## Overview

StorFly® 18 SATA CE, XE and PE SSDs deliver an optimal solid-state storage solution for embedded and industrial systems that may require a high-reliability replacement to hard-to-find 1.8" HDDs. StorFly 18 SSDs are also smaller, thinner, "eject-able" alternatives to 2.5".

SATA SSDs that provide the benefit of enhanced serviceability without the need for a hot-swap carrier. At a 5mm thickness, StorFly 18 SSDs are ideal for 1U server and blade applications where airflow and cooling are high priorities.

## Applications

StorFly 18 SSDs are ideal for industrial automation, networking, server, blade and medical applications that require high performance in a form factor only 5mm high. They are ideal as replacements for hard-to-find 1.8" HDDs and can be used in lieu of 2.5" for easy hot swapping and service.

StorFly 18 SSDs are also used in many military and ruggedized portable computers.
