensions.
- Quick electric connection by terminal board.
- No maintenance required.
- Direct clipping onto a 35 (1.38) mm (in.) DIN rail.

Innovating design

Safety

- The protection prevents direct contact with the aluminum radiator.
- Electric protection device with terminal block cover.
- Equipped with a PTC-type heater.
- Surface temperature lower than 70°C (158°F)

Models with fan

- The heaters equipped with a fan helps to ensure circulation of the air and a uniform temperature inside the enclosure.
- High-flow, silent fan.

High thermal efficiency

- The configuration of the aluminum profile produces a "chimney" effect: high natural convection.
- Low power consumption thanks to self-control of the PTC-type heater.

Certifications

- CE marking.
- Range compliant with UL and VDE.

Aluminum PTC heaters

Models with fan

- Models of 250 to 400 W with fan.

Connection cables

- The 10 and 20-W heaters are equipped with a 2 (0.08) x 0.75 (0.03) x 300 (11.81) mm (in.) power cord.

Quick-fixing

- The resistance heaters are fixed by means of fixing clips to a 35 (1.38) mm (in.) DIN rail.

Connection terminal boards

- Heaters with a power of more than 20 W are equipped with a connection terminal board.

Resistance heaters equipped with a PTC-type sensor

The resistance heaters for electrical and electronic enclosures are equipped with PTC-type heating devices (Positive Temperature Coefficient). Thanks to these heaters:

- The surface temperature stabilises at 75°C (167°F) when the ambient temperature is -5°C (23°F)
- Power consumption is reduced.

Improved convection

- The design of the profile of the resistance heaters produces a "chimney" effect, leading to increased natural convection and maintaining an even temperature inside the enclosure.

Large range of power levels

- 8 power levels from 10 W to 400 W.

Technical changes reserved. Information provided without guarantee. Images are for illustrative purposes only.

Insulated PTC resistance heaters

- Compact resistance heater preventing the formation of condensation or frost.
- Designed to ensure natural convection and high thermal efficiency.
- Material: Extruded aluminum body
- Conditions of use: The heaters must be installed with a thermal controller (see selection table on [page 496](#) and [497](#)) to control the temperature or the humidity inside the enclosure
- The enclosure must be sealed to prevent the entry of air from the outside
- An electrical protection device must be installed on the supply side of the unit
- Operating position: Vertical
- Operating temperature: -40°C (-40°F) ...+ 70°C (158°F); -10°C (14°F) ...+ 158°C (316°F)
- Surface temperature: < 70°C (158°F) except for the top protection grille
- Ingress protection rating: IP20
- Certifications: VDE and UL, Cover: UL 94 V-0 plastic, Class II (double insulated)
- Mounting: By clip on a 35 (1.38) mm (in.) DIN rail

Electronic thermostats

- Ingress protection rating according to IEC 60529: IP20
- Certification: UL / UR
- Contact resistance: Free with zero potential
- Mounting: 4 methods: By DIN rail, Spacial SF profile, on VDI cross-rail or on mounting plate
- Enclosure: UL 94 V-0 plastic, light grey
- Operating temperature: -40°C (-40°F) ...+ 70°C (158°F)
- Hysteresis: 7 K
- Max. command intensity: Motor: 4 / 13.1 A, FLA / LRA, 250 Vac
Resistive load: 4 A, 250 Vdc

Electronic thermostats with LED display

NSYCCOTH30VID

- Internal sensor element: Temperature sensor
- Connection: 2 x 2.5 mm² (input voltage) + 2 relays (2 x 2.5 mm² + 2 x 2.5 mm²)
- Hysteresis: Programmed 2 K
- Temperature setting range: -40°C (-40°F) ...+ 80°C (176°F)

Characteristics	Display	Voltage (type of current)	References
Electronic thermostats, with LED display	°C or °F	9-30 V (AC/DC)	NSYCCOTH30VID
Electronic thermostats, with LED display	°C or °F	90-140 V (AC)	NSYCCOTH120VID
Electronic thermostats, with LED display	°C or °F	200-240 V (AC)	NSYCCOTH230VID

