

## DESCRIPTION

## PRODUCT COVERED:

Pressure Type cable connectors, Type AMPACT™, (consisting of Cat. Nos. in the 600,000 Series)

## GENERAL CHARACTER AND USE:

The connectors covered by this report are a line of pressure cable connectors of the tap-and run type. They are intended for use with copper or aluminium cable when installed with this manufacturer's Listed powder actuated hand tools Cat. Nos. 69437, or 69611. The connector bodies are prepacked with a grease compound, "Nebula EP-2" or "80665". For a complete list of wire combinations refer to Ill. 2 in this report.

"AMPACT" Cat. Nos. in wire sizes No. 1000 MCM and smaller comply with UL 486B requirements for use with cable rated 90 °C max.
