

HEAVY DUTY COMPONENT SHELVES

AMERICAN
MADE 

The Kendall Howard Heavy Duty Component Shelves take on a lot of weight for their size. Rated to hold up from 70 to 150lbs., these shelves are perfect for supporting non-rack mountable equipment such as tower computers, satellite boxes, monitors, battery backups, and UPS's. For equipment that generates significant amounts of heat, the optional slotted base provides superior air flow and ventilation.

- 19" EIA 310-D Compliant
- Rounded Corners
- Made in the USA
- Limited Lifetime Warranty

FEATURES

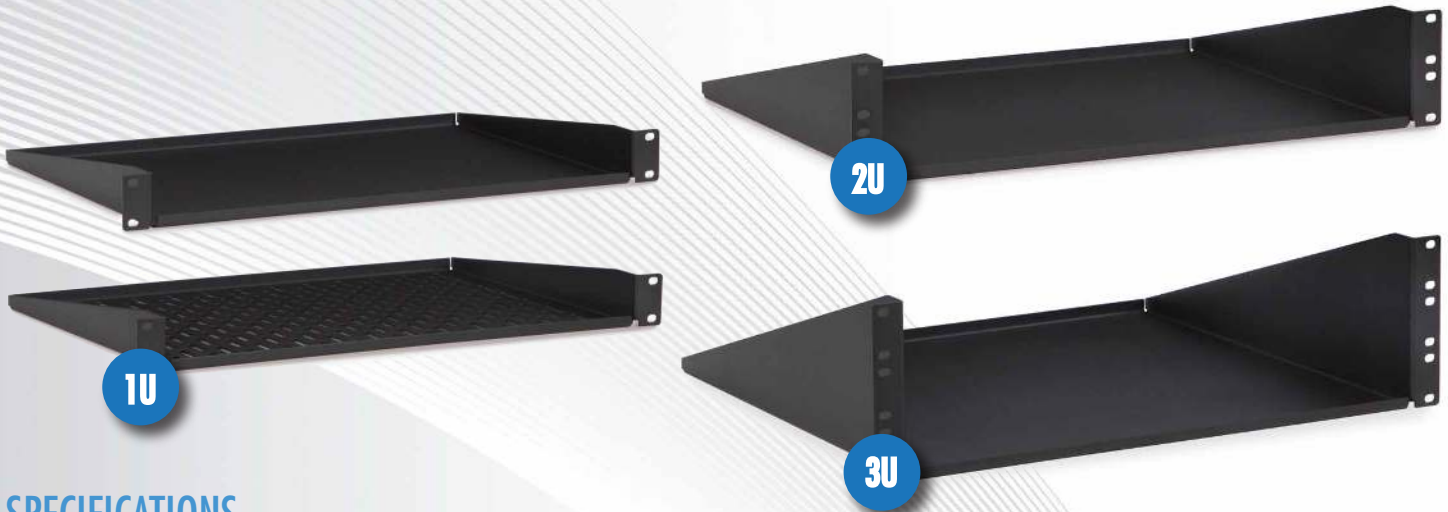

Heavy Duty - Heavy gauge steel construction features two flanges for added strength and rigidity. The textured black powder coat finish lends durability to the shelf, while helping to keep it free of scratches.

Easy to Install - Each U space features four (4) mounting holes. These mounting holes can be used with rack screws (and cage nuts if needed) to easily install in tapped or cage nut style mounting rails.

2-Point Mounting - Cantilever or two-point rack shelf is perfect for use in two-post racks, wall mount racks, and cabinets.

Rounded Corners - Rounded corners eliminate sharp edges which could potentially damage equipment, cabling, or installer's hands while handling.

Optional Ventilation - Vented slots allow air to circulate through this shelf, which assists in keeping air flowing properly within your rack or cabinet.

SPECIFICATIONS

Size	1U 12" Solid Component Shelf	1U 12" Vented Component Shelf	2U 14" Solid Component Shelf	3U 16" Solid Component Shelf