Electronic hygrotherm

NSYCCOHT30VID

- Internal sensor element: Temperature sensor and humidity sensor
- Connection: 2 x 2.5 mm² (input voltage) + 2 relays (2 x 2.5 mm² + 2 x 2.5 mm²)
- Hysteresis: Programmed 2 K and 3%
- Temperature setting range: -40°C (-40°F) ...+ 80°C (176°F)
- Humidity setting range: 20%...80%

Characteristics	Display	Voltage (type of current)	References
Electronic hygrotherm	°C or °F or % RH	90-140 V (AC)	NSYCCOHT120VID
Electronic hygrotherm	°C or °F or % RH	200-240 V (AC)	NSYCCOHT230VID

Electronic hygrostat

NSYCCOHT230VID

- Internal sensor element: Humidity sensor
- Connection: 2 x 2.5 mm² (input voltage) + 1 relay (2 x 2.5 mm²)
- Hysteresis: 3%
- Humidity setting range: 20%...80%

Characteristics	Display	Voltage (type of current)	References
Electronic hygrostat	% RH	200-240 V (AC)	NSYCCOHT230VID

External temperature sensor (double insulation)

NSYCCASTE

Sensor operation or reading range: -40°C (-40°F) ...+ 150°C (302°F), Thermostat installation tips: The thermostat should be installed at the top of the enclosure (the hottest place). See the various operating modes of each thermostat to choose the one that best meets your needs. Hygrostat installation tips: The hygrostat should be installed at the bottom of the enclosure. 60% RH is the optimal value in the enclosure.

- Ingress protection rating: IP67
- Fixing: On DIN rail, on Spacial SF profile, on VDI cross-rail, on mounting plate

Characteristics	Length of cable supplied	References
External temperature sensor	3 m	NSYCCASTE

Thermal conditions: A hot topic for enclosures

Temperature, humidity, and dew point all affect the performance of your electrical and electronic enclosures. Problem is, unless these environments are sized properly, thermal conditions will compromise reliability, safety, and efficiency, as well as the lifetime of your panels.

The precise knowledge of the thermal conditions is therefore indispensable to choose the most appropriate thermal management solution.

Threats to performance arise when:

Real environmental conditions are not known

Specifications are oversized

Excessive loads over-consume energy

How to use ClimaSys DT

Installation type	Need	What do you want to do?	
Greenfield		New Project	Determine enclosure sizing needs and the correct thermal solution
Brownfield		Power Dissipation verification	Measure the dissipation power of the installation in watts (enclosure without thermal solution installed)
Brownfield		Electronics Health Test	Verify that there are no hot/cold spots
Brownfield		Thermal Solution Test	Measure the efficiency of the existing thermal solution in a certain period of time
Brownfield		Humidity/Condensation Test	Measure the risk of high humidity or condensation inside the enclosure

ClimaSys DT (Diagnostic Tools) dataloggers are an easy-to-use solution that enables users to:

- Access accurate and reliable thermal measurement data in design, commissioning, and exploitation phases
- Track fast or slow measurements
- Maintain continuity of service
- Optimize installations
- Detect hot and cold spots, and avoid condensation problems
- Determine if airing/cooling is required.

ClimaSys DTT

- ClimaSys DT model records the temperature.

