Xcelite®

Xcelite® Table of Contents

Xcelite®, founded in 1921, produces high quality tools for professional use. They are known throughout the electronics industry for a comprehensive line of screwdrivers, nutdrivers, convertible nutdriver/ screwdriver sets, interchangeable blade drivers, service tools and kits, pliers and cutters, shears, snips, wire strippers and wrenches. And now we've added Xcelite high quality tools for the electronic, electrical and telecommunication industries around the world, including crimping tools, and stripping tools for coaxial, optical and electrical cable.

FEATURE CODES

E = (Prefix) "Accu-Lite" Grips
V = Blister carded
J = Flush cutting edges
K = Semi-flush cutting edges
S = Coil spring
W = Wire lead catcher
G = Smooth jaws

"Many features are available on most Xcelite® products as a special for a small charge."

ACCU-LITE GRIPS

Many models are available with cushion handles for greater comfort and ease to the user.
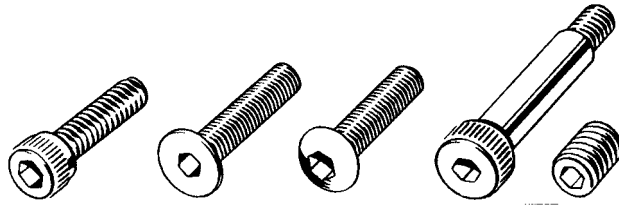

XCELITE PACKAGING

Certain tools are available in a special, hanging display package. To order, add suffix "V." Example R184V is carded, R184 is not carded.

Xcelite®

XP1 Cordless Driver

NEW PRODUCT

XP1 kit contains a driver, battery, battery charger, 3 bits, and 1 adapter for use with all Xcelite® Series 99® interchangeable bits

Features:
- Multi-stage clutch
- 2-speed control: Low speed of 180 RPMs; High speed of 360 RPMs
- 3.6v Nickel-Cadmium battery
- Battery charger for a quick 1 hour charge
- UL and cUL approved charger
- Motor: 3.6v DC
- Maximum clutch torque: Low 28.5 in. lbs.; High 14 in. lbs.
- Overall driver length is 10.8"

Pro-Series Electronic Screwdrivers and Sets

- The handle core is made of hard shockproof plastic for durability, while the outer coating is soft rubber for comfort and slip resistance
- ESD safe hard plastic core to protect sensitive components
- The handles are ergonomically designed, allowing sustained high torque with minimal slippage and muscle fatigue
- Smooth shatterproof seamless handle cap for minimal friction between hand and handle when screwdriver is being turned
- Narrow pinch grip for comfort and control
- Thumb bolster allows added downward force
- Satin finish chrome molybdenum steel shafts provide durability
- Specially treated black oxide tips eliminate light reflection

Xcelite®

Roll-up Kits for Allen® Hex Socket Type

- Complete set of LN series Allen hex socket type and metric size screwdrivers
- Roll-up canvas case, plastic-coated for wear and protection

Cat No.	UPC No.	Packed	Description	Shelf Pack
LN11	037103484451	Canvas case	Complete set of LN series Allen hex type screwdrivers	1
LN8MM	037103484345	Canvas case	Complete set of 8 drivers w/black handles in metric sizes	1

Ballpoint Style, Allen® Hex Socket Type

- Unique "ballpoint" tip makes Xcelite® drivers ideal for tightening and removing Allen type socket head screws in out-of-reach places or merely when wanting an easier, quicker way to drive them home
- Will engage screw head from any angle
- Slips easily into sockets and holds securely without reaming, because ends are precision-machined to close tolerance

Inch Sizes – Amber Handles

- For easier tightening and removing of Allen type socket head screws
- Ballpoint tip

Xcelite®

Magnetic Nutdrivers

- Ultimate in convenience for assembly and service operations involving hex fasteners
- Alnico permanent magnet inserted in socket holds fasteners firmly for easy, one-hand driving or for retrieving or removal
- Socket specially treated and hardened for use with self-tapping screws
- Unique Xcelite® development effectively insulates magnet
- Exclusive with Xcelite® 1/4" and 5/16" magnetic fixed handle
- Comfortable contoured handle provides adequate torque for 1-hand driving

Xcelite®

Reversible Ratcheting Handles

- Easy to operate
- Permits extremely simple 1-hand operation, even in tight quarters
- Use with Series 99® blades
- Smooth precise action
- Left-right-neutral marking indicator
- Light ratcheting drag facilitates turning and prevents fasteners from reversing

Series 99® Compact Interchangeable-blade Sets

99PS40BP Ballpoint Allen hex socket type screwdriver set - Inch sizes

- Unique "ballpoint" tip ideal for tightening and removing Allen socket screws in hard to reach spots or need a quicker way to drive them home
- 9 blades 4"/101.60mm long, 99X5 extension and regular 991 handle in plastic see-through stand-up case

- Will engage screw head from any angle
- Ends precision-machined to close tolerances to help slip easily into sockets and hold securely without reaming

Electronic Assembly Tools Plier Selection Information

General

When selecting electronic cutting pliers, you should attempt to minimize your cost per cut by selecting the proper tool for each application. The type of cut, cutting area access, cutting edge quality and user preference will influence your choice.

Type of Cut

Electronic pliers are available with cutting edge angles that produce standard, semi-flush and flush cuts. These terms refer to the amount of "pinch" left on the tip of a wire after it has been cut
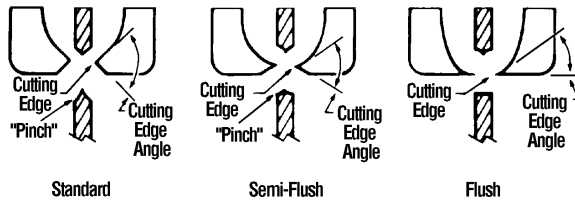

Standard cutting edges should be used for applications that are not sensitive to either the amount of shock transmitted through the wire to the component (during cutting) or to the amount of "pinch" left on the wire tip (after cutting).

Semi-flush edges can be employed for most applications. They reduce shock transmittal and wire tip "pinch."

Flush edges should be selected only for delicate applications, which require minimal shock transmittal and wire tip "pinch." Flush cutters produce a clean cut, which facilitates soldering and increases connection reliability. With small cutting edge angles, the life of flush cutters is substantially less than that of semi-flush cutters. The larger the cutting edge angle, the more cuts you can expect from the tool. For electronic assembly work, the semi-flush cutter is often the most cost-effective choice.

Cutting Area Access

Access to cutting areas can determine the shape and thickness of the cutting head. Tight clearances around the cutting area, the need to reach over in-place components or to work from directly above, and visibility requirements are all factors which will affect your choice of a tool. However, it is important to recognize that head shape and thickness are directly related to cutting edge life

Head Shape

Always select a cutter with the largest head that will meet your particular cutting requirements. It is a proven fact that more material behind the cutting edges gives more cuts and longer life.

