KeyTronicEMS
Trust. Commitment. Results.

E06101 Series

When you choose the Key Tronic® E06101 Series keyboard with Windows keys and you'll get the experience and commitment to excellence that's made Key Tronic Corporation the world's leading manufacturer of computer keyboards and input devices.

The E06101PX keyboard meets the European Union RoHS initiatives.

Now shipping with Ergo Technology. Most keyboards use a standard 55 grams of force required to register every key, Ergo Technology has 5 different levels of force. From 35 grams to 80 grams - that correspond to the strength of the finger that touches the keys. The result is more comfort for your hands

The 6101 Series keyboard with Windows keys is designed to offer users a more convenient and efficient interface with the Windows operating system. Its unique center-bearing switch technology offers both a superior user interface and enhanced product reliability. Discover the Key Tronic difference -- with the 6101 Series Windows compatible keyboard.
