

MT10-CSBC-M5-AN

Ruland Sensor Bracket Clamp Connector, Thru Hole 10mm, Thread M5, L 30mm, Black Anodized Aluminum

Description

Ruland MT10-CSBC-M5-AN is a sensor bracket clamp connector that attaches to a 10mm round or 8mm square tube and has an M5 center tapped hole, 16mm width and height, and 30mm overall length. It is designed to fit on Ruland tubes and flange bolt bases that begin with MT10. MT10-CSBC-M5-AN is aluminum with a black anodized finish and screws are 304 stainless steel for added corrosion resistance when compared to unplated types. This bracket clamp is used to support brackets for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. The bracket is mounted directly to the clamp by a single M5 screw. An MT10:12-ALK-M5-20adjustable clamping handle can be used to rapidly reposition MT10-CSBC-M5-AN or the tube it is attached to without the use of tools. MT10-CSBC-M5-AN is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.

Product Specifications

Thru Hole Diameter B	10 mm	Thru Hole Tolerance	+0.09/-0 mm
Square Thru Hole S	8 mm	Thread (TH)	M5
Thread Depth LT	8 mm	Edge To Center L2	17 mm
Width & Height W1	16 mm	Overall Length L1	30 mm
Clamp Screw CL	M5	Weight (lbs)	0.035300
Material Specification	Anodized Aluminum	Manufacturer	JW Winco/ Otto Ganter
UPC	634529230602	Country of Origin	Germany
Tariff Code	7609.00.0000	UNSPC	31162908
