

HERCULES™ Cable Protectors

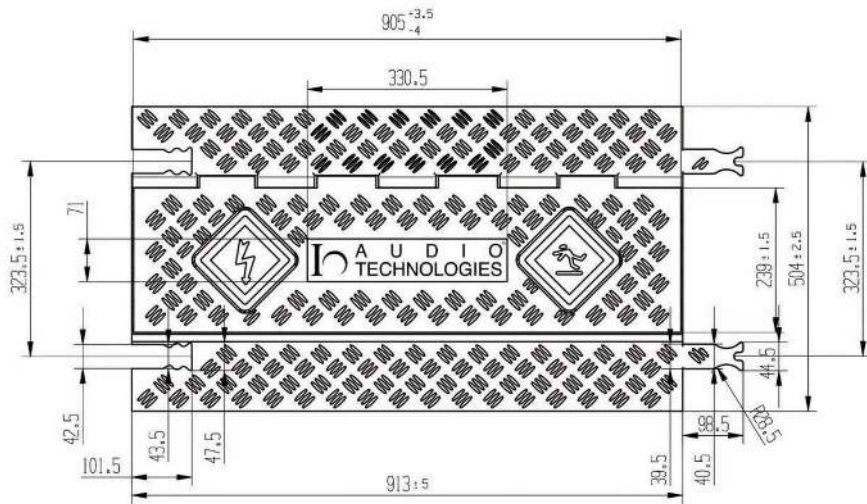

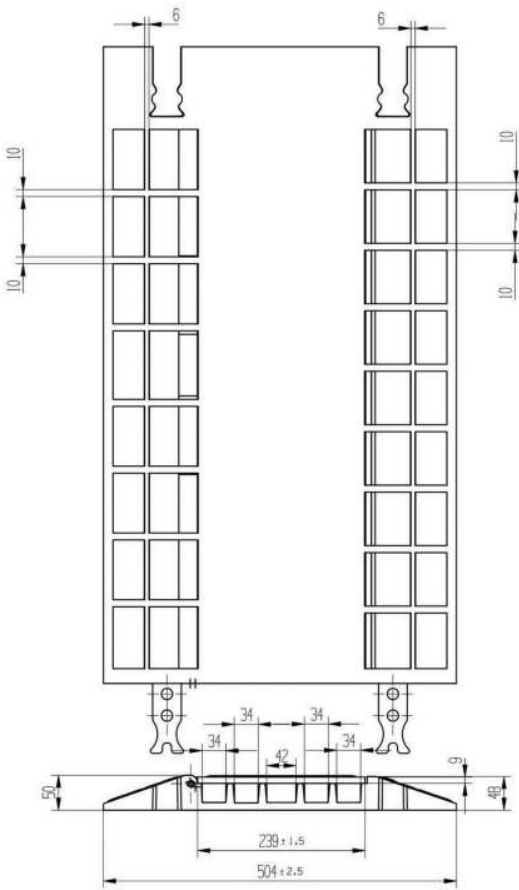

The HERCULES™ Series of extra heavy duty cable protectors are designed to take constant abuse from heavy vehicles such as trucks, buses, forklifts, and other industrial vehicles. The heavy duty rubber base and solid PVC lid design provide extra durability and flexibility for an increased load capacity of over 20 Tons. The HERCULES™ Series is skid resistant with rough patterns on all upper surfaces. The bright yellow top provides superior visibility to oncoming vehicular and foot traffic. Safety warning symbols are also molded into the lid's surface.

The Wishbone™ connectors are designed to mate perfectly with dog bone connectors to provide flexibility in deployment of a large fleet of cable protectors from many brands.

The HERCULES™ series cable protectors feature 5 channels designed to keep your cables organized and can fit cables measuring up to 1.5 inches in diameter.