Oval head cutters are the most versatile. They have the most material behind the cutting edges, and last longest. Tapered and angled head cutters should be selected only when access to the cutting area is limited. These cutters have less head mass, and provide proportionally fewer cuts.
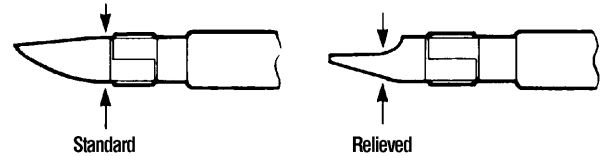

Head Thickness

Head thickness is related to cutting life in the same way as head shape. Cutting pliers with thicker heads also last longer. Whenever possible, use pliers with standard head thickness. Relieved head designs should be chosen only to accommodate difficult access problems.

Cutting Edge Quality

The quality of a pair of cutting pliers can be determined by visual inspection. The blades should meet smoothly and evenly at the tips. From a point just behind the tips to the joint, an increasing amount of light should be visible

A precision tip interface assures clean cutting of fine wires, while the "no contact" area behind the tips extends cutter life by allowing the tips to continue to meet as they wear.

User Preference

Other considerations can be a matter of personal preference. Handle shape, grip color, grip material, spring tension and leverage ratio are usually related to user comfort.

Proper spring tension will allow pliers to open and close with minimum effort. Finally, pliers with high leverage ratios provide the greatest ease of use and the longest life.

Leverage Ratio
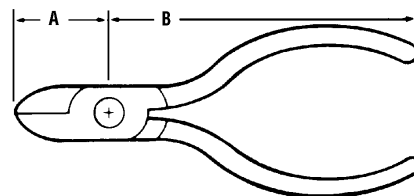

Leverage ratio is obtained by dividing dimension A into dimension B.

Xcelite® Electronic Pliers

Provide the ultimate in precision plier

• Manufactured to the highest professional quality
• Easily handles a wide range of electronic assembly requirements
• Smooth, easy-working, corrosion-proof joint
• Maintains perfect cutting edge and tip alignment
• All Xcelite® cutters and pliers are standard with ESD safe cushion grip handles. Exception: red grip products

Xcelite®

Xcelite® Diagonal Cutting Pliers

FLUSH OR SEMI-FLUSH CUTTING
EDGES HANDLE MOST CUTTING
REQUIREMENTS

CUTTING EDGES MACHINE GROUND
AND ELECTRONICALLY HARDENED

ON MANY MODELS
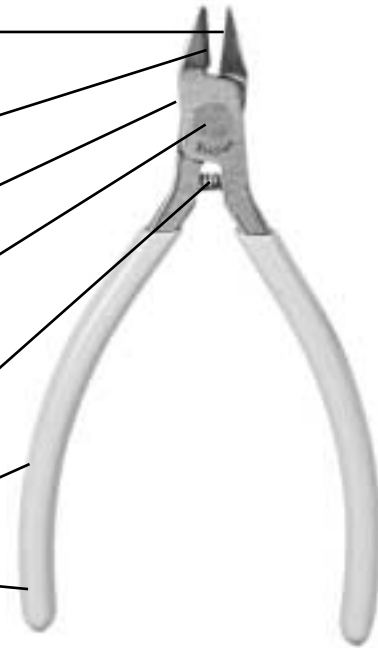

Pliers Features and Benefits

- Lightweight, miniature plier line. Includes versatile selection of diagonal, angular, tip and end cutters plus wiring and assembly tools.
- Choice of oval, tapered, relieved and angled head designs for general or confined area cutting.
- Full flush or semi-flush cutting edges machine ground and electronically hardened for extended life in cutting either hard or soft wires.
- Needle nose styles include long, short, curved, flat and round to handle most forming, looping, twisting, insertion and pickup jobs.
- Copaloy joint maintains perfect cutting edge and tip alignment to maximize operational consistency and tool life.
- Handle coil springs, standard on all Copaloy pliers, allow faster cutting action with reduced user fatigue.
- Forged from high quality alloy steel for maximum strength and durability.
- Precision ground to close tolerances, individually finished and tested to ensure exact fit of jaws.
- Polished heads with gun metal handles.
- Made in U.S.A.

CAUTION
1. Always wear approved eye protection.
2. Cushioned handles are not intended to provide protection against electric shock.
   Do not use on or near energized circuits.
3. When cutting wire or metal, hold short end to prevent flying pieces.

"ESD" Safe

Accu-Lite Handles Meet The Optimum Criteria For Hand Tools:

THUMB FLAIR INCREASES TOOL
CONTROL

EXCLUSIVE, SOFT, NON-SLIP FOAM
GRIPS PROVIDE POSITIVE GRIPPING
AND MAXIMUM COMFORT

IDENTICALLY FORMED HANDLES
ALLOW EITHER RIGHT OR
LEFT-HAND USE

ANTI-STATIC GRIP MATERIAL
DISSIPATES STATIC CHARGES

SOIL RESISTANT SURFACE
EXTENDS GRIP LIFE

CONCAVE CONFIGURATION
DISPERSES GRIPPING PRESSURE

EXTENDED HANDLE PERMITS USE
OF ALL FINGERS
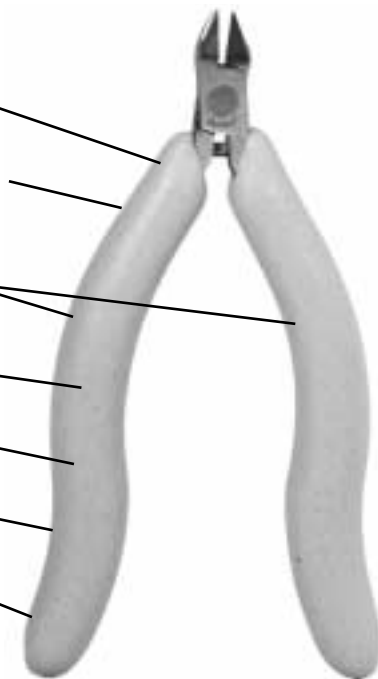

- **Lightweight construction**
- **Extended handle length** allows even application of force from all four fingers.
- **Exclusive, smooth, soft foam cushion grips** are free of abrupt edges and finger indentations.
- **Grip material is non-slip and compressible** to allow positive gripping and to absorb mechanical shock.
- **Handle contours adaptable for either right or left-hand use.**

Pliers Kit - Electronics Handy Pack Assortment

- A compact kit designed for the sophisticated electronics technician or dedicated hobbyist
- Consists of the six most popular Copaloy electronics pliers
- Durable pocket-pouch with heavy-duty snaps
- Each professional quality tool features the unique Copaloy rivet for smoother action

