

## Red Pitaya Enclosure (aluminium)

Order number: 27319

Product information "Red Pitaya Enclosure (aluminium)"

Red Pitaya ALU case it is a masterpiece of design! It is custom made and will protect your Red Pitaya from any kind of damage.

## Package Content

• 1 x Aluminium case for Red Pitaya Board

## The case in detail:

The ALU case is designed in a way that serves entirely as a big heat sink. On the interior part of the housing there is a large 16x16x12mm block which is directly connected to the FPGA of the STEMIab and in this way passes all the heat to the housing.

On the left-hand side of the ALU you will find all the important holes for connectors.

## What is in the box:

The STEMIab ALU case pack includes the Aluminum Enclosure, 4 screws, 4 rubber pads to secure the Red Pitaya positioning on the desk, a thermal pad, and a transparent light tube.
