

3M™ Airstream™ High Efficiency Particulate Filter AS-140-25, 25 EA/Case

3M Product Number AS-140-25, 3M ID 70070845899, UPC 50051138765571

Specifications

Attribute Name	Value
Brand	3M™
Case Quantity	25
Color	Pink, Pink
Confined Space	No
Features	Respiratory Accessory
Gas & Vapor Protection Type	Particulates
Headgear Type	Hardhat with Visor
NIOSH Cartridge or Filter Assigned Color Coding	Magenta
Product Series	Airstream
Product Type	Filters and Cartridges
Recommended Industry	Mining, Oil & Gas
US Govt Contract Number	GS-07F-0374J

Details

- NIOSH-approved high efficiency particulate filter used with 3M™ Airstream™ Headgear.

- Helps protect against dust, mist, fumes, asbestos, radionuclides and radon daughters.

This NIOSH-approved particulate filter helps provide high efficiency respiratory protection against dust, mist, fumes, asbestos, radionuclides and radon daughters. Filter should be used with 3M™ Airstream™ Powered Air Purifying Respirator (PAPR) systems.

NIOSH-approved high efficiency particulate filter used with 3M™ Airstream™ Headgear for respiratory protection against dust, mist, fumes, asbestos, radionuclides and radon daughters.

Powered Air Purifying Respirators (PAPR) are motorized systems powered by a battery pack which draw air through a filter or cartridge to provide respiratory protection to the wearer. The blower unit can be mounted on the waist, face, or head, depending on the system selected. Potential benefits include:

- Certain PAPR systems provide a higher level of respiratory protection than non-powered air filtering respirators
- Constant flow of air can provide cooling for the worker, resulting in greater comfort for the wearer
- Loose-fitting headgear options provide respiratory protection without the need for a tight faceseal or fit testing
- Battery-powered blower pulls the air through the filter resulting in no additional breathing resistance to the wearer
