Data Sheet

TRI-150R Adjustable Tripod

Product Overview

The TDK TRI-150R tripod is a heavy-duty, non-conductive tripod designed specifically for mounting antennas and video cameras in EMC test environments.

The tripod is constructed of durable, non-conductive, commercial grade fiberglass and plastic to provide the necessary stability while allowing for portability.

The tripod mast easily adjusts from 100 cm to 150 cm in height, and supports equipment up to 45 kg. The sturdy, fixed-length fiberglass legs feature smooth-rolling lockable caster wheels for easy maneuverability. If preferred, fixed adjustable rubber foot pads can be optioned to accommodate uneven floor surfaces. The tripod legs fold inward for storage or transportation between test sites.

The TRI-150R is available with a variety of antenna and video camera mount adapters to meet your requirements.

Features

- 1/4 - 20 screw mount adapter (standard)
- Supports up to 45 kg (100 lbs.)
- Comes standard with smooth-rolling lockable caster wheels. Customer can specify fixed rubber feet in place of the wheels.
- Custom antenna mount adapters available

The TDK TRI-150R Tripod is specifically designed for EMC test environments to hold antennas or a video camera. It can support up to 45 kg.

Applications

- Antenna mounting
- Video camera mounting