Advantages

ClimaSys DTT

- Time stamp/start/stop with magnet key
- Low power consumption for extended two-year battery life
- Easy data download to PC via USB connection
- USB firmware update
- QR code on dataloggers for easy online access to data sheets, videos, and other technical information

Download ProClima free software

Thermal management solutions for critical electrical and electronic enclosures **UE16MK06EN**

Dataloggers

- Color: Translucid
- Display Type: LCD display
- Operating temperature: -40°C (-40°F) ... 80°C (176°F)
- Standard: EN 12830
- Declaration: CE
- Fixing mode: Clip-on support
- Connector type: USB
- Data recording: 32 K
- Temperature Setting (Accuracy): -40°C (-40°F) ... 80°C (176°F) (± 0.3°C (0.54°F))
- Battery Type (Lifespan): Lithium CR2032 3 V (Maximum 2 years)
- Composition: 1

Temperature recorder, DT

- Ingress protection rating according to IEC 60529: IP67

NSYDTEF32T

Characteristics	Temperature Resolution	Dimensions (H x W x D) mm (in.)	References
Temperature recorder	0.03°C (0.05°F)	111 (4.37) x 32 (1.26) x 26 (1.02)	NSYDTEF32T

IMPORTANT NOTICE:

In 2022, the ClimaSys datalogger offer and data upload to Proclima will evolve and will be simplified for a better user experience.

Method to determine a thermal management solution

Here is a simple method to help you choose a thermal solution.
This method does not take into account the humidity level outside the enclosure.

Thermal balance

1 - Characteristics of the enclosure

Position of the enclosure according to IEC 890 ratio		Formula for calculating S (m ²)	Example Spatial reference NSYSF20840
	Accessible from every side	$S = 1.8 \times H \times (W + D) + 1.4 \times W \times D$	Height = 2000 (78.74) mm (in.) Width = 800 (31.50) mm (in.) Depth = 400 (15.75) mm (in.) Installation method: Suitable enclosure placed against a wall. S = 4.128 m²
	Placed against a wall	$S = 1.4 \times W \times (H + D) + 1.8 \times D \times H$	
	On the end when suited	$S = 1.4 \times D \times (H + W) + 1.8 \times W \times H$	
	On the end when suited, placed against a wall	$S = 1.4 \times H \times (W + D) + 1.4 \times W \times D$	
	In the middle when suited	$S = 1.8 \times W \times H + 1.4 \times W \times D + D \times H$	
	In the middle when suited, placed against a wall	$S = 1.4 \times W \times (H + D) + D \times H$	
	In the middle when suited, placed against a wall with the top covered	$S = 1.4 \times W \times H + 0.7 \times W \times D + D \times H$	
		S = m²	

2 - Thermal power dissipated by the operational components

Calculated as the sum of the power dissipated by each of the installed components. If these are not known, use the ProClima software.	Pd = W	Assume that the switchgear dissipates 800 W. Pd = 800 W
--	---------------	---

3 - Temperatures outside the enclosure

		The temperature conditions are as follows:
Maximum ambient temperature.	Te_{max} = °C	Te_{max} = 35°C (95°F)
Minimum ambient temperature.	Te_{min} = °C	Te_{min} = 15°C (59°F)

4 - Average target internal temperatures

They are defined by the nature of the components and the parameters of the ambient air		
Maximum internal temperature	Tid_{max} = °C	Tid_{max} = 40°C (104°F)
Minimum internal temperature (maximum value between dew point temperature and minimum operating temperature of the devices)	Tid_{min} = °C	Tid_{min} = 29°C (84°F)

5 - Temperature inside the enclosure without thermal management system

Max. internal temperature: $Tfi_{max} = \frac{Pd}{K \times S} \times Te_{max}$	Tfi_{max} = °C	Tfi_{max} = 70°C (158°F)
Min. internal temperature: $Tfi_{min} = \frac{Pd}{K \times S} \times Te_{min}$	Tfi_{min} = °C	Tfi_{min} = 50°C (122°F)
or K = 5.5 W/m ² /°C for an enclosure made of painted sheet steel K = 3.5 W/m ² /°C for a polyester enclosure K = 3.7 W/m ² /°C for a stainless-steel enclosure		

Calculation of thermal management power (Psyst)

a. Cooling systems:

$$Psyst = Pd - K \times S (Tid_{max} - Te_{max}) = 686 \text{ w}$$

b. Resistances:

$$Psyst = K \times S (Tid_{min} - Te_{min}) - Pd$$

$$Psyst = K \times S (Tid_{min} - Te_{min})$$

Technical changes reserved. Information provided without guarantee. Images are for illustrative purposes only.

