Rochelle Salt Data Sheet

Catalog sizes	100g , Listed as 100g Rochelle salt, 100TART1314 500g , Listed as 500g Rochelle salt, 500TART1314 1kg , Listed as 1kg Rochelle salt, 1000TART1314
Category	Levulinate and Other Salts
Product specification	White crystalline powder <ul style="list-style-type: none">• Product ID : TART1314• Purity : 98%+• CAS : 6381-59-5• Molecular formula : C₄H₁₂KNaO₁₀• MW : 282.23g/mol• MP : 70-80C• Solubility : 0.8-0.9kg/L in water
Product description	Rochelle salt is an odorless, colorless, white, crystalline, piezoelectric material extensively used in microphones, earpieces, cigarettes, displays, plasters, cement, sensors, and in dentistry. Rochelle salt is soluble in water and is approved by the Food and Drug Administration. Examples of specific uses include: <ul style="list-style-type: none">• Set accelerator in plasters and cement• Electroplating bath additive• Biuret reagent• Fehling's solution reagent• Protein purification media ingredient
