Description

The HI-300 thru HI-307 series of switches are monolithic devices fabricated using CMOS technology and the Harris dielectric isolation process. These switches feature break-before-make switching, (HI-301, HI-303, HI-305 and HI-307 only), low and nearly constant ON resistance over the full analog signal range, and low power dissipation, (a few mW for the HI-300 thru HI-303, a few hundred mW for the HI-304 thru HI-307).

The HI-300 thru HI-303 are TTL compatible and have a logic "0" condition with an input less than 0.8V and a logic "1" condition with an input greater than 4V. The HI-304 thru HI-307 switches are CMOS compatible and have a low state with an input less than 3.5V and a high state with an input greater than 11V. (See pinouts for switch conditions with a logic "1" input.)

NOTES:

1. As with all semiconductors, stresses listed under "Absolute Maximum Ratings" may be applied to devices (one at a time) without resulting in permanent damage. This is a stress rating only. Exposure to absolute maximum rating conditions for extended periods may affect device reliability. The conditions listed under "Electrical Specifications" are the only conditions recommended for satisfactory operation.
2. $V_S = \pm 10V$, $I_{OUT} = \mp 10mA$. On resistance derived from the voltage measured across the switch under the above conditions.
3. $V_S = \pm 14V$, $V_D = \mp 14V$.
4. $V_S = V_D = \pm 14V$.
5. The digital inputs are diode protected MOS gates and typical leakages of 1nA or less can be expected.
6. $V_S = 1V_{RMS}$, $f = 500kHz$, $C_L = 15pF$, $R_L = 1K$.
7. $V_S = 0V$, $C_L = 10,000pF$, Logic Drive = 5V pulse. (HI-300 - 303) Switches are symmetrical; S and D may be interchanged. Logic Drive = 15V (HI-304 - 307).
8. $V_{IN} = 4V$ (one input) (all other inputs = 0V).
9. $V_{IN} = 0.8V$ (all inputs).
10. $V_{IN} = 15V$ (all inputs).
11. $V_{IN} = 0V$ (all inputs).
12. To drive from DTL/TTL circuits, pullup resistors to +5V supply are recommended.
13. HI-300 thru HI-303 only.
14. HI-304 thru HI-307 only.
15. HI-301, HI-303, HI-305, HI-307 only.