Kit Includes:
EC54J 41/2" Transverse end cutting pliers
MS54 4" Diagonal cutting pliers
SN54 5" Long nose pliers with side cutter
NN54 5" Fine tip needle nose pliers
DN54G 5" Flat nose pliers
LN54 5" Long nose pliers
Pocket pouch with snaps

Xcelite®

Electronic Shearcutters and Pliers

Superior Quality and Value

- Xcelite's Shearcutter flush cutting tools require less than half the operator force of most wire and lead cutting tools and transmit proportionately less shock to the component
- As a result, they comply with MIL-STD-2000, DOD-STD-2000 and WS-6536E standards
- Grips are molded of wide, shock absorbing material for operator comfort
- Models 175 and 2178 incorporate safety clips which effectively eliminate flying leads
- However, safety glasses are still recommended when using these tools

Shear Cut
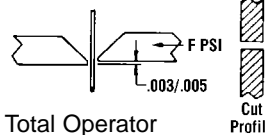

Total Operator
Force = Less Than 1/2 F

Crush Cut
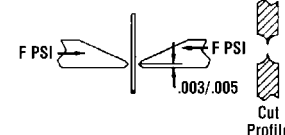

Total Operator Force = F

In shearcutting, one edge acts as an anvil while the other edge shears off the lead.

Product features

Shearcutter — Light blue grips (Suffix "M")
- Advanced handle design
- Made from high quality carbon steel
- Non-glare black finish
- Superior shearing action

Static-dissipative pliers — black grips (Suffix "D")
- Advanced handle design
- Specially hardened and plated
- Non-glare black finish
- Superior shearing action

"ESD" Safe

Xcelite®

Shearcutter - General-purpose
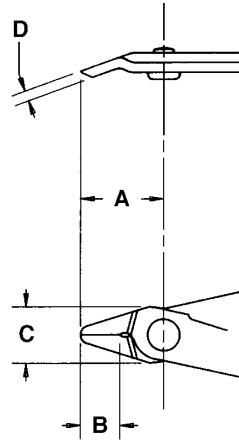

- Low profile, general-purpose cutter
- Superior blade by-pass shear cutting action
- Better cuts with half the effort
- Greatly reduced mechanical shock delivered to the work
- 170M, 175M feature light blue grips
- 170D, 175D feature static-dissapative black grips
- 175M, 175D feature safety clips
- 170D, 175D especially hardened and plated
- Flush cuts soft wire up to 20 AWG (0.8mm)
- 170MCS packaged on a clip strip merchandising wand

Xcelite®

Pliers and Cutters - With Red Cushion Grip Handles

- The exceptional strength and performance of Xcelite® pliers and cutters are the result of forged alloy steel construction, precision machining, and scientific proportioning
- Handles designed to fit the hand comfortably and to provide maximum leverage
- Cleanly machined and perfectly aligned jaws grip tightly and surely while easy cutting is assured by hand-honed, mated cutting edges
- For extra working comfort all models have permanent, red plastic-coated "Cushion-Grip" handles except Combination Slip Joint pliers
- These high quality pliers and cutters are featured in Xcelite® Attachê Tool Cases

NOTE: When using cutting pliers always wear safety glasses to protect eyes from wire clippings

Hard Wire (Piano and Music) Cutter 134CG
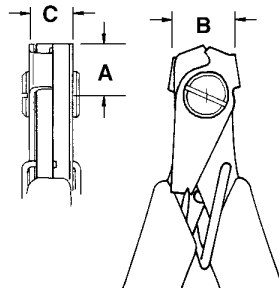

- Shear cutting action
- Ensures square cut ends
- Captures material on both sides of jaw, eliminates flying segments
- Patented spring loaded hold-down keeps material at 90° to tool blade
- Prevents material from forcing jaws apart
- Wire capacity .062
- Stranded cable capacity 1/16"

## Stainless Diagonal Cutting - Slim Nose

"ESD" Safe
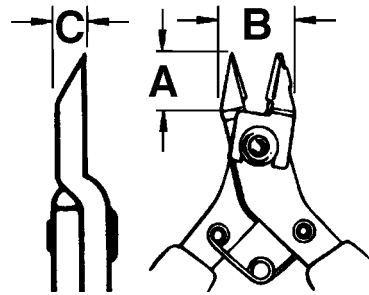

Klip Grip
Feature

- For cutting soft non-ferrous wire, max. as specified, No. 25 gauge (.018") and smaller soft steel wire
- Ideal for tip cutting in delicate electronic circuitry work and where small lightweight pliers are required for use by women engaged in electronic component assembly

- Precision-machined, ground flush cutting edges
- Back clearance
- Offers up to 4 times the life of regular miniature diagonal pliers
- Patented handle spring

DataCom Cutters and Slitters

Limited Lifetime Warranty

CooperTools warrants this product will be free from defects in material and workmanship for as long as you own this product, provided that no warranty is made with respect to products which have been (a) altered, modified or repaired by anyone other than CooperTools; (b) subject to abuse, improper use, negligence, accident or improper storage; (c) installed, used or maintained not in accordance with normal practices or the instructions and specifications of CooperTools; or (d) used in conjunction with any product, device, component or system, that is either defective, the source of a defect, or not reasonably intended to be used in conjunction with this product.

The foregoing limited warranty is exclusive and in lieu of all other warranties, whether express, implied or statutory, including, but not limited to, any warranty of merchantability or fitness for any particular purpose. The obligation of CooperTools under this limited warranty is expressly limited to either repairing the product, refunding the purchase price or replacing the product, at the sole and absolute discretion of CooperTools, at no charge to Buyer.

The remedies provided for herein shall constitute the sole recourse of Buyer against CooperTools, whether the claim is made in tort or in contract, including claims based on warranty, negligence, strict liability, deceit, fraud, misrepresentation or otherwise. In no event shall CooperTools be liable for special, indirect, incidental or consequential damages (regardless of the form of action), nor for lost profits. CooperTools liability for any claims or damages arising out of or connected with the manufacture, sale, delivery, use, maintenance, repair or modification of this product shall not exceed its purchase price.

CooperTools will, during the warranty period, repair, replace or refund the purchase price of any product found to be defective in accordance with this limited warranty. Return to CooperTools, 1000 Lufkin Road, Apex, NC 27502. All costs of transportation shall be borne by the Buyer.

