100 Mbps Compact Media Converter

McBasic TX/FX series

PRODUCT FEATURES

- Rugged, stand-alone design with internal power supply
- Available for multi-mode or single-mode fiber
- Diagnostic features including Link Loss and FiberAlert
- Converts 100 Mbps twisted pair to 100 Mbps fiber
- Unmanaged Ethernet media converter

The McBasic is an unmanaged Fast Ethernet media converter. Its sturdy design includes a highly reliable internal power supply and plenty of ventilation to support long-time performance in the field. It is set to Auto Negotiation by default, but can also be set to a Force Mode for legacy devices.

The McBasic includes troubleshooting features such as LinkLoss and FiberAlert, which can be enabled by DIP switches. These diagnostic features allow the network administrator to quickly identify network faults.

The McBasic includes AutoCross on the twisted-pair port and the fiber port is available in single-mode, multi-mode and single-strand fiber types.

A unique pair also provides single-strand fiber for multi-mode applications.

100 Mbps Compact Media Converter

McBasic TX/FX series

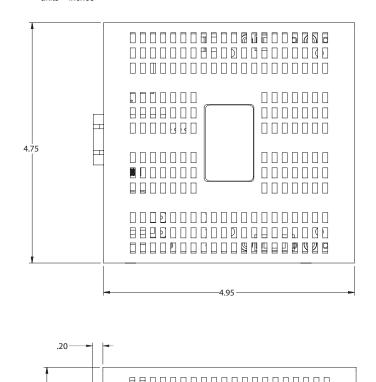

SPECIFICATIONS

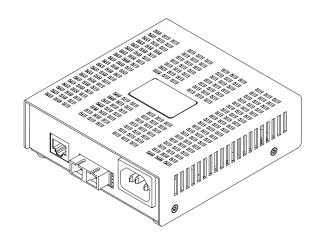

TECHNICAL	
offers AutoCross on the copper port	
Internal AC power	
50/125µm or 62.5/125µm multi-mode fiber	
9/125µm single-mode fiber	
Includes diagnostic LEDs	
IEEE 802.3u 100Base-TX twisted-pair and 100Base-FX or -SX fiber	
Features LinkLoss and FiberAlert	
eatures Auto Negotiation	
CONNECTORS	
RJ45 and ST or SC	
Supports half- and full-duplex operation	
MTU: Supports jumbo frames up to 10000 bytes
