

952 MICRO TWEEZERS DESOLDERING STATION

Product Description

The 952 is a 60W dedicated micro tweezers station, perfect for de-soldering small surface-mount components like resistors and capacitors. The high quality tweezers feature ergonomic grips and removable tips that are currently available in three sizes including 1mm, 3mm (installed), and 6mm. What's also unique about the 952 is that it's compatible with the B028 soldering iron that can be purchased separately if desired.
