

## Water Leak Detection Kit for SRCOOL60KCW

MODEL NUMBER: SRCOOL60KWDR

Connects to Tripp Lite's SRCOOL60KCW In-Row Precision Cooler to send an audible alarm in case of contact with water or other liquid.

### Description

The SRCOOL60KWDR Water Leak Detection Kit is an optional accessory for Tripp Lite's SRCOOL60KCW In-Row Precision Cooler. When installed, the cooler's water leakage detector will trigger a system alarm when it comes in contact with water or other liquid, and then sound an audible alert. The SRCOOL60KWDR must be manually set on-site for leakage detection and installed at a low level. If the cooler's default lower piping configuration is used, the SRCOOL60KWDR should be placed close to the pipeline below the raised floor.

### Features

#### Monitors Water Leakage and Sends an Alarm

- Optional accessory for Tripp Lite's SRCOOL60KCW
- Triggers system alarm on contact with water or other liquid
- Sounds an audible alert
- Must be manually set on-site for leakage detection and installed at low level