Telecom Cutter

- Can cut up to 100 pair group cable
- Cuts coaxial cable up to RG174/RG9
- Built-in return spring allows ease of use
- Cushion grip handles for comfortable use
- Safety lock keeps tool closed in tool pouch
- Frame is made of stamped hardened carbon steel for durability and long life

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCC100V	037103184924	Carded	Cutter, Telecom	4.08	116	6

Coax Cable Cutter

- Cuts coaxial cable up to RG9
- Cuts soft copper cable – will not cut steel reinforced cable
- The uniform flush cutting action maintains cable integrity
- Cushion grip handles for comfortable use
- Safety lock keeps tool closed in tool pouch
- Frame is made of stamped hardened carbon steel for durability and long life

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCC101V	037103184863	Carded	Cutter, coax	1.56	44	6

Xcelite®

Fiber Optic Cutter

- Specially designed for cutting Kevlar "silks" in fiber optic cable
- Hard molded plastic frame for durability and long life
- Special ceramic blades cut Kevlar cleanly
- Light weight for ease of use

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCC102V	037103184894	Carded	Cutter, Fiber Optic, Ceramic Blades	0.60	17	6

Round Cable Slitter

- Runs a slit around the circumference and down the length of coaxial cable to easily remove the jacket
- Adjustable blade can be used on multiple and single conductor cable 4mm to 25mm O.D.
- Slitting blade is adjustable up to a depth of 0.125" (3mm)
- Spare blades store in handle of tool for easy access

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCS200V	037103184870	Carded	Slitter, Round Cable, 4mm - 25mm	1.86	53	6
DCS205V	037103185280	Carded	Blades, Replacement for DCS200V and DCS204V, 6/Pkg	0.18	5	6

Round Cable Slitter

- For slitting and ringing round cable 25 mm to 36 mm in diameter
- Slitting blade can be adjusted up to 0.125" (3 mm) depth
- Spare blade is stored in handle for convenience

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCS204V	037103184962	Carded	Slitter, Round Cable, 25mm - 36mm	1.92	54	6
DCS205V	037103185280	Carded	Blades, Replacement for DCS200V and DCS204V	0.18	5	6

Xcelite®

Self-adjusting Wire Stripper

NEW PRODUCT

- Blades automatically adjust to strip 10 – 28 AWG insulated copper wire so you can use one tool regardless of the wire gauge
- Replaceable metal jaws with 68 teeth (34 on each side)
- Individual stripping blades for concise strip
- Strips outer jacket and inner conductors without nicking insulation or cables
- Tension adjustments for insulation thickness & handle tension allowing comfortable ease of use
- Strong Glass-Fiber reinforced body for durability and long life
- Built in cutter for flat (up to 4 pair) and round cable (up to RG59) to give you added utility with one tool

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	Pack Wt. g	Shelf Pack
DCS201V	037103184900	Carded	Stripper, Self-adjusting	1.86	53	6
DCS206V	037103185297	Carded	Jaws, Replacement, for DCS201V	0.18	5	6
DCS207V	037103185303	Carded	Blades, Replacement for DCS201V	0.18	5	6

Rotary Coax Stripper

NEW PRODUCT

- Fast, accurate coax stripping system helps you get the job done efficiently
- Cassette contains three stripping blades for a 3-step strip of coaxial cable
- Blades can be removed for 2-strep or 1-step strips
- Blades can be moved within the cassette in 2mm intervals so you can adjust to your needs
- Cassette is replaceable to extend tool life (order number DCD400V)

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	Pack Wt. g	Shelf Pack
DCS202V	037103184917	Carded	Stripper, Rotary Coax	0.66	19	6
DCS400V	037103184931	Carded	Casette, 3-Step, DCS202V	0.18	5	6

UTP/STP Stripper

NEW PRODUCT
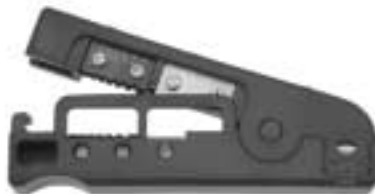

- Use on shielded twisted pair and unshielded twisted pair, CATV Cable, CB Antenna, SO, SJ, SJT and other flexible cables
- Strips coax and UTP/STP Cable
- Versatile stripper and cutter allows you to carry fewer tools
- Built-in cutter for clean cuts
- Build-in wire stripper strips 16 – 26 AWG wire for added versatility

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	Pack Wt. g	Shelf Pack
DCS203V	037103184948	Carded	Stripper, Stripper, UTP/STP	1.08	31	6

Xcelite®

Cable Tie Gun

- Die-cast steel construction for durability and long life
- Provides a flush cut with each use for neat, professional installations
- Tension adjustment allows use on miniature, intermediate, standard and heavy - duty cable ties

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCT300V	037103184887	Carded	Gun, Cable Tie	4.02	114	6

"B" Wire Crimp Tool

- Recommended for every data com alarm installer
- Specialty Designed Tool for stripping flat and twisted pair cables
- Crimps "B" Wire, UG, UR, and UY connectors commonly used in Data Com alarm installations
- Special Stop behind cutout prevents damage to connectors
- Cushion grip handles for comfortable use

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCT303V	037103184979	Carded	Crimp Tool, "B" Wire Scotchlock UR	1.68	47.64	6

SOHO Telecom Crimp Tool

- Perfect do-it-yourself tool for single office/home office (SOHO) installations
- Cuts strips and terminates RJ-11, RJ-45, and 4, 6, and 8 position modular plugs making it a true multi-function tool
- Lightweight and easy to use

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCT301V	037103184955	Carded	Crimp Tool, All-in-One Telecom	2.1	60	6

All-in-one Telecom Crimp Tool

- Cuts, strips and crimps RJ11 & RJ45 4, 6 & 8 position modular plugs
- Full cycle ratchet assures precise crimp with each use
- Stamped steel frame with cushion grip handles for durability and ease of use
- Crimps primary and strain relief all in on operation for professional results

NEW PRODUCT

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack
DCT311V	037103184993	Carded	Crimp Tool, All-in-One Telecom, Ratchet	6.36	180	6

Xcelite®

Telecom Crimp Tool Frame

NEW PRODUCT

- Ergonomically designed handle reduces necessary crimp force
- Consistent mechanical gain for reliable connections
- Easily interchangeable dies sets for a wide range of coax and Data Com connectors
- Easy access crimp release for use in the event the tool is jammed

Cat. No.	UPC No.	Packed	Description	Pack Wt. lb	g	Shelf Pack

DCT307V

DCT308V

DCT305V

NEW PRODUCT

- Cuts and terminates simultaneously for ease of use
- High & low impact adjustments accommodates volume installers and occasional users
- Storage compartment for spare blade is convenient
- Accommodates blades for 66, 110, and Krone style blocks
- Quick-release push button blade release so you can change blades fast
- Comes with one blade for type 66 block

- Cuts and terminates simultaneously for ease of use
- Quick-release push button blade release so you can change blades fast
- Blades are interchangeable with DCT305V Impact tool so you don't have to maintain separate blade styles
- Comes with one blade for type 66 block

Xcelite®

COAX/Data/Tone Tester

NEW PRODUCT

Uses: The CDD1B cable tester is a convenient instrument for testing different unshielded wiring schemed telephone cable with RJ-11 and RJ-45 connectors as well as coax cable.