Method to determine a thermal management solution

Choice of solution

1 - Cooling Condition: Calculated temperature + 5°C (41°F) > target temperature

Conditions Cooling	Solution	Advantages	Constraints
Target temperature in the enclosure at least 5°C (41°F) higher than the ambient temperature $Tid_{max} \geq T_{emin} + 5^\circ C (41^\circ F)$	Enlarge the enclosure.	Economical. No maintenance. Easy to implement. IP of the installation maintained.	Relatively small savings. Larger overall dimensions.
	Natural airing (installation of airing air inlets).	Very economical. No maintenance. Easy, fast installation.	Quantity of heat removed small and dependent on the layout of the components. Degradation of the IP (ingress of dust).
	Forced airing.	Economical. Easy to implement. Large quantity of heat removed. Temperature control possible.	Regular maintenance of filters IP slightly degraded. Ambient temperature $\leq 35^\circ C (95^\circ F)$
	Air-to-air exchanger.	Easy to implement. Easy to maintain. IP of the installation maintained. Regulated temperature.	Regular filter maintenance.
Target temperature Tid_{max} in the enclosure 5°C (41°F) less than the ambient temperature Te_{max} . $Tid_{max} - 5^\circ C (23^\circ F) \geq Te_{max}$	Cooling unit.	Easy to implement. Large quantity of heat removed irrespective of the ambient temperature. IP of the installation maintained. Regulated temperature.	Regular filter maintenance Ambient temperature $\leq 55^\circ C (131^\circ F)$ Installation of a system for removal of condensation water from the evaporator.
	Air-to-water exchanger.	Easy to implement. Large quantity of heat removed irrespective of the ambient temperature. IP of the installation maintained. Regulated temperature. No filter to be maintained.	Need for a water circuit. Consumption if supplied with town water.

$$\text{Flow rate (m}^3/\text{h)} = \varnothing = \frac{Ps_{\text{yst}}}{(Tid_{\text{max}} - Te_{\text{max}})} \times 3.1 \text{ (m}^3/\text{h)}$$

$$\text{Flow rate (W/K)} = \varnothing = \frac{Ps_{\text{yst}}}{(Tid_{\text{max}} - Te_{\text{max}})} \text{ (W/K)}$$

2 - Heating

If the calculated temperature is less than the target temperature, the inside of the enclosure must be heated. The solution is to use heating resistors.

They can maintain the temperature above the dew point and thus help prevent any risk of condensation.

To maintain a uniform temperature inside the enclosure and thus help prevent hot spots, Schneider Electric proposes a heating resistor equipped with a fan.

3 - Homogenize

Objective: Prevent hot spots.

Solution: Circulation fan.

The main 10 functions of standard IEC 61439

For each of the following 10 functions, the standard IEC 61439 requires design verifications from the system manufacturer - mainly through type-tests defined in IEC 62208 - and routine verifications on each panel from the panel builder to achieve 3 basic goals: Safety, continuity of service and compliance with end-user requirements.

Safety

Voltage stresses withstand capability

- To withstand long term voltages, and transient and temporary overvoltages according to the insulation coordination principles and requirements.

Current-carrying capability

To help protect against fire and to withstand temperature rise:

- When any circuit is continuously loaded, alone, to the specified current
- When the assembly is loaded to the specified current according to the specified load pattern (between circuits and/or as a function of the time).

Short-circuit withstand capability

- To withstand the stresses resulting from the prospective short-circuit current and from the associated data (high forces between conductors, temp. rise in a very short time, air ionization, overpressure).

Protection against electric shock

- Hazardous live parts not to be accessible (basic protection).
- Accessible conductive parts not to become hazardous-live (fault protection).

Protection against risk of fire or explosion

- Resistance to internal glowing elements.

