

Description

- HDPE durAstatic® Bottles are dissipative and are designed to protect your valuable static sensitive printed circuitry
- No migratory additives - reduces the chance for contamination from the bottle
- Embossed with ESD protective symbol, allowing people to immediately know the bottle is ESD protective
- Long lasting dissipative properties:
Rv: 1×10^4 to $<1 \times 10^{11}$ ohms tested per ANSI/ESD STM11.12
<2 second charge decay, tested per IEC 61340-2-3:2016
- Black screw cap easily allows you to open and reclose to prevent contents from spilling; note the cap is insulative
- Black screw cap is for use with 38-400 neck size
- Genuine Made in the United States of America Menda bottle - accept no substitutes

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." (ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity)

Item	Description	Height
35817	6 oz. (180mL) Blue Bottle with Black Screw Cap	4" (101.6 mm)*
35818	6 oz. (180mL) Yellow Bottle with Black Screw Cap	4" (101.6 mm)*
35819	6 oz. (180mL) Green Bottle with Black Screw Cap	4" (101.6 mm)*
35820	6 oz. (180mL) Orange Bottle with Black Screw Cap	4" (101.6 mm)*
35821	Black Screw Cap Only	0.5" (12.7 mm)

***NOTE: Heights include the bottle with the black screw cap**

6 oz. bottles include measurements on one side to see how much fluid is left in the container

Black screw cap only

Unless otherwise noted, tolerance $\pm 10\%$

Specifications and procedures subject to change without notice.
