

iFixit P2 Pentalobe Screwdriver iPhone

Features

Use this precision P2 pentalobe screwdriver to open iPhone and Apple devices. The P2 driver is compatible with the 5-point star shaped pentalobe 5IPR security fasteners used on the bottom of iPhones. The driver is compatible with the security screws on the bottom of all models of iPhone since the iPhone 4: iPhone 4/4S, iPhone 5/5s/5c, iPhone 6/6 Plus/6s/6s Plus, iPhone SE, iPhone 7/7 Plus, and iPhone 8/8 Plus.

The iFixit P2 pentalobe screwdriver features a knurled grip and rubberized, ergonomic handle with swivel top. Made in Germany with uncompromising quality in manufacturing, this precision P2 pentalobe screwdriver is the last driver you'll ever need to buy. And to back that up, it's covered by iFixit's Lifetime Warranty.
