3M CLAW™

HEAVYWEIGHT HANGING SOLUTION
How-To Use

Temporary Spot Marker(s)
To help find your hanging spot.
Marker does NOT hold frame up.

3M CLAW™ Drywall Picture Hanger(s) To hang your frame.

---

1 IDENTIFY FRAME HARDWARE

SAWTOOTH

**Remove liner** from **gray side**, exposing adhesive.

Stick marker to frame so that top point is where a nail would normally go.

Remove liner from **white side.**

D-RING

Mark a dot on the frame where a nail would normally go and **flip down** D-ring.
Remove liner from **gray side** and **stick** marker to the frame so that the top points to your dot.
Remove liner from **white side. Repeat** on the other D-ring.
WIRE

Pull wire up as high as you can and **mark a dot** where a nail would normally go.

Remove liner from **gray side** and **stick** marker to the frame so that the top points to your dot.
Remove liner from **white side.**

CONTINUE TO STEP 2

## 2 MARK HANGING SPOT

⚠ **CAUTION**

Marker is for temporary use, not intended to hold frame to wall.

**Lightly touch** marker to wall and **pull back** without letting go of frame.
Mark the wall in the bottom notch of marker.

**IMPORTANT**
**Remove** marker from wall.

---

3 INSTALL HANGER

Align notch in bottom of hanger to dot on wall.

Keeping bottom edge against wall, place thumbs in upper corners of hanger and **push in** quickly and firmly.
✓   ✗

IMPORTANT
Continue to push until hanger is **completely flush** against wall.

Hang frame on hook.

REMOVAL

Slide a flat head screwdriver between the hook and wall, then gently pull away.
