allows for easy one-hand  
adjustment, even with  
gloves on.

Klein Tools Safety Helmets build on the same innovative features and attributes of the Klein® Hard Hats with an unwavering focus on **safety, comfort and fit**. With fall protection safety in mind, these helmets with integrated chin straps, have been tested for top, side, front/back impact and penetration. For enhanced side impact protection, these Type-2 helmets feature a lightweight 360-degree EPS foam shell integrated into the rugged outer shell. The helmet's compact and lightweight design allows easy access to confined spaces and makes it ideal for at-height applications.

## NON-VENTED CLASS E

Specifically designed for electricians, telecom technicians, tower erectors, windmill technicians and linemen working at height, these non-vented safety helmets are tested up to 20kV of protection.

## ACCESSORY MOUNTS

Patented accessory mounts on front and back ensure Klein Headlamps are always positioned properly with **NO STRAP** needed!

## VENTED CLASS C

Designed for maximum comfort. These compact vented helmets are built for arborists, general construction, plumbers, and carpenters who work in tight spaces or at-height job sites that don't need electrical protection. Adjustable vents allow to control air flow in both hot and cold weather.

**UNIVERSAL ACCESSORY SLOTS**  
on both sides for hearing protection, face shield, and more.

**SIX-POINT SUSPENSION**  
for enhanced stability and secure fit

**EPS FOAM SHELL**  
Low profile and lightweight with 360-degrees of side impact protection.

**OPEN-FRAME DESIGN**  
for maximum air circulation

**REAR NECK PAD**  
made of soft material to conform and grip to maintain ratchet location

**VISOR MOUNTING POINT**

**CHIN STRAP**  
Detachable, leather-bound and adjustable 4-point attachment for secure fit.

**LARGER VENTS = BETTER VENTILATION**

The adjustable vents can be opened or closed for maximum air circulation.
