3D Download: STL, IGES, STEP

Description: These couplers allow you to connect a 1/4" shaft directly to your C1 Hitec servo spline. The set screw included with each shaft coupler works well with straight or d-shafts. These servo shaft couplers have a length of 0.5", an outer diameter of 0.42", and an inner diameter of 0.25".

Actobotics is a robotics building system based around extruded aluminum channels, gears, precision shafts, and ball bearings. Thanks to the two standardized hole patterns, nearly all Actobotics components can be intuitively connected together. The wide range of components makes building complex electromechanical prototypes or finished projects a reality.

Dimensions:

- Length - 0.5"
- Outer Diameter - 0.42"
- Inner Diameter - 0.25"
- C1 Hitec
