

## 1100 Series Power Supplies

*1100 Series Power Supplies from Excelitas are designed for high energy capacitor discharge service with any guided arc bulb-type flashlamp.*

The 1100 Series Power Supplies from Excelitas Technologies are designed to obtain optimum performance from the 1100 Series High-Stability Short Arc Xenon Flashlamps and Lite-Pac® Trigger Modules. These power supplies are well regulated, have low ripple, and are DC input operated. Each power supply contains the circuits to charge the discharge capacitor as well as the trigger switching circuits required to operate the Lite-Pac.

Power supply requirements vary by application and discharge power levels. Excelitas Technologies offers several standard units to operate all Flashlamps and Lite-Pacs.