Comment: Protection of persons, and optional protection of the assembly, against arcing due to internal fault can be specified through a "special test" according to IEC 61641.

Continuity of service

Maintenance and modification capability

Capability to preserve continuity of supply without impairing safety during assembly, maintenance or modification.

- Electrical condition of the assembly or various circuits.
- Speed of exchange of the functional units.
- Test facilities...

Electro-Magnetic Compatibility

To properly function (immunity) and not to generate EM interference (emission) in specified environmental conditions:

- Industrial networks or locations (Environment A).
- Domestic, commercial, and light industrial locations (Environment B).

Compliance with end-user requirements

Capability to operate the electrical installation

To properly function, according to:

- The electrical diagram of the overall system and related information (voltages, coordination...),
- The specified operating facilities (e.g. free or restricted access to man-machine interfaces, isolation of the outgoing circuits...).

Capability to be installed on site

- To withstand handling, transport, storage and installation constraints.
- Capability to be set up and connected (type of enclosure, type, material and cross-sectional areas of external conductors).

Protection of the assembly against mechanical and atmospheric ambient conditions

- Presence of water or solid foreign bodies (IP according to IEC 60529).
- External mechanical impacts (optional IK according to IEC 62262).
- Indoor or outdoor installation (humidity, UV).

Both the point of arrival of energy and a device for distribution to the site applications, the LV switchboard is the intelligence of the system, central to the electrical installation.

It plays an essential role in the availability of electric power, while meeting the needs of personal and property safety. Its definition, design and installation are based on precise rules; There is no space for improvisation. The IEC 61439 standard aims to better define "low-voltage switchgear and controlgear assemblies", helping ensure that the specified performances are reached. It specifies in particular:

- The responsibilities of each player, distinguishing those of the original equipment manufacturer; the organization that performed the original design and associated verification of an assembly in accordance with the standard, and of the assembly manufacturer - the organization taking responsibility for the finished assembly
- The design and verification rules, constituting a benchmark for product certification All the component parts of the electrical switchboard are concerned by the IEC 61439 standard. Equipment produced in accordance with the requirements of this switchboard standard helps ensure the safety and reliability of the installation.

Empty enclosures for low-voltage switchgear and controlgear assemblies. General rules.

Application

For empty enclosures before adding the user's switchgear, in the condition as supplied by the manufacturer.

Field of application

Demands for testing the enclosures to be used as part of the switchgear assemblies for voltages of less than 1000 V alternating current and 1500 V direct current in accordance with IEC 61439.

Information supplied by the manufacturer

- Commercial trademark of the manufacturer: Schneider Electric.
- Mechanical characteristics, materials, conditions for use.
- Conditions for use: Ambient air temperature for outdoor installations: -25°C (-13°F) to + 40°C (104°F)
- Atmospheric conditions for outdoor installations: The humidity may temporarily reach 100% at a temperature of 25°C (77°F)
- Transport and storage conditions: From -25°C (-13°F) to +55°C (131°F); For limited periods not exceeding 24 h: Up to 70°C (158°F)

Comment:

European standard EN 62208 is identical to IEC 62208. European countries publish this standard according to the body in each country (for example BS EN 62208 in the UK).

Standard tests of standard IEC 62208

- Static loads: Test 1.25 x maximum admissible load during 1 hour.
- Lifting: Applicable to enclosures with lifting accessories.
- Axial loads of metal inserts: 500 N for 10 seconds for M8 inserts.
- IK code: Test according to standard IEC 62262 with pendulum impact tester. The enclosure must maintain its IP rating after the test.
- IP rating: Test according to standard IEC 60529. Degree of protection against access to dangerous parts and the penetration of solid bodies and against the penetration of water.
- Thermal stability at a temperature of 70°C (158°F) 7 days.
- Resistance to heat: Ball test at 70°C (158°F)
Information required for enclosures made from insulated material.
- Resistance to abnormal heat and to fire: Glow wire test according to IEC 60695-2-10 and IEC 60695-2-11.
Information required for enclosures made from insulated material.
- Dielectric strength: 5000 V
Information required for enclosures made from insulated material.
- Protection circuit continuity for metal enclosures: Resistance not to exceed 0.1 ohm.
- Weather resistance: Duration 500 h (cycle: Rain 5 minutes + UV lamp 25 minutes).