Features and benefits
- Mapping function allows you to test cable conditions before or after installation
- Cable location/identification function allows you to identify the locations of up to seven installed cables. Seven remote identifiers (labeled A throng G) are included
- Testing functions include cable identification (straight or reverse), pair identification, and open/short test
- Low battery indicator light indicates the condition of the 9-volt battery (battery included)
- Tester turns off automatically to save battery power
- Lifetime warranty (see page 490 for details)

Cat No.	UPC No.	Packed	Description	Pack Wt.		Shelf Pack
				lb	g	
CDD1B	037103187031	Boxed	COAX/Data/Tone Tester	0.37	10	1

Telecom Data Tester

NEW PRODUCT

Uses: Quickly verifies the condition of wiring (up to 1,500 feet) in patch cords and coaxial cables not installed through walls or bulkheads (Both cable ends must be plugged into the tester).

Features and benefits
- Uses both speech and lights to indicate cable conditions. No need to interpret the lighting sequence. A voice module announces the results
- Identifies open, short, and good cables so you can correct a mistake before installation
- Checks both F-type and BNC (adapter required) coaxial cables
- Checks RJ-11 and RJ-45 telephone cables
- Low battery indicator light indicates the condition of the 9-volt battery (battery included)
- Only uses power during the test – conserves battery life
- Lifetime warranty (see page 490 for details)

Cat No.	UPC No.	Packed	Description	Pack Wt.		Shelf Pack
				lb	g	
TDT1	037103185341	Carded	Telecom data Tester	0.30	9	1

Professional Telephone Test Set

NEW PRODUCT

Uses: Used by installers and repair technicians for line testing and temporary communications.

Features and benefits
- Test set features a mega ohm (mW) meter for testing insulation resistance and telephone capacity. Technician can determine line conditions (faults) without assistance from the central office (CO)
- Integrated circuit design provides for both DTMF (touch-tone) and dial pulse output
- Numerous functions allow for convenient use: talk function, last number redial, hook and flash, speaker phone, mute, and polarity checking
- A high impendance monitor mode allows you to monitor a line without disruption to conversation, data transfer, or signaling
- Waterproof so it can be used in adverse weather conditions
- Cord utilizes a piercing pin and angled bed on nails (ABN) style connector so you can make reliable connections
- The BS100 is made of high impact material, providing excellent insulating properties and shock resistance
- Operates on a 9-volt battery (battery included)
- Lifetime warranty (see page 490 for details)

Xcelite®

Tone Generator

- Used to identify termination point of a communications cable
- Use in conjunction with the TSTP1 amplifier probe for quick and easy pair identification with audible verification
- Generates either single or dual tone signals depending on the line type
- Can generate a tone across both telecom and coax cable using either the test leads or the four conductor modular plug
- Will generate a tone through low resistance circuits up to 20,000 feet in length
- Use in conjunction with BS100 handset to verify cable continuity
- Weather resistant
- Operates on a 9-volt battery (battery included)
- Lifetime warranty (see page 490 for details)

Telephone Line Analyzer

Uses: Quickly and accurately identifies reversed, open, and shorted telephone lines by plugging directly into the wall jack.

Features and benefits
- Has leads for both RJ-11 and RJ-45 modular telephone jacks. Can be used on most residential and commercial phone lines
- Four LED lights so you can identify correct wiring, reverse polarity, shorted or open pairs quickly and accurately
- Lifetime warranty (see page 486 for details)

Tools for Cable Terminals and Connectors

Xcelite® ErgoCrimp® and ErgoCrimp Plus® Mechanical Crimping Tools

- ErgoCrimp® and ErgoCrimp Plus® are the world's most advanced crimping tools to date
- With a new patented design, they deliver up to 50% better mechanical gain than any other kind
- With increased mechanical gain you will get significantly lower handle force which could result in an increase in productivity
- ErgoCrimp tools can be purchased by themselves (without dies) or in conjunction with any combination of the die sets
- Special dies are also available upon request

These crimping tools have been designed to achieve maximum comfort, reliability, and durability.
Their main features are:

One-Handed Crimping

- The handle force needed for the crimping operation in most tools exceeds 60-70lbs. (27-32Kg)
- The average man and virtually all women cannot make a comfortable one-handed crimp
- Xcelite® crimping tools are designed with such a low handle force requirement that the crimp operation can be performed with only one hand

Crimping Pressure

- The configurations of the crimping nests and indentors are designed to increase the tensile strength of the crimp
- The jaw pressure applies is scientifically calculated for optimum connections

Reliability

- All components are made of high-quality Swedish steel and have been life tested for 50,000 cycles
- Precision manufacturing guarantees a uniform product of high accuracy
- After long wear, it is always possible to check the crimp dimensions with go/no-go gauges, and to adjust for eventual discrepancies by turning the patented excenter adjustment plate

Size

- Size has been minimized to allow single-handed operation and to ensure the tool fits easily into repair kits

Safety

- A ratchet device has been built in to guarantee that the user makes the exact same complete crimp every time
- Should the user start a faulty crimp, a safety release mechanism is built into the ratchet, allowing the user, with one finger, to open the tool before the cycle is complete

Economy

- Because of their considerable advantages in quality, speed, and efficiency, the payoff time for an investment in Xcelite® tools is extremely short

ErgoCrimp® (EC-000 Frame)
Length: 8.66"
Weight: 1.1lbs.
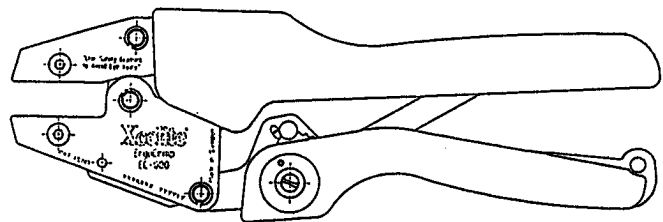

ErgoCrimp Plus® (ECP-000 Frame)
Length: 10.0"
Weight: 1.2lbs.
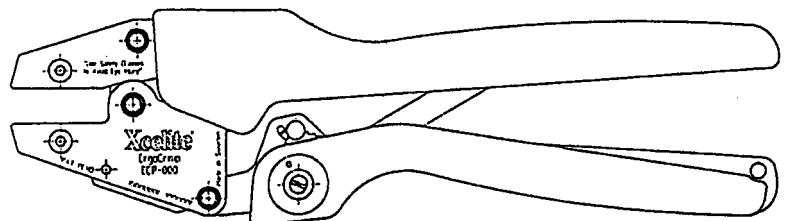

