

Stewart Pneumatic Crimp Tool

Part Number: 2940252-01 – Crimp tool only, die sets sold separately

Features:

- Uses standard interchangeable Stewart production die sets
- High strength aluminum alloy construction gives the machine an excellent strength to weight ratio
- Anodized finish for durability
- Actuated with foot pedal
- Simple design for trouble-free operation
- Oil impregnated bronze bearings, used on all pivoting points, to eliminate the need for lubrication
- Small footprint allows the machine to be used where bench space is at a premium
- Visor style guard around die set for safety, remains attached to machine preventing loss of guard, yet allows for quick easy access to die
- Die set is retained with a thumb screw, which is accessible from the operator side without turning the machine upside down, or on its side

Specifications:

Air Supply: 60 – 150 PSI
Output Force: 1448 Lbs @ 80 PSI
Weight: 5 Lbs
Dimensions: 4 ½” wide x 8 ¼” long x 5” high