Corrosion resistance:

For indoor enclosures:

- 6 cycles of 24 hours of the damp heat test at 40°C (104°F) and relative humidity of 95%.
- 2 cycles of 24 hours of the salt mist test at 35°C (95°F)

For outdoor enclosures:

2 identical 12 day periods. Each one with:

- 5 cycles of 24 hours of the damp heat test at 40°C (104°F) and relative humidity of 95%.
- 7 cycles of 24 hours of the salt mist test at 35°C (95°F)

Our empty enclosures are CE-marked according to the Low-Voltage Directive (LVD). It is the responsibility of the final equipment manufacturer to respect regulations in force.

Selection according to the IP protection degrees

The degrees of protection, explained on the next page, is an important element when selecting the enclosures. The following table shows the protection degrees of the enclosures.

Stainless-steel

Plastic and Polyester

Selection according to ambient conditions

The location of the enclosures and the physical, chemical and climatic conditions to which they are exposed will determine the model to be used.

- Steel enclosures are particularly well suited to indoor use in industrial environments.
- Stainless-steel enclosures are particularly well suited to corrosive environments or areas where specific hygiene demands are applicable.
- Polyester enclosures are particularly well suited to severe corrosive atmospheres, indoors or outdoors.

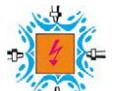

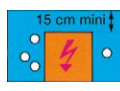

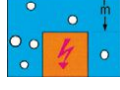

Enclosures made from insulated materials ensure total insulation, reducing electric hazards for persons.

The main characteristics of the plastic materials of our enclosures and their chemical strength are given on [page 515](#).

Further help for making the selection is given by the NEMA or UL classification of the enclosure, see [page 512](#).

- The degrees of protection provided by the enclosures are defined by standards IEC 60529 (IP) and IEC 62262 (IK).
- Degrees of protection are indicated by the letters IP followed by two characteristic numerals. The numerals show the degree of protection offered by the enclosure against access to hazardous parts, the penetration by solid bodies (1st numeral), and against the penetration of liquids (2nd numeral).
- The protection against external mechanical impact is indicated by the letters IK followed by a characteristic group numeral.

Comment:
 Many EN European standards are harmonized with international IEC standards.
 This is the case with enclosure protection standards:
 - EN 60529 = IEC 60529.
 - EN 62262 = IEC 62262.

	IP	IK
First numeral Protection against solid bodies	Second numeral Protection against liquids	Mechanical protection
<p>0 </p> <p>No protection</p>	<p>0 </p> <p>No protection</p>	<p>0 </p> <p>No protection</p>
<p>1 </p> <p>Protected against solid bodies larger than 50 (1.97) mm (in.) (e.g.: Incidental contact with the hand)</p>	<p>1 </p> <p>Protected against vertically falling water droplets (condensation)</p>	<p>1 </p> <p>Impact energy: 0.150 Joules</p>

Classification of electrical equipment enclosures according to NEMA and UL

NEMA and UL are standardisation bodies, commonly recognized in North America, which have issued classifications of enclosures according to the protection offered in various environments.

These classifications are similar.

The 1st table below summarises these classifications which do not include potentially explosive areas.

The detailed recommendations of these classifications are given on the next page.

The 2nd table indicates the classification of our enclosures.

These classifications appear in our UL certifications (see Certification technical annex on page 512).

Certification according to the UL classification helps guarantee the corresponding NEMA classification by equivalence.

