

SuperHub

Card-Sized Charging, Data & Video Hub with Dual PD

Power Adapter & Hub 2 in 1 Design

SuperHub is a credit-card-sized 4-port adapter & hub, an integration charging, data & video transfer solution for meeting, work, travel, entertainment and more usage scenarios.

| Features

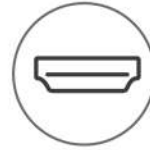

Dual PD

3 USB Output
Power 3 Devices

GaN Technology

4K@60Hz HDMI

USB3.1, 5Gbps
Data Transfer

DeX Mode &
PC Mode

| Card-Sized with GaN

Thanks to the application of GaN, SuperHub packs a host of features and tons of power into a smaller space than an all-silicon design would allow. A credit card size fits in your bag, easy to pack and use anywhere. Perfect for people who work on-the-go.

| 30W Power Delivery + 18W Power Delivery

With 3 charging ports, SuperHub delivers up to 48W power for your devices, powering an iPad Pro, Switch, even a MacBook at full speed while charging iPhone up to 50% in 30 minutes at the same time.

| 4K@60Hz HDMI, Better Viewing Experience

A 4K@60Hz HDMI port can connect compatible devices to a TV or larger display with up to 4K resolution. While similar products deliver a slower frame rate at 30Hz, SuperHub maintains 60Hz performance, catching out 2 times of details without delay, perfect for presentations, movies and gaming.

USB3.1 Transfer Data with 5Gbps

SuperHub includes a USB-A port to extend the usability for USB-C devices, worry-free connecting to a USB driver, keyboard, mouse and more. SuperHub supports USB 3.1, to transfer data ten times faster than USB 2.0. Transfer a feature-length movie or presentation in seconds.

Turn Your Phone into A Laptop

SuperHub helps you manage your phone on a monitor in laptop mode through DeX mode or PC mode by connecting an external display and keyboard. This feature is compatible with Galaxy Note 10/10+ with DeX mode, Huawei Mate 10/20/30 with PC mode.

Specifications

Product	SuperHub
Mode 1 Input: AC 100-240V, 50-60Hz (When connected to an AC outlet)	Power Output USB-C 1: 30W PD Max USB-C 2: 18W PD Max USB-A: 5V/1.5A Max Total Output: 48W
