

# STR-NCP110-EVK: GUI Monitored NCP110 LDO

The STR-NCP110-EVK provides an evaluation kit for the NCP110 series of 200 mA low noise and high PSRR XDFN4 package LDOs with fixed output voltage options from 0.6 V to 4 V. With an ultra-low quiescent current, the NCP110 is suitable for various battery powered devices. This evaluation kit can be used in tandem with the Strata environment GUI which can enable/disable the LDO as well as monitor other telemetry on the platform, including input/output voltage, power dissipated, and temperature.

## Evaluation/Development Tool Information

Product	Status	Compliance	Short Description	Parts Used	Action
