

Designed with a precision-ground “V” notch blade and adjustable blade stop for superior stripping, this adjustable wire stripper and cutter is perfect for stripping and cutting 10-30 AWG (2.6-0.25 mm) solid and stranded wire. This stripper features the following:

- Spring-loaded with a locking latch for convenient operation
- Wire looping and bending hole is perfect for solid conductor wire
- Scored marks on the blade measure wire length with ease
- Made of high carbon steel with a black oxide coating for long life and durability
- Vinyl cushion grips provide excellent grip and comfort