ErgoCrimp Plus® for 22-10 AWG Insulated Terminals and Splices

- ECP000 large ergonomic frame for large hands
- D100 die set for 22-10 AWG red, blue and yellow insulated terminals and splices
- Mechanical gain estimated 50%
- Guaranteed for at least 50,000 cycles
- Variety of die sets available

ErgoCrimp® Die Set for Insulated Terminals and Splices
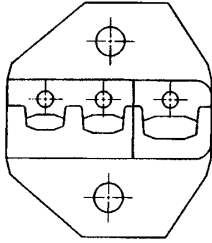

- For 22-10 AWG red, blue and yellow insulated terminals and splices
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools

Cat No.	UPC No.	Packed	Description	Shelf Pack
D100	037103059345	Boxed	Die set	1

ErgoCrimp® Die Set for Non-insulated Terminals and Splices
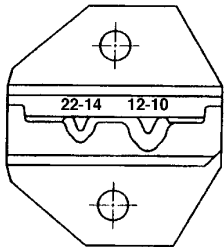

- For 22-10 AWG non-insulated terminals and splices
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools

Cat No.	UPC No.	Packed	Description	Shelf Pack
D101	037103059352	Boxed	Die set	1

ErgoCrimp® Die Set for RG58, RG59/62 AU BNC/TNC Coaxial Connectors
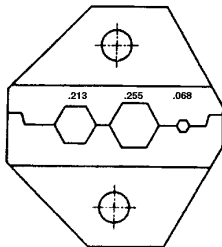

- For RG 58, RG 59/62 AU BNC/TNC - .213", .255" and .068" hex cavities
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
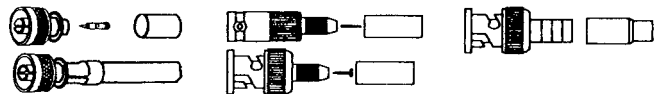

Cat No.	UPC No.	Packed	Description	Shelf Pack
D102	037103059369	Boxed	Die set	1

Xcelite®

ErgoCrimp® Die Set for RG58, RG174, 50 and 75ohm Coaxial Connectors

- For RG 58, RG 174, 50 and 75 ohm center contacts - .213", .178" and .068" hex cavities
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
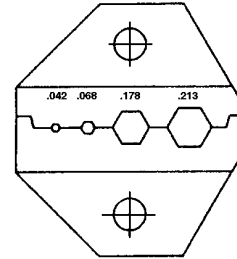

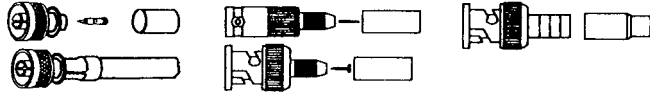

Cat No.	UPC No.	Packed	Description	Shelf Pack
D103	037103059376	Boxed	Die set	1

ErgoCrimp® Die Set for RG59, Belden® 8281, 50 and 75 ohm Coaxial Connectors

- For RG 59, Belden® 8281, 50 and 75 ohm center contacts - .324", .255", .068" and .042" hex cavities
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
- Belden® is a registered trademark of BELDEN, INC.
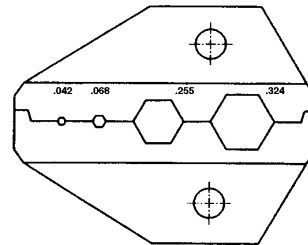

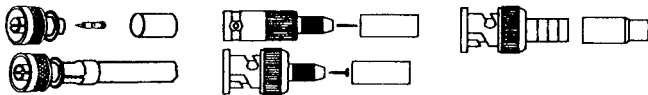

Cat No.	UPC No.	Packed	Description	Shelf Pack
D104	037103059383	Boxed	Die set	1

ErgoCrimp® Die Set for RG174 BNC/TNC Coaxial Connectors

- For RG 174 BNC/TNC - .178", .128", and .068" hex cavities
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
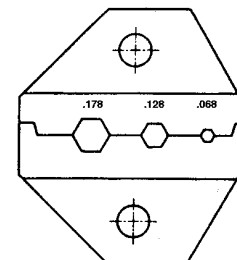

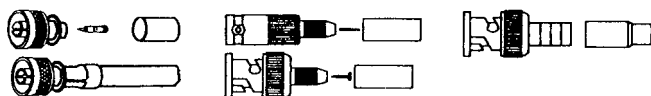

Cat No.	UPC No.	Packed	Description	Shelf Pack
D105	037103059390	Boxed	Die set	1

ErgoCrimp® Die Set for RG8, RG11, RG213, RG216 Coaxial Connectors
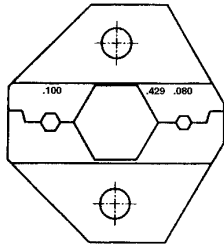

- For RG 8, RG 11, RG 213 and RG 216 ethernet N-series, .429", .100" and .080" hex cavities
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
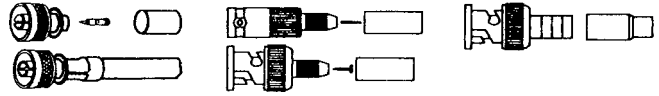

Cat No.	UPC No.	Packed	Description	Shelf Pack
D106	037103059444	Boxed	Die set	1

ErgoCrimp® Die Set for RG59, RG6 CATV Coaxial Connectors
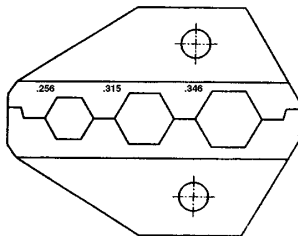

- For RG 59, RG 6 CATV "F" connectors - .346", .315", .256" hex cavities
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
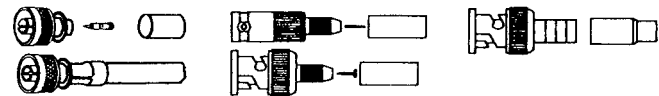

Cat No.	UPC No.	Packed	Description	Shelf Pack
D107	037103059413	Boxed	Die set	1

ErgoCrimp® Die Set for Open-barrel & D-subminiature Contacts
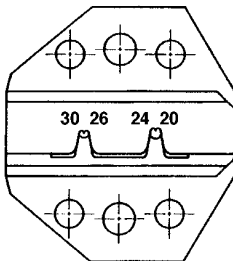

- For 30-20 AWG open-barrel and D-sub-miniature pin and pocket contacts
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
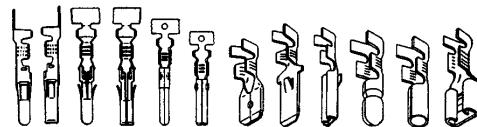

