MIKROE-2011

OVERVIEW

Description

mikroLab for PIC32 includes our **EasyPIC Fusion** board (nominated for best tool at Embedded World the year it was introduced), a mikroC for PIC32 license, additional accessories, and a free copy of **VisualTFT**, the GUI design tool. (valued at \$99)

About PIC32

It's everything you need for developing with Microchip's **high-performance line of 32-bit MCUs based on the MIPS M4K core**. This includes PIC32MX devices, but also the new and **ground-breaking PIC32MZ family (one of fastest microcontrollers on the market with 200 MHz and 330 DMIPS)**.

EasyPIC Fusion also supports PIC24 and dsPIC33 MCUs – giving you some additional options should you decide to branch out in the future.
