#### DESCRIPTION

ATGBICS Universally Coded MSA AOC-QSFP-4SFP10G-15M-AT is a 40Gb/s QSFP+ to 4x10G SFP+ hot pluggable Active Optical Cable for Infiniband and Ethernet data transmission. It provides parallel interconnects: 4 transmitting / 4 receiving data lanes and supports distance up to 100 meters.

It is composed of optical transceivers on both ends with multimode fiber cable in between. This integrated optical module solution removes the complicated optical fiber interface and brings friendly and intuitive electrical-to-electrical interface to users.

This product is designed to meet the requirements of high speed, high density and low power consumption for applications in today's data centers.
