

Slice Mini Cutter with Ceramic Blade

PRODUCT ID: 4305

Cut through cardboard *like a boss* with the Slice Mini Cutter, a safer cutter with a ceramic blade. This handheld tool is way better than using scissors or a box cutter, and its *a lot* harder to cut yourself by accident than metal blades (please don't *try* to cut yourself, you will eventually succeed!)

Ceramic blades are much safer than metal blades and are longer lasting than steel. This is the perfect mini-tool for cardboard-crafting-trashbot enthusiasts! Ever get annoyed when the blade gets stuck to tape or adhesive? The Mini Cutter's ceramic blade takes that problem out of the equation. Perfect size for toting around in your pocket or zipper case!

Features

- Installed blade type: rounded tip
- Automatic spring-loaded retraction for added safety
- Ambidextrous design: Switch blade slots for southpaws
- Finger-friendly blade cuts effectively
- Non-sparking, non-conductive, non-magnetic blade
- Chemically inert blade never rusts
- Oil- and lubricant-free blade
- 100% zirconium oxide blade
- Blade edge last up to 11.2x longer than metal
- No-tool blade change

Note: Mini Cutter is compatible only with Slice safety blades, #10404 and #10408.
