Item description

The PFC200 Controller is a compact PLC for the modular WAGO I/O System. Besides network and fieldbus interfaces, the controller supports all digital, analog and specialty modules found within the 750/753 Series.

Two ETHERNET interfaces and an integrated switch enable line topology wiring.

An integrated Webserver provides user configuration options, while displaying PFC200 status information.

Besides the processing industry and building automation, typical applications for the PFC200 include standard machinery and equipment control (e.g., packaging, bottling and manufacturing systems, as well as textile, metal and wood processing machines).

Programming per IEC 61131-3

- Programmable with CODESYS V3.5 from Firmware Release 23, WAGO-I/O-PRO V2.3 or *e!COCKPIT* up to Firmware Release 22
- Direct connection of WAGO's I/O modules

Subject to changes. Please also observe the further product documentation!

- 2 x ETHERNET (configurable), RS-232/-485
- Linux operating system with RT-Preempt patch
- Configuration via CODESYS, *e!COCKPIT* or Web-Based Management user interface
- Maintenance-free

Connection data

Connection technology: communication/fieldbus	Modbus (TCP, UDP): 2 x RJ-45; Modbus RTU: 1 x D-sub 9 socket; RS-232 serial interface: 1 x D-sub 9 socket; RS-485 interface: 1 x D-sub 9 socket
Connection technology: system supply	2 x CAGE CLAMP®
Connection technology: field supply	6 x CAGE CLAMP®
Connection type 1	System/field supply
Solid conductor	0.08 ... 2.5 mm ² / 28 ... 14 AWG
Fine-stranded conductor	0.08 ... 2.5 mm ² / 28 ... 14 AWG
Strip length	8 ... 9 mm / 0.31 ... 0.35 inches
Connection technology: device configuration	1 x Male connector; 4-pole

Physical data

Width	78.6 mm / 3.094 inches
Height	100 mm / 3.937 inches
Depth	71.9 mm / 2.831 inches
Depth from upper-edge of DIN-rail	64.7 mm / 2.547 inches

Mechanical Data

Weight	214.8 g
Color	light gray
Housing material	Polycarbonate; polyamide 6.6
Conformity marking	CE

Environmental requirements

Ambient temperature (operation)	0 ... +55 °C
Ambient temperature (storage)	-25 ... +85 °C
Protection type	IP20
Pollution degree	2 per IEC 61131-2
Operating altitude	without temperature derating: 0 ... 2000 m; with temperature derating: 2000 ... 5000 m (0.5 K/100 m); 5000 m (max.)
Relative humidity (without condensation)	95 %
Mounting position	any
Mounting type	DIN-35 rail
Vibration resistance	4g per IEC 60068-2-6
Shock resistance	15g per IEC 60068-2-27

Subject to changes. Please also observe the further product documentation!

e!COCKPIT Anwendungshinweis HVAC BACnet Macros (a2021010)	1.3.0	zip	Download
Basierend auf der Bibliothek WagoAppBuildingHVAC_BACnet stellt WAGO in dem Bereich Heizung, Lüftung und Klimatisierung verschieden HLK-Anlagenmakros mit BACnet-Anbindung zur Verfügung.	2023 年2月27日	69.2 MB	

e!COCKPIT Application Note WAGO Cloud Building Operation and Control (a2021008)	1.0.0	pdf	Download
Data should be sent to the WAGO Cloud Building Operation and Control. The application note illustrates the data structure required for this using a sample application (retail store). The principle can be transferred to other properties.	2023 年1月31日	1.6 MB	

e!COCKPIT application note WagoAppCloud	2022-11-04	zip	Download
This application note explains how the WAGO controllers PFC100 and PFC200 can communicate with cloud services like Microsoft Azure (WAGO Cloud), Amazon AWS and IBM Bluemix. Data could be send to the cloud and commands could receive from the cloud. The library WagoAppCloud for e!COCKPIT is used.	2022 年11月4日	2.7 MB	

e!COCKPIT Application Note OPC UA Client (a2022001)	1.0.0	zip	Download
In this application note, an example project for using the "WagoSysOpcuaClient" library is provided. The WagoSysOpcuaClient library provides the customer with function blocks to connect to one or more OPC UA servers, to read and write data points. The function blocks were developed in accordance with PLCopen-OPC-UA-Client for IEC 61131-3 (Document Version 1.1).	2022 年4月5日	1.4 MB

ThiesModbusWeatherSensors_01.lib erfolgt. Die Sensoren werden auf einer Busleitung und somit an einer seriellen Klemme betrieben. Weiterhin wird beschrieben, wie ein Adresswechsel durchzuführen ist.

