Bourns Trimpot Product Line Releases New Modular Contact Design Kit H-866

Riverside, California - September 30, 2015 - Bourns Trimpot product line is proud to announce the release of the new [Model H-866 Design Kit](#). Each kit contains a selection of Bourns® Modular Contact part numbers to provide designers with options of contact pitch sizes and low profile designs.

Bourns® Modular Contacts are off-the-shelf interconnect devices that can be used in many applications, including portable medical, phone and PDA chargers, portable automation equipment and test equipment. Bourns® Modular Contacts can be used essentially anywhere a rechargeable battery pack is required.

The Bourns® Model H-866 Design Kit contains:

Part Numbers	Configuration	Quantity
70ADJ-4-MLO	4 mm Contact Pitch Male Connector	5 pcs.
70ADJ-4-FLO	4 mm Contact Pitch Female Connector	5 pcs.
70AAJ-4-MOG	2.54 mm Contact Pitch Male Connector	5 pcs.
70AAJ-4-F1G	2.54 mm Contact Pitch Female Connector	5 pcs.
70ABJ-4-MOE	1.27 mm Contact Pitch Male Connector	5 pcs.
70ABJ-4-FOE	1.27 mm Contact Pitch Female Connector	5 pcs.

For additional information and performance specifications, the Bourns® Modular Contact data sheets can be found on the Bourns website at www.bourns.com.

Should you have any questions or need additional information, please feel free to contact [Bourns Customer Service/Inside Sales](#).
