SEIZAIKEN SILVER OXIDE BATTERY

SR44W 357

160mAh

Mercury Free

1. Specifications

2. Dimensions

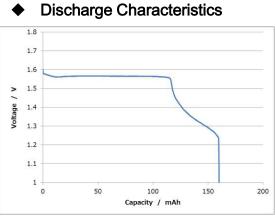

\$11.60

(+)

5.40

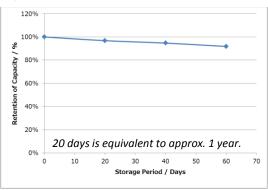

odel	SR44W 357
I Voltage	1.55V
Capacity	160mAh [cov:1.20V]
charge Current	250µA
perature Range	- 10 to + 60 deg. C
eight	2.20g
Dimensions Diameter Height	11.6mm
	5.40mm
	l Voltage Capacity charge Current perature Range eight Diameter

3. Characteristics

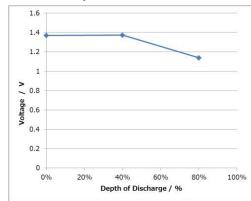

Measurement conditions: Temp: 23 deg C Load: 5.1kΩ

Measurement conditions:Temp:23 deg C Storage conditions: 60 deg C Dry Load:5.1kΩ

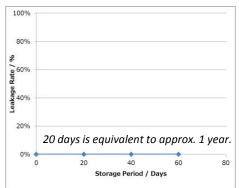

Low Temperature Characteristics

Measurement conditions:

Temp:-10 deg C Load:200 Ω 5sec DC

Anti-leakage Performance

Storage conditions: Temp:45 deg C Humidity:93% R.H.

SEIZAIKEN

For using SII Silver Oxide batteries, please follow the following precautions.

WARNING!

- Do not heat, disassemble nor dispose of in fire Doing so damages the insulation materials and may cause fire, heat generation, leakage or bursting.
- Do not short.
 If the (+) and (-) come into contact with metal materials, shortcircuit occurs. As a result, fire, heat generation, leakage or bursting may occur.
- Keep batteries out of children's reach. It is dangerous that children swallow the battery. When you design mechanical hardware around the battery, please
- . Do not reverse placement of (+) and (-)
- Do not solder directly to the battery
- Do not use new and used batteries together. Do not use different types of batteries together.
- Do not charge.
- Do not use nor leave the batteries in direct sunlight nor in high-temperature areas.
- Keep batteries away from direct sunlight, high temperature and humidity.
- Avoid letting battery contact water.

fix the battery firmly in order to prevent children from removing it. When you store the batteries, please keep the batteries out of children's reach.

- If a battery is swallowed, consult a physician immediately.
- If leaked liquid, alkaline, get in the eyes, do not rub them, wash them with clean water and consult a physician immediately.
- If leaked liquid, alkaline, stick to clothing, for protecting from irritation, wash them with clean water immediately.

CAUTION!

- Make sure to insert batteries without having (+) and (-) come in contact with metal parts of equipment.
- Read the equipment instruction manual and precautions carefully before using. Some usage or types of equipment do not suit the specifications or performance of these batteries.
- Remove batteries from the equipment, if finished using. Do not leave batteries connecting with equipment after using.
- In case of disposal, insulate between (+) and (-) of battery by an insulating material.
