

FSM2424 Series Field Service Kits

Description

Transforming Technologies' field service mats are made from a rugged, three layer embossed PVC material and provide service personnel with a static free work area for handling sensitive devices. The edges bound for durability. The outer layer is resistant to punctures and tears. A buried conductive layer provides reliable decay of static charges. 24" x 24" dimensions. 2 each 10mm male snaps. Lightweight and easy to fold for storage. Meets or exceeds requirements of ANSI ESD-S20.20.
