

mbed Shield

SKU 103030002

Description

The Mbed Shield is the Mbed application board based on Mbed LPC1768 Prototyping Board. Just try imagine controlling Ethernet devices using environmental data from sensors. It integrates a series of external interfaces, such as CAN, Ethernet, USB and 4 standard Grove sockets, all together on a single board. The Mbed Shield is also compatible with other standard Arduino Shields, providing you an even more powerful extension for your Mbed.

Features

- Standard shield shape design
- Arduino-compatible basepins
- Various on-board interfaces: CAN, Ethernet, USB, Grove

Technical Details

Dimensions	150mm x 100mm x 32mm
Weight	G.W 73g
Battery	Exclude

Part List

mbed shield	1