Environment and protection	Classification												
	1	2	3	3R	3S	4	4X	5	6	6P	12	13	
Indoor use	●	●	●	●	●	●	●	●	●	●	●	●	●

⁽⁵⁾ In some ranges the classification depends on the model and version. The detailed protection types are indicated in the UL certifications.

Classification of electrical equipment enclosures according to NEMA and UL

Note:

The above recommendations aim to explain the NEMA and UL classifications, but are not the official texts of NEMA or UL. The exact definitions provided by the Organisations are those of standards NEMA 250 and UL 50E.

The enclosures must protect the equipment against environmental conditions and help protect persons against the risk of incidental contact with the equipment. The following classifications (Type) are applied according to the required uses and prescriptions:

Type	Use	Prescription
1	Indoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt.
2	Indoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, drips and gentle splashes of non-corrosive liquids.
3	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow, windblown and resists the formation of ice on the outside.
3R	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow and resists the formation of ice on the outside.
3S	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow and windblown dust. The external mechanism must continue to work even when layers of ice are formed.
3X	Indoor and outdoor use	The enclosure provides a degree of protection to personnel against access to hazardous parts; To provide a degree of protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); To provide a degree of protection with respect to harmful effects on the equipment due to the ingress of water (rain, sleet, snow); To provide an additional level of protection against corrosion and that will be undamaged by the external formation of ice on the enclosure.
3RX	Indoor and outdoor use	The enclosure provides a degree of protection to personnel against access to hazardous parts; To provide a degree of protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt); To provide a degree of protection with respect to harmful effects on the equipment due to the ingress of water (rain, sleet, snow); To prevent damage by the external formation of ice on the enclosure and to provide an additional level of protection against corrosion.
3SX	Indoor and outdoor use	The enclosure provides a degree of protection to personnel against access to hazardous parts; To provide a degree of protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); To provide a degree of protection with respect to harmful effects on the equipment due to the ingress of water (rain, sleet, snow); To provide an additional level of protection against corrosion; To ensure that external mechanism(s) remain operable when ice laden.
4	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow, windblown dust, splashes and hose-directed water and resists the formation of frost on the outside.
4x	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow, windblown dust, splashes, hose-directed water and resists corrosion and the formation of ice on the outside.
5	Indoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, settling airborne dust, lint, fibers, flyings, drips and gentle splashes of non-corrosive liquids.
6	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow, hose-directed water, the entry of water during occasional temporary submersion to a limited depth and resists the formation of ice on the outside.
6P	Indoor and outdoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, rain, sleet, snow, hose-directed water, the entry of water during prolonged submersion to a limited depth and resists corrosion and the formation of ice on the outside.
12	Indoor use (without knock-outs)	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, dust, fluff, fibers, particles in suspension, drips and gentle splashes of non-corrosive liquids as well as gentle splashes or leaks of oil and non-corrosive coolants.
13	Indoor use	The enclosure provides protection for persons against incidental contact with the internal equipment and protects said equipment against dirt, dust, lint, fibers flyings and the spraying, splashing, and seepage leaks of water, oil or non-corrosive coolants.

Polyester base-painting properties

Product type

Thermosetting polyester resins based powder painting modified by epoxy resins and designed for decoration and to help prevent corrosion.
The performance of this coating is superior to conventional epoxy powders in terms of color stability, temperature resistance and weather resistance.
RAL 7035 grey; Surface finish: Structured.

Mechanical properties

Testing conditions: Steel samples with a thickness of 10 (0.39)/10^e mm (in.).
Degreasing using biodegradable surface-active agents.
Film thickness: 60 microns.

Test	Standard	Requirement
Bonding (scratching and adhesive tape)	ISO 2409	≥ to Class 1
Ericksen stamping	ISO 1520	≥ 7 (0.28) mm (in.)
Direct impact resistance	ISO 6272	> 1 (2.20) kg (lbs.) / 70 (27.56) cm (in.)
Indirect impact resistance	ISO 6272	> 1 (2.20) kg (lbs.) / 20 (7.87) cm (in.)
Bending around conical mandrel	ISO 6860 - ASTM D 522-88	Maximum cracking of 70 (2.76) mm (in.), without the paint coming loose

Chemical properties

Tests conducted at ambient temperature on phosphated samples covered with a 70 to 100 micron film:

- Film intact.
- Film attacked (blistering, yellowing, loss of gloss).

