

Woodhead® LED Tube Light

molex®

Improving on the extremely durable tube light design, the Woodhead® LED Tube Light replaces fluorescent lamps with LED's to boost reliability, efficiency and lamp life

Woodhead® LED Tube Light

Features and Benefits

Four 4-foot LED T10 Tube Lights

LED Tube lights replace fluorescent versions for better durability and efficiency. Eliminates disposal burdens presented by the mercury in fluorescent lamps

Rubber Endcaps and reinforced center channel

Make this an extremely durable temporary LED fixture

No Ballast Required

Shortens and lightens the fixture compared to a fluorescent fixture

Velcro Straps

Enables custom mounting

16/3 S00W Output Cord

Utilizes NEMA 5-15 Watertite Connector with closure cap for enhanced durability

Applications

Aerospace and Defense

Aircraft assembly and maintenance

Industrial

Manufacturing

Shipyards

Shipyards

Two Length Options

Specifications

REFERENCE INFORMATION

Reference Information
 Packaging: Box
 UL File No.: cULus E174254
 Designed In: Inches

ELECTRICAL

Fixture Voltage (max.): 120V
 Wattage: 4 Foot Lamp: 72W at 0.6A
 2 Foot Lamp: 40W at 0.33A
 Lamp Type: 4 x T10 LED
 Cord Type: 16/3 S00W
 Luminosity: 4 Foot Lamp: 7200 Lumens
 2 Foot Lamp: 4000 Lumens
 Lamp Life: 50,000 hours
 Color Temperature: 5,500K
 Input: NEMA 5-15 Watertite Plug
 Output: NEMA 5-15 Watertite
 Connector with Closure Cap

PHYSICAL

Lamp Guard: Clear Butyrate
 End Caps: Yellow Paracril OZO Rubber
 Cord Material: 16/3 S00W
 Bumpers: Black Nitrile Rubber
