| make time with automatic start after power failure maximum  | 3 s                                  |
| relative repeat accuracy  | 1 %                                  |
| product feature protective coating on printed-circuit board                                       | Yes                                  |
| number of NC contacts of auxiliary contacts of overload relay                                     | 1                                    |
| number of NO contacts of auxiliary contacts of overload relay                                     | 1                                    |
| operational current of auxiliary contacts of overload relay                                       |                                      |
| <ul style="list-style-type: none"> <li>• at AC at 600 V</li> </ul>                                | 5 A                                  |
| <ul style="list-style-type: none"> <li>• at DC at 250 V</li> </ul>                                | 1 A                                  |
| contact rating of auxiliary contacts of overload relay according to UL                            | 5A@600VAC (B600), 1A@250VDC (R300)   |
| insulation voltage (Ui)   |                                      |
| <ul style="list-style-type: none"> <li>• with single-phase operation at AC rated value</li> </ul> | 600 V                                |
| <ul style="list-style-type: none"> <li>• with multi-phase operation at AC rated value</li> </ul>  | 300 V                                |

### Enclosure

|                                  |                            |
|----------------------------------|----------------------------|
| degree of protection NEMA rating | Open device (no enclosure) |
| design of the housing            | NA                         |

### Mounting/wiring

|   |                                   |
|---|-----------------------------------|
| mounting position   | Vertical                          |
| fastening method  | Surface mounting and installation |
| type of electrical connection for supply voltage line-side  | Screw-type terminals              |
| tightening torque [lbf·in] for supply   | 20 ... 20 lbf·in                  |
| type of connectable conductor cross-sections at line-side at AWG cables single or multi-stranded                  | 1x (14 ... 2 AWG)                 |
| temperature of the conductor for supply maximum permissible   | 75 °C                             |
| material of the conductor for supply  | AL or CU                          |
| type of electrical connection for load-side outgoing feeder   | Screw-type terminals              |
| tightening torque [lbf·in] for load-side outgoing feeder  | 20 ... 20 lbf·in                  |
| type of connectable conductor cross-sections at AWG cables for load-side outgoing feeder single or multi-stranded | 1x (14 ... 2 AWG)                 |
| temperature of the conductor for load-side outgoing feeder maximum permissible                                    | 75 °C                             |
| material of the conductor for load-side outgoing feeder   | AL or CU                          |
| type of electrical connection of magnet coil  | Screw-type terminals              |
| tightening torque [lbf·in] at magnet coil   | 5 ... 12 lbf·in                   |
| type of connectable conductor cross-sections of magnet  | 2x (16 ... 12 AWG)                |

|  |   |
|--|---|
| coil at AWG cables single or multi-stranded  |   |
| temperature of the conductor at magnet coil maximum permissible  | 75 °C   |
| material of the conductor at magnet coil   | CU  |
| type of electrical connection for auxiliary contacts   | Screw-type terminals                                |
| tightening torque [lbf·in] at contactor for auxiliary contacts   | 10 ... 15 lbf·in                                    |
| type of connectable conductor cross-sections at contactor at AWG cables for auxiliary contacts single or multi-stranded      | 1x (12 AWG), 2x (16 ... 14 AWG), 2x (18 ... 16 AWG) |
| temperature of the conductor at contactor for auxiliary contacts maximum permissible   | 75 °C   |
| material of the conductor at contactor for auxiliary contacts  | CU  |
| type of electrical connection at overload relay for auxiliary contacts   | Screw-type terminals                                |
| tightening torque [lbf·in] at overload relay for auxiliary contacts  | 7 ... 10 lbf·in                                     |
| type of connectable conductor cross-sections at overload relay at AWG cables for auxiliary contacts single or multi-stranded | 2x (20 ... 14 AWG)                                  |
| temperature of the conductor at overload relay for auxiliary contacts maximum permissible                                    | 75 °C   |
| material of the conductor at overload relay for auxiliary contacts   | CU  |

#### Short-circuit current rating

|   |   |
|---|---|
| design of the fuse link for short-circuit protection of the main circuit required   | 10kA@600V (Class H or K); 100kA@600V (Class R or J) |
| design of the short-circuit trip  | Thermal magnetic circuit breaker                    |
| breaking capacity maximum short-circuit current (I <sub>cu</sub> ) <ul style="list-style-type: none"> <li>• at 240 V</li> <li>• at 480 V</li> <li>• at 600 V</li> </ul> | 14 kA<br>10 kA<br>10 kA                             |
| certificate of suitability  | NEMA ICS 2; UL 508; CSA 22.2, No.14                 |
