

Technical Datasheet

Glass Cloth Masking Tape RoHS & REACH Compliant GCTP Series

Glass Cloth Masking Tapes are used in powder coating, stenciling and the blasting industry to mask areas that do not require coating or blasting. They can be used for insulating coil connections and cable harness wrapping. Glass Cloth Masking Tapes can also be used as a permanent sealant for high temperature ducts and chambers. They are known for their high temperature resistance. Glass Cloth Tapes are made of 5 mil thick glass cloth film with 2 mil thick high temperature thermo-setting silicone adhesive. These masking tapes are packaged on a 3" core and are 36 yards long.

APPLICATIONS: Powder Coating, Thermal Spray, Sandblasting, Sealing of High Temperature Ducts and Chambers.

TYPICAL PHYSICAL PROPERTIES ⁽¹⁾

Color	White
Adhesion Type	Silicone
Film Thickness	5 Mil
Adhesive Thickness	2 Mil
Total Thickness	7 Mil
Material	Glass Cloth
Tensile Strength	180 lbs./in.
Elongation	5 %
Operating Temperature	-73°C (-99°F) - 200°C (392°F)
Dielectric Strength	3,000 Volts
Length	36 Yards
