

The MultiModem* ZBA V.92 desktop business modem supports remote configuration, callback security, out of band management, as well as dial-up and 2-wire leased line connections making it the modem of choice for business applications. With V.92, this modem provides an increase in upload speeds and quicker connect times than traditional V.90 modems. It offers V.34/33.6K fax and Error Correction Mode, that reduces fax transmission time by more than half when compared to traditional fax modems. In addition, all models are globally approved for use in many countries around the world. This means one model can ship virtually anywhere.

BENEFITS

- Increased upload speeds
- V.34/33.6K Super G3 Fax
- Globally approved

FEATURES

- V.92/56K download speeds and 48K upload speeds when connecting with V.92 servers
- Class 1.0 and Class 2.1 faxing at speeds to V.34/33.6K bps (Super G3)
- Remote configuration for centralized setup and control
- Callback Security for network security and reduced telephone toll charges*
- * RS-232 model only
