

# NEW TV-8 RATED OJT 10A SERIES POWER RELAY

HIGH INRUSH CAPABILITY, MINIATURE DESIGN

## PRODUCT DESCRIPTION

TE Connectivity (TE) announces new TV-8 rated 10A OJT Relays. This compact relay offers a high 117A inrush capability and is UL TV-8 rated. This makes them ideal for use in applications that require high inrush resistance on loads which inrush current occurs. Contacts in a 1 form A, 1 NO (normally open) arrangement are rated up to 10 amps at 250 volts AC, resistive with through-hole technology (THT) printed circuit board (PCB) terminals. Its miniature design results in a size about 40% less than similar relay offerings. The 450mW coil is offered in 5 through 24 volt DC versions.

## APPLICATIONS

- Appliances: such as washing machines, refrigeration and cooking
- HVAC
- Industrial controls
- Industrial machinery
- Lighting
- Motors
- Power supply controls
- Printers
- Smart plugs

## KEY FEATURE

- 1 form A, 1 NO (normally open) contact arrangement rated up to 10 amps at 250 volts AC and 85°C
- Through-hole technology (THT) printed circuit board (PCB) terminals offer more robust and durable board mounting option
- With a mounted height of only 15.2mm above the board, the OJT relay has a compact design to save space on and above the board
- $\geq 4\text{kV}$  dielectric strength between contacts and coil
- 5 through 24 volt DC coils require 450mW coil power
- Complies with IEC 61810 and is UL recognized, VDE approved and CQC certified
