

3-Bladed Trifoil Propeller Fan for DC Motor

PRODUCT ID: 3896

DESCRIPTION

Sprockets, wheels, and gears, oh my! We really like our DC hobby motors but unless you have a 3D printer it can be a challenge to get fun add-ons. That's why we've got this 3-Bladed Tri-foil Propeller – it snaps on like a breeze (pun intended!) perfect for making a fan, blowing bubbles, or propelling something through the air.

Comes 1 x per order

TECHNICAL DETAILS

- Aperture: fits with 2mm shafts
- Radius to single propeller blade: 40mm