e!COCKPIT Application Note BACnet PFC This application note describes how BACnet/IP data communication can be established within the WAGO-I/O-SYSTEM. This document explains how to create, read and write BACnet objects and how to link I/O modules to the BACnet fieldbus.	1.0.0 2021 年12月6日	pdf 3.4 MB	Download
SNMP Communication (a500850) This application note explains how the WAGO controllers PFC100 and PFC200 can communicate via SNMP: Sending traps / inform notifications, creating an MIB and using the controller as an SNMP agent. To do so, the SNMP-specific libraries for WAGO-I/O-PRO V2.3 and e!COCKPIT are used.	1.1.0 2020 年2月20日	zip 3.8 MB	Download
eCOCKPIT application note installation MySQL-Server This Application Note explains how a MySQL-Server can be set up and used on a PFC 200. The Application shows how measurement values of the 3-Phase Power Measurement Module can be written into a database.	1.0.3 2019 年9月9日	pdf 1.9 MB	Download
HART Tool Routing via ETHERNET with 750-820x and e!RUNTIME (a116130) This application note describes how to set up asset management systems, which facilitate simple, efficient configuration of HART field devices. With the Cerabar PMC51 (Endress+Hauser) as an example, a connection is established from any HART sensor to a WAGO PROFIBUS Controller and a WAGO ETHERNET fieldbus coupler. The configuration is made with the asset management software WAGOframe, PACTware und FieldCare.	1.0.0 2019 年3月22日	pdf 2.9 MB	Download

Libraries

Library

WAGO_Datalogger_02.lib The FbDatalogger function block logs entries from up to 80 channels at an interval of min. one second in a CSV file.	2.7 2020 年5月20日	zip 678.8 kB	Download
ModuleAccess_01.lib The ModuleAccess_01 library provides both module configuration and access to its process data within a CoDeSys project without the use of WAGO I/O Check.	1.8.7 2020 年1月27日	zip 2.2 MB	Download
Library WagoLibCloud_02.lib Die Bibliothek dient zur Kommunikation des WAGO Controller PFC100 und PFC200 mit Cloud Diensten wie Microsoft Azure (WAGO Cloud), Amazon AWS and IBM Bluemix. Daten können zur Cloud gesendet und Kommandos von der Cloud empfangen werden.	2.2.4 2020 年1月21日	zip 57.6 kB	Download

WAGO Solution Builder

WAGO Solution Builder		URL	Download
-----------------------	--	-----	----------

Subject to changes. Please also observe the further product documentation!

WAGO Solution Builder is a software solution that enables holistic and efficient building automation project engineering and can be used throughout the entire building life cycle. With WAGO Solution Builder, you can organize all of your own building automation projects on a web interface and, thanks to integrated device management, ensure that your project-specific WAGO controllers are always updated.

Once downloaded, the software can be used for free during the launch phase until October 2023. After that, you can activate WAGO Solution Builder by purchasing a license key.

CODESYS V3 with WAGO DSP

CODESYS Development System V3 including WAGO Device Support Package

URL

Download

Have you not yet installed CODESYS Development System V3? Would you like to program WAGO controllers? Then you've come to the right place!

With CODESYS Development System V3, you program according to the IEC 61131-3 standard. The software enables graphical and textual programming. Create visualizations with the integrated visualization editor.

You benefit from several WAGO libraries that support your application.

You can find it in our WAGO Download Center:

- CODESYS V3.5.x, 64-bit
- WAGO-Plugins
- WAGO libraries
- Device firmware
- Device description for WAGO controllers
- ...as well as other WAGO tools and add-ons

WAGO DSP for CODESYS V3

WAGO Device Support Package for CODESYS Development System V3

URL

Download

Have you already installed CODESYS Development System V3 (min. V3.5.17.3) and only need WAGO libraries and device descriptions for the WAGO controllers? Then you've come to the right place!

Use your CODESYS Development System V3 and expand it with the device descriptions of the WAGO controllers and several WAGO libraries.

You can find it in our WAGO Download Center:

- WAGO-Plugins
- WAGO libraries
- Device firmware
- Device descriptions for WAGO controllers
- ...sowie weitere WAGO-Tools und Add-ons

GitHub: Linux® Software Development Kit (SDK)

With the PFC SDK, WAGO offers Linux® enthusiasts the opportunity to compile the PFC firmware themselves, and to expand it according to their own wishes.

The WAGO PFC SDK includes a Pengutronix build environment, optimized for the PFC, and the OSELAS Toolchain, which open up the following possibilities, among others:

- Expanding the firmware functions using open source packages like: Python, SQLite3, PHP, etc.
- Compiling their own C/C++ applications with direct or indirect bus access to the local bus, CANopen, or PROFIBUS.
- Compiling external libraries using CODESYS V2 to expand the PLC applications.
- There are detailed instructions for many of these tasks and ideas (see WAGO GitHub HowTo's).

Software Solutions (Applications)

Energy data management

Energy Data Management Application		URL	Download
------------------------------------	--	-----	----------

With our energy data management, EDM, solution, you can record and visualize your measurement data of different media and parameters in no time. Continuous collection and monitoring provide the basis for the resource-efficient energy usage – the environment will thank you and your operating costs will be minimized. And by the way, the normative conformity according to DIN EN 50001 for the energetic evaluation is part of the package.

