1. Product Introduction

AH354 USB3.0 flash drive, which adopts the next-gen USB 3.0 specification with a reading speed of up to 80MB/s and a capacity up to 32GB. It has an exclusive U-ring design, combining the ring with the hidden sliding cover. Its shiny crystal blue color and rounded contour design is definitely a sight to behold!

AH354's "U-ring" design originates from three features of the product itself — **Ultra Fast Speed**, **Unique Design**, and **User-friendly Experience**. The unique U-ring integrates the ring with the sliding cover structure, rendering a sleek and clean look. Its pebble-like smooth, rounded contour along with the crystal blue U-ring highlights its elegance and velocity. The U-ring not only prevents the cap from missing but also allows personal accessories to be freely attached to show distinctive style.

AH354 adopts the latest USB 3.0 specification with a reading speed of up to 80MB/s, which is more than 8 times that of USB 2.0. Thanks to the SuperSpeed, it can transmit a 4.37GB video file within 56 seconds, saving a lot of valuable time for the users. AH354 is available in three capacities, 8GB, 16 GB and 32GB, backward compatible with the USB 2.0 interface, and provides a transmission speed of up to 34MB/s even on the USB 2.0 platform.

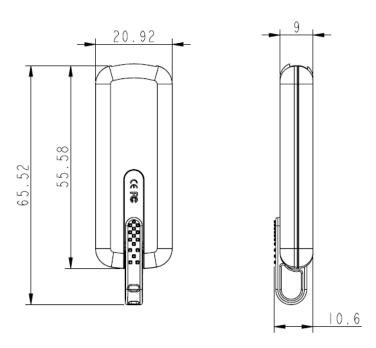

2. Features

- Best choice to experience USB 3.0 SuperSpeed transmission
- SuperSpeed USB3.0 and backwards compatible with Hi-speed USB 2.0 interface
- Easy plug & play
- USB powered. No external power or battery required
- Exquisite and slim; exclusive U-ring design
- RoHS compliant

3. Specifications

Specifications			
Interface	Super Speed USB3.0, backwards compatible with USB 2.0 & 1.1		
Device Interface	USB 3.0 interface: up to 5Gbit/second		
Transfer Rate	USB 2.0 interface: up to 480Mbit/second		
Power supply	USB bus powered		
	No external power required		
Power consumption	115mA (max.)		
Operating Systems	Windows XP/ Vista/ 7 & Kernel 2.6.33 or above without		
Supported	device drive (Support USB3.0)		
	Mac OS 10.4 or later (Support USB2.0)		
Capacity	8GB, 16GB & 32GB		
Operating Temperature	0° C to +60° C (32° F to 140° F)		
Storage Temperature	-20° C to +60° C (-4° F to +140° F)		
Dimensions	(L)65.7 x (W)21 x (H)8.7mm		
Weight	9g		
Certificate	CE, FCC, BSMI, C-Tick		

4. Physical Dimension

Unit: mm
