

**Mini-Mac
Applicator**

**Application Tooling
Specification Sheet**

Order No. 63888-5000

FEATURES

- Directly adapts to most automatic wire processing machines
- Applicator designed to industry standard mounting and shut height 135.80mm (5.346")
- Quick set-up time; plus the crimp height, track and feed adjustments can be set without removing the applicator from the press
- Fine adjustment allows users to achieve target with little effort by adjusting in increments of .015mm (.0006") for conductor crimp height and .063mm (.0025") for insulation height
- Independent adjustment rings allow users to quickly adjust the conductor or insulation crimp height without affecting each other
- Pilot pin in cut-off punch produces symmetrical cut-off tabs and consistent cut-off tab length, see terminal strip adjustment on page 3

SCOPE

Products: KK® and Trifurcon™, 3.96mm (.156") Pitch Crimp Terminal, 18-24 AWG.

*Insulation below 1.65mm (.065 inch) diameter may produce loose insulation crimps.

DEFINITION OF TERMS

*Terminal is to be centrally located between the two (2) cut-off edges, within +/- 0.08mm (+/- .003").

	20	0.50	1.02-1.09	.040-.043	66.7	15.0
* Special for use with 18 AWG UL1015, 16 strand (.010") diameter wire only. 0.81mm ² .254mm						

Tool Qualification Notes:

1. Pull Force should be measured with no influence from the insulation crimp.
2. The above specifications are guidelines to an optimum crimp.

Terminal Strip Adjustment

The terminal strip hole must be aligned to the pilot pin before crimping under power. Hand cycle the press several times to check the alignment of the pilot pin to the terminal strip hole before crimping under power. Use the track adjusting screw and the terminal position adjusting knob to align the terminal strip hole to the pilot pin.

NOTES

1. Molex recommends an extra perishable tooling kit be maintained at your facility.
2. Verify tooling alignment by manually cycling the press and Applicator before crimping under power. Check that all screws are tight.
3. Slugs, Terminals, Dirt and Oil should be kept clear of work area.
4. Wear safety glasses at all times.
5. For recommended maintenance refer to the Mini-Mac Manual.

CAUTION: This applicator should only be used in a press with a shut height of 135.8 mm (5.346"). Tooling damage could result at a lower setting.

CAUTION: To prevent injury never operate this Applicator without the guards supplied with the press or wire-processing machine in place. Reference the press or wire processing manufacturer's instruction manual.

CAUTION: Molex crimp specifications are valid only when used with Molex terminals, applicators and tooling.