Cat No.	UPC No.	Packed	Description	Shelf Pack
D108	037103059420	Boxed	Die set	1

ErgoCrimp® Die Set for SMA/SFR Fiber Optic Connectors
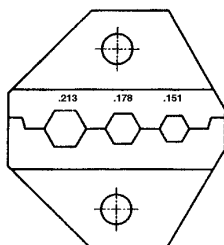

- For SMA/SFR fiber optic connectors requiring .213", .178", .151" hex crimps
- Precision-machined hardened steel
- Fits ErgoCrimp® and ErgoCrimp Plus® tools
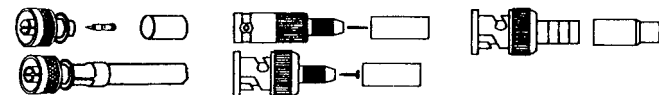

Cat No.	UPC No.	Packed	Description	Shelf Pack
D109	037103059437	Boxed	Die set	1

Xcelite®

Mini-Crimper/Maxi-Crimper Mechanical Crimping Tools

Xcelite® mechanical crimping tools have been designed to achieve maximum comfort, reliability, and durability. Their main features are:

One-handed Crimping
- The handle force needed for the crimping operation in most tools exceeds 60-70lbs. (27-32Kg)
- The average man and virtually all women cannot make a comfortable one-handed crimp
- Xcelite® crimping tools are designed with such a low handle force requirement that the crimp operation can be performed with only one hand

Handle Spread
- Other crimping tools on the market have open handle spreads equal to or greater than 6" at the point where the user places his grip
- This is too great a spread for the average male and female hand
- The Xcelite® mini-crimper has a handle spread of about 31/2"/88mm
- It is the smallest spread available in a tool this powerful
- The maxi-crimper, with about 20% more power, still has a handle spread under 4 1/2"/144mm
- Both tools fit comfortably in the average male or female hand
- With just one hand needed to hold the crimping tool, the user is now free to easily locate cable and connector in the jaw of the tool

Crimping Pressure
- The configurations of the crimping nests and indentors are designed to increase the tensile strength of the crimp
- The jaw pressure applies is scientifically calculated for optimum connections

Reliability
- All components are made of high-quality Swedish steel and have been life tested for 50,000 cycles
- Precision manufacturing guarantees a uniform product of high accuracy
- After long wear, it is always possible to check the crimp dimensions with go/no-go gauges, and to adjust for eventual discrepancies by turning the patented excenter adjustment plate

Size
- Size has been **minimized** to allow single-handed operation and to ensure the tool fits easily into repair kits

Safety
- A ratchet device has been built in to guarantee that the user makes the exact same complete crimp every time
- Should the user start a faulty crimp, a safety release mechanism is built into the ratchet, allowing the user, with one finger, to open the tool before the cycle is complete

Economy
- Because of their considerable advantages in quality, speed, and efficiency, the payoff time for an investment in Xcelite® tools is extremely short.

Mini-crimper (MIC)
Length: 7.68"
Weight: 0.55lbs.
Open Handle Spread: 3.66"
Closed Handle Spread: 1.90"
Max. Crimp Force: 1,600lbs.

Maxi-crimper (MAC)
Length: 8.86"
Weight: 1.10lbs.
Open Handle Spread: 4.50"
Closed Handle Spread: 2.10"
Max. Crimp Force: 2,200lbs.

MIC has the smallest handle spread available

Xcelite®

Maxi-Crimper for Insulated Terminals and Splices

- Maxi-Crimper built bigger for greater terminating power
- Crimps 22-10 AWG (.75-6.0mm^2) red, blue and yellow insulated terminals and splices (die nests color-coded to AWG specs)
- Incorporates ratchet to ensure a full-cycle complete crimp every time
- Crimps exceed UL® standards for most terminals from AMP, 3M, T & B and many others

Cat No.	UPC No.	Packed	Description	Pack Wt. lb	kg	Shelf Pack
MAC2210	037103489180	Boxed	Maxi-crimper tool	1.1	0.5	1
D2210	037103490186	Boxed	Die set for MAC2210	-	-	1

Mini-Crimper for Insulated Terminals and Splices

- Mini-Crimper smallest professional crimp tool of its kind
- Crimps 22-14 AWG (.75-2.5mm^2) red and blue insulated terminals and splices (die nests color-coded to AWG specs)
- Incorporates ratchet to ensure a full-cycle complete crimp every time
- Dies interchangeable with MIC174, MIC58, MIC59, MIC5859
- Crimps exceed UL standards for most terminals from AMP, 3M, T & B and many others

Combination, Self-adjusting Wire Stripper

- Body of tough fiberglass-reinforced nylon
- No other self-adjusting wire stripper allows hand that positions cable and hand that cycles tool to work so closely together
- Mechanics made of high quality corrosion-protected special hardened Swedish steel
- Widest cutting and stripping range in 1 tool
- Cuts and strips nylon and PVC insulated cable 30-12 AWG (.05-6.0mm^2)
- Ingenious mechanism on Combination Stripper automatically adjusts the holding force on cable
- Combination Stripper also equipped with excellent built-in cutter
- Required force reduced to minimum on thin cables and automatically increased on thicker cables
- Construction also avoids damaging conductor or insulation while stripping
- Tested for 100,000 operations

Economical Coaxial Wire Stripper
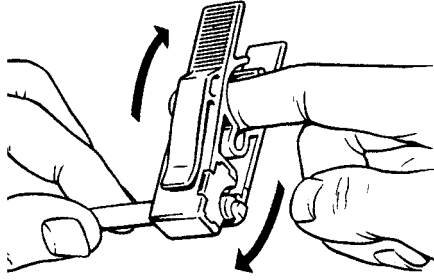

- Spring-like action coaxial wire stripper specially designed to quickly and easily strip RG Series cables for CATV "F" connectors
- Built-in stop (no adjustments needed)
- Replaceable blade cassette lasts 1,000-2,000 strips
- Convenient built-in belt clip

Economical Coaxial Wire Stripper - Pre-adjusted for RG59 & RG6

- Tool specially designed to quickly and easily strip RG 59 and RG 6 cables for CATV "F" connectors
- Built-in stop (no adjustments needed)
- Replaceable blade cassette lasts 1,000-2,000 strips
- Convenient built-in belt clip
- Full operating instructions listed on back of blister card

Coaxial Wire Stripper - Full Kits and Pre-adjusted Models
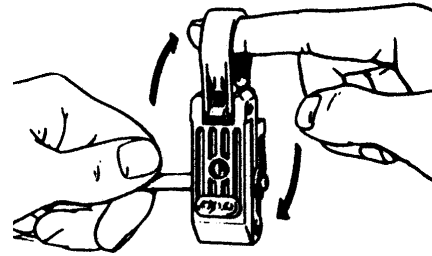

