Magnetic Sheets for RFID

Flexield

IFW series

Magnetic Sheets for RFID

Flexield

Overview of IFW series

FEATURES

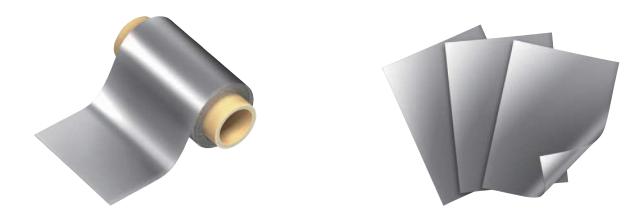

- Solution item for protecting your cards against interference and skimming
- O Hybrid construction consisting of both magnetic and metal layers
- O High flexibility which allows sheets to easily be formed to desired shape
- O Non conductive surface allows for metal coils to be directly applied to magnetic sheet
- Available on a roll or in sheet form
- O Protects system from metal objects located directly behind coils

APPLICATION

- O Improving antenna reception performance and sensitivity in RFID readers/writers
- O Isolation of magnetic field in metal smart cards and tags
- NFC transmitters and receivers
- O High EMI level conditions where magnetic layer alone those not have sufficient attenuation
- O PCB, FPC, ribbon cable data/address lines

STANDARD SHAPE LIST

Material	Magnetic layer	Sheet	Roll dim	ensions
name	name thickness (mm)		Width (mm)	Length (m)
IFW16	0.060	300X200	300	50

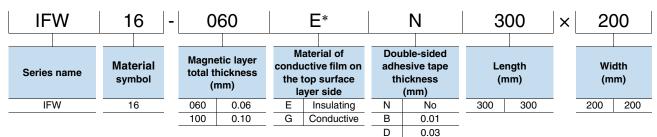

O RoHS Directive Compliant Product: See the following for more details related to RoHS Directive compliant products. http://product.tdk.com/en/environment/rohs/

Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.

IFW series for RFID Sheet Type

PART NUMBER CONSTRUCTION

* Note : If you don't need double-sided adhesive tape, there is no specification difference between E and G. (IFW16-060EN is equal to IFW16-060GN)

STANDARD PART NUMBER LIST

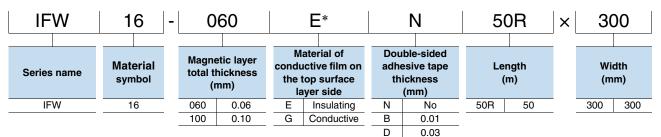

Material name	Sheet dimensions (mm)	Magnetic layer thickness (mm)	Total thickness (mm)typ.	Part number
IFW16	300X200	0.060	0.105	IFW16-060EN300X200

Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.

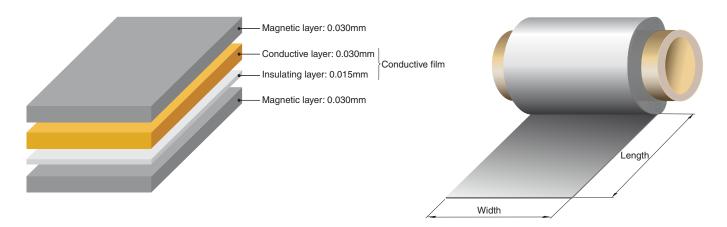

公TDK

IFW series for RFID Roll Type

PART NUMBER CONSTRUCTION

* If you don't need double-sided adhesive tape, there is no specification difference between E and G. (IFW16-060EN is equal to IFW16-060GN)

STANDARD PART NUMBER LIST

Material	Roll dimen	sions	Magnetic layer	Total	
name	Width	Length	thickness	thickness	Part number
name	(mm)	(m)	(mm)	(mm)typ.	
IFW16	300	50	0.060	0.105	IFW16-060EN50RX300

Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.

IFW series

MATERIAL CHARACTERISTIC

MATERIAL CHARACTERISTIC SPECIFICATION TABLE

Material	Recommended specification	Relative permeability [at 13.56MHz]		ability	Surface resistivity	Thermal conductivity	Saturated magnetic flux density	Curie temperature	Relative Permittivity	Operating temperature
name	frequency range	u'	u"	u'/u"	(Ω /sq.)typ.	(W/m・K)	(mT)	(°C)	(at 1MHz)typ.	(°C)
IFW16	0.1MHz to 10GHz	140	60	2.3	10k	1.5	230 [H=1194A/m]	> 500	1700	-40 to +85

RELATIVE PERMEABILITY

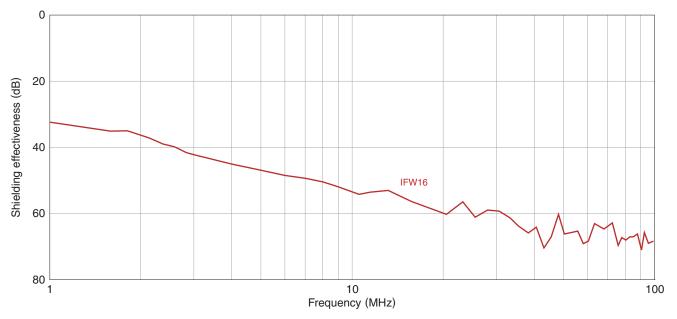

A Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.

IFW series

MATERIAL CHARACTERISTIC

SHIELDING EFFECTIVENESS (Up to 100MHz)

□ MEASUREMENT SETUP (Up to 100MHz)

A Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.

⊗TDK

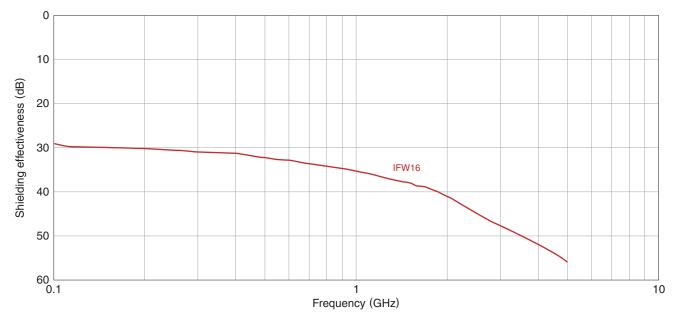

IFW series

MATERIAL CHARACTERISTIC

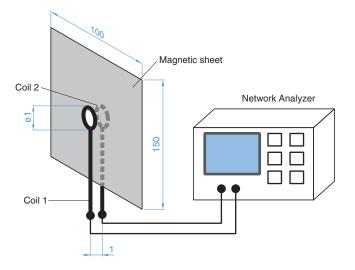

□SHIELDING EFFECTIVENESS (100MHz to 6GHz)*

 * Note that there is no continuity with data below 100MHz.

Gain is low due to the use of a small coil for high frequencies.

□ MEASUREMENT SETUP (100MHz to 6GHz)

A Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

▲ REMINDERS

O The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition.

The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property.

If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us.

- (1) Aerospace/aviation equipment
- (2) Transportation equipment (cars, electric trains, ships, etc.)(3) Medical equipment (excepting Pharmaceutical Affairs Law
- classification Class1,2)
- (4) Power-generation control equipment
- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

A Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading.
