

TMS320C6657 Lite Evaluation Modules **Status:** ACTIVE

TMDXEVM6657

- [Description/Features](#)      [Technical Documents](#)      [Support & Community](#)      [Order Now](#)

Description

The TMS320C6657 Lite Evaluation Modules (EVM), are easy-to-use, cost-efficient development tools that help developers quickly get started with designs using the C6657 or C6655 or C6654 family of DSP. The EVMs include an on-board, single C6657 processor with robust connectivity options that allows customers to use this AMC form factor card in various systems. They also work as a stand alone board. The software accompanying the 6657L EVM includes the Code Composer Studio™ Integrated Development Environment version 5 (CCS v5), and the Multicore Software Development Kit (MCSDK) that includes the Board Support Package (BSP), Chip Support Library (CSL), Power On Self Test (POST), Network Development Kit (NDK), SYSBIOS, and Out of Box (OOB) Demonstration software. The TMDXEVM6657L EVM comes with XDS100 onboard emulation capability. In addition, an external emulator via JTAG emulation header can be also be used. TMDXEVM6657LE DESCRIPTION: The TMS320C6657 Lite Evaluation Modules (EVM), are easy-to-use, cost-efficient development tools that help developers quickly get started with designs using the C6657 or C6655 or C6654 family of DSP. The EVMs include an on-board, single C6657 processor with robust connectivity options that allows customers to use this AMC form factor card in various systems. They also work as a stand alone board. The software accompanying the 6657L EVM includes the Code Composer Studio™ Integrated Development Environment version 5 (CCS v5), and the Multicore Software Development Kit (MCSDK) that includes the Board Support Package (BSP), Chip Support Library (CSL), Power On Self Test (POST), Network Development Kit (NDK), SYSBIOS, and Out of Box (OOB) Demonstration software. The TMDXEVM6657LE EVM comes with XDS560V2 onboard emulation capability. The included XDS560 mezzanine card uses the TI 60-pin JTAG emulation header.
