

The product advantages

The unique, patented hinged catch has two functions:

- Fast, easy, toolless fitting of the lid
- Swivel the lid open – your choice of hinge side

On request, the enclosures can also be screwed. The hinged catch conceals the screws.

Bocube has very few parts, so it is very light and easy to mount – toolless. Use a size 3 slotted-head screwdriver to open it.

The enclosures in 2 basic colours – optionally with a transparent lid – can be combined with coloured hinged catches as required. Alternatively, manually-operated catches are available.

The blanking plug allows selection of the side to be hinged. In this way, connections between the base and the lid can be protected against damage when the lid is opened.

Pressure compensation membrane DAE

Model	Order no.	Note
DAE-D11	52011000	Self-adhesive membrane ø 11 mm

Scope Of Delivery: 5 pieces

Notes: Air, which may create a vacuum in the enclosure when it cools, can suck in water etc. through the seal into the enclosure, which means that ingress protection can no longer be guaranteed. BOPLA's product range includes the pressure compensation element to compensate such variations in pressure caused by differences in temperature. Processing of the enclosure and mounting on request.
