INDUSTRIAL
ETHERNET
SWITCHES

XPress-Pro SW Series Hardened Ethernet Switches

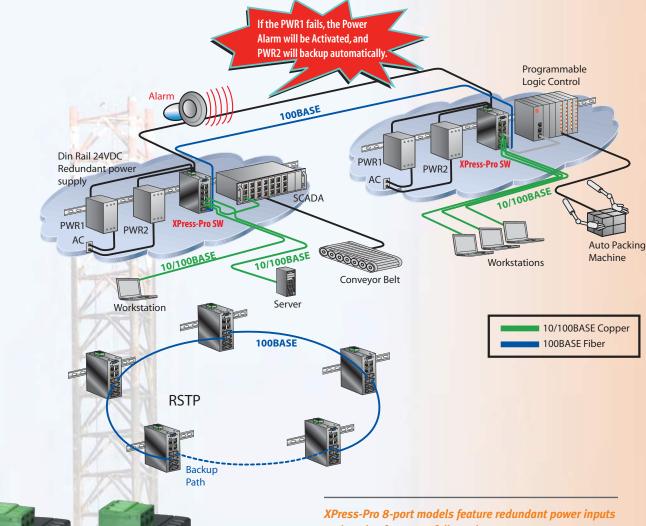

Enabling Communication for the Demanding Industrial Environment

Part of the device networking family of networkenablement products, XPress-Pro™ SW series managed and unmanaged Ethernet switches are designed to give you performance you can count on in harsh industrial environments. Combined with our industrial device servers, this complete line of rugged, dependable and affordable switches delivers a robust industrial device networking solution.

Whether they're on the factory floor or in the field, XPress-Pro switches will provide flawless communication when you need it most.

and a relay for power failure alarms.

XPress-Pro Industrial Ethernet Switches are DIN-rail mountable and offer:

- Compliant with IEC61000-6-2 EMC generic immunity standard for the industrial environment
- ▶ Full wire-speed forwarding rate
- Alarms for power failure by relay output (8-port only)
- Fiberoptic interfaces

XPress-Pro SW 92000 Series

XPress-Pro SW 92000 switches offer eight 10/100 Ethernet ports and an optional fiberoptic interface.

They can be DIN-rail, shelf or wall mounted, and come with dual redundant power inputs to fit applications requiring a tough, environmentally hardened Ethernet switch.

- 2048 MAC addresses
- **10** 768 kilobit buffer memory
- Redundant 2A max, 10 to 48 VDC power inputs
- → 34° to 74° C (-29° to 165° F) operating temperature range

 1. 34° C (-29° T) o
- Hardened aluminum case
- Supports DIN-rail, panel, or rack-mounting installation
- Comply with NEMA TS1 and TS2 environmental requirements for traffic control equipment
- Alarms for power and port link failure by relay output
- UL 1604: Class 1, Division 2 classified for use in hazardous locations

XPress-Pro SW 52000 Series

The XPress-Pro SW 52000 compact, fast Ethernet switches are equipped with 5-port 10/100Base-TX or 4-port 10/100Base-TX plus a fiberoptic interface. By using standard auto-negotiation and the inclusion of auto-MDIX, Lantronix delivers a cost-effective way of integrating legacy 10 Mbps networks with 100 Mbps fast Ethernet networks.

SW 52000 TX ports auto-negotiate for 10/100 Mbps speed and auto detect full or half-duplex mode.

The fiber port on the SW 52012F accommodates multimode SC with a fiberoptic connection between two nodes that can reach up to two kilometers. SW 52000 series switches can be DIN-rail mounted and are equipped with terminal block power input to accommodate just about any application that requires an Ethernet switch.

- 2048 MAC addresses
- 384 kilobit buffer memory
- .1A max, 12 to 48 VDC power input
- □ -10° to 60° C (14° to 140° F) operating temperature range
- ▶ Industrial plastic case supports DIN-rail mounting

		Optional wall-mount kit, ordered separately (X9294PMKT-01)

Product Description:

30W / 1.5A DIN-rail 24 VDC industrial power supply

Input:

85 to 264 VAC (47 to 63 Hz) or 120 to 370 VDC

Output:

36W, 24 VDC, 0 to 1.5A

Overvoltage Protection:

27.6 to 32.4 Volts

Overload Protection:

105 to 160% rated output power

Protection Type:

Constant current limiting, recovers automatically

Inrush Current:

15A/115 VAC or 30A/230 VAC

Environmental:

Operating Temperature: -20° to 60° C (-4° to 140° F) Storage Temperature: -40° to 85° C (-40° to 185° F) Working Humidity: 10% to 95% non-condensing Storage Humidity: 20% to 90% non-condensing

Dimensions:

78 mm W x 56 mm D x 93 mm H (3.17" W x 2.2" D x 3.66" H)

Regulatory Approvals:

Safety: UL60950-1, TUV EN60950-1 approved, design refer to EN50178 EMI conduction & radiation: EN55011, EN55022 (CISPR22) Class B

EMS immunity: EN61000-4-2, 3, 4, 5, 6, 8, 11, ENV50204, EN55024, EN61000-6-2, EN61204-3 heavy industry level, criteria A

Lantronix provides smart connectivity solutions to customers worldwide. Our solutions, comprised of embedded and external device servicers, software, and services, ensure success so organizations can accomplish more with less.

You need connectivity solutions that do more than just connect machines to machines (M2M). Why shouldn't your solution make new revenue streams possible, save money, and allow you to allocate resources more effectively? Lantronix does.

With over 20 years of thoughtful and insightful design, paired with unparalleled technical support, short implementation times, and easy integration, choosing Lantronix is the only viable choice for any forward-thinking organization. Founded in 1989, Lantronix has been manufacturing high quality products serving some of the largest medical, security, industrial and building automation, energy, transportation, retail/POS, financial, government, consumer electronics/ appliances, and IT/data center entities in the world.

Visit lantronix.com or call our sales support team at (800) 422-7055 to schedule a demonstration and find out how quickly and easily Lantronix can add an unprecedented level of reliability to your business-critical equipment.