- Fastest accurate coax-stripping system
- Coaxial cable from .10" to .30" (1.87-7.6mm) in thickness (RG 178 up to RG 6) stripped in seconds
- Also removes dielectric, braid and outside insulation
- Xcelite® system available with different color-coded cassettes designed to meet exact stripping specifications
- Cassettes changed in seconds
- Available in full kits for users of many different cable sizes
- Special, pre-adjusted models or cassettes with special strip lengths made upon request

Full Kits - Coaxial Wire Stripper

- Full kit designed for user who strips many different size cables (from .1" to .3"/2.5-7.6mm)
- Contains cassette indicated, all 4 Xcelite® V-Blocks, hex wrench and instruction sheets covering most possible applications
- 3-step models not recommended for cable with hollow dielectric (RG 62) or foam dielectric (use 2-step models instead)
- Cable O.D. range: .10"-.30" (2.5-7.6mm), RG 174 to Belden® 8281 or RG 6

Cassettes

- The cassette determines the strip dimension that your stripper will give
- New tool body design allows all cassettes to be used in any 2 step or 3 step full kit or pre-adjusted model
- Cassettes can be interchanged in seconds in the tool body

Replacement V-Blocks
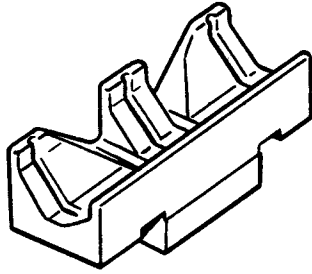

See coaxial wire stripper operating instructions on page 517.

Cat No.	UPC No.	Color	Packed	Cable O.D. Inch	mm	Typical RG Nos.	Shelf Pack
VMD	037103489654	Blue	Boxed	.19-.25	4.8-6.3	58, 59, 62	1
VSUB	037103489661	White	Boxed	.10-.12	2.5-3.0	174, 188, 316	1

NEW IMPROVED FEATURES:

Ergonomical slide design for easier use.

Easier V-block replacement.
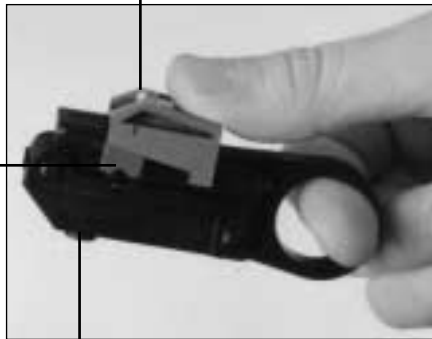

All tools have 3 blade adjustment screws so any cassette can be used in any tool

Blade height adjustment gauge. Allows easy adjustment for most common cable sizes. Included in all full kits.

New, more durable blades, provide more than twice the life of the old blades.

Coaxial Wire Stripper Operating Instructions

Note the parts of the stripper in Figure 1.

Numbers 1 to 4 imprinted inside cassette

Cassette

Locking latch

Slide

V-block
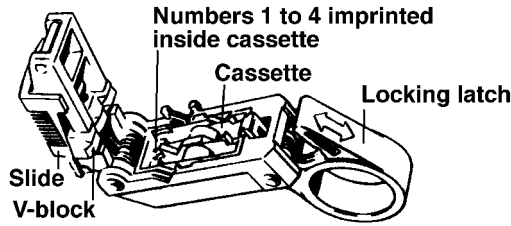

Figure 1

Follow these steps when stripping with the Xcelite® Coaxial Cable Stripper.

A. Adjust slide to position 4 or 5.

B. Open tool by rotating locking latch downward. (Fig. 2)

Figure 2

C. Mark jacket of cable for center conductor length. (If you have a simple wire-cutter, ignore this instruction. You can cut center conductor to length after the strip.)

Mark on cable positioned over blade

Figure 3

D. Hold the tool with the handle towards you and insert coax from left into the groove position. Close and latch tool. (Figs. 3 and 4)

E. Push slide forward to appropriate start position (see Fig. 7). Make sure proper V-block is installed.

Figure 4

F. Rotate tool around coax about 5 times (Fig. 5). Push slide forward to next position in sequence. Rotate tool again. Then push slide forward to final position and rotate tool final 5 times.

Figure 5

G. Move slide black one position. Then pull cable out carefully while squeezing tool (Fig. 6).
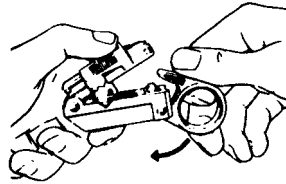

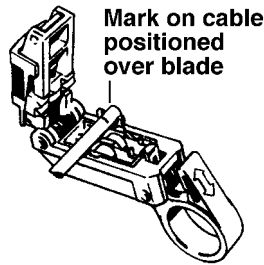

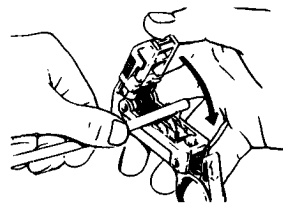

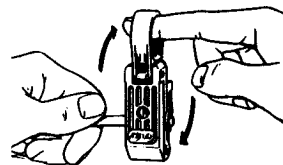

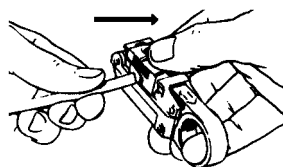

Figure 6

Recommended Settings

Coax	V-block	Slide Progression
RG-58	Blue	3, 2, 1
RG59, 62	Blue	5, 4, 3
RG 174, 188, 316	White	4, 3
RG6	Yellow	5, 4, 3
Belden® 8281	Yellow	5, 4
RG 195, 180	Red	4, 3, 2

Figure 7

V-blocks
Select proper V-block by O.D. of wire (see Fig. 8).

| V-block Part No.	Cable Dia. Range	Cable RG #	Color
VMD	.20"-25" (5-6.4mm)	58, 59	Blue
VSUB	.10-12" (2.5-3mm)	174, 188, 316	White

Figure 8

Cassettes
Each cassette contains 4 sets of cutting edges. Cassettes can be reversed each time a blade set wears out. Numbers 1 to 4 are printed inside cassette to determine usage. (see Fig. 1)

To change or reverse cassette, move locking latch in direction of arrow, then push cassette out of tool by inserting wrench through hole in bottom of tool (Fig. 9).
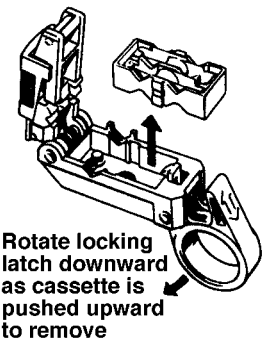

Rotate locking latch downward as cassette is pushed upward to remove

Figure 9

Note: 3-bladed cassettes can only be in positions 1 and 2. Positions 3 and 4 would give reversed strip dimensions!
