

# AUIRFR5410

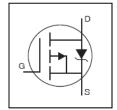

HEXFET® Power MOSFET

#### **Features**

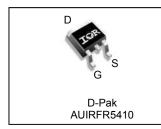

- Advanced Planar Technology
- P-Channel MOSFET
- Low On-Resistance
- Dynamic dV/dT Rating
- 175°C Operating Temperature
- Fast Switching
- Fully Avalanche Rated
- Repetitive Avalanche Allowed up to Tjmax
- Lead-Free, RoHS Compliant
- Automotive Qualified \*

# **Description**

Specifically designed for Automotive applications, this Cellular Planar design of HEXFET® Power MOSFETs utilizes the latest processing techniques to achieve low on-resistance per silicon area. This benefit combined with the fast switching speed and ruggedized device design that HEXFET power MOSFETs are well known for, provides the designer with an extremely efficient and reliable device for use in Automotive and a wide variety of other applications.

## **Absolute Maximum Ratings**

Stresses beyond those listed under "Absolute Maximum Ratings" may cause permanent damage to the device. These are stress ratings only; and functional operation of the device at these or any other condition beyond those indicated in the specifications is not implied. Exposure to absolute-maximum-rated conditions for extended periods may affect device reliability. The thermal resistance and power dissipation ratings are measured under board mounted and still air conditions. Ambient temperature (TA) is 25°C, unless otherwise specified.

#### Notes:

- ① Repetitive rating; pulse width limited by max. junction temperature. (See fig. 11)
- ② Starting  $T_J = 25$ °C, L = 6.4mH,  $R_G = 25\Omega$ ,  $I_{AS} = -7.8A$  (See fig. 12)
- $\exists \quad I_{SD} \leq -7.8A, \ di/dt \leq 200A/\mu s, \ V_{DD} \leq V_{(BR)DSS}, \ T_J \leq 150^{\circ}C.$
- 4 Pulse width  $\leq 300 \mu s$ ; duty cycle  $\leq 2\%$ .
- ⑤ This is applied for I-PAK, LS of D-PAK is measured between lead and center of die contact.
- © Uses IRF9530N data and test conditions.
- When mounted on 1" square PCB (FR-4 or G-10 Material). For recommended footprint and soldering techniques refer to application note #AN-994

#### LEAD ASSIGNMENTS

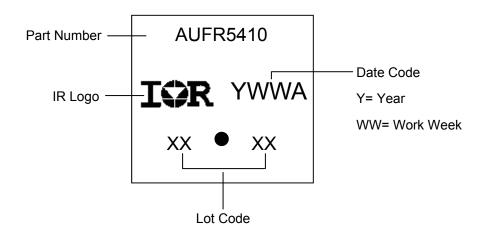

## **HEXFET**

- 1.- GATE
- 2.- DRAIN
- 3.- SOURCE 4.- DRAIN

#### IGBT & CoPAK

- 1.- GATE
- 2.- COLLECTOR
- 3.- EMITTER 4.- COLLECTOR

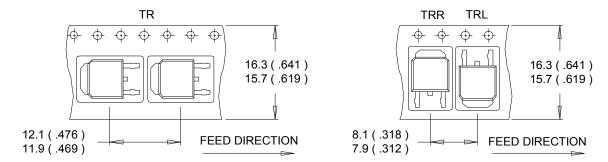

## D-Pak (TO-252AA) Part Marking Information

Note: For the most current drawing please refer to IR website at http://www.irf.com/package/

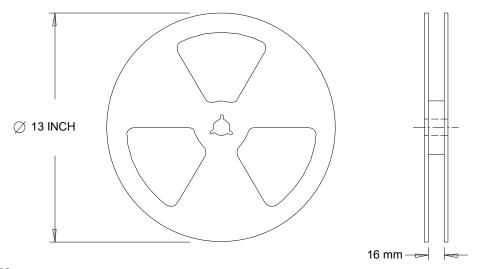

# D-Pak (TO-252AA) Tape & Reel Information (Dimensions are shown in millimeters (inches))

### NOTES:

- 1. CONTROLLING DIMENSION: MILLIMETER.
- 2. ALL DIMENSIONS ARE SHOWN IN MILLIMETERS (INCHES).
- 3. OUTLINE CONFORMS TO EIA-481 & EIA-541.

# NOTES:

1. OUTLINE CONFORMS TO EIA-481.

Note: For the most current drawing please refer to IR website at <a href="http://www.irf.com/package/">http://www.irf.com/package/</a>

### **Qualification Information**

## **IMPORTANT NOTICE**

The information given in this document shall in <u>no event</u> be regarded as a guarantee of conditions or characteristics ("Beschaffenheitsgarantie"). With respect to any examples, hints or any typical values stated herein and/or any information regarding the application of the product, Infineon Technologies hereby disclaims any and all warranties and liabilities of any kind, including without limitation warranties of non-infringement of intellectual property rights of any third party.

In addition, any information given in this document is subject to customer's compliance with its obligations stated in this document and any applicable legal requirements, norms and standards concerning customer's products and any use of the product of Infineon Technologies in customer's applications.

The data contained in this document is exclusively intended for technically trained staff. It is the responsibility of customer's technical departments to evaluate the suitability of the product for the intended application and the completeness of the product information given in this document with respect to such application.

For further information on the product, technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies office (<a href="https://www.infineon.com">www.infineon.com</a>).

## **WARNINGS**

Due to technical requirements products may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies office.

Except as otherwise explicitly approved by Infineon Technologies in a written document signed by authorized representatives of Infineon Technologies, Infineon Technologies' products may <u>not</u> be used in any applications where a failure of the product or any consequences of the use thereof can reasonably be expected to result in personal injury.