Application-Based Controller Redundancy

Application-Based Controller Redundancy	2023-08-29	zip	Download
	2023 年8月29日	414.0 MB	

Subject to changes. Please also observe the further product documentation!

Increase availability in central ship alarm systems with WAGO's Application-Based Controller Redundancy (ACR).

The licensed software library (2759-0245/0211-1000) and an *e!COCKPIT* redundancy framework (LINK) allows you to easily program and operate redundant master PLCs in single point of failure (SPOF) tolerant systems.

A large number of the available 750 Series I/O Modules can be integrated into the system via Smart Couplers. These decentralized PLCs automatically recognize the input and output modules, which makes commissioning easy. The redundant communication of the two Master PLCs and the Smart Couplers is performed either via two separate networks (Dual-LAN) or a ring topology.

These Master PLCs (2nd generation PFC200) communicate with higher-level SCADA systems, for example, via the Modbus TCP protocol.

The application notes (a2020003 and a2020004) describe the practical use of the library and define the application area and the maximum number of participants within the system.

Weather-Station

Weather Station Application

[URL](#)

[Download](#)

WAGO Weather Station makes all the relevant sensor data, such as temperature, precipitation, wind speed and light intensity, available for further processing and display in a visualization or a management system. Weather sensors from different manufacturers can be recorded on digital inputs and analog inputs and via RS-485.

It provides central functions like weather protection, automated glare protection and timer programs. The slat tracking based on the position of the sun ensures that the maximum amount of daylight is allowed into rooms while avoiding glare.

Shading correction also optimizes the supply of sunlight. It takes the shading caused by surrounding buildings into account according to an existing shading analysis for the specific property.

Lighting management

Lighting Management Application

[URL](#)

[Download](#)

WAGO Lighting Management is a highly sophisticated solution for lighting control in large spaces such as production facilities and warehouses. Using a combination of predefined hardware and user-friendly software, WAGO offers a lighting management system that facilitates the design and commissioning of new lighting systems while providing numerous additional advantages for their operation.

This download always provides you with the latest version of WAGO Lighting Management that we strongly recommend for new installations. When upgrading existing installations that use older versions (V1.x), we recommend that you keep using V1.2. If you have any questions, please contact WAGO Support.

WAGO Application Grid Gateway

WAGO Application Grid Gateway

[URL](#)

[Download](#)

WAGO Application Grid Gateway supports power distribution grid operators in assessing grid performance. This application allows grid operators to use their existing distribution grid more efficiently, while avoiding unnecessary grid expansion. The measurement technology required in the substations for both the transformer and low-voltage outputs can be easily retrofitted.

The application can be used for a 30-day trial period at no cost, after which a license for the specific controller is required. The license can be separately purchased under Item Number 2759-2015/0261-1000.

Application Building Control

[URL](#) [Download](#)

WAGO's Building Control application is a pre-programmed software solution for building automation applications.

Its main functions include HVAC control, lighting control and comprehensive energy data management; however, it also allows implementation of arbitrary control loops or logical functions. Its high degree of flexibility and scalability allow it to adapt to different demands. Commissioning is performed through a configuration interface, following the design principle of "configuration instead of programming." A Web-based visualization for display and operation of systems is also available. It is also possible to connect to cloud systems for access to the data from anywhere in the world..

Room Automation

Application *flexROOM*[®]

[URL](#) [Download](#)

flexROOM[®] is our scalable room automation solution and is especially appropriate for medium-sized and large office and administrative buildings – whether for new construction or modernizing energy systems.

All the relevant room functions of the building systems for lighting, sun protection and room climate control are covered. Thus *flexROOM*[®] provides the basis for achieving energy efficiency class A per EN 15232 and supports the certification of your building as a sustainable green building, e.g., per national and international system like DGNB or LEED.

Wago Application Analytics

Wago Application Analytics

[URL](#) [Download](#)

Analytics Connection Direct from the PLC Program

The WAGO Analytics application makes it easy to leverage optimization potential.

This new software solution for WAGO controllers allows you to analyze, evaluate and optimize processes without having to leave the familiar PLC programming environment. You can use the WAGO Analytics application without entering the IT and Linux[®] environment directly; numerous function modules support data acquisition, data analysis and data evaluation. The analysis, evaluation and optimization functions run in the background on powerful WAGO Edge Devices, for which an executable installation package is available. All the data stays within the local network, so no Internet connection to additional systems is necessary. Additional data sources can be connected conveniently via Node-RED, for example. Tools like Grafana can be used for visualization, allowing you to view data quickly and easily in dashboards. Anomalies and malfunctions can be detected automatically with ready-made algorithms.

The Benefits for You:

- An easy way to get started with process data analysis
- Support throughout all analysis project phases
- Quick and easy data visualization
