# SMT Breakout PCB for SOIC-20 or TSSOP-20 - 3 Pack!

PRODUCT ID: 1206

DESCRIPTION –

Beguiled by a fancy new chip that is only available in a SOIC or (T)SSOP pinout? This breakout PCB set will make your life much much easier and get you prototyping faster than ever. One side has a 20-TSSOP pin out with traces going to two rows of 0.1" spaced holes, the other has 20-SOIC. Solder your chip to either side and you're ready to rock on any solderless breadboard.

Each item comes with three PCBs, each PCB is identical and can support either a SOIC (narrow, medium or wide variety) or TSSOP. Standard thickness PCBs, with 0.6" spacing between the two rows. You can of course use a smaller chip but the pin numbering wont be right so use care.

SMT Breakout PCBs for SOIC or TSSOP chips (9:17 (https://www.youtube.com/watch?feature=player_detailpage&v=XNyl7mZ3V1g#t=557))