Number of months		2	4	6	8	10	12	
Acid	Acetic	20%	[Intact]					
	Sulphuric	30%	[Intact]					
	Nitric	30%	[Intact]		[Attacked]			
	Phosphoric	30%	[Intact]					
	Hydrochloric	30%	[Intact]				[Attacked]	
	Lactic	10%	[Intact]					
	Citric	10%	[Intact]				[Attacked]	
Base	Soda	10%	[Intact]		[Attacked]			
	Ammonia	10%	[Intact]		[Attacked]			
Water	Distilled water		[Intact]				[Attacked]	
	Sea water		[Intact]					
	Tap water		[Intact]					
	Diluted chloride bleach		[Intact]		[Attacked]			
Solvents	Petrol		[Intact]		[Attacked]			
	Higher-grade alcohols		[Intact]				[Attacked]	
	Aliphatics		[Intact]		[Attacked]			
	Aromatics		[Intact]		[Attacked]			
	Ketone-ester		[Attacked]					
	Tri-perchlorethylene		[Attacked]					

Physical properties

Temperature resistance: -40°C (-40°F) and 100 hours at + 150°C (302°F) (color: White).
Gloss retention: Good.

Resistance to corrosion

Compliance with standard IEC 62208 for outdoor installations: 288 h of humid heat and 336 h of salt mist.

Polyester base coating properties

Nuclear decontamination

Applicable to colors RAL 7035 grey and AFNOR A550.
Standard NFT 30901. Percentage of decontamination for contamination by fission products. Please consult us for further details.

Accelerated aging

Standard IEC 62208: 500 h UV according to ISO 4892 (method A)
(adherence of the coating with minimum retention of 50% on the grid according to ISO 2409).

Fire behaviour

Class M1 (self-extinguishing material).
Class M0 (for coating on a metal base).

Manufacturing process

Properties of plastic materials - Mechanical, electrical, physical and fire-resistance properties

Plastic materials generally used to manufacture our products:

- ABS.
- Polycarbonate.
- PVC (polyvinyl chloride).
- Bayblend® = PC + ABS.
- Polyester reinforced with fiberglass.
- Altuglas.
- Polypropylene.
- Polystyrene.
- Polyamide 6 and 12.
- SBS.

Description of marking labels on ATEX-certified wall-mounted enclosures

Spacial S3DEX

- 1
 - Range of the product with its dimensions
- 2
 - 100123456 71: exemple of the serial number
 - 1711: exemple of the year and the month of the manufacturing
- 3
 - Address of manufacturer
- 4
 - 0081: identification number of the notified body for the application of the ATEX directive
 - : distinctive mark indicating that the product is authorized in an explosive atmosphere
 - II: Industry group (II = surface industries)
 - 2: device category (2 = occasional presence, Zone 1 or 21)
 - G: atmosphere type (G = gases and vapors)
 - D: atmosphere type (D = dust)
- 5
 - Ex: symbol that indicates the product complies with one or several protection modes
 - eb: protection level of type of protection "e" for increased safety (EN 60079-7)
 - II C: group of gaz (hydrogen/acetylene)
 - Gb: type of protection for non-electric material (control of power supply) G = gaz
- 6
 - Ex: symbol indicating that the product complies with one or several protection types
 - tb: protection level of type of protection "t" per enclosure (EN 60079-31)
 - III C: type of dust (conductive dust)
 - Db: type of protection for non-electric material (control of power supply) D = dust
- 7
 - Number of the EC type examination certificate (Included the name of the certification body)

Download our ATEX certificates from our site.
